Minutes of the Meeting of Procurement Committee for shortlisting of applications in response to REOI for **“Shortlisting of Consulting Firms for Assessment of Liveability in selected Cities under Capacity Building for Urban Development (CBUD) Project”**

The meeting of the Procurement Committee for shortlisting of applications received in respect of the Request for Expression of Interest (REOI) for the assignment of “**Shortlisting of Consulting Firms For Assessment of Liveability in Selected Cities under Capacity Building for Urban Development (CBUD) Project**” was held under the chairmanship of Dr. Kumar V. Pratap, Economic Advisor-I~~I~~, MoUD on 05th July 2017 in the Room No. 232C, Nirman Bhawan, New Delhi.

The following were present in the meeting:

1. Dr. Kumar V. Pratap, Economic Advisor, MoUD
2. Shri Shiv Pal Singh, Director(AMRUT), MoUD.
3. Shri Sajeesh Kumar N, Director (SC-III), MoUD
4. Ms. Yashodhara Vijayan, Deputy Secretary, IFD, MoUD.
5. Shri G. Vijay Kumar, Under Secretary (SC-III), MoUD
6. Shri Utpal Deka, Team Leader, CBUD.
7. Shri Nilesh Rajadhyaksha, Capacity Building Expert, CBUD
8. Shri Raja Dawn, Procurement Specialist, CBUD

2. As per clause 3 of the Request for Expression of Interest (REOI), the criteria for evaluation is as under:

[illegible]	Parameter	Maximum Marks
1.	General Experience of the Firm	**10**
2.	Financial Strength of the Firm	**15**
3.	Staff having experience of carrying out similar assignments and having performed tasks related to the assignment	**25**
4	Experience of the Firm in implementing assignments related to market research and surveys for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies	**10**
5	Specific experience of the Firm in implementing assignments related to market research and field surveys in the urban areas detailed in Annexure 1 to section 2.12 for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies.	**20**
6	Experience of Applicant in implementing assignments related to development of indices, preparation of national/international reports related to the areas mentioned in the Annexure 1 to section 2.12	**20**
Total		**100**

(Note: The projects mentioned in the evaluation criteria 4, 5 and 6 are mutually exclusive and will not be counted in more than one category for the purpose of evaluation)

(a) The Applicants (firm) who secure a score of 75 marks or more out of 100 shall be considered for shortlisting.

3. Applications were invited from the eligible consulting firms through the Request for Expression of Interest (REOI) published on 15th June 2017 on www.eprocure.gov.in with the last date of 29th June 2017. The REOI was also published on www.moud.gov.in and in leading English and Hindi daily Newspapers viz. Hindustan Times, Hindu and Hindustan. The applications were to be submitted online through www.eprocure.gov.in only. Accordingly, a total of 21 applications were received by the last date of submission of applications viz. 29th June 2017, and the bids were opened at 15.00 hrs on 30th June 2017. As per the World Bank guidelines, the RFP has to be issued 6 highest scoring/shortlisted firms.

4. In this regard, a meeting of the procurement committee was held on 05th July 2017 to discuss these proposals. Based on the criteria given in REOI and introduced in para 2 above, the evaluation of 21 Applications was done by PMU for Capacity Building for Urban Development (CBUD) and reviewed by the Procurement Committee of CBUD Project on the above mentioned date. The detailed Evaluation Sheet is attached as **Annexure.**

5. The Procurement Committee recommends the shortlisting of the following 6 consulting firms, who have secured more than 75 marks, for issuing the Request for Proposal (RFP). The list of shortlisted firms along with their applications, and the evaluation sheet for all 21 participating firms may be sent to World Bank for their concurrence/review.

Dear Madam,

This is regarding the "Assessment Liveability in Selected Cities", which an activity of Procurement Plan under CBUD project. Applications were invited from the eligible consulting firms through the Request for Expression of Interest (REOI), which was concurred by the World Bank and IFD, MoUD, published on 15th June 2017 on www. eprocure.gov.in with the last date of 29th June 2017. The REOI was also published on www.moud.gov.in and in leading English and Hindi daily Newspapers viz. Hindustan Times, Hindu and Hindustan. The applications were to be submitted online through www.eprocure.gov.in only. Accordingly, a total of 21 applications were received by the last date of submission of applications viz. 29th June 2017, and the bids were opened at 15.00 hrs on 30th June 2017.

2. **The Ministry has recommended the shortlisting of the following 6 consulting firms**, which have secured more than 75 marks, **for issuance of Request for Proposal (RFP)**, after evaluation of 21 applications. The detailed Evaluation Sheet is attached as **Annexure.**

Sl.No	Name of Lead Partner	Consortium Member 1	Consortium Member 2	Consortium Member 3	Consortium Member 4	Total Marks Obtained (Max.100)
1	**Ipsos Public Affairs**	Athena Infonomics	The Economics			**100**

			Intelligence Unit			
2	**Delloite Touche Tohmatsu India LLP**	Insight Development Group Pvt Ltd	Stesalit Systems Limited	Kadence International Pvt Ltd		**100**
3	**Hindusthan Thompson Associates Pvt. Ltd. (Division IMRB International)**					**88**
4	**Infrastructure Development Corporation (Karnataka) Ltd (iDecK)**	Institute for Social and Economic Change (ISEC)	Public Affairs Centre (PAC)	Sigma Research & Consulting Pvt. Ltd	Nielsen	**84**
5	**PricewaterhouseCoopers**					**81**
6	**Jones Lang LaSalle**					**80**

3. Since the cost of project is estimated to be more than 1 million US$, the procurement requires prior-review by the World Bank as per procurement guidelines of the World Bank. **The recommendation of the Ministry (minutes of the meeting, detailed evaluation of Applications and REOI) is forwarded to the World Bank for prior review as per World Bank procurement guidelines.**

4. You are requested to send the views/comments of World Bank at the earliest.

Dear Mr Kumar,

Bank had advised use of STEP for all stages of procurement because the publication of REoI on UNDB can be done only through STEP system. From the EOI evaluation report, it is not clear whether the REoI was published on UNDB or not. This is a mandatory requirement. The shortlisting process also does not provide information on how the requirement of Consultancy Guidelines para 2.6, given below, is addressed :

“Short lists shall comprise six firms with a wide geographic spread, with (i) no more than two firms from any one country unless there are no other qualified firms identified to meet this requirement;31 and (ii) and at least one firm from a developing country, unless no qualified firms from developing countries could be identified. When any of the above requirements cannot be met on the basis of received EOIs, the Borrower may directly solicit interest from qualified firms based on its own knowledge, or request Bank assistance in accordance with paragraph 1.17.”

Regards
Vasudha Thawakar

<Evaluation of New REOI Report.pdf>

<Minutes of the Procurement Committee on Liveability REOI.pdf>

Vijay Kumar <g.vijaykumar.moud@gmail.com> Thu, Jul 20, 2017 at 2:15 PM
To: Vasudha Thawakar <vsarda@worldbank.org>, sajeesh.kr@gov.in, Rakesh Gujral <rgujral@ipeglobal.com>

Dear Madam,

As you are aware that 'Liveability Standards in Cities' is a unique effort initiated by the MoUD under World Bank funding CBUD funded project for assessing the standards of living in Indian cities. This is the first attempt by any country to systematically identify, track and improve upon critical parameters that define urban quality of life and is likely to create competitive environment amongst cities to improve. The Ministry proposes to conduct an 'Annual Assessment of Liveability Standards in Cities' – an ambitious national project that will involve yearly survey and compilation of a large number of datasets across the various indicators, analysis of such datasets, development of indexes and ranking of cities.

The EOI for this assignment was uploaded on e-procurement website of the Ministry on 9th May, 2017, on the STEP (reference number IN-MoUD-14653-CS-QCBS) and was also published in the Newspapers. The last date of receipt of EOI was 30th May. In response to the REOI, 17 EOIs were received.

As per World Bank procurement guidelines a panel of 6 firms needs to be prepared, but in this case after evaluation only 3 firms were found to be qualified. Since the procurement requires pre review of the Bank, matter was taken up with the Bank. It was decided in consultation with the Bank that in view of the poor response, the REOI may be re- called and the condition relating to "accreditation of the firms with or belonging to inspection bodies such as Bureau Vertitas (India) Pvt. Ltd., UV SUD South Asia Pvt. or of equivalent status and repute may be re considered".

Accordingly, the REOI was revised and the above condition was removed. The revised REOI was again issued on 15th June, 2017 on the Ministry's e-procurement website and was given wide publicity by additionally uploading it on website of MoUD and Smart Cities. It was also published in leading National daily newspapers i.e. Hindustan Times, Hindu and Hindustan. However, due to some technical problems the EOI could not be uploaded on the STEP.

This time good response was received and total 21 EOIs were received. A number of national and internationals firms of repute in the field relevant to the assignment

submitted bids. The procurement committee evaluated the REOIs and shortlisted 6 consulting firms who qualified as per eligibility criteria. Since the present case falls under prior review category, shortlisted firms along with relevant documents was forwarded to the Bank for their approval.

However, the Bank has pointed out that the re-called EOI has not been uploaded on the “STEP” and the same is a mandatory requirement. The Bank also referred to the Consultancy Guidelines para 2.6, which prescribes:

“Short lists shall comprise six firms with a wide geographic spread, with (i) no more than two firms from any one country unless there are no other qualified firms identified to meet this requirement;31 and (ii) and at least one firm from a developing country, unless no qualified firms from developing countries could be identified. When any of the above requirements cannot be met on the basis of received EOIs, the Borrower may directly solicit interest from qualified firms based on its own knowledge, or request Bank assistance in accordance with paragraph 1.17.”

It is also pertinent here to point out that Ministry has followed e-procurement system and its e-procurement website is accessible globally. The response was, therefore, very good. A number of international and national firms/consortiums with wide geographical spread and having good reputation in the field relevant to the assignment have applied. The short listed firms also confirm to the requirement of para 2.6 of the consultancy guidelines referred to above.

In view of the above, the Ministry requests Bank to relax the conditions of uploading on the STEP for the following reasons:

- Uploading will be repetitive.
- Wide publicity has been given to the REOI. Ministry has followed e-procurement system and its e-procurement website is accessible globally.
- Response received meets the criteria laid down in para 2.6 of consultancy guidelines.
- This assignment is, of utmost importance to the Ministry and has already been delayed considerably due to re-bidding on account of poor response received in the 1st call. Recalling REOI will further delay the assignment by another 3 months.

Ministry will, however, enter the contract in the STEP retroactively to meet the requirement. In view of the above facts, it is requested that the shortlisting of consulting firms as recommended may be approved by the Bank at the earliest.

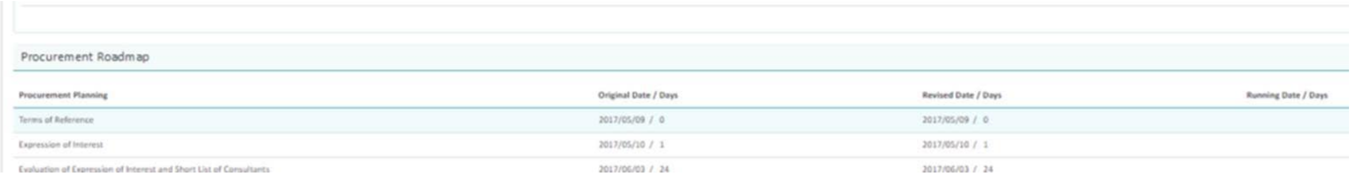
Dear Mr. Kumar:

I have taken a cropped images of the snapshot share by you, below. As you can see, in the Roadmap below, there's a light blue colour bar on Terms of Reference and the Actual Dates cc

In STEP system, the light blue colour bar moves from one stage to another down the Roadmap, as & when each stage gets implemented and the actual date of that stage gets generatec
Since other than approval of procurement plan, nothing has been done in STEP, the bar is still at TOR and the **actual date is blank.**



Procurement Roadmap

Procurement Planning	Original Date / Days	Revised Date / Days	Running Date / Days
Terms of Reference	2017/05/09 / 0	2017/05/09 / 0	
Expression of Interest	2017/05/10 / 1	2017/05/10 / 1	
Evaluation of Expression of Interest and Short List of Consultants	2017/06/03 / 24	2017/06/03 / 24	

In the 9th May email, referred below, the top line itself is very clear that procurement plan was submitted and not TOR/REoI.

PMU CBUD Ministry of Urban Development has submitted the Procurement Plan for India - P099979 ·

We can once more give training to the procurement person of MoUD/PMU on STEP so that such situations/errors can be avoided.

Warm Regards,

Vasudha Thawakar

Dear Mr. Kumar:

As noted below, no EOI related to the livability index has been issued in STEP for the CBUD project by MOUD.

For the livability index package to be undertaken under CBUD, we request you process the bid via STEP starting with REOI.

Thanks and Regards,

Vasudha Thawakar

Subject: FW: Review Request for Procurement Plan Submitted by MoUD for India - P099979 - Capacity Building for Urban Development Project

[Quoted text hidden]

Shortlisting of applications in response to REOI for "Shortlisting of Consulting Firms for Assessment of Liveability in selected Cities under Capacity Building for Urban Development (CBUD) Project"

The REOI for 'Selection of Consultant for Assessment of Liveability in 116 cities" was re-issued on 15th June, 2017 on the Ministry's e-procurement website and was given wide publicity by additionally uploading it on website of MoUD and Smart Cities. It was also published in leading National daily newspapers i.e. Hindustan Times, Hindu and Hindustan.

A total of 21 EOIs were received in response. These were evaluated by the Procurement Committee of CBUD and 6 firms were shortlisted as per the prescribed eligibility criteria. Since the present case falls under prior review category, the list of shortlisted firms along with relevant documents was forwarded to the World Bank for their approval.

In response, the World Bank has noted that the REOI was not uploaded on the "STEP" platform of the Bank and that the same is a mandatory requirement. It is clarified that though REOI was uploaded on the STEP and it was included in the procurement plan but due to certain technical issues it could not be uploaded on the UNDP procurement portal. Every effort had been made to ensure wide circulation and international participation (the e-procurement website is itself a global website). However, given the mandatory nature of the procedure, the World Bank has advised that the REOI be issued afresh, so that compliance with all procedural modalities required at the Bank's end may be met.

It is therefore, recommended that the REOI may be considered for fresh issuance on the same terms and conditions as before, giving the minimum period of 14 days as required under the World Bank guidelines.

1 INTRODUCTION

1.1 Background

a) The Government of India along with State and Local Governments is implementing several flagship urban missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more 'Liveable. This will not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunities.

b) In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their 'Liveability' and measure their progress over time. In this context Ministry of Urban Development has developed a set of 'Liveability Standards of Cities'. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft 'Liveability Standards' are available at Smart City website.

c) A total of 79 different standards are proposed across 15 different categories. The Ministry proposes to conduct an 'Annual Assessment of Liveability in the various standards and develop a 'City Liveability Index' of the liveability standards in selected cities.

d) A total of 116 Cities have been selected. Shortlisting process is being undertaken to identify a panel of consultants who will be eligible for selection to do assessment of liveability standards in selected cities.

1.2 Brief Terms of Reference

1.2.1 Scope of work for the Smart City Agencies

The broad tasks to be performed and key activities under the assignment ***(This is indicative and detailed scope of work will be provided in the RFP to be issued to the shortlisted empanelled Firms)*** will include:

a) Conduct a Reconnaissance Study of all cities included in the project. The study shall include City level kick off meetings with key officials from city government and other stakeholders. Study City demography, socio economic stratification and geography. Identification of data sources.
b) Prepare and submit to the Ministry of Housing and Urban Affairs (MoHUA), a City wise Inception Report. The Inception Report shall include Plan of Action, timelines for city field visits. Finalised schedule and Plan of Action in consultation with MoHUA.
c) Data Collection and Field Surveys.
d) Maintain and submit raw data and data collection forms to MoHUA.
e) Develop and maintain a digital data base of all data sets collected.

f) Conduct analysis of the raw data through Analytics team prepare aggregate data sets for all the standards and submit to MOHUA.

g) Submit Draft Assessment reports to the cities and MoHUA separate for each City along with aggregate data in the prescribed format, all raw data, sources of data, assumptions if any, record of discussions and other relevant documents.

h) Final City Assessment Report to the MoHUA after including agreed recommendations of the MoHUA,

The Details Terms of reference including payment schedule and implementation arrangement shall be provided in the Request for Proposal (RfP) to be issued by MoHUA to the shortlisted consultants.

1.3 Availability of REOI Document

The document may be downloaded from the following website https://eprocure.gov.in/cppp, http://moud.gov.in/cms/tendersandcorrigendum.php and http://smartcities.gov.in/content/innerpage/rfps.php

1.4 Validity of Applications

The Application shall be valid for a period of not less than 90 (Ninety) days from the Application Due Date hereinafter called "**Application Validity Period**". MoHUA reserves the right to reject any or all the Applications without assigning any reason whatsoever.

1.5 Scope and Description of Shortlisting Process

a) MoHUA proposes to adopt a single stage process to evaluate Applications received based on criteria set out in this REOI Document. Based on this evaluation a panel of consultants shall be prepared.

b) MoHUA proposes to empanel eligible consultants through this process.

c) **The details of Cities are at Annexure "A".**

d) **The 'Liveability Standards for Cities' and methodology for assessment is available at link http://smartcities.gov.in/content/innerpage/others.php**

e) The purpose of Shortlisting process is to shortlist a panel of consulting firms that can carry out the assignment of assessment of liveability standards. However, by virtue of getting shortlisted with MoHUA does not entitle shortlisted consultancy firms to claim their expenses incurred, if any, in the process of shortlisted nor to claim for any assignment, whatsoever, it may be.

f) The MoHUA will invite technical and financial proposals from selected shortlisted consultancy firms by issuing RFP which will contain detailed scope of work and other details related to the assignment.

1.6 Schedule of Shortlisting Process

MoHUA would endeavour to adhere to the following schedule:

Sr. No.	Event Description	Indicative Dates
1.	**Date of Issue of REOI**	**08th -Septemebr-2017**
2.	Pre Application Conference	NA
3.	Last Date for receiving queries	NA
4.	MoHUA's response to queries latest by	NA
5.	**Last Date of Submission of EOI**	**by 3:00 p.m on 03rd-October-2017**

1.7 Pre-Application Conference

Not Applicable

1.8 Communications

All communications excluding the submission of Application shall be addressed to **Email: g.vijaykumar@nic.in** and **g.vijaykumar.moud@gmail.com** Telephone No.011-2306 3217.

2 Instructions to Applicants

A. General

2.1 Scope of Application

a) MoHUA shall receive Applications from eligible entities for the assignment in order to shortlist a panel of consultants.

b) The Applicant shall submit its Application in the form and manner specified in this REOI.

2.2 Eligible Applicants

a) The Applicant eligible for participating in the qualification process shall be any one of the following two categories:

   a. Category 1: Single Business Entity
   b. Category 2: A consortium of Business Entities (hereinafter referred to as "Consortium")

   The term Applicant would hereinafter apply to both the above-mentioned categories.

b) For the purpose of this REOI, a Business Entity shall mean a company incorporated in India under the provisions of the Companies Act, 2013 or under LLP Act or under the equivalent law in case of a foreign Company. Copy of such Registration Certificate should be submitted along with the Application.

c) A Consortium of a maximum of Five (5) members of above such entities including Lead Member shall be allowed and shall hereinafter be referred as "Consortium".

d) The Applicant should submit a Power of Attorney as per the format enclosed at **Appendix 2**, authorising the signatory of the Application to commit the Applicant.

e) Applications submitted by a Consortium should comply with the following additional requirements:

   a. The number of members in the Consortium would be limited to Five (5) including the lead member;
   b. The Application should contain the information required from each member;
   c. The Application should include a description of the roles and responsibilities of all the members;
   d. Members of the Consortium shall nominate one member as the Lead Member and that member must be an entity as defined in clause 2.2.(b);
   e. An Applicant who has applied for Shortlisting in its individual capacity or as part of a Consortium cannot participate as a member of any other Consortium applying for the Shortlisting;
   f. The members of the Consortium shall execute a Power of Attorney for Lead Member of Consortium as per the format enclosed at **Appendix 1**; and

g. The members of the Consortium shall enter into a Memorandum of Understanding (MoU), as per the format provided under **Appendix 8** for the purpose of submission of the Application. The MoU should, inter alia,

   i. Clearly outline the proposed roles and responsibilities of each member of the Consortium; and
   ii. Include a statement to the effect that all members of the Consortium shall be liable jointly and severally for the assignments arising out of the States, Union Territories and million plus cities, as the case may be and in accordance with the terms of the contract agreement therefore;

A copy of the MoU signed by all members should be submitted with the Application. The MoU entered into between the members of the Consortium should contain the above requirements, failing which the Application shall be considered non-responsive.

f) An Applicant or member of Consortium which has earlier been barred by MoHUA or blacklisted by any state government or central government / department / agency in India/ from participating in Bidding Process shall not be eligible to submit an Application, either individually or as member of a Consortium, if such bar subsists as on the Application Due Date. The Applicant or the member of Consortium shall be required to furnish an affidavit that there is no such bar imposed and existing as on the Application Due Date as per format provided in **Appendix 7**. In case the Applicant or member of Consortium gets banned by MoHUA blacklisted by any state government or central government / department / agency during the Shortlisting Period such Applicant shall cease to be empanelled with MoHUA.

g) A firm declared ineligible by the International Bank for Reconstruction and Development (IBRD), Washington, D.C., U.S.A., or the International Development Association, Washington, D.C., U.S.A Bank ("Bank") in accordance with the Bank Guidelines on Preventing and Combating Fraud and Corruption in Projects Financed by IBRD Loans and IDA Credits and Grants or debarred from providing consultancy services by and government agency in India shall be ineligible to submit an Application. In case the Applicant or member of Consortium is declared ineligible by the Bank or any government agency in India during the Shortlisting Period then such Applicant shall cease to be shortlisted with MoHUA.

h) An Applicant or member of Consortium should have, during the last three years, neither failed to perform on any agreement, as evidenced by imposition of a penalty or a judicial pronouncement or arbitration award against the Applicant or member of Consortium, nor been expelled from any project or agreement nor have had any agreement terminated for breach by such Applicant or member of Consortium. In case the Applicant or member of Consortium during period of Shortlisting, fails to perform on any legal agreement, as evidenced by imposition of a penalty or a judicial pronouncement or arbitration award against the Applicant or member of Consortium, or been expelled from any project or agreement or have had any agreement terminated for breach by such Applicant or member of Consortium, such Applicant shall cease to be empanelled with MoHUA.

i) While submitting an Application, the Applicant should attach clearly marked and referenced continuation sheets in the event that the space provided in the specified

forms in the Appendices is insufficient. Alternatively, Applicants may format the specified forms making due provision for incorporation of the requested information.

2.3 Change in Consortium Composition

Any change in the composition of a Consortium during the term of Shortlisting shall be permitted only with prior written approval from MoHUA. After Shortlisting no change in the consortium will be allowed.

2.4 Number of Applications

Each Applicant shall submit only one (1) Application for the assignment. Any Applicant, who submits or participates in more than one Application for the Shortlisting will be disqualified and will also cause the disqualification of the Consortium of which it is a member.

2.5 Application Preparation Cost

The Applicant shall be responsible and shall bear all costs and expenses associated with the preparation of its Application and its participation in the Shortlisting. It is clarified that MoHUA shall be not responsible or in any way liable for such costs, expenses regardless of the conduct or outcome of the Shortlisting.

2.6 Acknowledgement by the Applicant

a) It is desirable that each Applicant submits it's Application after collection of required information and analysis or any other matter considered relevant by it.

b) It would be deemed that by submitting the Application, the Applicant has:

   a. Made a complete and careful examination of the REOI Document; and
   b. Received all relevant information requested from MoHUA.

c) MoHUA shall not be liable for any mistake or error on the part of the Applicant in respect of the above.

2.7 Right to Accept or Reject any of the Applications

a) Notwithstanding anything contained in this REOI Document, MoHUA reserves the right to accept or reject any Application or to annul the Shortlisting Process or reject all Applications at any time, without assigning any reasons thereof and without any liability or any obligation, of any nature whatsoever, for such rejection or annulment.

b) MoHUA reserves the right to reject any Application if:

   a. At any time, a material misrepresentation is made or discovered; or
   b. The Applicant does not respond promptly and diligently to requests for additional information or clarification required for evaluation of the Application.

c) Rejection of the Application by MoHUA, as aforesaid, would lead to the disqualification of the Applicant. If the Applicant is a part of Consortium, then the entire Consortium would be disqualified.

2.8 Amendment of REOI Document

At any time prior to the Application Due Date, MoHUA may, for any reason, whether at its own initiative or in response to clarifications requested by an Applicant, modify the REOI Document by the issuance of Addenda posted on the website: https://eprocure.gov.in/cppp, Any Addendum thus issued will also be posted on the website: http://moud.gov.in/cms/tendersandcorrigendum.php and http://smartcities.gov.in/content/innerpage/rfps.php

a) In order to provide the Applicants a reasonable time to examine the Addendum, or for any other reason, MoHUA may, at its own discretion, extend the Application Due Date.

2.9 Clarifications

An Applicant requiring any clarification on the REOI Document may request MoHUA online through mail at **Email: g.vijaykumar@nic.in** and **g.vijaykumar.moud@gmail.com** Telephone No.011-2306 3217.

The Applicants should send in their queries latest by the relevant date and time mentioned in Clause 1.7 'Schedule of Shortlisting Process'. MoHUA would endeavour to respond to the queries by the date mentioned in the Schedule of Shortlisting Process. The responses will be uploaded on the website: https://eprocure.gov.in/cppp,

B. Preparation and Submission of Application

2.10 Language

The Application and all related correspondence and documents should be furnished by the Applicant with the Application in English or in any other language provided that these are accompanied by appropriate translations of the pertinent passages in the English language. Supporting material, which are not translated into English, may not be considered. For the purpose of interpretation and evaluation of the Application, the translated in English language shall prevail.

2.11 Submission of Application

a) The Applicant would provide all the information in terms of this REOI Document. Only those Applications shall be evaluated that are received in the required format and complete in all respects. **The Application shall be submitted in maximum 100 pages.**

b) The Applicant shall submit a digitally signed, encrypted and complete Proposal comprising the documents and forms in accordance with Clause 2.12. The submission shall be done electronically on the portal https://eprocure.gov.in/cppp, Proposals submitted by any other means will be rejected.

2.12 Sealing and Marking of Applications

a) An authorized representative of the Applicant shall digitally sign the submission letters in the required format. The authorization shall be in the form of a written power of attorney scanned and uploaded together with the Application as per Appendix 2.

b) The Application shall contain the following (check-list):

a.	Letter of Application	Refer Appendix 1
b.	Power of Attorney for signing of the Application (in case of Consortium, this would need to be provided by all the members)	Refer Appendix 2
c.	In case of Consortium, Power of Attorney for signing of Application by the Lead Member	Refer Appendix 3
d.	Details of Applicant including financial strength (in case of Consortium, this would need to be provided by all the members)	Refer Appendix 4
e.	Experience of the Firm in implementing assignments related to market research and field-surveys for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies.	Refer Appendix 5 and 5A
f.	Specific experience of the Firm in implementing assignments related to market research and field surveys in the urban areas detailed in Annexure 1 to this section for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies.	Refer Appendix 6 and 6A
g.	Experience of Applicant in implementing assignments related to development of indices, preparation of national/international reports related to the areas mentioned in the Annexure 1 to this section.	Refer Appendix 7 and 7A
h.	Format for Affidavit Certifying that Entity/Directors(s) of Entity not Blacklisted	Refer Appendix 8
i.	Format for Memorandum of Understanding (MOU)	Refer Appendix 9
j.	Proof of registration of the Applicant (in case of Consortium, proof of registration of all the Members)	-

Annexure 1

CATEGORY

2.13 Application Due Date

a) The Application or its modifications must be uploaded on the portal no later than the deadline mentioned in the Schedule of Shortlisting Process (refer Clause 1.7), or any extension to this deadline. The electronic system will not accept any Proposal or its modification for uploading after the deadline. Applications submitted by either facsimile transmission or telex shall not be accepted.

b) MoHUA may, in exceptional circumstances, and at its sole discretion, extend the Application Due Date by issuing an Addendum in accordance with Clause 2.8 (a), uniformly for all Applicants.

2.14 Late Applications

The electronic system will not accept any Application or its modification for uploading after the deadline.

Evaluation Process

2.15 Opening of Applications

The MoHUA evaluation committee shall conduct the opening of the Applications online after the Application submission deadline.

2.16 Evaluation of Applications

a) The Applications, so received, would subsequently be examined and evaluated in accordance with the criteria set out in Section 3.

b) MoHUA reserve the right to utilise the services of consultant/s or advisor/s, to assist in the examination, evaluation, and comparison of Applications.

c) MoHUA reserves the right to reject any or all the Applications, if:

a. At any time, a material misrepresentation is made or discovered; or
b. The Applicant does not respond promptly and diligently to requests for supplemental information required for the evaluation of the Application.

2.17 Confidentiality

a) Information relating to the examination, clarification, evaluation, and recommendation for the Shortlisted Applicants shall not be disclosed to any person not officially concerned with the Shortlisting Process. MoHUA will treat all information submitted as part of Application in confidence and would require all those who have access to such material to treat the same in confidence. At the conclusion of the evaluation process, MoHUA shall notify the list of Applicants who have been shortlisted.

b) MoHUA shall not divulge any such information unless it is ordered to do so by any authority pursuant to applicable law or order of a competent court or tribunal, which requires its disclosure.

2.18 Tests of Responsiveness

a) Prior to evaluation of Applications, it shall be determined whether each Application is responsive to the requirements of the REOI Document. An Application shall be considered non responsive if the Application:
   a. is not received online as indicated at 2.11;
   b. is not digitally signed with the submission letters as stipulated in Clause 2.12 (a);
   c. does not contains all the information and documents as set out in Clause 2.12 (b) and in the formats set out in this REOI Document; and
   d. Does not mentions the Application Validity Period as set out in Clause 1.4.

b) MoHUA reserves the right to reject any Application which is non-responsive and no request for alteration, modification, substitution or withdrawal shall be entertained by MoHUA in respect of such Applications.

2.19 Clarifications to Facilitate Evaluation

a) To facilitate evaluation of Applications, MoHUA, at its sole discretion, seek clarifications in writing from any Applicant regarding its Application. Such clarifications shall be provided within the time specified by MoHUA, as the case may be, for this purpose. Any request for clarifications and all clarifications shall be in writing.

b) If an Applicant does not provide clarifications sought under Sub-Clause 2.19 (a) above within the prescribed time, its Application shall be liable to be rejected. In case the Application is not rejected, MoHUA may proceed to evaluate the Application by construing the particulars requiring clarification to the best of its understanding, and the Applicant shall be barred from subsequently questioning such interpretation.

2.20 Conflict of Interest

a) MoHUA requires that the Shortlisted Consultants provide professional, objective, and impartial advice and at all times hold paramount the interests of MoHUA, strictly avoid conflicts with other assignments or its own interests, and act without any consideration for future work. The Shortlisted Consultants shall not accept or engage in any assignment that would be in conflict with, or that may place it in a position of not being able to carry out the assignment for which it has been engaged.

C. Shortlisting and Notification

2.21 Shortlisting of Consultants

a) After the evaluation of Applications, MoHUA shall prepare a list of Applicants who meet the qualification criteria as set out in this REOI Document. Other Applicants may be informed that their Applications have been unsuccessful.

b) The shortlisted Applicants would be duly notified that they have been shortlisted for the assignment.

c) The MoHUA reserves the right to make additions in the panel after following due process.

3 Criteria for Evaluation

3.1 Evaluation of Applications

a) This section provides the details of evaluation process. The Applications will be evaluated on the basis of the following parameters:

a. General Experience of the Firm: **Number of years' experience**
b. Financial Strength of the Firm
c. Staff having experience of carrying out similar assignments and having performed tasked related to the assignment: **Number of such staff.**
d. Experience of the Firm in implementing assignments related to market research and field surveys for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies. **Number of assignments.**
e. Specific experience of the Firm in implementing assignments related to market research and field surveys in the urban areas detailed in Annexure 1 to section 2.12 for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies.: **Number of assignments**
f. Experience of Applicant in implementing assignments related to development of indices, preparation of national/international reports related to the areas mentioned in the Annexure 1 to section 2.12; **Number of assignments.**

.

b) The Applications will be evaluated on the basis of the following parameters for each of the three respective areas:

S.No.	Parameter	Maximum Marks
1.	General Experience of the Firm	**10**
2.	Financial Strength of the Firm	**15**
3.	Staff having experience of carrying out similar assignments and having performed tasks related to the assignment	**25**
4	Experience of the Firm in implementing assignments related to market research and surveys for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies	**10**
5	Specific experience of the Firm in implementing assignments related to market research and field surveys in the urban areas detailed in Annexure 1 to section 2.12 for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies.	**20**
6	Experience of Applicant in implementing assignments related to development of indices, preparation of national/international reports related to the areas mentioned in the Annexure 1 to section 2.12	**20**
Total		**100**

(Note: The projects mentioned in the evaluation criteria 4, 5 and 6 are mutually exclusive and will not be counted in more than one category for the purpose of evaluation)

a) The Applicants (firm) who secure a score of 75 marks or more out of 100 shall be considered for shortlisting.

b) After evaluation of the Applications and scoring of the same, the Applicants, with at least 75marks shall be ranked in descending order of the scores secured and based on that shortlisted panel will be prepared.

c) RFP will be issued to the shortlisted firms for selection on QCBS.

4 Fraud and Corrupt Practices

4.1 The Applicants and their respective officers, employees, agents and advisers shall observe the highest standard of ethics during the Shortlisting Process. Notwithstanding anything to the contrary contained in this REOI, MoHUA shall reject a proposal without being liable in any manner whatsoever to the Applicant, if it determines that the Applicant has, directly or indirectly or through an agent, engaged in corrupt practice, fraudulent practice, coercive practice, undesirable practice or restrictive practice (collectively the "**Prohibited Practices**") in the Shortlisting Process.

4.2 Without prejudice to the rights of MoHUA under Clause 4.1 hereinabove, if an Applicant or Consultant, as the case may be, is found by the MoHUA to have directly or indirectly or through an agent, engaged or indulged in any corrupt, fraudulent, coercive, undesirable or restrictive practice during the Shortlisting Process, or after the issue of the notification of Shortlisting, such Applicant or Consultant shall not be eligible to participate in any tender or RFP issued by MoHUA during a period of 2 (two) years from the date as the case may be.

4.3 For the purposes of this Section, the following terms shall have the meaning hereinafter respectively assigned to them:

a. "**corrupt practice**" means (i) the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence the action of any person connected with the Shortlisting Process; or (ii) save as provided herein, engaging in any manner whatsoever, whether during the Shortlisting Process or after the issue of the Notification of Shortlisting as the case may be, any person in respect of any matter relating to the Shortlisting or Notification of Shortlisting, who at any time has been or is a legal, financial or technical consultant/ adviser of MoHUA in relation to any matter concerning the Project;

b. "**fraudulent practice**" means a misrepresentation or omission of facts or disclosure of incomplete facts, in order to influence the Shortlisting Process;

c. "**coercive practice**" means impairing or harming or threatening to impair or harm, directly or indirectly, any persons or property to influence any person's participation or action in the Shortlisting Process;

d. "**undesirable practice**" means (i) establishing contact with any person connected with or employed or engaged by the MoHUA with the objective of canvassing, lobbying or in any manner influencing or attempting to influence the Shortlisting Process; or (ii) having a Conflict of Interest; and

e. "**Restrictive practice**" means forming a cartel or arriving at any understanding or arrangement among Applicants with the objective of restricting or manipulating a full and fair competition in the Shortlisting Process.

5 Pre-Application Conference

5.1 Not Applicable.

5.2 Not Applicable.

6 Miscellaneous

6.1 The Shortlisting Process shall be governed by, and construed in accordance with, the laws of India and the Courts at New Delhi shall have exclusive jurisdiction over all disputes arising under, pursuant to and/or in connection with the Shortlisting Process.

6.2 MoHUA, in its sole discretion and without incurring any obligation or liability, reserves the right, at any time, to:

a. Suspend and/or cancel the Shortlisting Process and/or amend and/or supplement the Shortlisting Process or modify the dates or other terms and conditions relating thereto;
b. Consult with any Applicant in order to receive clarification or further information;
c. Retain any information and/or evidence submitted to MoHUA by, on behalf of and/or in relation to any Applicant; and/or
d. Independently verify, disqualify, reject and/or accept any and all submissions or other information and/or evidence submitted by or on behalf of any Applicant.

6.3 It shall be deemed that by submitting the Application, the Applicant agrees and releases MoHUA, its employees, agents and advisers, irrevocably, unconditionally, fully and finally from any and all liability for claims, losses, damages, costs, expenses or liabilities in any way related to or arising from the exercise of any rights and/or performance of any obligations hereunder, pursuant hereto and/or in connection herewith and waives any and all rights and/or claims it may have in this respect, whether actual or contingent, whether present or future.

6.4 All documents and other information supplied by MoHUA or submitted by an Applicant shall remain or become, as the case may be, the property of MoHUA. MoHUA will not return any submissions made hereunder. Applicants are required to treat all such documents and information as strictly confidential.

6.5 MoHUA reserves the right to make inquiries with any of the clients listed by the Applicants in their previous experience record.

Authorization Details:

Authorization Number:		Authorization Date:	

Authorized Controller: INFORMATION and BROADCASTING

CBUD Division has forwarded a proposal for the payment of Rs. 2,06,870/- to DAVP for publishing of Request for Expression of Interest (REoI) for shortlisting of Consulting Firms for Assessment of Liveability in Selected Cities in two National Dailies (Hindi and English) for wide publicity.

2. It is mentioned that a request was made to DAVP for publishing a above REoI for the above mentioned procurement to be published in National Dailies. In this regard, DAVP has furnished an estimation of Rs. 2,06,870/- for this purpose (copy attached) and informed that release order of the advertisement shall be issued only upon receipt of letter of acceptance / sanction letter from the Ministry. it is also mentioned that REoI has been already issued on 8th September 2017 and the same has been uploaded on the website of the Ministry www. moud.gov.in, procurement portal www.eprocurement.gov.in and the World Bank's STEP and UNDB site.

3. Further, it is mentioned that there is no fund is available under the advertising head of CBUD. Since this procurement is related with Smart City Mission, expenditure of Rs. 2,06,870/- will be incurred from the advertising head of Smart Cities Mission where sufficient fund is available.

4. Project Director CBUD/Mission Director (Smart Cities) has approved the proposal vide p-22/N.

5. In view of above, Finance Division may

have No Objection for payment of Rs. 2,06,870/- to DAVP for publishing the REOI mentioned at para 1 above subject to approval of Competent Authority and compliance of Mission Guidelines in this regard.

Submitted please.

GOVERNEMENT OF INDIA
MINISTRY OF HOUSING AND URBAN AFFAIRS
REQUEST FOR EXPRESSION OF INTEREST (REOI)
CAPACITY BUILDING FOR URBAN DEVELOPMENT (CBUD) PROJECT

The Government of India has received financing from the International Development Association (IDA) (Credit No. 4997-IN) toward the cost of the Capacity Building for Urban Development Project (CBUD), and intends to apply part of the proceeds for consulting services.

Ministry of Urban Development now invites eligible consultancy firms to apply for the **Request for Expression of Interest (REOI) for "Selection of Consulting Firm for Providing consulting services of Assessment of Liveability in 116 cities".** The REOI dated 9th May 2017 invited by NIUA and the REOI dated 15th June 2017 issued by MoUD on the same subject stand cancelled.

The document can be downloaded from the websites www.moud.gov.in and www.eprocure.gov.in. The application shall be uploaded/submitted on the web portal www.eprocure.gov.in duly digitally signed.

Interested firms should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The Applications will be evaluated on the basis of the following parameters for each of the three respective areas:

[illegible]	Parameter	Maximum Marks
1.	General Experience of the Firm	10
2.	Financial Strength of the Firm	15
3.	Staff having experience of carrying out similar assignments and having performed tasks related to the assignment	25
4	Experience of the Firm in implementing assignments related to market research and surveys for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies	10
5	Specific experience of the Firm in implementing assignments related to market research and field surveys in the urban areas detailed in Annexure 1 to section 2.12 for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies.	20
6	Experience of Applicant in implementing assignments related to development of indices, preparation of national/international reports related to the areas mentioned in the Annexure 1 to section 2.12	20
	Total	**100**

(Note: The projects mentioned in the evaluation criteria 4, 5 and 6 are mutually exclusive and will not be counted in more than one category for the purpose of evaluation)

Consulting firm may associate with other firm(s) in the form of a consortium and joint venture to enhance their qualifications. A Consulting firm will be selected on QCBS method set out in the Consultant Guidelines.

An applicant requiring any clarification on the REOI Document may request MoHUA through Email: g.vijaykumar@nic.in and g.vijaykumar.moud@gmail.com. **Expression of Interest must be submitted on line by 15:00 hrs of 03rd October, 2017.** No physical submission of applications shall be accepted.

GOVERNMENT OF INDIA
MINISTRY OF HOUSING AND URBAN AFFAIRS
REQUEST FOR EXPRESSION OF INTEREST (REOI)
CAPACITY BUILDING FOR URBAN DEVELOPMENT (CBUD) PROJECT

The Government of India has received financing from the International Development Association (IDA) (Credit No. 4997-IN) toward the cost of the Capacity Building for Urban Development Project (CBUD), and intends to apply part of the proceeds for consulting services.

Ministry of Urban Development now invites eligible consultancy firms to apply for the **Request for Expression of Interest (REOI)** for **"Selection of Consulting Firm for Providing consulting services of Assessment of Liveability in 116 cities"**. The REOI dated 9th May 2017 invited by NIUA and the REOI dated 15th June 2017 issued by MoUD on the same subject stand cancelled.

The document can be downloaded from the websites **www.moud.gov.in** and **www.eprocure.gov.in**. The application shall be uploaded/submitted on the web portal **www.eprocure.gov.in** duly digitally signed.

Interested firms should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The Applications will be evaluated on the basis of the following parameters for each of the three respective areas:-

Sr. No.	Parameter	Maximum Marks
1.	General Experience of the Firm	10
2.	Financial Strength of the Firm	15
3.	Staff having experience of carrying out similar assignments and having performed tasks related to the assignment	25
4.	Experience of the Firm in implementing assignments related to market research and surveys for Central/State governments/ departments, para-statals, ULBs and multilateral agencies	10
5.	Specific experience of the Firm in implementing assignments related to market research and field surveys in the urban areas detailed in Annexure 1 to section 2.12 for Central/State governments/ departments, para-statals, ULBs and multilateral agencies.	20
6.	Experience of Applicant in implementing assignments related to development of indices, preparation of national/international reports related to the areas mentioned in the Annexure 1 to section 2.12	20
	Total	**100**

(Note: The projects mentioned in the evaluation criteria 4, 5 and 6 are mutually exclusive and will not be counted in more than one category for the purpose of evaluation)

Consulting firm may associate with other firm(s) in the form of a consortium and joint venture to enhance their qualifications. A Consulting firm will be selected on QCBS method set out in the Consultant Guidelines.

An applicant requiring any clarification on the REOI Document may request MoHUA through Email: **g.vijaykumar@nic.in** and **g.vijaykumar.moud@gmail.com**. **Expression of Interest must be submitted on line by 1500 hrs of 03rd October, 2017**. No physical submission of applications shall be accepted.

भारत सरकार

आवास एवं शहरी मामले मंत्रालय

अभिरुचि की अभिव्यक्ति हेतु निवेदन (आरईओआई) शहरी विकास हेतु क्षमता निर्माण (सीबीयूडी) प्रोजेक्ट

भारत सरकार को शहरी विकास प्रोजेक्ट हेतु क्षमता निर्माण (सीबीयूडी) की लागत हेतु अंतराष्ट्रीय विकास संघ (आईडीए) (क्रेडिट सं. 4997-आईएन) से वित्त प्राप्त हुआ है एवं वह परामर्श सेवाओं हेतु प्रक्रिया के भाग हेतु आवेदन करना चाहता है।

शहरी विकास मंत्रालय अब ''116 शहरों में रहने की योग्यता के निर्धारण की परामर्श सेवाओं के प्रावधान हेतु कंसलटिंग फर्म का चयन'' हेतु अभिरुचि की अभिव्यक्ति हेतु निवेदन के लिए योग्य कंसलटेंसी फर्मों को आमंत्रित करता है। इसी विषय पर एमओयूडी द्वारा जारी आरईओआई दिनांक 15 जून 2017 एवं एनआईयूए द्वारा आमंत्रित आरईओआई दिनांक 9 मई 2017 को रद्द कर दिया गया है।

दस्तावेज को वेबसाइट www.moud.gov.in एवं www.eprocure.gov.in. से डाउनलोड किया जा सकता है। आवेदन, विधिवत डिजिटली हस्ताक्षरित वेब पॉर्टल www.eprocure.gov.in. पर अपलोड/जमा कराया जाएगा।

इच्छुक फर्में यह प्रदर्शित करते हुए सूचना उपलब्ध करवाएंगी की उनके पास सेवाएं निष्पादित करने हेतु आवश्यक योग्यताएं एवं संबद्ध अनुभव है। आवेदन, तीन संबंधित क्षेत्रों के प्रत्येक हेतु निम्न मानकों के आधार पर मूल्यांकित किया जाएगा।

क्र सं.	मानक	अधिकतम अंक
1	फर्म का सामान्य फर्म	10
2	फर्म की वित्तीय दुरुस्तता	15
3	स्टाफ जिनके पास समरूप कार्यों को करने का अनुभव है एवं कार्य से संबंधित कार्य निष्पादित किया है।	25
4	केन्द्रीय/राज्य सरकारों/विभागों, पेरा-स्टेटल्स, यूएलबीएस एवं मल्टीलैटरल एजेंसियों हेतु मार्केट रिसर्च एवं सर्वेक्षण से संबंधित कार्य करने का फर्म का अनुभव	10
5	केन्द्रीय/राज्य सरकारों/विभागों, पैरा स्टैटल्स, यूएलबीएस एवं मल्टीलेटरल एजेंसियों हेतु सैक्शन 2.12 के परिशिष्ट-1 में वर्णित अनुसार शहरी क्षेत्रों में फील्ड सर्वेक्षण एवं मार्केट रिसर्च से संबंधित कार्यों को करने में फर्म विशिष्ट अनुभव।	20
6	सैक्शन 2.12 के परिशिष्ट-1 में निर्दिष्ट क्षेत्रों से संबंधित राष्ट्रीय/अंतरराष्ट्रीय रिपोर्ट को तैयार करना, सूचकांक के विकास से संबंधित कार्यों को करने में आवेदक का अनुभव	20
	कुल	100

(नोट :- मुल्यांकन मानदंड 4,5 एवं 6 में निर्दिष्ट प्रोजेक्ट परस्पर अनन्य है एवं यह मूल्यांकन के उद्देश्य हेतु एक से अधिक श्रेणी में नहीं गिने जाएंगे।

कंसलटिंग फर्म, अपनी योग्यता में वृद्धि करने हेतु एक संघ एवं संयुक्त उद्यम के रूप में अन्य फर्मों के साथ संबद्ध हो सकते हैं। एक कंसलटिंग फर्म को कंसलटेंट अनुदेशों में दी गई क्यूसीबीएस विधि पर चयन किया जाएगा।

एक आवेदक जिसे आरईओआई दस्तावेज पर स्पष्टीकरण चाहिए वे ई-मेल g.vijaykumar@nic.in एवं g.vijaykumarmoud@gmail.com. द्वारा एमओएचयूए को निवेदन कर सकते हैं। अभिरुचि की अभिव्यक्ति 3 अक्तूबर 2017 को 15.00 बजे तक जमा कराई जाएगी। दस्ती रूप में जमा कराया गया कोई भी आवेदन स्वीकार नहीं किया जाएगा।

Minutes of the Meeting of Procurement Committee for "Shortlisting of Consulting Firms for Assessment of Liveability in selected Cities under Capacity Building for Urban Development (CBUD) Project" held on 24-25 October 2017

The meeting of the Procurement Committee for shortlisting of applications received in respect of the Request for Expression of Interest (REOI) for the assignment of "**Shortlisting of Consulting Firms for Assessment of Liveability in Selected Cities under Capacity Building for Urban Development (CBUD) Project**" was held under the chairmanship of Shri Sudhir Kumar Tewari, Economic Advisor (Coord), MoHUA consecutively on 24-25 October 2017 in Room No. 232C, Nirman Bhawan, N. Delhi.

The following were present in the meeting:

1. Shri Sudhir Kumar Tewari, Economic Advisor (Coord), MoHUA.
2. Shri Sajeesh Kumar N, Director (Smart Cities), MoHUA
3. Shri Yogendra Singh Awana, Deputy Secretary (UPA-II & CBUD), MoHUA.
4. Ms. Yashodhara Vijayan, Deputy Secretary, IFD, MoHUA.
5. Shri G. Vijay Kumar, Under Secretary (CBUD), MoHUA
6. Shri Rakesh Gujral, Financial Management Specialist, PMU, CBUD.
7. Shri Nilesh Rajadhyaksha, Capacity Building Expert, PMU, CBUD.
8. Ms. Vasavi Narla, Urban Management Specialist, PMU, CBUD.

2. As per clause 3 of the Request for Expression of Interest (REOI), the criteria for evaluation is as under:

S.No	Parameter	Maximum Marks
1	General Experience of the Firm	10
2	Financial Strength of the Firm	15
3	Staff having experience of carrying out similar assignments and having performed tasks related to the assignment	25
4	Experience of the Firm in implementing assignments related to market research and surveys for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies	10
5	Specific experience of the Firm in implementing assignments related to market research and field surveys in the urban areas detailed in Annexure 1 to section 2.12 for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies.	20
6	Experience of Applicant in implementing assignments related to development of indices, preparation of national/international reports related to the areas mentioned in the Annexure 1 to section 2.12	20
	Total	**100**

(Note: The projects mentioned in the evaluation criteria 4, 5 and 6 are mutually exclusive and will not be counted in more than one category for the purpose of evaluation)

(a) The Applicants (firm) who secure a score of 75 marks or more out of 100 shall be considered for shortlisting.

3. It was noted by the Committee that applications were invited from the eligible consulting firms through REOI published on 8th September 2017 on www.eprocure.gov.in with the last date of 03rd October 2017. As per the World Bank's requirements, the REOI was also published in STEP, World Bank and subsequently published on UN Development Business online with a Procurement Reference No. IN-MoUD-27866-CS-QCBS. Besides, The REOI was published on www.moud.gov.in and in leading English and Hindi daily Newspapers viz. The Hindustan Times, The Times of India, Amar Ujala and Punjab Kesari through DAVP. The applications were to be submitted online through www.eprocure.gov.in only. Accordingly, 28 applications were received by the last date of submission of applications viz. 03rd October 2017, and the bids were opened on 04th October 2017.

4. For evaluating proposals, following detailed examination criteria was adopted.

Sl No	Parameter	Maximum Marks	Details
1.	General Experience of the Firm (Number of years)	**10**	1 Mark for Each Year
2.	Financial Strength of the Firm (Turnover)	**15**	<5 crore- 0 Marks, <=10 crore - 5 Marks >10 crore-<20 crore- 10 Marks => 20 crore 15 Marks

Contract No. CBUD/SD/17
between

Ministry of Housing and Urban Affairs (MoHUA), Government of India, New Delhi
____
[Name of the Client]

and

____
[Name of the Consultant]

Dated: ______________________

I. Form of Contract

LUMP-SUM

(Text in brackets [ ] is optional; all notes should be deleted in the final text)

This CONTRACT (hereinafter called the "Contract") is made the *[number]* day of the month of *[month]*, *[year]*, between, on the one hand, **Ministry of Housing and Urban Affairs (MOHUA)**(hereinafter called the "Client") and, on the other hand, *[name of Consultant]* (hereinafter called the "Consultant").

[If the Consultant consist of more than one entity, the above should be partially amended to read as follows: "…(hereinafter called the "Client") and, on the other hand, a Joint Venture (name of the JV) consisting of the following entities, each member of which will be jointly and severally liable to the Client for all the Consultant's obligations under this Contract, namely, *[name of member]* and *[name of member]* (hereinafter called the "Consultant").]

WHEREAS

(a) the Client has requested the Consultant to provide certain consulting services as defined in this Contract (hereinafter called the "Services");

(b) the Consultant, having represented to the Client that it has the required professional skills, expertise and technical resources, has agreed to provide the Services on the terms and conditions set forth in this Contract;

(c) The client MoHUA has received a credit from the *International Bank for Reconstruction and Development (IBRD) or International Development Association (IDA)]:* toward the cost of the Services and intends to apply a portion of the proceeds of this credit to eligible payments under this Contract, it being understood that (i) payments by the Bank will be made only at the request of the Client and upon approval by the Bank; (ii) such payments will be subject, in all respects, to the terms and conditions of the [loan/financing/grant] agreement, including prohibitions of withdrawal from the [loan/credit/grant] account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by the decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations; and (iii) no party other than the Client shall derive any rights from the [loan/financing/grant] agreement or have any claim to the [loan/credit/grant] proceeds;

NOW THEREFORE the parties hereto hereby agree as follows:

1. The following documents attached hereto shall be deemed to form an integral part of this Contract:

   (a) The General Conditions of Contract (including Attachment 1 "Bank Policy – Corrupt and Fraudulent Practices);
   (b) The Special Conditions of Contract;
   (c) Appendices:

   Appendix A: Terms of Reference
   Appendix B: Key Experts
   Appendix C: Breakdown of Contract Price

   In the event of any inconsistency between the documents, the following order of precedence shall prevail: the Special Conditions of Contract; the General Conditions of Contract, including Attachment 1; Appendix A; Appendix B; Appendix C; Appendix D. Any reference to this Contract shall include, where the context permits, a reference to its Appendices.

2. The mutual rights and obligations of the Client and the Consultant shall be as set forth in the Contract, in particular:

   (a) the Consultant shall carry out the Services in accordance with the provisions of the Contract; and
   (b) the Client shall make payments to the Consultant in accordance with the provisions of the Contract.

IN WITNESS WHEREOF, the Parties hereto have caused this Contract to be signed in their respective names as of the day and year first above written.

For and on behalf of *[Name of Client]*

____

[Authorized Representative of the Client – name, title and signature]

For and on behalf of *[Name of Consultant or Name of a Joint Venture]*

____

[Authorized Representative of the Consultant – name and signature]

[For a joint venture, either all members shall sign or only the lead member, in which case the power of attorney to sign on behalf of all members shall be attached.

For and on behalf of each of the members of the Consultant *[insert the Name of the Joint Venture]*

[Name of the lead member]

[Authorized Representative on behalf of a Joint Venture]

[add signature blocks for each member if all are signing]

II. General Conditions of Contract

A. GENERAL PROVISIONS

1. Definitions	1.1. Unless the context otherwise requires, the following terms whenever used in this Contract have the following meanings: (a) "Applicable Guidelines" means Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated July 2016. (b) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Special Conditions of Contract (SCC)**, as they may be issued and in force from time to time. (c) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA). (d) "Borrower" means the Government, Government agency or other entity that signs the financing agreement with the Bank. (e) "CBUD" Means Capacity Building for Urban Development (f) "Client" means the implementing agency that signs the Contract for the Services with the Selected Consultant. (g) "Consultant" means a legally-established professional consulting firm or entity selected by the Client to provide the Services under the signed Contract. (h) "Contract" means the legally binding written agreement signed between the Client and the Consultant and which includes all the attached documents listed in its paragraph 1 of the Form of Contract (the General Conditions (GCC), the Special Conditions (SCC), and the Appendices). (i) "Day" means a working day unless indicated otherwise. (j) "Effective Date" means the date on which this Contract comes into force and effect pursuant to Clause GCC 11. (k) "Experts" means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or JV member(s) assigned by the Consultant to perform the Services or any part thereof under the Contract.

	(l) “Foreign Currency” means any currency other than the currency of the Client’s country. (m) “GCC” means these General Conditions of Contract. (n) “Government” means the government of India. (o) “Joint Venture (JV)” means an association with or without a legal personality distinct from that of its members, of more than one entity where one member has the authority to conduct all businesses for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract. (p) “Key Expert(s)” means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose Curricula Vitae (CV) was taken into account in the technical evaluation of the Consultant’s proposal. (q) “Local Currency” means the currency of the Client’s country. (r) “MoHUA” means Ministry of Housing and Urban Affairs. (s) “Non-Key Expert(s)” means an individual professional provided by the Consultant or its Sub-consultant to perform the Services or any part thereof under the Contract. (t) “Party” means the Client or the Consultant, as the case may be, and “Parties” means both of them. (u) “SCC” means the Special Conditions of Contract by which the GCC may be amended or supplemented but not over-written. (v) “Services” means the work to be performed by the Consultant pursuant to this Contract, as described in Appendix A hereto. (w) “Sub-consultants” means an entity to whom/which the Consultant subcontracts any part of the Services while remaining solely liable for the execution of the Contract. (x) “Third Party” means any person or entity other than the Government, the Client, the Consultant or a Sub-consultant.
2. Relationship between the Parties	2.1. Nothing contained herein shall be construed as establishing a relationship of master and servant or of principal and agent as between the Client and the Consultant. The Consultant, subject to this Contract, has complete charge of the Experts and Sub-consultants, if any, performing the Services and shall be fully responsible for the Services performed by them or on their behalf

	hereunder.
3. Law Governing Contract	3.1. This Contract, its meaning and interpretation, and the relation between the Parties shall be governed by the Applicable Law.
4. Language	4.1. This Contract has been executed in the language specified in the **SCC**, which shall be the binding and controlling language for all matters relating to the meaning or interpretation of this Contract.
5. Headings	5.1. The headings shall not limit, alter or affect the meaning of this Contract.
6. Communications	6.1. Any communication required or permitted to be given or made pursuant to this Contract shall be in writing in the language specified in Clause GCC 4. Any such notice, request or consent shall be deemed to have been given or made when delivered in person to an authorized representative of the Party to whom the communication is addressed, or when sent to such Party at the address specified in the **SCC**. 6.2. A Party may change its address for notice hereunder by giving the other Party any communication of such change to the address specified in the **SCC**.
7. Location	7.1. The Services shall be performed at such locations as are specified in **Appendix A** hereto and, where the location of a particular task is not so specified, at such locations, whether in the Government's country or elsewhere, as the Client may approve.
8. Authority of Member in Charge	8.1. In case the Consultant is a Joint Venture, the members hereby authorize the member specified in the **SCC** to act on their behalf in exercising all the Consultant's rights and obligations towards the Client under this Contract, including without limitation the receiving of instructions and payments from the Client.
9. Authorized Representatives	9.1. Any action required or permitted to be taken, and any document required or permitted to be executed under this Contract by the Client or the Consultant may be taken or executed by the officials specified in the **SCC.**
10. Corrupt and Fraudulent Practices	10.1. The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in **Attachment 1** to the GCC.
a. Commissions and Fees	10.2. The Client requires the Consultant to disclose any commissions, gratuities or fees that may have been paid or are to be paid to agents or any other party with respect to the selection process or execution of the Contract. The information disclosed must

	include at least the name and address of the agent or other party, the amount and currency, and the purpose of the commission, gratuity or fee. Failure to disclose such commissions, gratuities or fees may result in termination of the Contract and/or sanctions by the Bank.

B. COMMENCEMENT, COMPLETION, MODIFICATION AND TERMINATION OF CONTRACT

11. Effectiveness of Contract	11.1. This Contract shall come into force and effect on the date (the "Effective Date") of the Client's notice to the Consultant instructing the Consultant to begin carrying out the Services. This notice shall confirm that the effectiveness conditions, if any, listed in the **SCC** have been met.
12. Termination of Contract for Failure to Become Effective	12.1. If this Contract has not become effective within such time period after the date of Contract signature as specified in the **SCC**, either Party may, by not less than twenty two (22) days written notice to the other Party, declare this Contract to be null and void, and in the event of such a declaration by either Party, neither Party shall have any claim against the other Party with respect hereto.
13. Commencement of Services	13.1. The Consultant shall confirm availability of Key Experts and begin carrying out the Services not later than the number of days after the Effective Date specified in the **SCC**.
14. Expiration of Contract	14.1. Unless terminated earlier pursuant to Clause GCC 19 hereof, this Contract shall expire at the end of such time period after the Effective Date as specified in the **SCC**.
15. Entire Agreement	15.1. This Contract contains all covenants, stipulations and provisions agreed by the Parties. No agent or representative of either Party has authority to make, and the Parties shall not be bound by or be liable for, any statement, representation, promise or agreement not set forth herein.
16. Modifications or Variations	16.1. Any modification or variation of the terms and conditions of this Contract, including any modification or variation of the scope of the Services, may only be made by written agreement between the Parties. However, each Party shall give due consideration to any proposals for modification or variation made by the other Party. 16.2. In cases of substantial modifications or variations, the prior written consent of the Bank is required.
17. Force Majeure	
a. Definition	17.1. For the purposes of this Contract, "Force Majeure" means an event which is beyond the reasonable control of a Party, is not

	foreseeable, is unavoidable, and makes a Party's performance of its obligations hereunder impossible or so impractical as reasonably to be considered impossible under the circumstances, and subject to those requirements, includes, but is not limited to, war, riots, civil disorder, earthquake, fire, explosion, storm, flood or other adverse weather conditions, strikes, lockouts or other industrial action confiscation or any other action by Government agencies. 17.2. Force Majeure shall not include (i) any event which is caused by the negligence or intentional action of a Party or such Party's Experts, Sub-consultants or agents or employees, nor (ii) any event which a diligent Party could reasonably have been expected to both take into account at the time of the conclusion of this Contract, and avoid or overcome in the carrying out of its obligations hereunder. 17.3. Force Majeure shall not include insufficiency of funds or failure to make any payment required hereunder.
b. **No Breach of Contract**	17.4. The failure of a Party to fulfill any of its obligations hereunder shall not be considered to be a breach of, or default under, this Contract insofar as such inability arises from an event of Force Majeure, provided that the Party affected by such an event has taken all reasonable precautions, due care and reasonable alternative measures, all with the objective of carrying out the terms and conditions of this Contract.
c. **Measures to be Taken**	17.5. A Party affected by an event of Force Majeure shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall take all reasonable measures to minimize the consequences of any event of Force Majeure. 17.6. A Party affected by an event of Force Majeure shall notify the other Party of such event as soon as possible, and in any case not later than fourteen (14) calendar days following the occurrence of such event, providing evidence of the nature and cause of such event, and shall similarly give written notice of the restoration of normal conditions as soon as possible. 17.7. Any period within which a Party shall, pursuant to this Contract, complete any action or task, shall be extended for a period equal to the time during which such Party was unable to perform such action as a result of Force Majeure. 17.8. During the period of their inability to perform the Services as a result of an event of Force Majeure, the Consultant, upon instructions by the Client, shall either:

	(a) demobilize, in which case the Consultant shall be reimbursed for additional costs they reasonably and necessarily incurred, and, if required by the Client, in reactivating the Services; or (b) continue with the Services to the extent reasonably possible, in which case the Consultant shall continue to be paid under the terms of this Contract and be reimbursed for additional costs reasonably and necessarily incurred. 17.9. In the case of disagreement between the Parties as to the existence or extent of Force Majeure, the matter shall be settled according to Clauses GCC 44 & 45.
18. Suspension	18.1. The Client may, by written notice of suspension to the Consultant, suspend all payments to the Consultant hereunder if the Consultant fails to perform any of its obligations under this Contract, including the carrying out of the Services, provided that such notice of suspension (i) shall specify the nature of the failure, and (ii) shall request the Consultant to remedy such failure within a period not exceeding thirty (30) calendar days after receipt by the Consultant of such notice of suspension.
19. Termination	19.1. This Contract may be terminated by either Party as per provisions set up below:
a. By the Client	19.1.1. The Client may terminate this Contract in case of the occurrence of any of the events specified in paragraphs (a) through (f) of this Clause. In such an occurrence the Client shall give at least thirty (30) calendar days’ written notice of termination to the Consultant in case of the events referred to in (a) through (d); at least sixty (60) calendar days’ written notice in case of the event referred to in (e); and at least five (5) calendar days’ written notice in case of the event referred to in (f): (a) If the Consultant fails to remedy a failure in the performance of its obligations hereunder, as specified in a notice of suspension pursuant to Clause GCC 18; (b) If the Consultant becomes (or, if the Consultant consists of more than one entity, if any of its members becomes) insolvent or bankrupt or enter into any agreements with their creditors for relief of debt or take advantage of any law for the benefit of debtors or go into liquidation or receivership whether compulsory or voluntary; (c) If the Consultant fails to comply with any final decision reached as a result of arbitration proceedings pursuant to

	Clause GCC 45.1; (d) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days; (e) If the Client, in its sole discretion and for any reason whatsoever, decides to terminate this Contract; (f) If the Consultant fails to confirm availability of Key Experts as required in Clause GCC 13. 19.1.2. Furthermore, if the Client determines that the Consultant has engaged in corrupt, fraudulent, collusive, coercive or obstructive practices, in competing for or in executing the Contract, then the Client may, after giving fourteen (14) calendar days written notice to the Consultant, terminate the Consultant's employment under the Contract.
b. By the Consultant	19.1.3. The Consultant may terminate this Contract, by not less than thirty (30) calendar days’ written notice to the Client, in case of the occurrence of any of the events specified in paragraphs (a) through (d) of this Clause. (a) If the Client fails to pay any money due to the Consultant pursuant to this Contract and not subject to dispute pursuant to Clause GCC 45.1 within forty-five (45) calendar days after receiving written notice from the Consultant that such payment is overdue. (b) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days. (c) If the Client fails to comply with any final decision reached as a result of arbitration pursuant to Clause GCC 45.1. (d) If the Client is in material breach of its obligations pursuant to this Contract and has not remedied the same within forty-five (45) days (or such longer period as the Consultant may have subsequently approved in writing) following the receipt by the Client of the Consultant’s notice specifying such breach.
c. Cessation of Rights and Obligations	19.1.4. Upon termination of this Contract pursuant to Clauses GCC 12 or GCC 19 hereof, or upon expiration of this Contract pursuant to Clause GCC 14, all rights and obligations of the Parties hereunder shall cease, except (i) such rights and

	obligations as may have accrued on the date of termination or expiration, (ii) the obligation of confidentiality set forth in Clause GCC 22, (iii) the Consultant's obligation to permit inspection, copying and auditing of their accounts and records set forth in Clause GCC 25, and (iv) any right which a Party may have under the Applicable Law.
d. Cessation of Services	19.1.5. Upon termination of this Contract by notice of either Party to the other pursuant to Clauses GCC 19a or GCC 19b, the Consultant shall, immediately upon dispatch or receipt of such notice, take all necessary steps to bring the Services to a close in a prompt and orderly manner and shall make every reasonable effort to keep expenditures for this purpose to a minimum. With respect to documents prepared by the Consultant and equipment and materials furnished by the Client, the Consultant shall proceed as provided, respectively, by Clauses GCC 27 or GCC 28.
e. Payment upon Termination	19.1.6. Upon termination of this Contract, the Client shall make the following payments to the Consultant: (a) payment for Services satisfactorily performed prior to the effective date of termination; and (b) in the case of termination pursuant to paragraphs (d) and (e) of Clause GCC 19.1.1, reimbursement of any reasonable cost incidental to the prompt and orderly termination of this Contract, including the cost of the return travel of the Experts.

C. OBLIGATIONS OF THE CONSULTANT

20. General	
a. Standard of Performance	20.1 The Consultant shall perform the Services and carry out the Services with all due diligence, efficiency and economy, in accordance with generally accepted professional standards and practices, and shall observe sound management practices, and employ appropriate technology and safe and effective equipment, machinery, materials and methods. The Consultant shall always act, in respect of any matter relating to this Contract or to the Services, as a faithful adviser to the Client, and shall at all times support and safeguard the Client's legitimate interests in any dealings with the third parties. 20.2. The Consultant shall employ and provide such qualified and experienced Experts and Sub-consultants as are required to carry out the Services.

20.3. The Consultant may subcontract part of the Services to an extent and with such Key Experts and Sub-consultants as may be approved in advance by the Client. Notwithstanding such approval, the Consultant shall retain full responsibility for the Services.

b. Law Applicable to Services

20.4. The Consultant shall perform the Services in accordance with the Contract and the Applicable Law and shall take all practicable steps to ensure that any of its Experts and Sub-consultants, comply with the Applicable Law.

20.5. Throughout the execution of the Contract, the Consultant shall comply with the import of goods and services prohibitions in the Client's country when

(a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country; or

(b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

20.6. The Client shall notify the Consultant in writing of relevant local customs, and the Consultant shall, after such notification, respect such customs.

21. Conflict of Interests

21.1. The Consultant shall hold the Client's interests paramount, without any consideration for future work, and strictly avoid conflict with other assignments or their own corporate interests.

a. Consultant Not to Benefit from Commissions, Discounts, etc.

21.1.1 The payment of the Consultant pursuant to GCC F (Clauses GCC 38 through 42) shall constitute the Consultant's only payment in connection with this Contract and, subject to Clause GCC 21.1.3, the Consultant shall not accept for its own benefit any trade commission, discount or similar payment in connection with activities pursuant to this Contract or in the discharge of its obligations hereunder, and the Consultant shall use its best efforts to ensure that any Sub-consultants, as well as the Experts and agents of either of them, similarly shall not receive any such additional payment.

21.1.2 Furthermore, if the Consultant, as part of the Services, has the responsibility of advising the Client on the procurement of goods, works or services, the Consultant shall comply with the Bank's Applicable Guidelines, and shall at all times exercise such responsibility in the best interest of the Client. Any

	discounts or commissions obtained by the Consultant in the exercise of such procurement responsibility shall be for the account of the Client.
b. Consultant and Affiliates Not to Engage in Certain Activities	21.1.3 The Consultant agrees that, during the term of this Contract and after its termination, the Consultant and any entity affiliated with the Consultant, as well as any Sub-consultants and any entity affiliated with such Sub-consultants, shall be disqualified from providing goods, works or non-consulting services resulting from or directly related to the Consultant's Services for the preparation or implementation of the project, unless otherwise indicated in the **SCC**.
c. Prohibition of Conflicting Activities	21.1.4 The Consultant shall not engage, and shall cause its Experts as well as its Sub-consultants not to engage, either directly or indirectly, in any business or professional activities that would conflict with the activities assigned to them under this Contract.
d. Strict Duty to Disclose Conflicting Activities	21.1.5 The Consultant has an obligation and shall ensure that its Experts and Sub-consultants shall have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of their Client, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.
22. Confidentiality	22.1 Except with the prior written consent of the Client, the Consultant and the Experts shall not at any time communicate to any person or entity any confidential information acquired in the course of the Services, nor shall the Consultant and the Experts make public the recommendations formulated in the course of, or as a result of, the Services.
23. Liability of the Consultant	23.1 Subject to additional provisions, if any, set forth in the **SCC**, the Consultant's liability under this Contract shall be provided by the Applicable Law.
24. Insurance to be Taken out by the Consultant	24.1 The Consultant (i) shall take out and maintain, and shall cause any Sub-consultants to take out and maintain, at its (or the Sub-consultants', as the case may be) own cost but on terms and conditions approved by the Client, insurance against the risks, and for the coverage specified in the **SCC,** and (ii) at the Client's request, shall provide evidence to the Client showing that such insurance has been taken out and maintained and that the current premiums therefore have been paid. The Consultant shall ensure that such insurance is in place prior to commencing the Services as stated in

	Clause GCC 13.
25. Accounting, Inspection and Auditing	25.1 The Consultant shall keep, and shall make all reasonable efforts to cause its Sub-consultants to keep, accurate and systematic accounts and records in respect of the Services and in such form and detail as will clearly identify relevant time changes and costs. 25.2 The Consultant shall permit and shall cause its Sub-consultants to permit, the Bank and/or persons appointed by the Bank to inspect the Site and/or all accounts and records relating to the performance of the Contract and the submission of the Proposal to provide the Services, and to have such accounts and records audited by auditors appointed by the Bank if requested by the Bank. The Consultant’s attention is drawn to Clause GCC 10 which provides, inter alia, that acts intended to materially impede the exercise of the Bank’s inspection and audit rights provided for under this Clause GCC25.2 constitute a prohibited practice subject to contract termination (as well as to a determination of ineligibility under the Bank’s prevailing sanctions procedures.)
26. Reporting Obligations	26.1 The Consultant shall submit to the Client the reports and documents specified in **Appendix A**, in the form, in the numbers and within the time periods set forth in the said Appendix.
27. Proprietary Rights of the Client in Reports and Records	27.1 Unless otherwise indicated in the **SCC**, all reports and relevant data and information such as maps, diagrams, plans, databases, other documents and software, supporting records or material compiled or prepared by the Consultant for the Client in the course of the Services shall be confidential and become and remain the absolute property of the Client. The Consultant shall, not later than upon termination or expiration of this Contract, deliver all such documents to the Client, together with a detailed inventory thereof. The Consultant may retain a copy of such documents, data and/or software but shall not use the same for purposes unrelated to this Contract without prior written approval of the Client. 27.2 If license agreements are necessary or appropriate between the Consultant and third parties for purposes of development of the plans, drawings, specifications, designs, databases, other documents and software, the Consultant shall obtain the Client’s prior written approval to such agreements, and the Client shall be entitled at its discretion to require recovering the expenses related to the development of the program(s) concerned. Other restrictions about the future use of these documents and software, if any, shall be specified in the **SCC**.
28. Equipment, Vehicles and	28.1 Equipment, vehicles and materials made available to the Consultant by the Client, or purchased by the Consultant wholly or partly with funds provided by the Client, shall be the property of the

Materials	Client and shall be marked accordingly. Upon termination or expiration of this Contract, the Consultant shall make available to the Client an inventory of such equipment, vehicles and materials and shall dispose of such equipment, vehicles and materials in accordance with the Client's instructions. While in possession of such equipment, vehicles and materials, the Consultant, unless otherwise instructed by the Client in writing, shall insure them at the expense of the Client in an amount equal to their full replacement value. 28.2 Any equipment or materials brought by the Consultant or its Experts into the Client's country for the use either for the project or personal use shall remain the property of the Consultant or the Experts concerned, as applicable.

D. CONSULTANT'S EXPERTS AND SUB-CONSULTANTS

29. Description of Key Experts	29.1 The title, agreed job description, minimum qualification and estimated period of engagement to carry out the Services of each of the Consultant's Key Experts are described in **Appendix B.**
30. Replacement of Key Experts	30.1 Except as the Client may otherwise agree in writing, no changes shall be made in the Key Experts. 30.2 Notwithstanding the above, the substitution of Key Experts during Contract execution may be considered only based on the Consultant's written request and due to circumstances outside the reasonable control of the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall forthwith provide as a replacement, a person of equivalent or better qualifications and experience, and at the same rate of remuneration.
31. Removal of Experts or Sub-consultants	31.1 If the Client finds that any of the Experts or Sub-consultant has committed serious misconduct or has been charged with having committed a criminal action, or shall the Client determine that Consultant's Expert of Sub-consultant have engaged in corrupt, fraudulent, collusive, coercive or obstructive practice while performing the Services, the Consultant shall, at the Client's written request, provide a replacement. 31.2 In the event that any of Key Experts, Non-Key Experts or Sub-consultants is found by the Client to be incompetent or incapable in discharging assigned duties, the Client, specifying the grounds therefore, may request the Consultant to provide a replacement. 31.3 Any replacement of the removed Experts or Sub-consultants shall possess better qualifications and experience and shall be acceptable to the Client.

	31.4 The Consultant shall bear all costs arising out of or incidental to any removal and/or replacement of such Experts.

E. OBLIGATIONS OF THE CLIENT

32. Assistance and Exemptions	32.1 Unless otherwise specified in the **SCC**, the Client shall use its best efforts to: (a) Assist the Consultant with obtaining work permits and such other documents as shall be necessary to enable the Consultant to perform the Services. (b) Assist the Consultant with promptly obtaining, for the Experts and, if appropriate, their eligible dependents, all necessary entry and exit visas, residence permits, exchange permits and any other documents required for their stay in the Client's country while carrying out the Services under the Contract. (c) Facilitate prompt clearance through customs of any property required for the Services and of the personal effects of the Experts and their eligible dependents. (c) Issue to officials, agents and representatives of the Government all such instructions and information as may be necessary or appropriate for the prompt and effective implementation of the Services. (d) Assist the Consultant and the Experts and any Sub-consultants employed by the Consultant for the Services with obtaining exemption from any requirement to register or obtain any permit to practice their profession or to establish themselves either individually or as a corporate entity in the Client's country according to the applicable law in the Client's country. (e) Assist the Consultant, any Sub-consultants and the Experts of either of them with obtaining the privilege, pursuant to the applicable law in the Client's country, of bringing into the Client's country reasonable amounts of foreign currency for the purposes of the Services or for the personal use of the Experts and of withdrawing any such amounts as may be earned therein by the Experts in the execution of the Services. (f) Provide to the Consultant any such other assistance as may be specified in the **SCC**.
33. Access to Project Site	33.1 The Client warrants that the Consultant shall have, free of charge, unimpeded access to the project site in respect of which access is required for the performance of the Services. The Client

	will be responsible for any damage to the project site or any property thereon resulting from such access and will indemnify the Consultant and each of the experts in respect of liability for any such damage, unless such damage is caused by the willful default or negligence of the Consultant or any Sub-consultants or the Experts of either of them.
34. Change in the Applicable Law Related to Taxes and Duties	34.1 If, after the date of this Contract, there is any change in the applicable law in the Client's country with respect to taxes and duties which increases or decreases the cost incurred by the Consultant in performing the Services, then the remuneration and reimbursable expenses otherwise payable to the Consultant under this Contract shall be increased or decreased accordingly by agreement between the Parties hereto, and corresponding adjustments shall be made to the Contract price amount specified in Clause GCC 38.1
35. Services, Facilities and Property of the Client	35.1 The Client shall make available to the Consultant and the Experts, for the purposes of the Services and free of any charge, the services, facilities and property described in the Terms of Reference (**Appendix A)** at the times and in the manner specified in said **Appendix A.**
36. Counterpart Personnel	36.1 The Client shall make available to the Consultant free of charge such professional and support counterpart personnel, to be nominated by the Client with the Consultant's advice, if specified in **Appendix A**. 36.2 Professional and support counterpart personnel, excluding Client's liaison personnel, shall work under the exclusive direction of the Consultant. If any member of the counterpart personnel fails to perform adequately any work assigned to such member by the Consultant that is consistent with the position occupied by such member, the Consultant may request the replacement of such member, and the Client shall not unreasonably refuse to act upon such request.
37. Payment Obligation	37.1 In consideration of the Services performed by the Consultant under this Contract, the Client shall make such payments to the Consultant for the deliverables specified in **Appendix A** and in such manner as is provided by GCC F below.

F. PAYMENTS TO THE CONSULTANT

38. Contract Price	38.1 The Contract price is fixed and is set forth in the **SCC.** The Contract price breakdown is provided in **Appendix C**. 38.2 Any change to the Contract price specified in Clause 38.1 can

	be made only if the Parties have agreed to the revised scope of Services pursuant to Clause GCC 16 and have amended in writing the Terms of Reference in **Appendix A**.
39. Taxes and Duties	39.1 The Consultant, Sub-consultants and Experts are responsible for meeting any and all tax liabilities arising out of the Contract unless it is stated otherwise in the **SCC**. 39.2 As an exception to the above and as stated in the **SCC**, all local identifiable indirect taxes (itemized and finalized at Contract negotiations) are reimbursed to the Consultant or are paid by the Client on behalf of the Consultant.
40. Currency of Payment	40.1 Any payment under this Contract shall be made in the currency(ies) of the Contract.
41. Mode of Billing and Payment	41.1 The total payments under this Contract shall not exceed the Contract price set forth in Clause GCC 38.1. 41.2 The payments under this Contract shall be made in lump-sum installments against deliverables specified in **Appendix A**. The payments will be made according to the payment schedule stated in the **SCC**. 41.2.1 *Advance payment:* No advance payment would be made to the consultant. 41.2.2 *The Lump-Sum Installment Payments.* The Client shall pay the Consultant within sixty (60) days after the receipt by the Client of the deliverable(s) and the cover invoice for the related lump-sum installment payment. The payment can be withheld if the Client does not approve the submitted deliverable(s) as satisfactory in which case the Client shall provide comments to the Consultant within the same sixty (60) days period. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated. 41.2.3 *The Final Payment* .The final payment under this Clause shall be made only after the final report l have been submitted by the Consultant and approved as satisfactory by the Client. The Services shall then be deemed completed and finally accepted by the Client. The last lump-sum installment shall be deemed approved for payment by the Client within ninety (90) calendar days after receipt of the final report by the Client unless the Client, within such ninety (90) calendar day period, gives written notice to the Consultant specifying in detail deficiencies in the Services, the final report. The Consultant shall thereupon

	promptly make any necessary corrections, and thereafter the foregoing process shall be repeated. 41.2.4 All payments under this Contract shall be made to the accounts of the Consultant specified in the **SCC**. 41.2.4 With the exception of the final payment under 41.2.3 above, payments do not constitute acceptance of the whole Services nor relieve the Consultant of any obligations hereunder.
42. Interest on Delayed Payments	42.1 If the Client had delayed payments beyond fifteen (15) days after the due date stated in Clause GCC 41.2.2 , interest shall be paid to the Consultant on any amount due by, not paid on, such due date for each day of delay at the annual rate stated in the **SCC.**

G. FAIRNESS AND GOOD FAITH

43. Good Faith	43.1 The Parties undertake to act in good faith with respect to each other's rights under this Contract and to adopt all reasonable measures to ensure the realization of the objectives of this Contract.

H. SETTLEMENT OF DISPUTES

44. Amicable Settlement	44.1 The Parties shall seek to resolve any dispute amicably by mutual consultation. 44.2 If either Party objects to any action or inaction of the other Party, the objecting Party may file a written Notice of Dispute to the other Party providing in detail the basis of the dispute. The Party receiving the Notice of Dispute will consider it and respond in writing within fourteen (14) days after receipt. If that Party fails to respond within fourteen (14) days, or the dispute cannot be amicably settled within fourteen (14) days following the response of that Party, Clause GCC 45.1 shall apply.
45. Dispute Resolution	45.1 Any dispute between the Parties arising under or related to this Contract that cannot be settled amicably may be referred to by either Party to the adjudication/arbitration in accordance with the provisions specified in the **SCC**.

II. General Conditions

Attachment 1: Bank's Policy – Corrupt and Fraudulent Practices

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

"**Fraud and Corruption**

1.23 It is the Bank's policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

(i) "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[1];

(ii) "fraudulent practice" is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[2];

(iii) "collusive practices" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[3];

(iv) "coercive practices" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[4];

---

[1] For the purpose of this sub-paragraph, "another party" refers to a public official acting in relation to the selection process or contract execution. In this context "public official" includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[2] For the purpose of this sub-paragraph, "party" refers to a public official; the terms "benefit" and "obligation" relate to the selection process or contract execution; and the "act or omission" is intended to influence the selection process or contract execution.

[3] For the purpose of this sub-paragraph, "parties" refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other's bid prices or other conditions.

(v) "obstructive practice" is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank's inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare mis-procurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank's sanctions procedures[5], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[6] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[4] For the purpose of this sub-paragraph, "party" refers to a participant in the selection process or contract execution.

[5] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank's sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[6] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant's proposal for the particular services; or (ii) appointed by the Borrower.

	arbitration shall be heard by a sole arbitrator or an arbitration panel composed of three (3) arbitrators, in accordance with the following provisions: (a) Where the Parties agree that the dispute concerns a technical matter, they may agree to appoint a sole arbitrator or, failing agreement on the identity of such sole arbitrator within thirty (30) days after receipt by the other Party of the proposal of a name for such an appointment by the Party who initiated the proceedings, either Party may apply to the Council of Arbitrators, New Delhi, for a list of not fewer than five nominees and, on receipt of such list, the Parties shall alternately strike names there from, and the last remaining nominee on the list shall be the sole arbitrator for the matter in dispute. If the last remaining nominee has not been determined in this manner within sixty (60) days of the date of the list, the President, Institution of Engineers India New Delhi, shall appoint, upon the request of either Party and from such list or otherwise, a sole arbitrator for the matter in dispute. (b) Where the Parties do not agree that the dispute concerns a technical matter, the Client and the Consultant shall each appoint one (1) arbitrator, and these two arbitrators shall jointly appoint a third arbitrator, who shall chair the arbitration panel. If the arbitrators named by the Parties do not succeed in appointing a third arbitrator within thirty (30) days after the latter of the two (2) arbitrators named by the Parties has been appointed, the third arbitrator shall, at the request of either Party, be appointed by Secretary, the Indian Council of Arbitration, New Delhi (b) If, in a dispute subject to paragraph (b) above, one Party fails to appoint its arbitrator within thirty (30) days after the other Party has appointed its arbitrator, the Party which has named an arbitrator may apply to the Secretary, Indian Council of Arbitration, New Delhi, to appoint a sole arbitrator for the matter in dispute, and the arbitrator appointed pursuant to such application shall be the sole arbitrator for that dispute.
	2. Rules of Procedure. Arbitration proceedings shall be conducted in accordance with procedure of the Arbitration & Conciliation Act 1996, of India. 3. Substitute Arbitrators. If for any reason an arbitrator is unable to perform his/her function, a substitute shall be appointed in the same manner as the original arbitrator.

	4. Nationality and Qualifications of Arbitrators. The sole arbitrator or the third arbitrator appointed pursuant to paragraphs 1(a) through 1(c) above shall be an internationally recognized legal or technical expert with extensive experience in relation to the matter in dispute.
	5. Miscellaneous. In any arbitration proceeding hereunder: (a) proceedings shall, unless otherwise agreed by the Parties, be held in New Delhi; (b) the *English* language shall be the official language for all purposes; and (c) the decision of the sole arbitrator or of a majority of the arbitrators (or of the third arbitrator if there is no such majority) shall be final and binding and shall be enforceable in any court of competent jurisdiction, and the Parties hereby waive any objections to or claims of immunity in respect of such enforcement.

IV. Appendices

APPENDIX A – TERMS OF REFERENCE

……

APPENDIX B - KEY EXPERTS

[Insert a table based on Form TECH-6 of the Consultant's Technical Proposal and finalized at the Contract's negotiations. Attach the CVs (updated and signed by the respective Key Experts) demonstrating the qualifications of Key Experts.]

……

APPENDIX C – BREAKDOWN OF CONTRACT PRICE

[Insert the table with the unit rates to arrive at the breakdown of the lump-sum price. The table shall be based on [Form FIN-3 and FIN-4] of the Consultant's Proposal and reflect any changes agreed at the Contract negotiations, if any. The footnote shall list such changes made to [Form FIN-3 and FIN-4] at the negotiations or state that none has been made.]

When the Consultant has been selected under Quality-Based Selection method, also add the following:

> *"*The agreed remuneration rates shall be stated in the attached Model Form I. This form shall be prepared on the basis of Appendix A to Form FIN-3 of the RFP "Consultants' Representations regarding Costs and Charges" submitted by the Consultant to the Client prior to the Contract's negotiations.
>
> Should these representations be found by the Client (either through inspections or audits pursuant to Clause GCC 25.2 or through other means) to be materially incomplete or inaccurate, the Client shall be entitled to introduce appropriate modifications in the remuneration rates affected by such materially incomplete or inaccurate representations. Any such modification shall have retroactive effect and, in case remuneration has already been paid by the Client before any such modification, (i) the Client shall be entitled to offset any excess payment against the next monthly payment to the Consultants, or (ii) if there are no further payments to be made by the Client to the Consultants, the Consultants shall reimburse to the Client any excess payment within thirty (30) days of receipt of a written claim of the Client. Any such claim by the Client for reimbursement must be made within twelve (12) calendar months after receipt by the Client of a final report and a final statement approved by the Client in accordance with Clause GCC 45.1(d) of this Contract*."]*

Model Form I
Breakdown of Agreed Fixed Rates in Consultant’s Contract

We hereby confirm that we have agreed to pay to the Experts listed, who will be involved in performing the Services, the basic fees and away from the home office allowances (if applicable) indicated below:

(Expressed in [insert name of currency])*

Experts		1	2	3	4	5	6	7	8

5	Infrastructure Development Corporation (Karnataka) Ltd (iDecK)	ideckinfo@idfc.com
6	CRISIL Risk and Infrastructure Solutions Limited, INDIA	mohit.ganeriwala@crisil.com

Dear Mr. /Ms.:

1. The Government of India (hereinafter called "Borrower") has received financing from the International Development Association (IDA) (the "Bank") in the form of a credit (hereinafter called "credit") toward the cost of Capacity Building for Urban Development (CBUD) Project. The Ministry of Housing and Urban Affairs (MoHUA), Government of India, an implementing agency of the Client, intends to apply a portion of the proceeds of this credit to eligible payments under the contract for which this Request for Proposals is issued. Payments by the Bank will be made only at the request of the *Ministry of Housing and Urban Affairs* (client) and upon approval by the Bank, and will be subject, in all respects, to the terms and conditions of the financing agreement. The financing agreement prohibits a withdrawal from the credit account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by a decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations. No party other than the Borrower shall derive any rights from the financing agreement or have any claims to the proceeds of the credit.

   The Client now invites proposals to provide the following consulting services (hereinafter called "Services"): "Selection of Consulting Firms for Assessment of Liveability Indices for 116 cities in India". More details on the Services are provided in the Terms of Reference (Section 7).

2. More details on the Services are provided in the Terms of Reference (Section 7).

3. This Request for Proposals (RFP) has been addressed to the following shortlisted Consultants:

S.No.	Firm	Country of Incorporation
1	Ipsos Public Affairs	India
2	PricewaterhouseCoopers	India
3	Jones Lang LaSalle	India
4	Delloite Touche Tohmatsu India LLP	India
5	Infrastructure Development Corporation (Karnataka) Ltd (iDecK)	India
6	CRISIL Risk and Infrastructure Solutions Limited, INDIA	India

4. It is not permissible to transfer this invitation to any other firm.

5. A firm will be selected under Quality and Cost Based Selection method (QCBS) (Lump Sum) and in a Proposal format as described in this RFP, in accordance with the policies of the Bank detailed in the Consultants' Guidelines which can be found at the following website: *www.worldbank.org/procure*.

6. The RFP includes the following documents:
   Section 1 - Letter of Invitation
   Section 2 - Instructions to Consultants and Data Sheet
   Section 3 - Technical Proposal - Standard Forms
   Section 4 - Financial Proposal - Standard Forms
   Section 5 – Eligible Countries
   Section 6 – Bank's Policy – Corrupt and Fraudulent Practices
   Section 7 - Terms of Reference
   Section 8 - Standard Forms of Contract (Time Based)

7. Please inform us by 20th November 2017 in writing by E-mail : g.vijaykumar@nic.in & g.vijaykumar.moud@gmail.com :

   (a) that you have received the Letter of Invitation; and
   (b) whether you intend to submit a proposal alone or intend to enhance your experience by requesting permission to associate with other firm(s) (if permissible under Section 2, Instructions to Consultants (ITC), Data Sheet 14.1.1).

8. Details on the proposal's submission date, time and address are provided in Clauses 17.7 and 17.9 of the ITC.

Yours sincerely,

G. Vijay Kumar,

Under Secretary to the Government of India on behalf of Project Director, CBUD.

Nirman Bhavan, New Delhi-11001. (Ph. 01123063217)

Section 2. Instructions to Consultants and Data Sheet

A. General Provisions

1. Definitions

(a) "Affiliate(s)" means an individual or an entity that directly or indirectly controls, is controlled by, or is under common control with the Consultant.

(b) "Applicable Guidelines" means the policies of the Bank governing the selection and Contract award process as set forth in this RFP.

(c) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Data Sheet**, as they may be issued and in force from time to time.

(d) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA).

(e) "Borrower" means the Government, Government agency or other entity that signs the *financing*[1] agreement with the Bank.

(f) "CBUD" means Capacity Building for Urban Development

(g) "Client" means the implementing agency that signs the Contract for the Services with the selected Consultant.

(h) "Consultant" means a legally-established professional consulting firm or an entity that may provide or provides the Services to the Client under the Contract.

(i) "Contract" means a legally binding written agreement signed between the Client and the Consultant and includes all the attached documents listed in its Clause 1 (the General Conditions of Contract (GCC), the Special Conditions of Contract (SCC), and the Appendices).

(j) "Data Sheet" means an integral part of the Instructions to Consultants (ITC) Section 2 that is used to reflect specific country and assignment conditions to supplement, but not to over-write, the provisions of the ITC.

(k) "Day" means a calendar day.

(l) "Experts" means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or Joint Venture member(s).

---

[1] *["loan agreement" term is used for IBRD loans; "financing agreement" is used for IDA credits; and "grant agreement" is used for Recipient-Executed Trust Funds administered by IBRD or IDA]*

(m) "Government" means Government of India.

(n) "Joint Venture (JV)" means an association with or without a legal personality distinct from that of its members, of more than one Consultant where one member has the authority to conduct all business for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract.

(o) "Key Expert(s)" means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose CV is taken into account in the technical evaluation of the Consultant's proposal.

(p) "ITC" (this Section 2 of the RFP) means the Instructions to Consultants that provide~~s~~ the shortlisted Consultants with all information needed to prepare their Proposals.

(q) "LOI" (this Section 1 of the RFP) means the Letter of Invitation being sent by the Client to the shortlisted Consultants.

(r) "MoHUA" means Ministry of Housing and Urban Affairs

(s) "Non-Key Expert(s)" means an individual professional provided by the Consultant or its Sub-consultant and who is assigned to perform the Services or any part thereof under the Contract and whose CVs are not evaluated individually.

(t) "Proposal" means the Technical Proposal and the Financial Proposal of the Consultant.

(u) "RFP" means the Request for Proposals to be prepared by the Client for the selection of Consultants, based on the SRFP.

(v) "SRFP" means the Standard Request for Proposals, which must be used by the Client as the basis for the preparation of the RFP.

(w) "Services" means the work to be performed by the Consultant pursuant to the Contract.

(x) "Sub-consultant" means an entity to whom the Consultant intends to subcontract any part of the Services while remaining responsible to the Client during the performance of the Contract.

(y) "TORs" (this Section 7 of the RFP) means the Terms of Reference that explain the objectives, scope of work, activities, and tasks to be performed, respective responsibilities of the Client and the Consultant, and expected results and deliverables of the assignment.

2. Introduction	7.1 The Client named in the **Data Sheet** intends to select a Consultant from those listed in the Letter of Invitation, in accordance with the method of selection specified in the **Data Sheet**. 7.2 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Data Sheet**, for consulting services required for the assignment named in the **Data Sheet**. The Proposal will be the basis for negotiating and ultimately signing the Contract with the selected Consultant. 7.3 The Consultants should familiarize themselves with the local conditions and take them into account in preparing their Proposals, including attending a pre-proposal conference if one is specified in the **Data Sheet**. Attending any such pre-proposal conference is optional and is at the Consultants' expense. 7.4 The Client will timely provide, at no cost to the Consultants, the inputs, relevant project data, and reports required for the preparation of the Consultant's Proposal as specified in the **Data Sheet**.
3. Conflict of Interest	7.5 The Consultant is required to provide professional, objective, and impartial advice, at all times holding the Client's interests paramount, strictly avoiding conflicts with other assignments or its own corporate interests, and acting without any consideration for future work. 7.6 The Consultant has an obligation to disclose to the Client any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Consultant or the termination of its Contract and/or sanctions by the Bank. 7.6.1 Without limitation on the generality of the foregoing, the Consultant shall not be hired under the circumstances set forth below:
a. Conflicting activities	(i) Conflict between consulting activities and procurement of goods, works or non-consulting services: a firm that has been engaged by the Client to provide goods, works, or non-consulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-

	consulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its Affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for such preparation or implementation.
b. Conflicting assignments	(ii) Conflict among consulting assignments: a Consultant (including its Experts and Sub-consultants) or any of its Affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant for the same or for another Client.
c. Conflicting relationships	(iii) Relationship with the Client's staff: a Consultant (including its Experts and Sub-consultants) that has a close business or family relationship with a professional staff of the Borrower (or of the Client, or of implementing agency, or of a recipient of a part of the Bank's financing) who are directly or indirectly involved in any part of (i) the preparation of the Terms of Reference for the assignment, (ii) the selection process for the Contract, or (iii) the supervision of the Contract, may not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Bank throughout the selection process and the execution of the Contract.
4. Unfair Competitive Advantage	7.7 Fairness and transparency in the selection process require that the Consultants or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to the assignment in question. To that end, the Client shall indicate in the **Data Sheet** and make available to all shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any unfair competitive advantage over competing Consultants.
5. Corrupt and Fraudulent Practices	5.1 The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in Section 6. 5.2 In further pursuance of this policy, Consultant shall permit and shall cause its agents, Experts, Sub-consultants, sub-contractors, services providers, or suppliers to permit the Bank to inspect all accounts, records, and other documents relating to the submission of the Proposal and contract performance (in case of an award), and to have them audited by auditors

	appointed by the Bank.
6. Eligibility	7.8 The Bank permits consultants (individuals and firms, including Joint Ventures and their individual members) from all countries to offer consulting services for Bank-financed projects. 7.9 Furthermore, it is the Consultant’s responsibility to ensure that its Experts, joint venture members, Sub-consultants, agents (declared or not), sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by the Bank in the Applicable Guidelines. 7.10 As an exception to the foregoing Clauses 6.1 and 6.2 above:
a. Sanctions	7.10.1 A firm or an individual sanctioned by the Bank in accordance with the above Clause 5.1 or in accordance with “Anti-Corruption Guidelines” shall be ineligible to be awarded a Bank-financed contract, or to benefit from a Bank-financed contract, financially or otherwise, during such period of time as the Bank shall determine. The list of debarred firms and individuals is available at the electronic address specified in the **Data Sheet**.
b. Prohibitions	7.10.2 Firms and individuals of a country or goods manufactured in a country may be ineligible if so indicated in Section 5 (Eligible Countries) and: (a) as a matter of law or official regulations, the Borrower’s country prohibits commercial relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the provision of Services required; or (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower’s Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.
c. Restrictions for Government-owned Enterprises	6.3.3 Government-owned enterprises or institutions in the Borrower’s country shall be eligible only if they can establish that they (i) are legally and financially autonomous, (ii) operate under commercial law, and (iii) that they are not dependent agencies of the Client To establish eligibility, the government-owned enterprise or institution should provide all relevant documents (including its charter) sufficient

	to demonstrate that it is a legal entity separate from the government; it does not currently receive any substantial subsidies or budget support; it is not obligated to pass on its surplus to the government; it can acquire rights and liabilities, borrow funds, and can be liable for repayment of debts and be declared bankrupt; and it is not competing for a contract to be awarded by the government department or agency which, under the applicable laws or regulations, is its reporting or supervisory authority or has the ability to exercise influence or control over it.
d. Restrictions for public employees	6.3.4 Government officials and civil servants of the Borrower's country are not eligible to be included as Experts in the Consultant's Proposal unless such engagement does not conflict with any employment or other laws, regulations, or policies of the Borrower's country, and they (i) are on leave of absence without pay, or have resigned or retired; (ii) are not being hired by the same agency they were working for before going on leave of absence without pay, resigning, or retiring (in case of resignation or retirement, for a period of at least 6 (six) months, or the period established by statutory provisions applying to civil servants or government employees in the Borrower's country, whichever is longer. Experts who are employed by the government-owned universities, educational or research institutions are not eligible unless they have been full time employees of their institutions for a year or more prior to being included in Consultant's Proposal.; and (iii) their hiring would not create a conflict of interest.

B. Preparation of Proposals

7. General Considerations	**7.1.** In preparing the Proposal, the Consultant is expected to examine the RFP in detail. Material deficiencies in providing the information requested in the RFP may result in rejection of the Proposal.
8. Cost of Preparation of Proposal	**8.1.** The Consultant shall bear all costs associated with the preparation and submission of its Proposal, and the Client shall not be responsible or liable for those costs, regardless of the conduct or outcome of the selection process. The Client is not bound to accept any proposal, and reserves the right to annul the selection process

	at any time prior to Contract award, without thereby incurring any liability to the Consultant.
9. Language	**9.1.** The Proposal, as well as all correspondence and documents relating to the Proposal exchanged between the Consultant and the Client, shall be written in the language(s) specified in the **Data Sheet**.
10. Documents Comprising the Proposal	7.11 The Proposal shall comprise the documents and forms listed in the Data Sheet. 7.12 If specified in the **Data Sheet**, the Consultant shall include a statement of an undertaking of the Consultant to observe, in competing for and executing a contract, the Client country's laws against fraud and corruption (including bribery). 7.13 The Consultant shall furnish information on commissions, gratuities, and fees, if any, paid or to be paid to agents or any other party relating to this Proposal and, if awarded, Contract execution, as requested in the Financial Proposal submission form (Section 4).
11. Only One Proposal	7.14 The Consultant (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture in another Proposal. If a Consultant, including any Joint Venture member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude a Sub-consultant, or the Consultant's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the **Data Sheet**.
12. Proposal Validity	7.15 **The Data Sheet** indicates the period during which the Consultant's Proposal must remain valid after the Proposal submission deadline. 7.16 During this period, the Consultant shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the total price. 7.17 If it is established that any Key Expert nominated in the Consultant's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with Clause 5 of this ITC.

a. Extension of Validity Period	7.18 The Client will make its best effort to complete the negotiations within the proposal's validity period. However, should the need arise, the Client may request, in writing, all Consultants who submitted Proposals prior to the submission deadline to extend the Proposals' validity. 7.19 If the Consultant agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts. 7.20 The Consultant has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.
b. Substitution of Key Experts at Validity Extension	7.21 If any of the Key Experts become unavailable for the extended validity period, the Consultant shall provide a written adequate justification and evidence satisfactory to the Client together with the substitution request. In such case, a replacement Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert. 7.22 If the Consultant fails to provide a replacement Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Client, such Proposal will be rejected with the prior Bank's no objection.
c. Sub-Contracting	7.23 The Consultant shall not subcontract the whole of the Services.
13. Clarification and Amendment of RFP	**13.1.** The Consultant may request a clarification of any part of the RFP during the period indicated in the **Data Sheet** before the Proposals' submission deadline. Any request for clarification must be sent in writing, or by standard electronic means, to the Client's address indicated in the **Data Sheet**. The Client will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source) to all shortlisted Consultants. Should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below: 13.1.1. At any time before the proposal submission deadline, the Client may amend the RFP by issuing an amendment in writing or by standard electronic means. The amendment shall be sent to all shortlisted Consultants and will be binding on them. The shortlisted Consultants shall acknowledge receipt of all

	amendments in writing. 13.1.2. If the amendment is substantial, the Client may extend the proposal submission deadline to give the shortlisted Consultants reasonable time to take an amendment into account in their Proposals. **13.2.** The Consultant may submit a modified Proposal or a modification to any part of it at any time prior to the proposal submission deadline. No modifications to the Technical or Financial Proposal shall be accepted after the deadline.
14. Preparation of Proposals – Specific Considerations	**14.1.** While preparing the Proposal, the Consultant must give particular attention to the following: 14.1.1. If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other consultants in the form of a Joint Venture or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if permitted in the **Data Sheet**. In all such cases a shortlisted Consultant must obtain the written approval of the Client prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant shall be a lead member. If shortlisted Consultants associate with each other, any of them can be a lead member. 14.1.2. The Client may indicate in the **Data Sheet** the estimated Key Experts' time input (expressed in person-month) or the Client's estimated total cost of the assignment, but not both. This estimate is indicative and the Proposal shall be based on the Consultant's own estimates for the same. 14.1.3. If stated in the **Data Sheet**, the Consultant shall include in its Proposal at least the same time input (in the same unit as indicated in the **Data Sheet**) of Key Experts, failing which the Financial Proposal will be adjusted for the purpose of comparison of proposals and decision for award in accordance with the procedure in the **Data Sheet**. 14.1.4. For assignments under the Fixed-Budget selection method, the estimated Key Experts' time input is not disclosed. Total available budget, with an indication whether it is inclusive or exclusive of taxes, is given in the **Data Sheet**, and the Financial Proposal shall not exceed this budget.
15. Technical Proposal Format and Content	**15.1.** The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial information shall be declared non-responsive. 15.1.1 Consultant shall not propose alternative Key Experts. Only one CV shall be submitted for each Key Expert position. Failure to comply

	with this requirement will make the Proposal non-responsive. **15.2.** Depending on the nature of the assignment, the Consultant is required to submit a Full Technical Proposal (FTP), or a Simplified Technical Proposal (STP) as indicated in the **Data Sheet** and using the Standard Forms provided in Section 3 of the RFP.
16. Financial Proposal	**16.1.** The Financial Proposal shall be prepared using the Standard Forms provided in Section 4 of the RFP. It shall list all costs associated with the assignment, including (a) remuneration for Key Experts and Non-Key Experts, (b) reimbursable expenses indicated in the **Data Sheet**.
a. Price Adjustment	**16.2.** For assignments with a duration exceeding 18 months, a price adjustment provision for foreign and/or local inflation for remuneration rates applies if so stated in the **Data Sheet**.
b. Taxes	**16.3.** The Consultant and its Sub-consultants and Experts are responsible for meeting all tax liabilities arising out of the Contract unless stated otherwise in the **Data Sheet**. Information on taxes in the Client’s country is provided in the **Data Sheet**.
c. Currency of Proposal	**16.4.** The Consultant may express the price for its Services in the currency or currencies as stated in the **Data Sheet**. If indicated in the **Data Sheet**, the portion of the price representing local cost shall be stated in the national currency.
d. Currency of Payment	**16.5.** Payment under the Contract shall be made in the currency or currencies in which the payment is requested in the Proposal.

C. Submission, Opening and Evaluation

17. Submission, Sealing, and Marking of Proposals	17.1 The Consultant shall submit a signed and complete Proposal comprising the documents and forms in accordance with Clause 10 (Documents Comprising Proposal). The submission can be done by mail or by hand. If specified in the **Data Sheet**, the Consultant has the option of submitting its Proposals electronically. 17.2 An authorized representative of the Consultant shall sign the original submission letters in the required format for both the Technical Proposal and, if applicable, the Financial Proposal and shall initial all pages of both. The authorization shall be in the form of a written power of attorney attached to the Technical Proposal. 17.2.1 A Proposal submitted by a Joint Venture shall be signed by all members so as to be legally binding on all members, or by an authorized representative who has a written power of attorney signed by each member’s authorized representative. 17.3 Any modifications, revisions, interlineations, erasures, or overwriting shall be valid only if they are signed or initialed by the

	person signing the Proposal. 17.4 The signed Proposal shall be marked "ORIGINAL", and its copies marked "COPY" as appropriate. The number of copies is indicated in the **Data Sheet**. All copies shall be made from the signed original. If there are discrepancies between the original and the copies, the original shall prevail. 17.5 The original and all the copies of the Technical Proposal shall be placed inside of a sealed envelope clearly marked "**TECHNICAL PROPOSAL**", "[Name of the Assignment]", reference number, name and address of the Consultant, and with a warning "**DO NOT OPEN UNTIL [INSERT THE DATE AND THE TIME OF THE TECHNICAL PROPOSAL SUBMISSION DEADLINE]**." 17.6 Similarly, the original Financial Proposal (if required for the applicable selection method) shall be placed inside of a sealed envelope clearly marked "**FINANCIAL PROPOSAL**" followed by the name of the assignment, reference number, name and address of the Consultant, and with a warning "**DO NOT OPEN WITH THE TECHNICAL PROPOSAL**." 17.7 The sealed envelopes containing the Technical and Financial Proposals shall be placed into one outer envelope and sealed. This outer envelope shall bear the submission address, RFP reference number, the name of the assignment, Consultant's name and the address, and shall be clearly marked "**DO NOT OPEN BEFORE** [insert the time and date of the submission deadline indicated in the Data Sheet]". 17.8 If the envelopes and packages with the Proposal are not sealed and marked as required, the Client will assume no responsibility for the misplacement, loss, or premature opening of the Proposal. 17.9 The Proposal or its modifications must be sent to the address indicated in the **Data Sheet** and received by the Client no later than the deadline indicated in the **Data Sheet**, or any extension to this deadline. Any Proposal or its modification received by the Client after the deadline shall be declared late and rejected, and promptly returned unopened.
18. Confidentiality	18.1 From the time the Proposals are opened to the time the Contract is awarded, the Consultant should not contact the Client on any matter related to its Technical and/or Financial Proposal. Information relating to the evaluation of Proposals and award recommendations shall not be disclosed to the Consultants who submitted the Proposals or to any other party not officially concerned with the process, until the publication of the Contract award information. 18.2 Any attempt by shortlisted Consultants or anyone on behalf

	of the Consultant to influence improperly the Client in the evaluation of the Proposals or Contract award decisions may result in the rejection of its Proposal, and may be subject to the application of prevailing Bank's sanctions procedures. 18.3 Notwithstanding the above provisions, from the time of the Proposals' opening to the time of Contract award publication, if a Consultant wishes to contact the Client or the Bank on any matter related to the selection process, it should do so only in writing.
19. Opening of Technical Proposals	19.1 The Client's evaluation committee shall conduct the opening of the Technical Proposals in the presence of the shortlisted Consultants' authorized representatives who choose to attend (in person, or online if this option is offered in the **Data Sheet**). The opening date, time and the address are stated in the **Data Sheet**. The envelopes with the Financial Proposal shall remain sealed and shall be securely stored with a reputable public auditor or independent authority until they are opened in accordance with Clause 23 of the ITC. 19.2 At the opening of the Technical Proposals the following shall be read out: (i) the name and the country of the Consultant or, in case of a Joint Venture, the name of the Joint Venture, the name of the lead member and the names and the countries of all members; (ii) the presence or absence of a duly sealed envelope with the Financial Proposal; (iii) any modifications to the Proposal submitted prior to proposal submission deadline; and (iv) any other information deemed appropriate or as indicated in the **Data Sheet**.
20. Proposals Evaluation	20.1 Subject to provision of Clause 15.1 of the ITC, the evaluators of the Technical Proposals shall have no access to the Financial Proposals until the technical evaluation is concluded and the Bank issues its "no objection", if applicable. 20.2 The Consultant is not permitted to alter or modify its Proposal in any way after the proposal submission deadline except as permitted under Clause 12.7 of this ITC. While evaluating the Proposals, the Client will conduct the evaluation solely on the basis of the submitted Technical and Financial Proposals.
21. Evaluation of Technical Proposals	21.1 The Client's evaluation committee shall evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and the RFP, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet**. Each responsive Proposal will be given a technical score. A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP or if it fails to achieve the minimum technical score indicated in the **Data Sheet**.
22. Financial Proposals for	22.1 Following the ranking of the Technical Proposals, when the selection is based on quality only (QBS), the top-ranked Consultant is invited to

QBS	negotiate the Contract. 22.2 If Financial Proposals were invited together with the Technical Proposals, only the Financial Proposal of the technically top-ranked Consultant is opened by the Client's evaluation committee. All other Financial Proposals are returned unopened after the Contract negotiations are successfully concluded and the Contract is signed.
23. Public Opening of Financial Proposals (for QCBS, FBS, and LCS methods)	23.1 After the technical evaluation is completed and the Bank has issued its no objection (if applicable), the Client shall notify those Consultants whose Proposals were considered non-responsive to the RFP and TOR or did not meet the minimum qualifying technical score (and shall provide information relating to the Consultant's overall technical score, as well as scores obtained for each criterion and sub-criterion) that their Financial Proposals will be returned unopened after completing the selection process and Contract signing. The Client shall simultaneously notify in writing those Consultants that have achieved the minimum overall technical score and inform them of the date, time and location for the opening of the Financial Proposals. The opening date should allow the Consultants sufficient time to make arrangements for attending the opening. The Consultant's attendance at the opening of the Financial Proposals (in person, or online if such option is indicated in the **Data Sheet**) is optional and is at the Consultant's choice. 23.2 The Financial Proposals shall be opened by the Client's evaluation committee in the presence of the representatives of those Consultants whose proposals have passed the minimum technical score. At the opening, the names of the Consultants, and the overall technical scores, including the break-down by criterion, shall be read aloud. The Financial Proposals will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copies of the record shall be sent to all Consultants who submitted Proposals and to the Bank.
24. Correction of Errors	24.1 Activities and items described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.
a. Time-Based Contracts	24.1.1 If a Time-Based contract form is included in the RFP, the Client's evaluation committee will (a) correct any computational or arithmetical errors, and (b) adjust the prices if they fail to reflect all inputs included for the respective activities or items in the Technical Proposal. In case of discrepancy between (i) a partial amount (sub-total) and the total amount, or (ii) between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between words and figures, the former will prevail. In case of discrepancy between the Technical and Financial Proposals

	in indicating quantities of input, the Technical Proposal prevails and the Client's evaluation committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.
b. Lump-Sum Contracts	24.2 If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made. The total price, net of taxes understood as per Clause ITC 25 below, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price.
25. Taxes	25.1 The Client's evaluation of the Consultant's Financial Proposal shall exclude taxes and duties in the Client's country in accordance with the instructions in the **Data Sheet**.
26. Conversion to Single Currency	26.1 For the evaluation purposes, prices shall be converted to a single currency using the selling rates of exchange, source and date indicated in the **Data Sheet**.
27. Combined Quality and Cost Evaluation	
a. Quality- and Cost-Based Selection (QCBS)	27.1 In the case of QCBS, the total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the Data Sheet. The Consultant achieving the highest combined technical and financial score will be invited for negotiations.
b. Fixed-Budget Selection (FBS)	27.2 In the case of FBS, those Proposals that exceed the budget indicated in Clause 14.1.4 of the Data Sheet shall be rejected. 27.3 The Client will select the Consultant that submitted the highest-ranked Technical Proposal that does not exceed the budget indicated in the RFP, and invite such Consultant to negotiate the Contract.

c. Least-Cost Selection	27.4 In the case of Least-Cost Selection (LCS), the Client will select the Consultant with the lowest evaluated total price among those consultants that achieved the minimum technical score, and invite such Consultant to negotiate the Contract.
D. Negotiations and Award	
28. Negotiations	28.1 The negotiations will be held at the date and address indicated in the **Data Sheet** with the Consultant’s representative(s) who must have written power of attorney to negotiate and sign a Contract on behalf of the Consultant. 28.2 The Client shall prepare minutes of negotiations that are signed by the Client and the Consultant’s authorized representative.
a. Availability of Key Experts	28.3 The invited Consultant shall confirm the availability of all Key Experts included in the Proposal as a pre-requisite to the negotiations, or, if applicable, a replacement in accordance with Clause 12 of the ITC. Failure to confirm the Key Experts’ availability may result in the rejection of the Consultant’s Proposal and the Client proceeding to negotiate the Contract with the next-ranked Consultant. 28.4 Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall offer a substitute Key Expert within the period of time specified in the letter of invitation to negotiate the Contract, who shall have equivalent or better qualifications and experience than the original candidate.
b. Technical negotiations	28.5 The negotiations include discussions of the Terms of Reference (TORs), the proposed methodology, the Client’s inputs, the special conditions of the Contract, and finalizing the “Description of Services” part of the Contract. These discussions shall not substantially alter the original scope of services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.
c. Financial negotiations	28.6 The negotiations include the clarification of the Consultant’s tax liability in the Client’s country and how it should be reflected in the Contract. 28.7 If the selection method included cost as a factor in the evaluation, the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated. 28.8 In the case of a Time-Based contract, unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts’ remuneration rates are much higher than the typically charged rates by consultants in similar contracts. In such case, the

	Client may ask for clarifications and, if the fees are very high, ask to change the rates after consultation with the Bank. The format for (i) providing information on remuneration rates in the case of Quality Based Selection; and (ii) clarifying remuneration rates' structure under Clause 28.8 above, is provided in Appendix A to the Financial Form FIN-3: Financial Negotiations – Breakdown of Remuneration Rates.
29 Conclusion of Negotiations	29.1 The negotiations are concluded with a review of the finalized draft Contract, which then shall be initialed by the Client and the Consultant's authorized representative. 29.2 If the negotiations fail, the Client shall inform the Consultant in writing of all pending issues and disagreements and provide a final opportunity to the Consultant to respond. If disagreement persists, the Client shall terminate the negotiations informing the Consultant of the reasons for doing so. After having obtained the Bank's no objection, the Client will invite the next-ranked Consultant to negotiate a Contract. Once the Client commences negotiations with the next-ranked Consultant, the Client shall not reopen the earlier negotiations.
30 Award of Contract	30.1 After completing the negotiations the Client shall obtain the Bank's no objection to the negotiated draft Contract, if applicable; sign the Contract; publish the award information as per the instructions in the **Data Sheet**; and promptly notify the other shortlisted Consultants. 30.2 The Consultant is expected to commence the assignment on the date and at the location specified in the **Data Sheet**.

Instructions to Consultants

TECHNICAL PROPOSAL SUBMISSION FORM

{Location, Date}

To

[Name and address of Client]

Dear Sirs:

We, the undersigned, offer to provide the consulting services for Providing Technical Assistance to Ministry of Urban Development, Govt. of India in Carrying out surveys in 116 cities of India in order to assess a Liveability Index for each of them in accordance with your Request for Proposals dated *[Insert Date]* and our Proposal. *on the QCBS selection method stated in the RFP:* "We are hereby submitting our Proposal, which includes this Technical Proposal and a Financial Proposal sealed in a separate envelope"

{If the Consultant is a joint venture, insert the following*:* We are submitting our Proposal a joint venture with: {Insert a list with full name and the legal address of each member, and indicate the lead member}. We have attached a copy {insert: "of our letter of intent to form a joint venture" or, if a JV is already formed, "of the JV agreement"} signed by every participating member, which details the likely legal structure of and the confirmation of joint and severable liability of the members of the said joint venture.

{OR

If the Consultant's Proposal includes Sub-consultants, insert the following: We are submitting our Proposal with the following firms as Sub-consultants: {Insert a list with full name and address of each Sub-consultant.}

We hereby declare that:

(a) All the information and statements made in this Proposal are true and we accept that any misinterpretation or misrepresentation contained in this Proposal may lead to our disqualification by the Client and/or may be sanctioned by the Bank.

(b) Our Proposal shall be valid and remain binding upon us for the period of time specified in the Data Sheet, Clause 12.1.

(c) We have no conflict of interest in accordance with ITC 3.

(d) We meet the eligibility requirements as stated in ITC 6, and we confirm our understanding of our obligation to abide by the Bank’s policy in regard to corrupt and fraudulent practices as per ITC 5.

(e) We, along with any of our sub-consultants, subcontractors, suppliers, or service providers for any part of the contract, are not subject to, and not controlled by any entity or individual that is subject to, a temporary suspension or a debarment imposed by a member of the World Bank Group or a debarment imposed by the World Bank Group in accordance with the Agreement for Mutual Enforcement of Debarment Decisions between the World Bank and other development banks. Further, we are not ineligible under the Employer’s country laws or official regulations or pursuant to a decision of the United Nations Security Council;

(f) In competing for (and, if the award is made to us, in executing) the Contract, we undertake to observe the laws against fraud and corruption, including bribery, in force in the country of the Client.

(g) Except as stated in the Data Sheet, Clause 12.1, we undertake to negotiate a Contract on the basis of the proposed Key Experts. We accept that the substitution of Key Experts for reasons other than those stated in ITC Clause 12 and ITC Clause 28.4 may lead to the termination of Contract negotiations.

(h) Our Proposal is binding upon us and subject to any modifications resulting from the Contract negotiations.

We undertake, if our Proposal is accepted and the Contract is signed, to initiate the Services related to the assignment no later than the date indicated in Clause 30.2 of the Data Sheet.

We understand that the Client is not bound to accept any Proposal that the Client receives.

We remain,

Yours sincerely,

Name and Title of Signatory: ____
Name of Consultant (company’s name or JV’s name):
In the capacity of: ____

Address: ____
Contact information (phone and e-mail): ________________________________

{For a joint venture, either all members shall sign or only the lead member, in which case the power of attorney to sign on behalf of all members shall be attached}

36 FORM TECH-2

CONSULTANT'S ORGANIZATION AND EXPERIENCE

Form TECH-2: a brief description of the Consultant's organization and an outline of the recent experience of the Consultant that is most relevant to the assignment. In the case of a joint venture, information on similar assignments shall be provided for each partner. For each assignment, the outline should indicate the names of the Consultant's Key Experts and Sub-consultants who participated, the duration of the assignment, the contract amount (total and, if it was done in a form of a joint venture or a sub-consultancy, the amount paid to the Consultant), and the Consultant's role/involvement.

A - Consultant's Organization

1. Provide here a brief description of the background and organization of your company, and – in case of a joint venture – of each member for this assignment.

2. Include organizational chart, a list of Board of Directors, and beneficial ownership

B - Consultant's Experience

1**. List only previous similar assignments successfully completed[2] in the last *10 (ten)* years.**

2. List only those assignments for which the Consultant was legally contracted by the Client as a company or was one of the joint venture partners. Assignments completed by the Consultant's individual experts working privately or through other consulting firms cannot be claimed as the relevant experience of the Consultant, or that of the Consultant's partners or sub-consultants, but can be claimed by the Experts themselves in their CVs. The Consultant should be prepared to substantiate the claimed experience by presenting copies of relevant documents and references if so requested by the Client.

---

[2] The Claims of completion shall be self-certified. A copy of agreement along with or showing the scope of the work is required to be submitted. Substantially completed assignments shall be considered in case the Applicant has completed and submitted Draft Final Report. The client may seek clarifications, if required

Duration	Assignment name/& brief description of main deliverables/outputs	Name of Client & Country of Assignment	Approx. Contract value (in US$ equivalent)/ Amount paid to your firm	Role on the Assignment
{e.g., Jan.2009–Apr.2010}	{e.g., "Improvement quality of...............": designed master plan for rationalization of ....; }	{e.g., Ministry of ......, country}	{e.g., US$1 mill/US$0.5 mill}	{e.g., Lead partner in a JV A&B&C}
{e.g., Jan-May 2008}	{e.g., "Support to sub-national government....." : drafted secondary level regulations on..............}	{e.g., municipality of........., country}	{e.g., US$0.2 mil/US$0.2 mil}	{e.g., sole Consultant}

37 FORM TECH-3

COMMENTS AND SUGGESTIONS ON THE TERMS OF REFERENCE, COUNTERPART STAFF, AND FACILITIES TO BE PROVIDED BY THE CLIENT

Form TECH-3: comments and suggestions on the Terms of Reference that could improve the quality/effectiveness of the assignment; and on requirements for counterpart staff and facilities, which are provided by the Client, including: administrative support, office space, local transportation, equipment, data, etc.

A - On the Terms of Reference

{Improvements to the Terms of Reference, if any}

B - On Counterpart Staff and Facilities

{Comments on counterpart staff and facilities to be provided by the Client. For example, administrative support, office space, local transportation, equipment, data, background reports, etc., if any}

38 FORM TECH-4

DESCRIPTION OF APPROACH, METHODOLOGY, AND WORK PLAN IN RESPONDING TO THE TERMS OF REFERENCE

Form TECH-4: a description of the approach, methodology and work plan for performing the assignment, including a detailed description of the proposed methodology and staffing for training, if the Terms of Reference specify training as a specific component of the assignment.

{Suggested structure of your Technical Proposal (in FTP format):

a) Technical Approach and Methodology
b) Work Plan
c) Organization and Staffing}

a) ***Technical Approach and Methodology.*** {Please explain your understanding of the objectives of the assignment as outlined in the Terms of Reference (TORs), the technical approach, and the methodology you would adopt for implementing the tasks to deliver the expected output(s), and the degree of detail of such output. **Please do not repeat/copy the TORs in here.**}

b) ***Work Plan.*** {Please outline the plan for the implementation of the main activities/tasks of the assignment, their content and duration, phasing and interrelations, milestones (including interim approvals by the Client), and tentative delivery dates of the reports. The proposed work plan should be consistent with the technical approach and methodology, showing your understanding of the TOR and ability to translate them into a feasible working plan. A list of the final documents (including reports) to be delivered as final output(s) should be included here. The work plan should be consistent with the Work Schedule Form.}

c) ***Organization and Staffing.*** {Please describe the structure and composition of your team, including the list of the Key Experts, Non-Key Experts and relevant technical and administrative support staff.}

	{e.g., In/out airport /Rly Station/Bus Stand transportation}	{Trip}						
	Local Travel	Month						
	{e.g., Communication costs (telephone, internet etc.}	Month						
	{ e.g., reproduction of reports}	month						
	{e.g., Office running cost including stationery, office maintenance, office equipment etc.)	month						

	....							
Total Costs								

Legend*:*

"Per diem allowance" is paid for each night the expert is required by the Contract to be away from his/her usual place of residence.

Section 5. Eligible Countries

In reference to ITC6.3.2, for the information of shortlisted Consultants, at the present time firms, goods and services from the following countries are excluded from this selection:

Under the ITC 6.3.2 (a): None

Under the ITC 6.3.2 (b): None

Section 6. Bank Policy – Corrupt and Fraudulent Practices

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

"**Fraud and Corruption**

1.23 It is the Bank's policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

(i) "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[4];

(ii) "fraudulent practice" is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[5];

(iii) "collusive practices" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[6];

(iv) "coercive practices" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[7];

---

[4] For the purpose of this sub-paragraph, "another party" refers to a public official acting in relation to the selection process or contract execution. In this context "public official" includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[5] For the purpose of this sub-paragraph, "party" refers to a public official; the terms "benefit" and "obligation" relate to the selection process or contract execution; and the "act or omission" is intended to influence the selection process or contract execution.

[6] For the purpose of this sub-paragraph, "parties" refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other's bid prices or other conditions.

[7] For the purpose of this sub-paragraph, "party" refers to a participant in the selection process or contract execution.

(v) "obstructive practice" is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank's inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare misprocurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank's sanctions procedures[8], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[9] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[8] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank's sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[9] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant's proposal for the particular services; or (ii) appointed by the Borrower.

Section 7: Terms of Reference

7.1 Background

(i) The Government of India along with State and Local Governments is implementing several flagship Urban Missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more 'Liveable'. This will mean not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunity;

(ii) In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their 'Liveability' and measure their progress over time. In this context, the Ministry of Urban Development has developed a set of 'Liveability Standards in Cities'. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft 'Liveability Standards in Cities' as at http://smartcities.gov.in/upload/uploadfiles/files/LiveabilityStandards.pdf ;

(iii) A total of 79 different Liveability Standards are proposed across 15 different categories. The Ministry proposes to conduct an 'Annual Assessment of Liveability in Cities' across the various standards and develop a 'City Liveability Index' – an annual index of the liveability standards in Indian cities. This is an ambitious national project requiring yearly compilation of a large number of datasets across the various Liveability Standards;

(iv) A total of 116 cities will be covered in Year 1 (list of cities for Year 1 is provided at Annexure A), and the coverage of cities may be extended in subsequent years. The following classification of cities will be used for the purpose of the study

Classification*		**Population range**
1	Small Towns	Less than 50,000 population
2	Medium Towns	Population ≥ 50,000 < 5 lakh
3	Large Towns	Population ≥ 5 lakh < 1 million
4	Metropolitan Cities	Population ≥ 1 million < 5 million
5	Megapolis	Population ≥ 5 million

** Based on the Classification given in the URDPFI guidelines, 2014*

(v) Given the magnitude of data collection and field surveys required, the MoHUA wishes to engage the services of a reputed national/international agency/institution for **Conducting a study and field survey of Liveability Standards** (the **'Assignment'**) across all cities included in the study. This will cover all relevant data required by the MoHUA for computing the 79 Liveability Standards. The data generated from the assignment will be used by the MoHUA for calculating the City Liveability Index of cities on an annual basis;

(vi) The contract will be valid for activities in Year 1 (as defined in Clause 7.5) only.

7.2 Objective of the Assignment

i. Compile reliable and high quality data for all cities included in the study, as required by the MoHUA for the computation of Liveability Indexes and as prescribed in the 'Liveability Standards in Cities' document;

ii. Develop a robust electronic database of datasets that can be used to assess the progress of cities on an annual basis.

7.3 Description of Tasks

The Tasks to be performed and key activities under the assignment will include:

Initiation Activities

i. Conduct State-level workshops (1-day each) on behalf of MoHUA Cost for such workshops must be included in the proposal. The workshops shall achieve the following:
    a. Familiarise States and City governments regarding the overall programme, process that will be followed for data collection, and likely timelines;
    b. Provide State and City governments with a detailed list of data points needed, likely areas of support and information on how the cities should prepare for the surveys;
    c. Help in preparing a preliminary time-line for city meetings and field visits based on preferences indicated by states and cities;

ii. Conduct a Reconnaissance Study of all cities included in the project (as per Annexure A). The study shall inter-alia include:
    a. City-level kick-off meetings with key officials from City governments, Smart City SPVs, various departments and utilities, DISCOMs etc. for assessing data availability and sources, preferred timelines, key nodal officers etc.;
    b. Study of city demography, socio-economic stratification and geography that has a bearing on sample size and distribution;
    c. Study of existing reports, studies, alternative data sources etc.

iii. Prepare and submit to the MoHUA, an Inception Report (separate for all cities included in the study), including inter-alia the following:
    a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.;

    b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments;

c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;

iv. Convey the finalized schedule and Plan of Action to cities allowing them to mobilise support for the activities. A Minimum of 15 days of preparation period must be given to cities before data collection and surveys;

Data Collection and Field Surveys

v. Mobilize Field Teams (with adequate and qualified manpower as indicated in Clause 7.6) for obtaining data required for all 79 Standards;

vi. Conduct field surveys for a statistically relevant sample as per nationally/internationally accepted standards for sampling size and distribution. The method for determining sample size and distribution should be as proposed in the bid during RfP stage and finalized in consultation with the MoHUA as part of the Inception Report;

vii. Maintain and submit all raw data and data collection forms to MoHUA without any editing and/or masking (including particulars such as names of respondents, exact address and contact details, date and time of survey, and GPS coordinates in case of samples taken for pollution etc.);

viii. Conduct analysis of the raw data through the Analytics Team ((with adequate and qualified manpower as indicated in Clause 7.6) and prepare aggregate data sets for all 79 standards for each of the cities adopting the methodology as prescribed in http://smartcities.gov.in/upload/uploadfiles/files/MethodologicalReportFinal.pdf

ix. Submit Draft City Assessment Report to the MoHUA (separate for each city), including inter-alia the following:

   a. Database of aggregate data in the format as mutually agreed

   b. All raw data and data sheets;

   c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;

x. Submit Draft City Assessment Report to respective city and state governments for inviting comments and suggestions (if any). A period of 15 days shall be given to cities to submit their
responses, after which the data will be deemed to be accepted by the city;

xi. Submit Final City Assessment Report to the MoHUA after including any recommendations of the MoHUA and after suitably incorporating any valid feedback received from cities/states with the approval of the MoHUA;

xii. Develop and maintain a digital database of all data sets collected every year for each city. The format should be finalized in consultation with the MoHUA and enable examination of raw data as well as aggregated numbers on a year-on-year basis;

Other support activities

xiii. Provide all necessary support to the NIUA or other reputed third-party agency(ies) appointed by the MoHUA for undertaking verification of the data submitted by the Consultant;

xiv. Provide any technical support as required by the MoHUA or its assigned team during the development of scoring sheets and city indexes for the various Standards;

xv. Conduct a National workshop (1-day) on behalf of MoHUA for disseminating the findings of the Ministry. Costs for the workshop must be included in the proposal.

7.4 Results to be achieved

The Assignment will result in the creation of a robust database (updated annually) of critical datasets across 79 different Liveability parameters in Indian Cities. This will form the basis for the Ministry to compute an annual City Liveability Index of cities. This can also act as a repository of critical data for encouraging research on cities in India.

7.5 Timelines and Deliverables for Year 1*

Report	**Time line**	**Documents**	**Deliverables and Contents**
Inception Report	8 weeks from start date as per contract	Hard copies, and Electronic version	Separate for each city, including: a. Detailed Plan of Action, Minutes of state level workshops, , city meetings including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.; b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments; c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;

Report	Time line	Documents	Deliverables and Contents
Draft City Assessment Report	12 weeks from start date as per contract	Hard Copies, and Electronic version	Separate for each city, including: a. Database of aggregate data in the format as mutually agreed.b. All raw data and data sheets; c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other
Final City Assessment Report	20 weeks from start date as per contract	Hard Copies, and Electronic version	Separate report for each city. The Reports should include all recommendations of the MoHUA on the Draft Reports. The Report should also incorporate any valid suggestions/feedback received from cities/states with the approval of the MoHUA.

***** Timelines for subsequent years will be as decided by MoHUA

7.6 Team Composition and Qualification Requirement for key Experts

a. **Team (full-time):** Given that the assignment requires a deep understanding of the urban sector, as well as of economics, statistics and field studies, the Team Leader and the Core Team of experts must have suitable skills for undertaking the assignment and successfully completing the tasks enumerated. The Team Leader should bring to the table a strong mix of academic accomplishments, urban sector experience and experience of leading similar national/international assignments.

b. **Analytics Team (full-time):** should be manned with experts capable of analysing large data sets, checking and correcting for errors and inconsistencies, development and management of digital databases and preparation of reports. The team should therefore include adequate number of IT specialist(s), database management/ MIS expert(s), urban economics/planning specialists for **Core** data analysis and verification.

c. **Field Teams per city:** should be manned with adequate number of persons (depending upon city size, stratification and geography) capable of conducting field surveys and extracting credible secondary data from various city/state departments and utilities. Each team should therefore include adequate number of qualified urban professionals for extracting secondary data from various sources, persons with market/field research experience and data processors/ data entry operators. Each team should be led by a suitably experienced Urban Specialist (Urban Planner/ Urban Economist) with at least 10 years of experience in the urban sector and at least 5 years of experience in secondary and primary data collection and analysis. The Core Team proposed should be able to demonstrate the qualifications and experience as prescribed in table below:

7.7 Core Team (CV to be evaluated)

Position	**Minimum Qualifications & skills**	**Minimum Experience**
Team Leader	Qualification - Bachelor's Degree in Engineering/Architecture/Planning/Economics/Management with post-graduate degree in Planning/Management or equivalent from a recognized University In-depth knowledge of all aspects of urban sector, including governance-related, socio-economic, environmental and engineering aspects Proven academic credibility in terms of published papers, articles etc. Experience of leading national level urban research assignments Experience of leading national/international ranking assignments	At least 20 years of which at least last 10 years must have been for the Urban Sector
Urban Management Specialist/ Planning Expert	Bachelor's Degree in Engineering/Architecture/Planning with post-graduate degree in Management or equivalent from a recognized University Good knowledge of urban sector Experience of playing a core role in similar national/international data collection and ranking assignments	At least 15 years of experience in the Urban Sector
Market Research Specialist	Master's Degree in Management from a recognized University Good knowledge of mobilization and organization for market research Experience of leading national/international field research assignments	At least 15 years of which at least last 7 years must have been in the field of Market Research
Statistician	Master's Degree in Statistics from a recognized University Good knowledge of urban data sources and urban data analysis Experience of statistically designing and managing sample surveys	At least 15 years of which at least last 5 years must have been for the Urban Sector

7.8 TA management and counterpart staff

The assignment will be contracted by the MoHUA for carrying out the assignment.

Items to be provided by the MoHUA

a. The MoHUA will set up a Coordinating Team at the national level for providing guidance and support to the Core Team for executing the assignment;

b. Provide support for organizing various State and city level workshops and meetings;.
c. Provide feedback from time to time for finalizing deliverables;
d. Set up a monitoring system for timely validation of data and finalization of aggregate data.

Items to be provided by the agency

In addition to the results and deliverables listed above, the Consultant will:

a. Provide for all manpower, materials and equipment necessary for carrying out the assignment;
b. Provide all resources for report production and necessary translations;
c. Provide all Computers and software required by the teams for carrying out the tasks;
d. Arrange for all transportation and travelling required for the teams including Investigations.

SUMMARY DESCRIPTION

STANDARD REQUEST FOR PROPOSALS (for Selection of Consulting Firms for Assessment of Liveability Indices for 116 cities in India)

PART I – SELECTION PROCEDURES AND REQUIREMENTS

Section 1: Letter of Invitation (LOI)

This Section is a template of a letter from the Client addressed to a shortlisted consulting firm inviting it to submit a proposal for a consulting assignment. The LOI includes a list of all shortlisted firms to whom similar letters of invitation are sent, and a reference to the selection method and applicable guidelines or policies of the financing institution that govern the selection and award process.

Section 2: Instructions to Consultants and Data Sheet

This Section consists of two parts: "Instructions to Consultants" and "Data Sheet". "Instructions to Consultants" contains provisions that are to be used without modifications. "Data Sheet" contains information specific to each selection and corresponds to the clauses in "Instructions to Consultants" that call for selection-specific information to be added. This Section provides information to help shortlisted consultants prepare their proposals. Information is also provided on the submission, opening and evaluation of proposals, contract negotiation and award of contract. Information in the Data Sheet indicates whether a Full Technical Proposal (FTP) or a Simplified Technical Proposal (STP) shall be used.

Section 3: Technical Proposal – Standard Forms

This Section includes the forms for FTP and STP that are to be completed by the shortlisted consultants and submitted in accordance with the requirements of Section 2.

Section 4: Financial Proposal – Standard Forms

This Section includes the financial forms that are to be completed by the shortlisted consultants, including the consultant's costing of its technical proposal, which are to be submitted in accordance with the requirements of Section 2.

Section 5: Eligible Countries

This Section contains information regarding eligible countries.

Section 6: Bank's Policy – Corrupt and Fraudulent Practices

This Section provides shortlisted consultants with the reference to the Bank’s policy in regard to corrupt and fraudulent practices applicable to the selection process. This Section is also incorporated in the standard forms of contract (Section 8) as Attachment 1.

Section 7: Terms of Reference (TORs)

This Section describes the scope of services, objectives, goals, specific tasks required to implement the assignment, and relevant background information; provides details on the required qualifications of the key experts; and lists the expected deliverables. This Section shall not be used to over-write provisions in Section 2.

PART II – CONDITIONS OF CONTRACT AND CONTRACT FORMS

Section 8: Standard Forms of Contract

This Section includes two types of standard contract forms for large or complex assignments: a Time-Based Contract and a Lump-Sum Contract. Each type includes General Conditions of Contract (“GCC”) that shall not be modified, and Special Conditions of Contract (“SCC”). The SCC include clauses specific to each contract to supplement the General Conditions.

Each standard form of contract incorporates “Bank’s Policy – Corrupt and Fraudulent Practices” (Section 6 of Part I) in a form of Attachment 1.

SELECTION OF CONSULTANTS

REQUEST FOR PROPOSALS

Selection of Consulting Services for: Assessment of Liveability Indices for 116 cities in India

Client: Ministry of Housing and Urban Affairs (MoHUA), Government of India (GoI)

Country: India

Project: Capacity Building for Urban Development (CBUD)

Issued on: 27th November, 2017

G. Vijay Kumar,
Under Secretary to the Government of India,
Room No. 202C, Nirman Bhavan, New Delhi. (Ph. 23063217)
on behalf of Project Director, CBUD, MoHUA, Nirman Bhavan, New Delhi.

Section 2. Instructions to Consultants and Data Sheet

A. General Provisions

1. Definitions

(a) "Affiliate(s)" means an individual or an entity that directly or indirectly controls, is controlled by, or is under common control with the Consultant.

(b) "Applicable Guidelines" means the policies of the Bank governing the selection and Contract award process as set forth in this RFP.

(c) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Data Sheet**, as they may be issued and in force from time to time.

(d) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA).

(e) "Borrower" means the Government, Government agency or other entity that signs the loan agreement with the Bank.

(f) "Client" means the implementing agency that signs the Contract for the Services with the selected Consultant.

(g) "Consultant" means a legally-established professional consulting firm or an entity that may provide or provides the Services to the Client under the Contract.

(h) "Contract" means a legally binding written agreement signed between the Client and the Consultant and includes all the attached documents listed in its Clause 1 (the General Conditions of Contract (GCC), the Special Conditions of Contract (SCC), and the Appendices).

(i) "Data Sheet" means an integral part of the Instructions to Consultants (ITC) Section 2 that is used to reflect specific country and assignment conditions to supplement, but not to over-write, the provisions of the ITC.

(j) "Day" means a calendar day.

(k) "Experts" means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or Joint Venture member(s).

(l) “Government” means the government of the Client’s country.

(m) “Joint Venture (JV)” means an association with or without a legal personality distinct from that of its members, of more than one Consultant where one member has the authority to conduct all business for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract.

(n) “Key Expert(s)” means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose CV is taken into account in the technical evaluation of the Consultant’s proposal.

(o) “ITC” (this Section 2 of the e-RFP) means the Instructions to Consultants that provide~~s~~ the shortlisted Consultants with all information needed to prepare their Proposals.

(p) “LOI” (this Section 1 of the e-RFP) means the Letter of Invitation being sent by the Client to the shortlisted Consultants.

(q) “Non-Key Expert(s)” means an individual professional provided by the Consultant or its Sub-consultant and who is assigned to perform the Services or any part thereof under the Contract and whose CVs are not evaluated individually.

(r) “Proposal” means the Technical Proposal and the Financial Proposal of the Consultant.

(s) “RFP” means the Request for Proposals to be prepared by the Client for the electronic selection of Consultants, based on the SRFP.

(t) “SRFP” means the trial version of Standard Request for Proposals for the use in electronic procurement issued by the Bank, which must be used by the Client as the basis for the preparation of the RFP.

(u) “Services” means the work to be performed by the Consultant pursuant to the Contract.

(v) “Sub-consultant” means an entity to whom the Consultant intends to subcontract any part of the Services while

remaining responsible to the Client during the performance of the Contract.

(w) "TORs" (this Section 7 of the RFP) means the Terms of Reference that explain the objectives, scope of work, activities, and tasks to be performed, respective responsibilities of the Client and the Consultant, and expected results and deliverables of the assignment.

2. Introduction

2.1 The Client named in the **Data Sheet** intends to select a Consultant from those listed in the Letter of Invitation, in accordance with the method of selection specified in the **Data Sheet**.

2.2 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Data Sheet**, for consulting services required for the assignment named in the **Data Sheet**. The Proposal will be the basis for negotiating and ultimately signing the Contract with the selected Consultant.

2.3 The Consultants should familiarize themselves with the local conditions and take them into account in preparing their Proposals, including attending a pre-proposal conference if one is specified in the **Data Sheet**. Attending any such pre-proposal conference is optional and is at the Consultants' expense.

2.4 The Client will timely provide, at no cost to the Consultants, the inputs, relevant project data, and reports required for the preparation of the Consultant's Proposal as specified in the **Data Sheet**.

3. Conflict of Interest

3.1 The Consultant is required to provide professional, objective, and impartial advice, at all times holding the Client's interests paramount, strictly avoiding conflicts with other assignments or its own corporate interests, and acting without any consideration for future work.

3.2 The Consultant has an obligation to disclose to the Client any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Consultant or the termination of its Contract and/or sanctions by the Bank.

3.2.1 Without limitation on the generality of the foregoing, and unless stated otherwise in the **Data Sheet**, the Consultant shall not be hired under the circumstances set forth below:

a. Conflicting activities

(i) Conflict between consulting activities and procurement of goods, works or non-consulting services: a firm that has been engaged by the Client to provide goods, works, or non-consulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its Affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for such preparation or implementation.

b. Conflicting assignments

(ii) Conflict among consulting assignments: a Consultant (including its Experts and Sub-consultants) or any of its Affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant for the same or for another Client.

c. Conflicting relationships

(iii) Relationship with the Client's staff: a Consultant (including its Experts and Sub-consultants) that has a close business or family relationship with a professional staff of the Borrower (or of the Client, or of implementing agency, or of a recipient of a part of the Bank's financing) who are directly or indirectly involved in any part of (i) the preparation of the Terms of Reference for the assignment, (ii) the selection process for the Contract, or (iii) the supervision of the Contract, may not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Bank throughout the selection process and the execution of the Contract.

4. Unfair Competitive Advantage

4.1 Fairness and transparency in the selection process require that the Consultants or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to the assignment in question. To that end, the Client shall indicate in the **Data Sheet** and make available to all shortlisted Consultants together with this e-RFP all information that would in that respect give such Consultant any unfair competitive advantage over competing Consultants.

5. Corrupt and Fraudulent Practices

5.1 The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in Section 6.

5.2 In further pursuance of this policy, Consultant shall permit and shall cause its agents, Experts, Sub-consultants, sub-contractors,

services providers, or suppliers to permit the Bank to inspect all accounts, records, and other documents relating to the submission of the Proposal and contract performance (in case of an award), and to have them audited by auditors appointed by the Bank.

6. Eligibility

6.1 The Bank permits consultants (individuals and firms, including Joint Ventures and their individual members) from all countries to offer consulting services for Bank-financed projects.

6.2 Furthermore, it is the Consultant's responsibility to ensure that its Experts, joint venture members, Sub-consultants, agents (declared or not), sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by the Bank in the Applicable Guidelines.

6.3 As an exception to the foregoing Clauses 6.1 and 6.2 above:

a. Sanctions

6.3.1 A firm or an individual sanctioned by the Bank in accordance with the above Clause 5.1 or in accordance with "Anti-Corruption Guidelines" shall be ineligible to be awarded a Bank-financed contract, or to benefit from a Bank-financed contract, financially or otherwise, during such period of time as the Bank shall determine. The list of debarred firms and individuals is available at the electronic address specified in the **Data Sheet**.

b. Prohibitions

6.3.2 Firms and individuals of a country or goods manufactured in a country may be ineligible if so indicated in Section 5 (Eligible Countries) and:

(a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the provision of Services required; or

(b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

c. Restrictions for Government-owned Enterprises

6.3.3 Government-owned enterprises or institutions in the Borrower's country shall be eligible only if they can establish that they (i) are legally and financially autonomous, (ii)

operate under commercial law, and (iii) that they are not dependent agencies of the Client

To establish eligibility, the government-owned enterprise or institution should provide all relevant documents (including its charter) sufficient to demonstrate that it is a legal entity separate from the government; it does not currently receive any substantial subsidies or budget support; it is not obligated to pass on its surplus to the government; it can acquire rights and liabilities, borrow funds, and can be liable for repayment of debts and be declared bankrupt; and it is not competing for a contract to be awarded by the government department or agency which, under the applicable laws or regulations, is its reporting or supervisory authority or has the ability to exercise influence or control over it.

d. Restrictions for public employees

6.3.4 Government officials and civil servants of the Borrower’s country are not eligible to be included as Experts in the Consultant’s Proposal unless such engagement does not conflict with any employment or other laws, regulations, or policies of the Borrower’s country, and they

(i) are on leave of absence without pay, or have resigned or retired;

(ii) are not being hired by the same agency they were working for before going on leave of absence without pay, resigning, or retiring

> (in case of resignation or retirement, for a period of at least 6 (six) months, or the period established by statutory provisions applying to civil servants or government employees in the Borrower’s country, whichever is longer. Experts who are employed by the government-owned universities, educational or research institutions are not eligible unless they have been full time employees of their institutions for a year or more prior to being included in Consultant’s Proposal.; and

(iii) their hiring would not create a conflict of interest.

B. Preparation of Proposals

7. General Considerations

7.1 In preparing the Proposal, the Consultant is expected to examine the RFP in detail. Material deficiencies in providing the information requested in the RFP may result in rejection of the Proposal.

8. Cost of Preparation of Proposal

8.1 The Consultant shall bear all costs associated with the preparation and submission of its Proposal, and the Client shall not be responsible or liable for those costs, regardless of the conduct or outcome of the selection process. The Client is not bound to accept any proposal, and reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the Consultant.

9. Language

9.1 The Proposal, as well as all correspondence and documents relating to the Proposal exchanged between the Consultant and the Client, shall be written in the language(s) specified in the **Data Sheet**.

10. Documents Comprising the Proposal

10.1 The Proposal shall comprise the documents and forms listed in the **Data Sheet**.

10.2 If specified in the **Data Sheet**, the Consultant shall include a statement of an undertaking of the Consultant to observe, in competing for and executing a contract, the Client country’s laws against fraud and corruption (including bribery).

10.3 The Consultant shall furnish information on commissions, gratuities, and fees, if any, paid or to be paid to agents or any other party relating to this Proposal and, if awarded, Contract execution, as requested in the Financial Proposal submission form (Section 4).

11. Only One Proposal

11.1 The Consultant (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture in another Proposal. If a Consultant, including any Joint Venture member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude a Sub-consultant, or the Consultant’s staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the **Data Sheet**.

12. Proposal Validity

12.1 **The Data Sheet** indicates the period during which the Consultant’s Proposal must remain valid after the Proposal submission deadline.

12.2 During this period, the Consultant shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the total price.

12.3 If it is established that any Key Expert nominated in the Consultant's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with Clause 5 of this ITC.

a. Extension of Validity Period

12.4 The Client will make its best effort to complete the negotiations within the proposal's validity period. However, should the need arise, the Client may request, by notifying all Consultants who submitted Proposals prior to the submission deadline to extend the Proposals' validity. Mode of notifications is specified in the **Data Sheet.**

12.5 If the Consultant agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts.

12.6 The Consultant has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.

b. Substitution of Key Experts at Validity Extension

12.7 If any of the Key Experts become unavailable for the extended validity period, the Consultant shall provide a written adequate justification and evidence satisfactory to the Client together with the substitution request. In such case, a replacement Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert.

12.8 If the Consultant fails to provide a replacement Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Client, such Proposal will be rejected with the prior Bank's no objection.

c. Sub-Contracting

12.9 The Consultant shall not subcontract the whole of the Services.

13. Clarification and Amendment of RFP

13.1 The Consultant may request an online clarification of any part of the RFP during the period and in accordance with the procedure indicated in the **Data Sheet** before the Proposals' submission deadline. The Client will respond online by uploading

the response on the portal (including an explanation of the query but without identifying its source) for information of all shortlisted Consultants. Should the Client deem it necessary to amend the e-RFP as a result of a clarification, it shall do so following the procedure described below:

13.1.1 At any time before the proposal submission deadline, the Client may amend the RFP by issuing an amendment online in accordance with procedure described in Data Sheet The amendment shall be binding on all shortlisted Consultants.

13.1.2 If the amendment is substantial, the Client may extend the proposal submission deadline to give the shortlisted Consultants reasonable time to take an amendment into account in their Proposals.

13.2 The Consultant may submit a modified Proposal or a modification to any part of it at any time prior to the proposal submission deadline, online, in accordance with the procedure described in the **Data Sheet**. No modifications to the Technical or Financial Proposal shall be accepted after the deadline.

14. Preparation of Proposals – Specific Considerations

14.1 While preparing the Proposal, the Consultant must give particular attention to the following:

14.1.1 If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other consultants in the form of a Joint Venture or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if permitted in the **Data Sheet**. In all such cases a shortlisted Consultant must obtain the written approval of the Client prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant shall be a lead member. If shortlisted Consultants associate with each other, any of them can be a lead member.

14.1.2 The Client may indicate in the **Data Sheet** the estimated Key Experts' time input (expressed in person-month) or the Client's estimated total cost of the assignment, but not both. This estimate is indicative and the Proposal shall be based on the Consultant's own estimates for the same.

14.1.3 If stated in the **Data Sheet**, the Consultant shall include in its Proposal at least the same time input (in the same unit as indicated in the **Data Sheet**) of Key Experts,

failing which the Financial Proposal will be adjusted for the purpose of comparison of proposals and decision for award in accordance with the procedure in the **Data Sheet**.

14.1.4 For assignments under the Fixed-Budget selection method, the estimated Key Experts' time input is not disclosed. Total available budget, with an indication whether it is inclusive or exclusive of taxes, is given in the **Data Sheet**, and the Financial Proposal shall not exceed this budget.

15. Technical Proposal Format and Content

15.1 The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial information shall be declared non-responsive.

15.1.1 Consultant shall not propose alternative Key Experts. Only one CV shall be submitted for each Key Expert position. Failure to comply with this requirement will make the Proposal non-responsive.

15.2 Depending on the nature of the assignment, the Consultant is required to submit a Full Technical Proposal (FTP), or a Simplified Technical Proposal (STP) as indicated in the **Data Sheet** and using the Standard Forms provided in Section 3 of the RFP.

16. Financial Proposal

16.1 The Financial Proposal shall be prepared using the Standard Forms provided in Section 4 of the RFP. It shall list all costs associated with the assignment, including (a) remuneration for Key Experts and Non-Key Experts, (b) reimbursable expenses indicated in the **Data Sheet**.

a. Price Adjustment

16.2 For assignments with a duration exceeding 18 months, a price adjustment provision for foreign and/or local inflation for remuneration rates applies if so stated in the **Data Sheet**.

b. Taxes

16.3 The Consultant and its Sub-consultants and Experts are responsible for meeting all tax liabilities arising out of the Contract unless stated otherwise in the **Data Sheet**. Information on taxes in the Client's country is provided in the **Data Sheet**.

c. Currency of Proposal

16.4 The Consultant may express the price for its Services in the currency or currencies as stated in the **Data Sheet**. If indicated in the **Data Sheet**, the portion of the price representing local cost shall be stated in the national currency.

d. Currency of Payment

16.5 Payment under the Contract shall be made in the currency or currencies in which the payment is requested in the Proposal.

C. Submission, Opening and Evaluation

17. Submission of Proposals

17.1 The Consultant shall submit a digitally signed, encrypted and complete Proposal comprising the documents and forms in accordance with Clause 10 (Documents Comprising Proposal). The submission can be done electronically through the website and in accordance with the procedures specified in the **Data Sheet.** Proposals submitted by any other means will be rejected.

17.2 An authorized representative of the Consultant shall digitally sign the submission letters in the required format for both the Technical Proposal and, if applicable, the Financial Proposal. The authorization shall be in the form of a written power of attorney scanned and uploaded together with the Technical Proposal.

17.2.1 In the case of a Joint Venture, submission letters shall be signed by all members so as to be legally binding on all members, or by an authorized representative who has a written power of attorney signed by each member’s authorized representative. The submission letters and the power of attorney shall then be scanned and uploaded together with the Technical Proposal.

17.3 Consultants should be aware that the electronic procurement system does not allow for any interlineations, erasures, or overwriting. Any modifications or revisions to the Proposal shall be done in accordance with Clause ITC 13.2.

17.4 The Proposal or its modifications must be uploaded on the portal no later than the deadline indicated in the **Data Sheet**, or any extension to this deadline. The electronic system will not accept any Proposal or its modification for uploading after the deadline.

17.5 Once the Proposal is uploaded on the portal, the system will generate a unique identification number with the stamped submission time. The unique identification number with the time stamp represents an acknowledgement of the Proposal submission. Any other system’s functionality requirements are specified in the **Data Sheet**.

18. Confidentiality

18.1 From the time the Proposals are opened to the time the Contract is awarded, the Consultant should not contact the Client on any matter related to its Technical and/or Financial Proposal. Information relating to the evaluation of Proposals and award

recommendations shall not be disclosed to the Consultants who submitted the Proposals or to any other party not officially concerned with the process, until the publication of the Contract award information.

18.2 Any attempt by shortlisted Consultants or anyone on behalf of the Consultant to influence improperly the Client in the evaluation of the Proposals or Contract award decisions may result in the rejection of its Proposal, and may be subject to the application of prevailing Bank's sanctions procedures.

18.3 Notwithstanding the above provisions, from the time of the Proposals' opening to the time of Contract award publication, if a Consultant wishes to contact the Client or the Bank on any matter related to the selection process, it should do so only in writing.

19. Online Opening of Technical Proposals

19.1 The Client's evaluation committee shall conduct the opening of the Technical Proposals online immediately after the Proposals' submission deadline and following the procedure described in the Data Sheet. The folder with the Financial Proposal shall remain unopened, encrypted and shall be securely stored on the portal.

19.2 At the opening of the Technical Proposals the following shall be read out and recorded online simultaneously: (i) the name and the country of the Consultant or, in case of a Joint Venture, the name of the Joint Venture, the name of the lead member and the names and the countries of all members; (ii) the presence or absence of a duly sealed envelope with the Financial Proposal; (iii) any modifications to the Proposal submitted prior to proposal submission deadline; and (iv) any other information deemed appropriate or as indicated in the Data Sheet.

20. Proposals Evaluation

20.1 Subject to provision of Clause 15.1 of the ITC, the evaluators of the Technical Proposals shall have no access to the Financial Proposals until the technical evaluation is concluded and the Bank issues its "no objection", if applicable .

20.2 The Consultant is not permitted to alter or modify its Proposal in any way after the proposal submission deadline except as permitted under Clause 12.7 of this ITC. While evaluating the Proposals, the Client will conduct the evaluation solely on the basis of the submitted Technical and Financial Proposals.

21. Evaluation of Technical Proposals

21.1 The Client's evaluation committee shall evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and the RFP, applying the evaluation criteria, sub-criteria, and point system specified in the Data Sheet. Each responsive Proposal will be given a technical score. A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP or if it fails to achieve the minimum technical score indicated in the Data Sheet.

22. Financial Proposals for QBS

22.1 Following the ranking of the Technical Proposals, when the selection is based on quality only (QBS), the top-ranked Consultant is invited to negotiate the Contract.

22.2 16.2 If Financial Proposals were invited together with the Technical Proposals, only the Financial Proposal of the technically top-ranked Consultant is opened by the Client's evaluation committee. All other Financial Proposals are returned unopened after the Contract negotiations are successfully concluded and the Contract is signed.

23. Online Opening of Financial Proposals (for QCBS, FBS, and LCS methods)

23.1 After the technical evaluation is completed and the Bank has issued its no objection (if applicable), the Client shall notify those Consultants whose Proposals were considered non-responsive to the RFP and TOR or did not meet the minimum qualifying technical score by sending a notification through the means indicated in the **Data Sheet**. The notification shall also include information relating to the Consultant's overall technical score, as well as scores obtained for each criterion and sub-criterion. Financial Proposals of those Consultants whose Technical Proposals did not meet the minimum qualifying score shall not be opened. In such case, a notification to that effect will be sent to the Consultant. The Client shall simultaneously notify those Consultants that have achieved the minimum overall technical score and inform them of the date, time and, if indicated in the **Data Sheet**, location for online opening of the Financial Proposals. The Consultant's attendance at the opening of the Financial Proposals (online, or in person, if such option is indicated in the **Data Sheet**) is optional and is at the Consultant's choice. If the Data Sheet provides an option of attending in person, the opening date should allow the Consultants sufficient time to make arrangements for attending the opening.

23.2 The Financial Proposals shall be opened online by the Client's evaluation committee as described in the Data Sheet. At the opening, the names of the Consultants, and the overall technical scores, including the break-down by criterion, shall be read aloud first and recorded online simultaneously. The Financial Proposals shall be then opened, the total prices read

aloud and recorded online simultaneously. The records of the opening shall remain on the portal for the information of the Consultants who submitted Proposals and the Bank, unless the **Data Sheet** provides for other means of sending notifications and the results of the financial opening.

24. Correction of Errors

24.1 Activities and items described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.

a. Time-Based Contracts

24.2 If a Time-Based contract form is included in the e-RFP, the e-procurement system automatically calculates the amount in words from the amount in figures and automatically calculates the total amount In case of discrepancy between (i) a partial amount (sub-total) and the total amount, or (ii) between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between words and figures, the former will prevail. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the Client’s evaluation committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost. The evaluation committee will also adjust the prices if they fail to reflect all inputs included for the respective activities or items in the Technical Proposal.

b. Lump-Sum Contracts

24.3 If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made. The total price, net of taxes understood as per Clause ITC 25 below, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price.

25. Taxes

The Client’s evaluation of the Consultant’s Financial Proposal shall exclude taxes and duties in the Client’s country in accordance with the instructions in the **Data Sheet**.

26. Conversion to Single Currency

26.1 For the evaluation purposes, prices shall be converted to a single currency using the selling rates of exchange, source and date indicated in the **Data Sheet**.

27. Combined Quality and Cost Evaluation

a. Quality- and Cost-Based Selection (QCBS)

27.1 In the case of QCBS, the total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the **Data Sheet**. The Consultant achieving the highest combined technical and financial score will be invited for negotiations.

b. Fixed-Budget Selection (FBS)

27.2 In the case of FBS, those Proposals that exceed the budget indicated in Clause 14.1.4 of the **Data Sheet** shall be rejected.

27.3 The Client will select the Consultant that submitted the highest-ranked Technical Proposal that does not exceed the budget indicated in the RFP, and invite such Consultant to negotiate the Contract.

c. Least-Cost Selection

27.4 In the case of Least-Cost Selection (LCS), the Client will select the Consultant with the lowest evaluated total price among those consultants that achieved the minimum technical score, and invite such Consultant to negotiate the Contract.

D. Negotiations and Award

28. Negotiations

28.1 The negotiations will be held at the date and address indicated in the **Data Sheet** with the Consultant's representative(s) who must have written power of attorney to negotiate and sign a Contract on behalf of the Consultant.

28.2 The Client shall prepare minutes of negotiations that are signed by the Client and the Consultant's authorized representative.

a. Availability of Key Experts

28.3 The invited Consultant shall confirm the availability of all Key Experts included in the Proposal as a pre-requisite to the negotiations, or, if applicable, a replacement in accordance with Clause 12 of the ITC. Failure to confirm the Key Experts' availability may result in the rejection of the Consultant's Proposal and the Client proceeding to negotiate the Contract with the next-ranked Consultant.

28.4 Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall offer a substitute Key Expert within the period of time specified in the letter of invitation to negotiate the Contract, who shall have equivalent or better qualifications and experience than the original candidate.

b. Technical negotiations

28.5 The negotiations include discussions of the Terms of Reference (TORs), the proposed methodology, the Client's inputs, the special conditions of the Contract, and finalizing the "Description of Services" part of the Contract. These discussions shall not substantially alter the original scope of services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.

c. Financial negotiations

28.6 The negotiations include the clarification of the Consultant's tax liability in the Client's country and how it should be reflected in the Contract.

28.7 If the selection method included cost as a factor in the evaluation, the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated.

28.8 In the case of a Time-Based contract, unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts' remuneration rates are much higher than the typically charged rates by consultants in similar contracts. In such case, the Client may ask for clarifications and, if the fees are very high, ask to change the rates after consultation with the Bank.

The format for (i) providing information on remuneration rates in the case of Quality Based Selection; and (ii) clarifying remuneration rates' structure under Clause 28.8 above, is provided in Appendix A to the Financial Form FIN-3: Financial Negotiations – Breakdown of Remuneration Rates.

29. Conclusion of Negotiations

29.1 The negotiations are concluded with a review of the finalized draft Contract, which then shall be initialed by the Client and the Consultant's authorized representative.

29.2 If the negotiations fail, the Client shall inform the Consultant in writing of all pending issues and disagreements and provide a final opportunity to the Consultant to respond. If disagreement persists, the Client shall terminate the negotiations informing the Consultant of the reasons for doing so. After having obtained the Bank's no objection, the Client will invite the next-ranked Consultant to negotiate a Contract. Once the Client commences negotiations with the next-ranked Consultant, the Client shall not reopen the earlier negotiations.

30. Award of Contract

30.1 After completing the negotiations the Client shall obtain the Bank's no objection to the negotiated draft Contract, if applicable; sign the Contract; promptly notify the other shortlisted Consultants and publish the award as per the instructions in the **Data Sheet.**

30.2 The Consultant is expected to commence the assignment on the date and at the location specified in the **Data Sheet**.

Time: *15.00 Local Time (3.00 PM)*
19.2	**In addition, the following information will be read aloud at the opening of the Technical Proposals :** NA
21.1	Criteria, sub-criteria, and point system for the evaluation of the Full Technical Proposals:

	Description	Points
(i)	**Specific experience of the Consultant (as a firm) relevant to the Assignment:**	**10**
	Total points for criterion (i)	10
(ii)	**Adequacy and quality of the proposed methodology, and work plan in responding to the Terms of Reference (TORs)**	**50**
(a)	*Technical approach and Methodology*	30
(b)	*Work Plan*	10
(c)	*Organisation and staffing*	10

	Total points for criterion (ii) –30 points *{Notes to Consultant: the Client will assess whether the proposed methodology is clear, responds to the TORs, work plan is realistic and implementable; overall team composition is balanced and has an appropriate skills mix; and the work plan has right input of Experts}* — **50** (iii) **Key Experts' qualifications and competence for the Assignment** — **40**
23.1	a)The Consultants whose proposals were considered non responsive and did not meet the minimum qualifying technical score and (b) Consultants who have passed the minimum technical score and are invited to the opening of the Financial Proposal will be informed through email. The location, date and time of opening of the financial proposal shall also be intimated through email.
23.2	**The Financial Proposals shall be opened online as** *defined in ITB 23.2* **The procedure for notifying the Consultants on the results of the Financial opening shall be** *as in ITB 23.2*

	Total points for criterion (ii) –30 points *{Notes to Consultant: the Client will assess whether the proposed methodology is clear, responds to the TORs, work plan is realistic and implementable; overall team composition is balanced and has an appropriate skills mix; and the work plan has right input of Experts}*	**50**
(iii)	**Key Experts' qualifications and competence for the Assignment**	**40**

Position	**Total**
Team leader	16
Urban Management Specialist/ Planning Expert	8
Market Research Specialist	8
Statistician	8
Total	**40**

The number of points to be assigned to each of the above positions shall be determined considering the following three sub-criteria and relevant percentage weights:

1) General qualifications (general education, training, and experience): 40%

2) Adequacy for the Assignment (relevant education, training, experience in the sector/similar assignments) : 60%

Total points for the three criteria*:* **100**

The minimum technical score (St) required to pass is*:75 (seventy five) points*

23.1 a)The Consultants whose proposals were considered non responsive and did not meet the minimum qualifying technical score and (b) Consultants who have passed the minimum technical score and are invited to the opening of the Financial Proposal will be informed through email. The location, date and time of opening of the financial proposal shall also be intimated through email.

23.2 **The Financial Proposals shall be opened online as** *defined in ITB 23.2*

The procedure for notifying the Consultants on the results of the Financial opening shall be *as in ITB 23.2*

25.1	For the purpose of the evaluation, the Client will exclude: (a) all local identifiable indirect taxes such GST, or similar taxes levied on the contract's invoices; and (b) all additional local indirect tax on the remuneration of services rendered by non-resident experts in the Client's country. If a Contract is awarded, at Contract negotiations, all such taxes will be discussed, finalized (using the itemized list as a guidance but not limiting to it) and added to the Contract amount as a separate line, also indicating which taxes shall be paid by the Consultant and which taxes are withheld and paid by the Client on behalf of the Consultant.
26.1	**The single currency for the conversion of all prices expressed in various currencies into a single one is:** Indian Rupees **The official source of the selling (exchange) rate is**: State Bank of India [SBI] B.C selling rate of Exchange **The date of the exchange rate is: the last date for submission of proposals**
27.1 (QCBS only)	**The lowest evaluated Financial Proposal (Fm) is given the maximum financial score (Sf) of 100.** **The formula for determining the financial scores (Sf) of all other Proposals is calculated as following:** Sf = 100 x Fm/ F, in which "Sf" is the financial score, "Fm" is the lowest price, and "F" the price of the proposal under consideration. *[or replace with another inversely proportional formula acceptable to the Bank]* **The weights given to the Technical (T) and Financial (P) Proposals are**: **T =** 0.80, and **P =** 0.20 Proposals are ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1) as following: S = St x T% + Sf x P%.
	D. Negotiations and Award
28.1	**Expected date and address for contract negotiations:** **Date**: **10th January 2018** **Address:** 202C, Nirman Bhawan, Maulana Azad Road, New Delhi.
30.1	**The publication of the contract award information following the completion of the contract negotiations and contract signing will be done**

	as following: www. moud.gov.in The publication will be done within 07 (seven) **days after the contract signing.**
30.2	**Expected date for the commencement of the Services:** **Date**:**15th January, 2018**

Section 3. Technical Proposal – Standard Forms

{Notes to Consultant shown in brackets { } throughout Section 3 provide guidance to the Consultant to prepare the Technical Proposal; they should not appear on the Proposals to be submitted.}

FORM TECH-1

TECHNICAL PROPOSAL SUBMISSION FORM

{Location, Date}

To: *[Name and address of Client]*

Dear Sirs:

We, the undersigned, offer to provide the consulting services for *[Insert title of assignment]* in accordance with your Request for Proposals dated *[Insert Date]* and our Proposal. *[Select appropriate wording depending on the selection method stated in the RFP:* "We are hereby submitting our Proposal, which includes this Technical Proposal and a Financial Proposal sealed in a separate envelope" *or, if only a Technical Proposal is invited* "We hereby are submitting our Proposal, which includes this Technical Proposal only in a sealed envelope.*"].*

{If the Consultant is a joint venture, insert the following*:* We are submitting our Proposal a joint venture with: {Insert a list with full name and the legal address of each member, and indicate the lead member}. We have attached a copy {insert: "of our letter of intent to form a joint venture" or, if a JV is already formed, "of the JV agreement"} signed by every participating member, which details the likely legal structure of and the confirmation of joint and severable liability of the members of the said joint venture.

{OR

If the Consultant's Proposal includes Sub-consultants, insert the following: We are submitting our Proposal with the following firms as Sub-consultants: {Insert a list with full name and address of each Sub-consultant.}

We hereby declare that:

(a) All the information and statements made in this Proposal are true and we accept that any misinterpretation or misrepresentation contained in this Proposal may lead to our disqualification by the Client and/or may be sanctioned by the Bank.

(b) Our Proposal shall be valid and remain binding upon us for the period of time specified in the Data Sheet, Clause 12.1.

(c) We have no conflict of interest in accordance with ITC 3.

(d) We meet the eligibility requirements as stated in ITC 6, and we confirm our understanding of our obligation to abide by the Bank's policy in regard to corrupt and fraudulent practices as per ITC 5.

(e) *[Note to Client: Only if required in ITC10.2 (Data Sheet 10.2), include the following:* In competing for (and, if the award is made to us, in executing) the Contract, we undertake to observe the laws against fraud and corruption, including bribery, in force in the country of the Client.*]*

(f) Except as stated in the Data Sheet, Clause 12.1, we undertake to negotiate a Contract on the basis of the proposed Key Experts. We accept that the substitution of Key Experts for reasons other than those stated in ITC Clause 12 and ITC Clause 28.4 may lead to the termination of Contract negotiations.

(g) Our Proposal is binding upon us and subject to any modifications resulting from the Contract negotiations.

We undertake, if our Proposal is accepted and the Contract is signed, to initiate the Services related to the assignment no later than the date indicated in Clause 30.2 of the Data Sheet.

We understand that the Client is not bound to accept any Proposal that the Client receives.

We remain,

Yours sincerely,

Authorized Signature {In full and initials}: ______________________________
Name and Title of Signatory: ____
Name of Consultant (company's name or JV's name):
In the capacity of: ____

Address: ____
Contact information (phone and e-mail): ________________________________

{For a joint venture, either all members shall sign or only the lead member, in which case the power of attorney to sign on behalf of all members shall be attached}

FORM TECH-2 (FOR FULL TECHNICAL PROPOSAL ONLY)

CONSULTANT'S ORGANIZATION AND EXPERIENCE

Form TECH-2: a brief description of the Consultant's organization and an outline of the recent experience of the Consultant that is most relevant to the assignment. In the case of a joint venture, information on similar assignments shall be provided for each partner. For each assignment, the outline should indicate the names of the Consultant's Key Experts and Sub-consultants who participated, the duration of the assignment, the contract amount (total and, if it was done in a form of a joint venture or a sub-consultancy, the amount paid to the Consultant), and the Consultant's role/involvement.

A - Consultant's Organization

1. Provide here a brief description of the background and organization of your company, and – in case of a joint venture – of each member for this assignment.

2. Include organizational chart, a list of Board of Directors, and beneficial ownership

B - Consultant's Experience

1. List only previous similar assignments successfully completed in the last *[.....]* years.

2. List only those assignments for which the Consultant was legally contracted by the Client as a company or was one of the joint venture partners. Assignments completed by the Consultant's individual experts working privately or through other consulting firms cannot be claimed as the relevant experience of the Consultant, or that of the Consultant's partners or sub-consultants, but can be claimed by the Experts themselves in their CVs. The Consultant should be prepared to substantiate the claimed experience by presenting copies of relevant documents and references if so requested by the Client.

Duration	**Assignment name/& brief description of main deliverables/outputs**	**Name of Client & Country of Assignment**	**Approx. Contract value (in US$ equivalent)/ Amount paid to your firm**	**Role on the Assignment**
{e.g., Jan.2009–Apr.2010}	{e.g., "Improvement quality of...............": designed master plan for rationalization of ....; }	{e.g., Ministry of ......, country}	{e.g., US$1 mill/US$0.5 mill}	{e.g., Lead partner in a JV A&B&C}
{e.g., Jan-May 2008}	{e.g., "Support to sub-national government....." : drafted secondary level regulations on..............}	{e.g., municipality of........., country}	{e.g., US$0.2 mil/US$0.2 mil}	{e.g., sole Consultant}

FORM TECH-3 (FOR FULL TECHNICAL PROPOSAL)

COMMENTS AND SUGGESTIONS ON THE TERMS OF REFERENCE, COUNTERPART STAFF, AND FACILITIES TO BE PROVIDED BY THE CLIENT

Form TECH-3: comments and suggestions on the Terms of Reference that could improve the quality/effectiveness of the assignment; and on requirements for counterpart staff and facilities, which are provided by the Client, including: administrative support, office space, local transportation, equipment, data, etc.

A - On the Terms of Reference

{improvements to the Terms of Reference, if any}

B - On Counterpart Staff and Facilities

{comments on counterpart staff and facilities to be provided by the Client. For example, administrative support, office space, local transportation, equipment, data, background reports, etc., if any}

FORM TECH-4 (FOR FULL TECHNICAL PROPOSAL ONLY)

DESCRIPTION OF APPROACH, METHODOLOGY, AND WORK PLAN IN RESPONDING TO THE TERMS OF REFERENCE

Form TECH-4: a description of the approach, methodology and work plan for performing the assignment, including a detailed description of the proposed methodology and staffing for training, if the Terms of Reference specify training as a specific component of the assignment.

{Suggested structure of your Technical Proposal (in FTP format):

a) Technical Approach and Methodology
b) Work Plan
c) Organization and Staffing}

a) ***Technical Approach and Methodology.*** {Please explain your understanding of the objectives of the assignment as outlined in the Terms of Reference (TORs), the technical approach, and the methodology you would adopt for implementing the tasks to deliver the expected output(s), and the degree of detail of such output. Please do not repeat/copy the TORs in here.}

b) ***Work Plan.*** {Please outline the plan for the implementation of the main activities/tasks of the assignment, their content and duration, phasing and interrelations, milestones (including interim approvals by the Client), and tentative delivery dates of the reports. The proposed work plan should be consistent with the technical approach and methodology, showing your understanding of the TOR and ability to translate them into a feasible working plan. A list of the final documents (including reports) to be delivered as final output(s) should be included here. The work plan should be consistent with the Work Schedule Form.}

c) ***Organization and Staffing.*** {Please describe the structure and composition of your team, including the list of the Key Experts, Non-Key Experts and relevant technical and administrative support staff.}

FORM TECH-4 (FOR SIMPLIFIED TECHNICAL PROPOSAL ONLY)

DESCRIPTION OF APPROACH, METHODOLOGY, AND WORK PLAN FOR PERFORMING THE ASSIGNMENT

Form TECH-4: a description of the approach, methodology, and work plan for performing the assignment, including a detailed description of the proposed methodology and staffing for training, if the Terms of Reference specify training as a specific component of the assignment.

{Suggested structure of your Technical Proposal}

a) ***Technical Approach, Methodology, and Organization of the Consultant's team***. {Please explain your understanding of the objectives of the assignment as outlined in the Terms of Reference (TOR), the technical approach, and the methodology you would adopt for implementing the tasks to deliver the expected output(s); the degree of detail of such output; and describe the structure and composition of your team. Please do not repeat/copy the TORs in here.}

b) ***Work Plan and Staffing***. {Please outline the plan for the implementation of the main activities/tasks of the assignment, their content and duration, phasing and interrelations, milestones (including interim approvals by the Client), and tentative delivery dates of the reports. The proposed work plan should be consistent with the technical approach and methodology, showing understanding of the TOR and ability to translate them into a feasible working plan and work schedule showing the assigned tasks for each expert. A list of the final documents (including reports) to be delivered as final output(s) should be included here. The work plan should be consistent with the Work Schedule Form.}

c) ***Comments (on the TOR and on counterpart staff and facilities)***

{Your suggestions should be concise and to the point, and incorporated in your Proposal. Please also include comments, if any, on counterpart staff and facilities to be provided by the Client. For example, administrative support, office space, local transportation, equipment, data, background reports, etc.}

FORM FIN-1
FINANCIAL PROPOSAL SUBMISSION FORM

{Location, Date}

To: [Name and address of Client]

Dear Sirs:

We, the undersigned, offer to provide the consulting services for [Insert title of assignment] in accordance with your Request for Proposal dated [Insert Date] and our Technical Proposal.

Our attached Financial Proposal is for the amount of {Indicate the corresponding to the amount(s) currency(ies)} {Insert amount(s) in words and figures}, *[Insert "including" or "excluding"] of all indirect local taxes in accordance with Clause 25.1 in the Data Sheet.* The estimated amount of local indirect taxes is {Insert currency} {Insert amount in words and figures} which shall be confirmed or adjusted, if needed, during negotiations. {Please note that all amounts shall be the same as in Form FIN-2}.

Our Financial Proposal shall be binding upon us subject to the modifications resulting from Contract negotiations, up to expiration of the validity period of the Proposal, i.e. before the date indicated in Clause 12.1 of the Data Sheet.

Commissions and gratuities paid or to be paid by us to an agent or any third party relating to preparation or submission of this Proposal and Contract execution, paid if we are awarded the Contract, are listed below:

Name and Address of Agents	Amount and Currency	Purpose of Commission or Gratuity

{If no payments are made or promised, add the following statement: "No commissions or gratuities have been or are to be paid by us to agents or any third party relating to this Proposal and Contract execution."}

We understand you are not bound to accept any Proposal you receive.

We remain,

Yours sincerely,

Appendix A. Financial Negotiations - Breakdown of Remuneration Rates

1. **Review of Remuneration Rates**

1.1. The remuneration rates are made up of salary or a base fee, social costs, overheads, profit, and any premium or allowance that may be paid for assignments away from headquarters or a home office. An attached Sample Form can be used to provide a breakdown of rates.

1.2. If the RFP requests submission of a technical proposal only, the Sample Form is used by the selected Consultant to prepare for the negotiations of the Contract. If the RFP requests submission of the financial proposal, the Sample Form shall be completed and attached to the Financial Form-3. Agreed (at the negotiations) breakdown sheets shall form part of the negotiated Contract and included in its Appendix D or C.

1.3. At the negotiations the firm shall be prepared to disclose its audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. The Client is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds.

1.4. Rate details are discussed below:

(i) Salary is the gross regular cash salary or fee paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).

(ii) Bonuses are normally paid out of profits. To avoid double counting, any bonuses shall not normally be included in the "Salary" and should be shown separately. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.

(iii) Social Charges are the costs of non-monetary benefits and may include, inter alia, social security (including pension, medical, and life insurance costs) and the cost of a paid sick and/or annual leave. In this regard, a paid leave during public holidays or an annual leave taken during an assignment if no Expert's replacement has been provided is not considered social charges.

(iv) Cost of Leave. The principles of calculating the cost of total days leave per annum as a percentage of basic salary is normally calculated as follows:

$$\text{Leave cost as percentage of salary} = \frac{\text{total days leave x 100}}{[365 - w - ph - v - s]}$$

Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

Please note that leave can be considered as a social cost only if the Client is not charged for the leave taken.

(v) Overheads are the Consultant's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the Contract. Typical items are home office costs (non-billable time, time of senior Consultant's staff monitoring the project, rent of headquarters' office, support staff, research, staff training, marketing, etc.), the cost of Consultant's personnel not currently employed on revenue-earning projects, taxes on business activities, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Client does not accept an add-on margin for social charges, overhead expenses, etc. for Experts who are not permanent employees of the Consultant. In such case, the Consultant shall be entitled only to administrative costs and a fee on the monthly payments charged for sub-contracted Experts.

(vi) Profit is normally based on the sum of the Salary, Social costs, and Overheads. If any bonuses paid on a regular basis are listed, a corresponding reduction shall be made in the profit amount. Profit shall not be allowed on travel or any other reimbursable expenses.

(vii) Away from Home Office Allowance or Premium or Subsistence Allowances. Some Consultants pay allowances to Experts working away from headquarters or outside of the home office. Such allowances are calculated as a percentage of salary (or a fee) and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately.

UNDP standard rates for the particular country may be used as reference to determine subsistence allowances.

Consultant: Country:
Assignment: Date:

Consultant’s Representations Regarding Costs and Charges

We hereby confirm that:

(a) the basic fees indicated in the attached table are taken from the firm’s payroll records and reflect the current rates of the Experts listed which have not been raised other than within the normal annual pay increase policy as applied to all the Consultant’s Experts;

(b) attached are true copies of the latest pay slips of the Experts listed;

(c) the away- from- home office allowances indicated below are those that the Consultant has agreed to pay for this assignment to the Experts listed;

(d) the factors listed in the attached table for social charges and overhead are based on the firm’s average cost experiences for the latest three years as represented by the firm’s financial statements; and

(e) said factors for overhead and social charges do not include any bonuses or other means of profit-sharing.

FORM FIN-4 BREAKDOWN OF REIMBURSABLE EXPENSES

When used for Lump-Sum contract assignment, information to be provided in this Form shall only be used to demonstrate the basis for calculation of the Contract ceiling amount, to calculate applicable taxes at contract negotiations and, if needed, to establish payments to the Consultant for possible additional services requested by the Client. This form shall not be used as a basis for payments under Lump-Sum contracts

B. Reimbursable Expenses___________________________

N°	Type of Reimbursable Expenses	Unit	Unit Cost	Quantity	{Currency # 1- as in FIN-2}	{Currency # 2- as in FIN-2}	{Currency# 3- as in FIN-2}	{Local Currency- as in FIN-2}
___	{e.g., Per diem allowances**}	{Day}		___				
___	{e.g., International flights}	{Ticket}		___				
___	{e.g., In/out airport transportation}	{Trip}						
	{e.g., Communication costs between Insert place and Insert place}				___			
	{ e.g., reproduction of reports}				___			
	{e.g., Office rent}				___			
	....				___			
	{Training of the Client's personnel – if required in TOR}				___			
Total Costs								

Legend*:*
"Per diem allowance" is paid for each night the expert is required by the Contract to be away from his/her usual place of residence. Client can set up a ceiling.

Section 5. Eligible Countries

In reference to ITC6.3.2, for the information of shortlisted Consultants, at the present time firms, goods and services from the following countries are excluded from this selection:

Under the ITC 6.3.2 (a): ________________ [list country/countries following approval by the Bank to apply the restriction *or* state “none”]

Under the ITC 6.3.2 (b): ________________ [list country/countries *or* indicate “none”]

Section 6. Bank Policy – Corrupt and Fraudulent Practices

(this Section 6 shall not be modified)

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

“**Fraud and Corruption**

1.23 It is the Bank’s policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

 (i) “corrupt practice” is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[1];

 (ii) “fraudulent practice” is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[2];

 (iii) “collusive practices” is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[3];

---

[1] For the purpose of this sub-paragraph, “another party” refers to a public official acting in relation to the selection process or contract execution. In this context “public official” includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[2] For the purpose of this sub-paragraph, “party” refers to a public official; the terms “benefit” and “obligation” relate to the selection process or contract execution; and the “act or omission” is intended to influence the selection process or contract execution.

[3] For the purpose of this sub-paragraph, “parties” refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other’s bid prices or other conditions.

(iv) "coercive practices" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[4];

(v) "obstructive practice" is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank's inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare misprocurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank's sanctions procedures[5], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[6] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[4] For the purpose of this sub-paragraph, "party" refers to a participant in the selection process or contract execution.

[5] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank's sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[6] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant's proposal for the particular services; or (ii) appointed by the Borrower.

Section 7. Terms of Reference

7.1 Background

i. The Government of India along with State and Local Governments is implementing several flagship Urban Missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more 'Liveable'. This will mean not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunity;

ii. In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their 'Liveability' and measure their progress over time. In this context, the Ministry of Housing and Urban Affairs has developed a set of 'Liveability Standards in Cities'. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft 'Liveability Standards in Cities' as at http://smartcities.gov.in/upload/uploadfiles/files/LiveabilityStandards.pdf ;

iii. A total of 79 different Liveability Standards are proposed across 15 different categories. The Ministry proposes to conduct an 'Annual Assessment of Liveability in Cities' across the various standards and develop a 'City Liveability Index' – an annual index of the liveability standards in Indian cities. This is an ambitious national project requiring yearly compilation of a large number of datasets across the various Liveability Standards;

iv. A total of 116 cities will be covered in Year 1 (list of cities for Year 1 is provided at Annexure A), and the coverage of cities may be extended in subsequent years. The following classification of cities will be used for the purpose of the study

Classification*		**Population range**
1	Small Towns	Less than 50,000 population
2	Medium Towns	Population ≥ 50,000 < 5 lakh
3	Large Towns	Population ≥ 5 lakh < 1 million
4	Metropolitan Cities	Population ≥ 1 million < 5 million
5	Megapolis	Population ≥ 5 million

** Based on the Classification given in the URDPFI guidelines, 2014*

V. Given the magnitude of data collection and field surveys required, the MoHUA wishes to engage the services of a reputed national/international agency/institution for **Conducting a study and field survey of Liveability Standards** (the **'Assignment'**) across all cities included in the study. This will cover all relevant data required by the MoHUA for computing the 79 Liveability Standards. The data generated from the assignment will be used by the MoHUA for calculating the City Liveability Index of cities on an annual basis;

VI. The contract will be valid for activities in Year 1 (as defined in Clause 7.5) only.

7.2 *Objective of the Assignment*

i. Compile reliable and high quality data for all cities included in the study, as required by the MoHUA for the computation of Liveability Indexes and as prescribed in the 'Liveability Standards in Cities' document;

ii. Develop a robust electronic database of datasets that can be used to assess the progress of cities on an annual basis.

7.3 *Description of Tasks*

The Tasks to be performed and key activities under the assignment will include:

Initiation Activities

i. Conduct State-level workshops (1-day each) on behalf of MoHUA Cost for such workshops must be included in the proposal. The workshops shall achieve the following:

   a. Familiarise States and City governments regarding the overall programme, process that will be followed for data collection, and likely timelines;

   b. Provide State and City governments with a detailed list of data points needed, likely areas of support and information on how the cities should prepare for the surveys;

   c. Help in preparing a preliminary time-line for city meetings and field visits based on preferences indicated by states and cities;

ii. Conduct a Reconnaissance Study of all cities included in the project (as per Annexure A). The study shall inter-alia include:

   a. City-level kick-off meetings with key officials from City governments, Smart City SPVs, various departments and utilities, DISCOMs etc. for assessing data availability and sources,

preferred timelines, key nodal officers etc.;

b. Study of city demography, socio-economic stratification and geography that has a bearing on sample size and distribution;

c. Study of existing reports, studies, alternative data sources etc.

iii. Prepare and submit to the MoHUA, an Inception Report (separate for all cities included in the study), including inter-alia the following:

a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.;

b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments;

c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;

iv. Convey the finalized schedule and Plan of Action to cities allowing them to mobilise support for the activities. A Minimum of 15 days of preparation period must be given to cities before data collection and surveys;

Data Collection and Field Surveys

v. Mobilize Field Teams (with adequate and qualified manpower as indicated in Clause 7.6) for obtaining data required for all 79 Standards;

vi. Conduct field surveys for a statistically relevant sample as per nationally/internationally accepted standards for sampling size and distribution. The method for determining sample size and distribution should be as proposed in the bid during RfP stage and finalized in consultation with the MoHUA as part of the Inception Report;

vii. Maintain and submit all raw data and data collection forms to MoHUA without any editing and/or masking (including particulars such as names of respondents, exact address and contact details, date and time of survey, and GPS coordinates in case of samples taken for pollution etc.);

viii. Conduct analysis of the raw data through the Analytics Team ((with adequate and qualified manpower as indicated in Clause 7.6) and prepare aggregate data sets for all 79 standards for each of the cities adopting the methodology as prescribed in http://smartcities.gov.in/upload/uploadfiles/files/MethodologicalReportFinal.pdf

ix. Submit Draft City Assessment Report to the MoHUA (separate for each city), including inter-alia the following:

a. Database of aggregate data in the format as mutually agreed

   b. All raw data and data sheets;
   c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;

x. Submit Draft City Assessment Report to respective city and state governments for inviting comments and suggestions (if any). A period of 15 days shall be given to cities to submit their responses, after which the data will be deemed to be accepted by the city,
xi. Submit Final City Assessment Report to the MoHUA after including any recommendations of the MoHUA and after suitably incorporating any valid feedback received from cities/states with the approval of the MoHUA;
xii. Develop and maintain a digital database of all data sets collected every year for each city. The format should be finalized in consultation with the MoHUA and enable examination of raw data as well as aggregated numbers on a year-on-year basis;

Other support activities

xiii. Provide all necessary support to the NIUA or other reputed third-party agency(ies) appointed by the MoHUA for undertaking verification of the data submitted by the Consultant;
xiv. Provide any technical support as required by the MoHUA or its assigned team during the development of scoring sheets and city indexes for the various Standards;
xv. Conduct a National workshop (1-day) on behalf of MoHUA for disseminating the findings of the Ministry. Costs for the workshop must be included in the proposal.

7.4 *Results to be achieved*

The Assignment will result in the creation of a robust database (updated annually) of critical datasets across 79 different Liveability parameters in Indian Cities. This will form the basis for the Ministry to compute an annual City Liveability Index of cities. This can also act as a repository of critical data for encouraging research on cities in India.

7.5 *Timelines and Deliverables for Year 1**

Report	Time line	Documents	Deliverables and Contents
Inception Report	8 weeks from start date as per contract	Hard copies, and Electronic version	Separate for each city, including: a. Detailed Plan of Action, Minutes of state level workshops, , city meetings including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.; b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments; c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;
Draft City Assessment Report	12 weeks from start date as per contract	Hard Copies, and Electronic version	Separate for each city, including: a. Database of aggregate data in the format as mutually agreed. b. All raw data and data sheets; c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other
Final City Assessment Report	20 weeks from start date as per contract	Hard Copies, and Electronic version	Separate report for each city. The Reports should include all recommendations of the MoHUA on the Draft Reports. The Report should also incorporate any valid suggestions/feedback received from cities/states with the approval of the MoHUA.

***** Timelines for subsequent years will be as decided by MoHUA

7.6 *Team Composition and Qualification Requirement for key Experts*

a. **Team (full-time):** Given that the assignment requires a deep understanding of the urban sector, as well as of economics, statistics and field studies, the Team Leader and the Core Team of experts must have suitable skills for undertaking the assignment and successfully completing the tasks enumerated. The Team Leader should bring to the table a strong mix of academic accomplishments, urban sector experience and experience of leading similar national/international assignments.

b. **Analytics Team (full-time):** should be manned with experts capable of analysing large data sets, checking and correcting for errors and inconsistencies, development and management of digital databases and preparation of reports. The team should therefore include adequate number of IT specialist(s), database management/ MIS expert(s), urban economics/planning specialists for **Core** data analysis and verification.

c. **Field Teams per city:** should be manned with adequate number of persons (depending upon city size, stratification and geography) capable of conducting field surveys and extracting credible secondary data from various city/state departments and utilities. Each team should therefore include adequate number of qualified urban professionals for extracting secondary data from various sources, persons with market/field research experience and data processors/ data entry operators. Each team should be led by a suitably experienced Urban Specialist (Urban Planner/ Urban Economist) with at least 10 years of experience in the urban sector and at least 5 years of experience in secondary and primary data collection and analysis. The Core Team proposed should be able to demonstrate the qualifications and experience as prescribed in table below:

7.7 *Core Team (CV to be evaluated)*

Position	**Minimum Qualifications & skills**	**Minimum Experience**
Team Leader	Qualification - Bachelor's Degree in Engineering/Architecture/Planning/Economics/Management with post-graduate degree in Planning/Management or equivalent from a recognized University In-depth knowledge of all aspects of urban sector, including governance-related, socio-economic, environmental and engineering aspects Proven academic credibility in terms of published papers, articles etc. Experience of leading national level urban research assignments Experience of leading	At least 20 years of which at least last 10 years must have been for the Urban Sector
Urban Management Specialist/ Planning Expert	Bachelor's Degree in Engineering/Architecture/Planning with post-graduate degree in Management or equivalent from a recognized University Good knowledge of urban sector Experience of playing a core role in similar national/international data collection and ranking assignments	At least 15 years of experience in the Urban Sector
Market Research Specialist	Master's Degree in Management from a recognized University Good knowledge of mobilization and organization for market research Experience of leading national/international field research assignments	At least 15 years of which at least last 7 years must have been in the field of Market Research
Statistician	Master's Degree in Statistics from a recognized University Good knowledge of urban data sources and urban data analysis Experience of statistically designing and managing sample surveys	At least 15 years of which at least last 5 years must have been for the Urban Sector

7.8 *TA management and counterpart staff*

The assignment will be contracted by the MoHUA (erstwhile MOUD) for carrying out the assignment.

Items to be provided by the MoHUA

a. The MoHUA will set up a Coordinating Team at the national level for providing guidance and support to the Core Team for executing the assignment;
b. Provide support for organizing various State and city level workshops and meetings;.
c. Provide feedback from time to time for finalizing deliverables;
d. Set up a monitoring system for timely validation of data and finalization of aggregate data.

Items to be provided by the agency

In addition to the results and deliverables listed above, the Consultant will:

a. Provide for all manpower, materials and equipment necessary for carrying out the assignment;
b. Provide all resources for report production and necessary translations;
c. Provide all Computers and software required by the teams for carrying out the tasks;
d. Arrange for all transportation and travelling required for the teams including Investigations.

Annexure A: List of Cities

Sl. No.	Name of State	Name of City	Population
1	Andaman Nicobar	Portblair	1,40,572
2	Andhra Pradesh	Kakinada	3,12,538
3	Andhra Pradesh	Visakhapatnam	17,28,128
4	Andhra Pradesh	Tirupati	2,87,482
5	Andhra Pradesh	Amaravati	1,03,000
6	Andhra Pradesh	Vijayawada	10,34,358

PART II

Section 8. Conditions of Contract and Contract Forms

1. Part II includes two types of standard Contract forms for Consulting Services (a Time-Based Contract and a Lump-Sum Contract) that are based on the contract forms included in the harmonized Standard Request for Proposals (Master Document for Selection of Consultants prepared by participating Multilateral Development Banks (MDBs).

2. **Time-Based Contract**. This type of contract is appropriate when it is difficult to define or fix the scope and the duration of the services, either because they are related to activities carried out by others for which the completion period may vary, or because the input of the consultants required for attaining the objectives of the assignment is difficult to assess. In time-based contracts the Consultant provides services on a timed basis according to quality specifications, and Consultant’s remuneration is determined on the basis of the time actually spent by the Consultant in carrying out the Services and is based on (i) agreed upon unit rates for the Consultant’s experts multiplied by the actual time spent by the experts in executing the assignment, and (ii) reimbursable expenses using actual expenses and/or agreed unit prices. This type of contract requires the Client to closely supervise the Consultant and to be involved in the daily execution of the assignment.

3. **Lump-Sum Contract.** This type of contract is used mainly for assignments in which the scope and the duration of the Services and the required output of the Consultant are clearly defined. Payments are linked to outputs (deliverables) such as reports, drawings, bill of quantities, bidding documents, or software programs. Lump-sum contracts are easier to administer because they operate on the principle of a fixed price for a fixed scope, and payments are due on clearly specified outputs and milestones. Nevertheless, quality control of the Consultant’s outputs by the Client is paramount.

4. The templates are designed for use in assignments with consulting firms and shall not be used for contracting of individual experts. These standard Contract forms are to be used for complex and/or large value assignments, and/or for contracts above US$300,000 equivalent or more unless otherwise approved by the Bank.

Preface

1. The standard Contract form consists of four parts: the Form of Contract to be signed by the Client and the Consultant, the General Conditions of Contract (GCC), including Attachment 1 (Bank's Policy – Corrupt and Fraudulent Practices); the Special Conditions of Contract (SCC); and the Appendices.

2. The General Conditions of Contract, including Attachment 1, shall not be modified. The Special Conditions of Contract that contain clauses specific to each Contract intend to supplement, but not over-write or otherwise contradict, the General Conditions.

CONTRACT FOR CONSULTANT'S SERVICES

Lump-Sum

Project Name ______________________________

[Loan/Credit/Grant] **No.**______________________

Contract No. ______________________________

between

____

[Name of the Client]

and

____

[Name of the Consultant]

Dated: ________________________

I. Form of Contract

LUMP-SUM

(Text in brackets [ ] is optional; all notes should be deleted in the final text)

This CONTRACT (hereinafter called the "Contract") is made the *[number]* day of the month of *[month]*, *[year]*, between, on the one hand, *[name of Client or Recipient]* (hereinafter called the "Client") and, on the other hand, *[name of Consultant]* (hereinafter called the "Consultant").

[If the Consultant consist of more than one entity, the above should be partially amended to read as follows: "…(hereinafter called the "Client") and, on the other hand, a Joint Venture (name of the JV) consisting of the following entities, each member of which will be jointly and severally liable to the Client for all the Consultant's obligations under this Contract, namely, *[name of member]* and *[name of member]* (hereinafter called the "Consultant").]

WHEREAS

(a) the Client has requested the Consultant to provide certain consulting services as defined in this Contract (hereinafter called the "Services");

(b) the Consultant, having represented to the Client that it has the required professional skills, expertise and technical resources, has agreed to provide the Services on the terms and conditions set forth in this Contract;

(c) the Client has received [*or* has applied for] a loan [*or* credit *or* grant] from the [*insert as relevant, International Bank for Reconstruction and Development (IBRD) or International Development Association (IDA)]:* toward the cost of the Services and intends to apply a portion of the proceeds of this [loan/credit/grant] to eligible payments under this Contract, it being understood that (i) payments by the Bank will be made only at the request of the Client and upon approval by the Bank; (ii) such payments will be subject, in all respects, to the terms and conditions of the [loan/financing/grant] agreement, including prohibitions of withdrawal from the [loan/credit/grant] account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by the decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations; and (iii) no party other than the Client shall derive any rights from the [loan/financing/grant] agreement or have any claim to the [loan/credit/grant] proceeds;

NOW THEREFORE the parties hereto hereby agree as follows:

1. The following documents attached hereto shall be deemed to form an integral part of this Contract:

    (a) The General Conditions of Contract (including Attachment 1 “Bank Policy – Corrupt and Fraudulent Practices);
    (b) The Special Conditions of Contract;
    (c) Appendices:

    Appendix A: Terms of Reference
    Appendix B: Key Experts
    Appendix C: Breakdown of Contract Price
    Appendix D: Form of Advance Payments Guarantee

    In the event of any inconsistency between the documents, the following order of precedence shall prevail: the Special Conditions of Contract; the General Conditions of Contract, including Attachment 1; Appendix A; Appendix B; Appendix C; Appendix D. Any reference to this Contract shall include, where the context permits, a reference to its Appendices.

2. The mutual rights and obligations of the Client and the Consultant shall be as set forth in the Contract, in particular:

    (a) the Consultant shall carry out the Services in accordance with the provisions of the Contract; and
    (b) the Client shall make payments to the Consultant in accordance with the provisions of the Contract.

IN WITNESS WHEREOF, the Parties hereto have caused this Contract to be signed in their respective names as of the day and year first above written.

For and on behalf of *[Name of Client]*

____

[Authorized Representative of the Client – name, title and signature]

For and on behalf of *[Name of Consultant or Name of a Joint Venture]*

____

[Authorized Representative of the Consultant – name and signature]

[For a joint venture, either all members shall sign or only the lead member, in which case the power of attorney to sign on behalf of all members shall be attached.

For and on behalf of each of the members of the Consultant *[insert the Name of the Joint Venture]*

[Name of the lead member]

____

[Authorized Representative on behalf of a Joint Venture]

[add signature blocks for each member if all are signing]

II. General Conditions of Contract

A. GENERAL PROVISIONS

1. Definitions

1.1. Unless the context otherwise requires, the following terms whenever used in this Contract have the following meanings:

(a) "Applicable Guidelines" means Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011.

(b) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Special Conditions of Contract (SCC)**, as they may be issued and in force from time to time.

(c) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA).

(d) "Borrower" means the Government, Government agency or other entity that signs the financing agreement with the Bank.

(e) "Client" means the implementing agency that signs the Contract for the Services with the Selected Consultant.

(f) "Consultant" means a legally-established professional consulting firm or entity selected by the Client to provide the Services under the signed Contract.

(g) "Contract" means the legally binding written agreement signed between the Client and the Consultant and which includes all the attached documents listed in its paragraph 1 of the Form of Contract (the General Conditions (GCC), the Special Conditions (SCC), and the Appendices).

(h) "Day" means a working day unless indicated otherwise.

(i) "Effective Date" means the date on which this Contract comes into force and effect pursuant to Clause GCC 11.

(j) "Experts" means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or JV member(s) assigned by the Consultant to perform the Services or any part thereof under the Contract.

(k) "Foreign Currency" means any currency other than the currency of the Client's country.

(l) "GCC" means these General Conditions of Contract.

(m) "Government" means the government of the Client's country.

(n) "Joint Venture (JV)" means an association with or without a legal personality distinct from that of its members, of more than one entity where one member has the authority to conduct all businesses for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract.

(o) "Key Expert(s)" means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose Curricula Vitae (CV) was taken into account in the technical evaluation of the Consultant's proposal.

(p) "Local Currency" means the currency of the Client's country.

(q) "Non-Key Expert(s)" means an individual professional provided by the Consultant or its Sub-consultant to perform the Services or any part thereof under the Contract.

(r) "Party" means the Client or the Consultant, as the case may be, and "Parties" means both of them.

(s) "SCC" means the Special Conditions of Contract by which the GCC may be amended or supplemented but not over-written.

(t) "Services" means the work to be performed by the Consultant pursuant to this Contract, as described in Appendix A hereto.

(u) "Sub-consultants" means an entity to whom/which the Consultant subcontracts any part of the Services while remaining solely liable for the execution of the Contract.

(v) "Third Party" means any person or entity other than the Government, the Client, the Consultant or a Sub-consultant.

2. Relationship between the Parties

2.1. Nothing contained herein shall be construed as establishing a relationship of master and servant or of principal and agent as between the Client and the Consultant. The Consultant, subject to this Contract, has complete charge of the Experts and Sub-consultants, if any, performing the Services and shall be fully responsible for the Services performed by them or on their behalf hereunder.

3. Law Governing Contract

3.1. This Contract, its meaning and interpretation, and the relation between the Parties shall be governed by the Applicable Law.

4. Language

4.1. This Contract has been executed in the language specified in the **SCC**, which shall be the binding and controlling language for all matters relating to the meaning or interpretation of this Contract.

5. Headings

5.1. The headings shall not limit, alter or affect the meaning of this Contract.

6. Communications

6.1. Any communication required or permitted to be given or made pursuant to this Contract shall be in writing in the language specified in Clause GCC 4. Any such notice, request or consent shall be deemed to have been given or made when delivered in person to an authorized representative of the Party to whom the communication is addressed, or when sent to such Party at the address specified in the **SCC**.

6.2. A Party may change its address for notice hereunder by giving the other Party any communication of such change to the address specified in the **SCC**.

7. Location

7.1. The Services shall be performed at such locations as are specified in **Appendix A** hereto and, where the location of a particular task is not so specified, at such locations, whether in the Government's country or elsewhere, as the Client may approve.

8. Authority of Member in Charge

8.1. In case the Consultant is a Joint Venture, the members hereby authorize the member specified in the **SCC** to act on their behalf in exercising all the Consultant's rights and obligations towards the Client under this Contract, including without limitation the receiving of instructions and payments from the Client.

9. Authorized Representatives

9.1. Any action required or permitted to be taken, and any document required or permitted to be executed under this Contract by the Client or the Consultant may be taken or executed by the officials specified in the **SCC.**

10. Corrupt and Fraudulent Practices

10.1. The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in **Attachment 1** to the GCC.

a. Commissions and Fees

10.2. The Client requires the Consultant to disclose any commissions, gratuities or fees that may have been paid or are to be paid to agents or any other party with respect to the selection process or execution of the Contract. The information disclosed must include at least the name and address of the agent or other party, the amount and currency, and the purpose of the commission, gratuity or fee.

Failure to disclose such commissions, gratuities or fees may result in termination of the Contract and/or sanctions by the Bank.

B. COMMENCEMENT, COMPLETION, MODIFICATION AND TERMINATION OF CONTRACT

11. Effectiveness of Contract

11.1. This Contract shall come into force and effect on the date (the "Effective Date") of the Client's notice to the Consultant instructing the Consultant to begin carrying out the Services. This notice shall confirm that the effectiveness conditions, if any, listed in the **SCC** have been met.

12. Termination of Contract for Failure to Become Effective

12.1. If this Contract has not become effective within such time period after the date of Contract signature as specified in the **SCC**, either Party may, by not less than twenty two (22) days written notice to the other Party, declare this Contract to be null and void, and in the event of such a declaration by either Party, neither Party shall have any claim against the other Party with respect hereto.

13. Commencement of Services

13.1. The Consultant shall confirm availability of Key Experts and begin carrying out the Services not later than the number of days after the Effective Date specified in the **SCC**.

14. Expiration of Contract

14.1. Unless terminated earlier pursuant to Clause GCC 19 hereof, this Contract shall expire at the end of such time period after the Effective Date as specified in the **SCC**.

15. Entire Agreement

15.1. This Contract contains all covenants, stipulations and provisions agreed by the Parties. No agent or representative of either Party has authority to make, and the Parties shall not be bound by or be liable for, any statement, representation, promise or agreement not set forth herein.

16. Modifications or Variations

16.1. Any modification or variation of the terms and conditions of this Contract, including any modification or variation of the scope of the Services, may only be made by written agreement between the Parties. However, each Party shall give due consideration to any proposals for modification or variation made by the other Party.

16.2. In cases of substantial modifications or variations, the prior written consent of the Bank is required.

17. Force Majeure

a. Definition

17.1. For the purposes of this Contract, "Force Majeure" means an event which is beyond the reasonable control of a Party, is not foreseeable, is unavoidable, and makes a Party's performance of its obligations hereunder impossible or so impractical as reasonably to

be considered impossible under the circumstances, and subject to those requirements, includes, but is not limited to, war, riots, civil disorder, earthquake, fire, explosion, storm, flood or other adverse weather conditions, strikes, lockouts or other industrial action confiscation or any other action by Government agencies.

17.2. Force Majeure shall not include (i) any event which is caused by the negligence or intentional action of a Party or such Party's Experts, Sub-consultants or agents or employees, nor (ii) any event which a diligent Party could reasonably have been expected to both take into account at the time of the conclusion of this Contract, and avoid or overcome in the carrying out of its obligations hereunder.

17.3. Force Majeure shall not include insufficiency of funds or failure to make any payment required hereunder.

b. No Breach of Contract

17.4. The failure of a Party to fulfill any of its obligations hereunder shall not be considered to be a breach of, or default under, this Contract insofar as such inability arises from an event of Force Majeure, provided that the Party affected by such an event has taken all reasonable precautions, due care and reasonable alternative measures, all with the objective of carrying out the terms and conditions of this Contract.

c. Measures to be Taken

17.5. A Party affected by an event of Force Majeure shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall take all reasonable measures to minimize the consequences of any event of Force Majeure.

17.6. A Party affected by an event of Force Majeure shall notify the other Party of such event as soon as possible, and in any case not later than fourteen (14) calendar days following the occurrence of such event, providing evidence of the nature and cause of such event, and shall similarly give written notice of the restoration of normal conditions as soon as possible.

17.7. Any period within which a Party shall, pursuant to this Contract, complete any action or task, shall be extended for a period equal to the time during which such Party was unable to perform such action as a result of Force Majeure.

17.8. During the period of their inability to perform the Services as a result of an event of Force Majeure, the Consultant, upon instructions by the Client, shall either:

(a) demobilize, in which case the Consultant shall be reimbursed for additional costs they reasonably and

necessarily incurred, and, if required by the Client, in reactivating the Services; or

(b) continue with the Services to the extent reasonably possible, in which case the Consultant shall continue to be paid under the terms of this Contract and be reimbursed for additional costs reasonably and necessarily incurred.

17.9. In the case of disagreement between the Parties as to the existence or extent of Force Majeure, the matter shall be settled according to Clauses GCC 44 & 45.

18. Suspension

18.1. The Client may, by written notice of suspension to the Consultant, suspend all payments to the Consultant hereunder if the Consultant fails to perform any of its obligations under this Contract, including the carrying out of the Services, provided that such notice of suspension (i) shall specify the nature of the failure, and (ii) shall request the Consultant to remedy such failure within a period not exceeding thirty (30) calendar days after receipt by the Consultant of such notice of suspension.

19. Termination

19.1. This Contract may be terminated by either Party as per provisions set up below:

a. By the Client

19.1.1. The Client may terminate this Contract in case of the occurrence of any of the events specified in paragraphs (a) through (f) of this Clause. In such an occurrence the Client shall give at least thirty (30) calendar days' written notice of termination to the Consultant in case of the events referred to in (a) through (d); at least sixty (60) calendar days' written notice in case of the event referred to in (e); and at least five (5) calendar days' written notice in case of the event referred to in (f):

(a) If the Consultant fails to remedy a failure in the performance of its obligations hereunder, as specified in a notice of suspension pursuant to Clause GCC 18;

(b) If the Consultant becomes (or, if the Consultant consists of more than one entity, if any of its members becomes) insolvent or bankrupt or enter into any agreements with their creditors for relief of debt or take advantage of any law for the benefit of debtors or go into liquidation or receivership whether compulsory or voluntary;

(c) If the Consultant fails to comply with any final decision reached as a result of arbitration proceedings pursuant to Clause GCC 45.1;

(d) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days;

(e) If the Client, in its sole discretion and for any reason whatsoever, decides to terminate this Contract;

(f) If the Consultant fails to confirm availability of Key Experts as required in Clause GCC 13.

19.1.2. Furthermore, if the Client determines that the Consultant has engaged in corrupt, fraudulent, collusive, coercive or obstructive practices, in competing for or in executing the Contract, then the Client may, after giving fourteen (14) calendar days written notice to the Consultant, terminate the Consultant's employment under the Contract.

b. By the Consultant

19.1.3. The Consultant may terminate this Contract, by not less than thirty (30) calendar days’ written notice to the Client, in case of the occurrence of any of the events specified in paragraphs (a) through (d) of this Clause.

(a) If the Client fails to pay any money due to the Consultant pursuant to this Contract and not subject to dispute pursuant to Clause GCC 45.1 within forty-five (45) calendar days after receiving written notice from the Consultant that such payment is overdue.

(b) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days.

(c) If the Client fails to comply with any final decision reached as a result of arbitration pursuant to Clause GCC 45.1.

(d) If the Client is in material breach of its obligations pursuant to this Contract and has not remedied the same within forty-five (45) days (or such longer period as the Consultant may have subsequently approved in writing) following the receipt by the Client of the Consultant’s notice specifying such breach.

c. Cessation of Rights and Obligations

19.1.4. Upon termination of this Contract pursuant to Clauses GCC 12 or GCC 19 hereof, or upon expiration of this Contract pursuant to Clause GCC 14, all rights and obligations of the Parties hereunder shall cease, except (i) such rights and obligations as may have accrued on the date of termination or expiration, (ii) the obligation of confidentiality set forth in Clause GCC 22, (iii) the Consultant’s obligation to permit

inspection, copying and auditing of their accounts and records set forth in Clause GCC 25, and (iv) any right which a Party may have under the Applicable Law.

d. Cessation of Services

19.1.5. Upon termination of this Contract by notice of either Party to the other pursuant to Clauses GCC 19a or GCC 19b, the Consultant shall, immediately upon dispatch or receipt of such notice, take all necessary steps to bring the Services to a close in a prompt and orderly manner and shall make every reasonable effort to keep expenditures for this purpose to a minimum. With respect to documents prepared by the Consultant and equipment and materials furnished by the Client, the Consultant shall proceed as provided, respectively, by Clauses GCC 27 or GCC 28.

e. Payment upon Termination

19.1.6. Upon termination of this Contract, the Client shall make the following payments to the Consultant:

(a) payment for Services satisfactorily performed prior to the effective date of termination; and

(b) in the case of termination pursuant to paragraphs (d) and (e) of Clause GCC 19.1.1, reimbursement of any reasonable cost incidental to the prompt and orderly termination of this Contract, including the cost of the return travel of the Experts.

C. OBLIGATIONS OF THE CONSULTANT

20. General

a. Standard of Performance

20.1 The Consultant shall perform the Services and carry out the Services with all due diligence, efficiency and economy, in accordance with generally accepted professional standards and practices, and shall observe sound management practices, and employ appropriate technology and safe and effective equipment, machinery, materials and methods. The Consultant shall always act, in respect of any matter relating to this Contract or to the Services, as a faithful adviser to the Client, and shall at all times support and safeguard the Client’s legitimate interests in any dealings with the third parties.

20.2. The Consultant shall employ and provide such qualified and experienced Experts and Sub-consultants as are required to carry out the Services.

20.3. The Consultant may subcontract part of the Services to an extent and with such Key Experts and Sub-consultants as may be

approved in advance by the Client. Notwithstanding such approval, the Consultant shall retain full responsibility for the Services.

b. Law Applicable to Services

20.4. The Consultant shall perform the Services in accordance with the Contract and the Applicable Law and shall take all practicable steps to ensure that any of its Experts and Sub-consultants, comply with the Applicable Law.

20.5. Throughout the execution of the Contract, the Consultant shall comply with the import of goods and services prohibitions in the Client's country when

(a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country; or

(b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

20.6. The Client shall notify the Consultant in writing of relevant local customs, and the Consultant shall, after such notification, respect such customs.

21. Conflict of Interests

21.1. The Consultant shall hold the Client's interests paramount, without any consideration for future work, and strictly avoid conflict with other assignments or their own corporate interests.

a. Consultant Not to Benefit from Commissions, Discounts, etc.

21.1.1 The payment of the Consultant pursuant to GCC F (Clauses GCC 38 through 42) shall constitute the Consultant's only payment in connection with this Contract and, subject to Clause GCC 21.1.3, the Consultant shall not accept for its own benefit any trade commission, discount or similar payment in connection with activities pursuant to this Contract or in the discharge of its obligations hereunder, and the Consultant shall use its best efforts to ensure that any Sub-consultants, as well as the Experts and agents of either of them, similarly shall not receive any such additional payment.

21.1.2 Furthermore, if the Consultant, as part of the Services, has the responsibility of advising the Client on the procurement of goods, works or services, the Consultant shall comply with the Bank's Applicable Guidelines, and shall at all times exercise such responsibility in the best interest of the Client. Any discounts or commissions obtained by the Consultant in the exercise of such procurement responsibility shall be for the account of the Client.

b. Consultant and Affiliates Not to Engage in Certain Activities

21.1.3 The Consultant agrees that, during the term of this Contract and after its termination, the Consultant and any entity affiliated with the Consultant, as well as any Sub-consultants and any entity affiliated with such Sub-consultants, shall be disqualified from providing goods, works or non-consulting services resulting from or directly related to the Consultant's Services for the preparation or implementation of the project, unless otherwise indicated in the **SCC**.

c. Prohibition of Conflicting Activities

21.1.4 The Consultant shall not engage, and shall cause its Experts as well as its Sub-consultants not to engage, either directly or indirectly, in any business or professional activities that would conflict with the activities assigned to them under this Contract.

d. Strict Duty to Disclose Conflicting Activities

21.1.5 The Consultant has an obligation and shall ensure that its Experts and Sub-consultants shall have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of their Client, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.

22. Confidentiality

22.1 Except with the prior written consent of the Client, the Consultant and the Experts shall not at any time communicate to any person or entity any confidential information acquired in the course of the Services, nor shall the Consultant and the Experts make public the recommendations formulated in the course of, or as a result of, the Services.

23. Liability of the Consultant

23.1 Subject to additional provisions, if any, set forth in the **SCC**, the Consultant's liability under this Contract shall be provided by the Applicable Law.

24. Insurance to be Taken out by the Consultant

24.1 The Consultant (i) shall take out and maintain, and shall cause any Sub-consultants to take out and maintain, at its (or the Sub-consultants', as the case may be) own cost but on terms and conditions approved by the Client, insurance against the risks, and for the coverage specified in the **SCC,** and (ii) at the Client's request, shall provide evidence to the Client showing that such insurance has been taken out and maintained and that the current premiums therefore have been paid. The Consultant shall ensure that such insurance is in place prior to commencing the Services as stated in Clause GCC 13.

25. Accounting, Inspection and Auditing

25.1 The Consultant shall keep, and shall make all reasonable efforts to cause its Sub-consultants to keep, accurate and systematic accounts and records in respect of the Services and in such form and detail as will clearly identify relevant time changes and costs.

25.2 The Consultant shall permit and shall cause its Sub-consultants to permit, the Bank and/or persons appointed by the Bank to inspect the Site and/or all accounts and records relating to the performance of the Contract and the submission of the Proposal to provide the Services, and to have such accounts and records audited by auditors appointed by the Bank if requested by the Bank. The Consultant's attention is drawn to Clause GCC 10 which provides, inter alia, that acts intended to materially impede the exercise of the Bank's inspection and audit rights provided for under this Clause GCC25.2 constitute a prohibited practice subject to contract termination (as well as to a determination of ineligibility under the Bank's prevailing sanctions procedures.)

26. Reporting Obligations

26.1 The Consultant shall submit to the Client the reports and documents specified in **Appendix A**, in the form, in the numbers and within the time periods set forth in the said Appendix.

27. Proprietary Rights of the Client in Reports and Records

27.1 Unless otherwise indicated in the **SCC**, all reports and relevant data and information such as maps, diagrams, plans, databases, other documents and software, supporting records or material compiled or prepared by the Consultant for the Client in the course of the Services shall be confidential and become and remain the absolute property of the Client. The Consultant shall, not later than upon termination or expiration of this Contract, deliver all such documents to the Client, together with a detailed inventory thereof. The Consultant may retain a copy of such documents, data and/or software but shall not use the same for purposes unrelated to this Contract without prior written approval of the Client.

27.2 If license agreements are necessary or appropriate between the Consultant and third parties for purposes of development of the plans, drawings, specifications, designs, databases, other documents and software, the Consultant shall obtain the Client's prior written approval to such agreements, and the Client shall be entitled at its discretion to require recovering the expenses related to the development of the program(s) concerned. Other restrictions about the future use of these documents and software, if any, shall be specified in the **SCC**.

28. Equipment, Vehicles and Materials

28.1 Equipment, vehicles and materials made available to the Consultant by the Client, or purchased by the Consultant wholly or partly with funds provided by the Client, shall be the property of the Client and shall be marked accordingly. Upon termination or expiration of this Contract, the Consultant shall make available to the

Client an inventory of such equipment, vehicles and materials and shall dispose of such equipment, vehicles and materials in accordance with the Client's instructions. While in possession of such equipment, vehicles and materials, the Consultant, unless otherwise instructed by the Client in writing, shall insure them at the expense of the Client in an amount equal to their full replacement value.

28.2 Any equipment or materials brought by the Consultant or its Experts into the Client's country for the use either for the project or personal use shall remain the property of the Consultant or the Experts concerned, as applicable.

D. CONSULTANT'S EXPERTS AND SUB-CONSULTANTS

29. Description of Key Experts

29.1 The title, agreed job description, minimum qualification and estimated period of engagement to carry out the Services of each of the Consultant's Key Experts are described in **Appendix B.**

30. Replacement of Key Experts

30.1 Except as the Client may otherwise agree in writing, no changes shall be made in the Key Experts.

30.2 Notwithstanding the above, the substitution of Key Experts during Contract execution may be considered only based on the Consultant's written request and due to circumstances outside the reasonable control of the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall forthwith provide as a replacement, a person of equivalent or better qualifications and experience, and at the same rate of remuneration.

31. Removal of Experts or Sub-consultants

31.1 If the Client finds that any of the Experts or Sub-consultant has committed serious misconduct or has been charged with having committed a criminal action, or shall the Client determine that Consultant's Expert of Sub-consultant have engaged in corrupt, fraudulent, collusive, coercive or obstructive practice while performing the Services, the Consultant shall, at the Client's written request, provide a replacement.

31.2 In the event that any of Key Experts, Non-Key Experts or Sub-consultants is found by the Client to be incompetent or incapable in discharging assigned duties, the Client, specifying the grounds therefore, may request the Consultant to provide a replacement.

31.3 Any replacement of the removed Experts or Sub-consultants shall possess better qualifications and experience and shall be acceptable to the Client.

31.4 The Consultant shall bear all costs arising out of or incidental to any removal and/or replacement of such Experts.

E. OBLIGATIONS OF THE CLIENT

32. Assistance and Exemptions

32.1 Unless otherwise specified in the **SCC**, the Client shall use its best efforts to:

(a) Assist the Consultant with obtaining work permits and such other documents as shall be necessary to enable the Consultant to perform the Services.

(b) Assist the Consultant with promptly obtaining, for the Experts and, if appropriate, their eligible dependents, all necessary entry and exit visas, residence permits, exchange permits and any other documents required for their stay in the Client's country while carrying out the Services under the Contract.

(c) Facilitate prompt clearance through customs of any property required for the Services and of the personal effects of the Experts and their eligible dependents.

(c) Issue to officials, agents and representatives of the Government all such instructions and information as may be necessary or appropriate for the prompt and effective implementation of the Services.

(d) Assist the Consultant and the Experts and any Sub-consultants employed by the Consultant for the Services with obtaining exemption from any requirement to register or obtain any permit to practice their profession or to establish themselves either individually or as a corporate entity in the Client's country according to the applicable law in the Client's country.

(e) Assist the Consultant, any Sub-consultants and the Experts of either of them with obtaining the privilege, pursuant to the applicable law in the Client's country, of bringing into the Client's country reasonable amounts of foreign currency for the purposes of the Services or for the personal use of the Experts and of withdrawing any such amounts as may be earned therein by the Experts in the execution of the Services.

(f) Provide to the Consultant any such other assistance as may be specified in the **SCC**.

33. Access to Project Site

33.1 The Client warrants that the Consultant shall have, free of charge, unimpeded access to the project site in respect of which access is required for the performance of the Services. The Client will be

responsible for any damage to the project site or any property thereon resulting from such access and will indemnify the Consultant and each of the experts in respect of liability for any such damage, unless such damage is caused by the willful default or negligence of the Consultant or any Sub-consultants or the Experts of either of them.

34. Change in the Applicable Law Related to Taxes and Duties

34.1 If, after the date of this Contract, there is any change in the applicable law in the Client's country with respect to taxes and duties which increases or decreases the cost incurred by the Consultant in performing the Services, then the remuneration and reimbursable expenses otherwise payable to the Consultant under this Contract shall be increased or decreased accordingly by agreement between the Parties hereto, and corresponding adjustments shall be made to the Contract price amount specified in Clause GCC 38.1

35. Services, Facilities and Property of the Client

35.1 The Client shall make available to the Consultant and the Experts, for the purposes of the Services and free of any charge, the services, facilities and property described in the Terms of Reference (**Appendix A)** at the times and in the manner specified in said **Appendix A.**

36. Counterpart Personnel

36.1 The Client shall make available to the Consultant free of charge such professional and support counterpart personnel, to be nominated by the Client with the Consultant's advice, if specified in **Appendix A**.

36.2 Professional and support counterpart personnel, excluding Client's liaison personnel, shall work under the exclusive direction of the Consultant. If any member of the counterpart personnel fails to perform adequately any work assigned to such member by the Consultant that is consistent with the position occupied by such member, the Consultant may request the replacement of such member, and the Client shall not unreasonably refuse to act upon such request.

37. Payment Obligation

37.1 In consideration of the Services performed by the Consultant under this Contract, the Client shall make such payments to the Consultant for the deliverables specified in **Appendix A** and in such manner as is provided by GCC F below.

F. PAYMENTS TO THE CONSULTANT

38. Contract Price

38.1 The Contract price is fixed and is set forth in the **SCC.** The Contract price breakdown is provided in **Appendix C**.

38.2 Any change to the Contract price specified in Clause 38.1 can be made only if the Parties have agreed to the revised scope of Services

pursuant to Clause GCC 16 and have amended in writing the Terms of Reference in **Appendix A**.

39. Taxes and Duties

39.1 The Consultant, Sub-consultants and Experts are responsible for meeting any and all tax liabilities arising out of the Contract unless it is stated otherwise in the **SCC**.

39.2 As an exception to the above and as stated in the **SCC**, all local identifiable indirect taxes (itemized and finalized at Contract negotiations) are reimbursed to the Consultant or are paid by the Client on behalf of the Consultant.

40. Currency of Payment

40.1 Any payment under this Contract shall be made in the currency(ies) of the Contract.

41. Mode of Billing and Payment

41.1 The total payments under this Contract shall not exceed the Contract price set forth in Clause GCC 38.1.

41.2 The payments under this Contract shall be made in lump-sum installments against deliverables specified in **Appendix A**. The payments will be made according to the payment schedule stated in the **SCC**.

41.2.1 *Advance payment:* Unless otherwise indicated in the **SCC**, an advance payment shall be made against an advance payment bank guarantee acceptable to the Client in an amount (or amounts) and in a currency (or currencies) specified in the **SCC**. Such guarantee (i) is to remain effective until the advance payment has been fully set off, and (ii) is to be in the form set forth in **Appendix D**, or in such other form as the Client shall have approved in writing. The advance payments will be set off by the Client in equal portions against the lump-sum installments specified in the **SCC** until said advance payments have been fully set off.

41.2.2 *The Lump-Sum Installment Payments.* The Client shall pay the Consultant within sixty (60) days after the receipt by the Client of the deliverable(s) and the cover invoice for the related lump-sum installment payment. The payment can be withheld if the Client does not approve the submitted deliverable(s) as satisfactory in which case the Client shall provide comments to the Consultant within the same sixty (60) days period. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated.

41.2.3 *The Final Payment* .The final payment under this Clause shall be made only after the final report l have been submitted by the Consultant and approved as satisfactory by the Client. The

Services shall then be deemed completed and finally accepted by the Client. The last lump-sum installment shall be deemed approved for payment by the Client within ninety (90) calendar days after receipt of the final report by the Client unless the Client, within such ninety (90) calendar day period, gives written notice to the Consultant specifying in detail deficiencies in the Services, the final report. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated. 41.2.4 All payments under this Contract shall be made to the accounts of the Consultant specified in the **SCC**.

41.2.4 With the exception of the final payment under 41.2.3 above, payments do not constitute acceptance of the whole Services nor relieve the Consultant of any obligations hereunder.

42. Interest on Delayed Payments

42.1 If the Client had delayed payments beyond fifteen (15) days after the due date stated in Clause GCC 41.2.2 , interest shall be paid to the Consultant on any amount due by, not paid on, such due date for each day of delay at the annual rate stated in the **SCC.**

G. FAIRNESS AND GOOD FAITH

43. Good Faith

43.1 The Parties undertake to act in good faith with respect to each other's rights under this Contract and to adopt all reasonable measures to ensure the realization of the objectives of this Contract.

H. SETTLEMENT OF DISPUTES

44. Amicable Settlement

44.1 The Parties shall seek to resolve any dispute amicably by mutual consultation.

44.2 If either Party objects to any action or inaction of the other Party, the objecting Party may file a written Notice of Dispute to the other Party providing in detail the basis of the dispute. The Party receiving the Notice of Dispute will consider it and respond in writing within fourteen (14) days after receipt. If that Party fails to respond within fourteen (14) days, or the dispute cannot be amicably settled within fourteen (14) days following the response of that Party, Clause GCC 49.1 shall apply.

45. Dispute Resolution

45.1 Any dispute between the Parties arising under or related to this Contract that cannot be settled amicably may be referred to by either Party to the adjudication/arbitration in accordance with the provisions specified in the **SCC**.

II. General Conditions

Attachment 1: Bank's Policy – Corrupt and Fraudulent Practices

(the text in this Attachment 1 shall not be modified)

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

"**Fraud and Corruption**

1.23 It is the Bank's policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

  (i) "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[7];

  (ii) "fraudulent practice" is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[8];

  (iii) "collusive practices" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[9];

---

[7] For the purpose of this sub-paragraph, "another party" refers to a public official acting in relation to the selection process or contract execution. In this context "public official" includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[8] For the purpose of this sub-paragraph, "party" refers to a public official; the terms "benefit" and "obligation" relate to the selection process or contract execution; and the "act or omission" is intended to influence the selection process or contract execution.

[9] For the purpose of this sub-paragraph, "parties" refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other's bid prices or other conditions.

(iv) "coercive practices" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[10];

(v) "obstructive practice" is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank's inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare mis procurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank's sanctions procedures[11], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[12] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[10] For the purpose of this sub-paragraph, "party" refers to a participant in the selection process or contract execution.

[11] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank's sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[12] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant's proposal for the particular services; or (ii) appointed by the Borrower.

42.1	**The interest rate is**: **Equivalent to Inflation at the relevant time.** **Foreign currency: LIBOR+2%**
45.1	**Disputes shall be settled by arbitration in accordance with the following provisions:** 1. Selection of Arbitrators. Each dispute submitted by a Party to arbitration shall be heard by a sole arbitrator or an arbitration panel composed of three (3) arbitrators, in accordance with the following provisions: (a) Where the Parties agree that the dispute concerns a technical matter, they may agree to appoint a sole arbitrator or, failing agreement on the identity of such sole arbitrator within thirty (30) days after receipt by the other Party of the proposal of a name for such an appointment by the Party who initiated the proceedings, either Party may apply to *Council of Arbitrators, New Delhi* for a list of not fewer than five (5) nominees and, on receipt of such list, the Parties shall alternately strike names therefrom, and the last remaining nominee on the list shall be the sole arbitrator for the matter in dispute. If the last remaining nominee has not been determined in this manner within sixty (60) days of the date of the list, *Council of Arbitrator, New Delhi* shall appoint,

	upon the request of either Party and from such list or otherwise, a sole arbitrator for the matter in dispute. (b) Where the Parties do not agree that the dispute concerns a technical matter, the Client and the Consultant shall each appoint one (1) arbitrator, and these two arbitrators shall jointly appoint a third arbitrator, who shall chair the arbitration panel. If the arbitrators named by the Parties do not succeed in appointing a third arbitrator within thirty (30) days after the latter of the two (2) arbitrators named by the Parties has been appointed, the third arbitrator shall, at the request of either Party, be appointed by *Secretary, Council of Arbitration, New Delhi* (c) If, in a dispute subject to paragraph (b) above, one Party fails to appoint its arbitrator within thirty (30) days after the other Party has appointed its arbitrator, the Party which has named an arbitrator may apply to the *Secretary, Indian Council of Arbitration, New Delhi* to appoint a sole arbitrator for the matter in dispute, and the arbitrator appointed pursuant to such application shall be the sole arbitrator for that dispute. Note: All disputes between domestic consultant the proceeding shall be in accordance with Indian Arbitration Act, 1996.
	2. Rules of Procedure. Except as otherwise stated herein, arbitration proceedings shall be conducted in accordance with the rules of procedure for arbitration of the United Nations Commission on International Trade Law (UNCITRAL) as in force on the date of this Contract. For any dispute between a domestic consultant, the proceedings shall be in accordance with Indian Arbitration Act, 1996. 3. Substitute Arbitrators. If for any reason an arbitrator is unable to perform his/her function, a substitute shall be appointed in the same manner as the original arbitrator. 4. Nationality and Qualifications of Arbitrators. The sole arbitrator or the third arbitrator appointed pursuant to paragraphs 1(a) through 1(c) above shall be an internationally recognized legal or technical expert with extensive experience in relation to the matter in dispute and shall not be a national of the Consultant's home country *[If the Consultant consists of more than one entity, add:* or of the home country of any of their members or Parties*]* or of the Government's country. For the purposes of this Clause, "home country" means any of:

	(a) the country of incorporation of the Consultant *[If the Consultant consists of more than one entity, add:* or of any of their members or Parties*]*; or (b) the country in which the Consultant's [or any of their members' or Parties'] principal place of business is located; or (c) the country of nationality of a majority of the Consultant's [or of any members' or Parties'] shareholders; or (d) the country of nationality of the Sub-consultants concerned, where the dispute involves a subcontract.
	5. Miscellaneous. In any arbitration proceeding hereunder: (a) proceedings shall, unless otherwise agreed by the Parties, be held in a neutral venue or mutually agreed venue. (b) the English language shall be the official language for all purposes; and (c) the decision of the sole arbitrator or of a majority of the arbitrators (or of the third arbitrator if there is no such majority) shall be final and binding and shall be enforceable in any court of competent jurisdiction, and the Parties hereby waive any objections to or claims of immunity in respect of such enforcement.

IV. Appendices

APPENDIX A – TERMS OF REFERENCE

[This Appendix shall include the final Terms of Reference (TORs) worked out by the Client and the Consultant during the negotiations; dates for completion of various tasks; location of performance for different tasks; detailed reporting requirements and list of deliverables against which the payments to the Consultant will be made; Client's input, including counterpart personnel assigned by the Client to work on the Consultant's team; specific tasks or actions that require prior approval by the Client.

Insert the text based on the Section 7 (Terms of Reference) of the ITC in the RFP and modified based on the Forms TECH-1 through TECH-5 of the Consultant's Proposal. Highlight the changes to Section 7 of the RFP]

……………………………………………………………………………………………

APPENDIX B - KEY EXPERTS

[Insert a table based on Form TECH-6 of the Consultant's Technical Proposal and finalized at the Contract's negotiations. Attach the CVs (updated and signed by the respective Key Experts) demonstrating the qualifications of Key Experts.]

……………………………………………………………………………………………

APPENDIX C – BREAKDOWN OF CONTRACT PRICE

[Insert the table with the unit rates to arrive at the breakdown of the lump-sum price. The table shall be based on [Form FIN-3 and FIN-4] of the Consultant's Proposal and reflect any changes agreed at the Contract negotiations, if any. The footnote shall list such changes made to [Form FIN-3 and FIN-4] at the negotiations or state that none has been made.]

When the Consultant has been selected under Quality-Based Selection method, also add the following:

> "The agreed remuneration rates shall be stated in the attached Model Form I. This form shall be prepared on the basis of Appendix A to Form FIN-3 of the RFP "Consultants' Representations regarding Costs and Charges" submitted by the Consultant to the Client prior to the Contract's negotiations.
>
> Should these representations be found by the Client (either through inspections or audits pursuant to Clause GCC 25.2 or through other means) to be materially incomplete or

inaccurate, the Client shall be entitled to introduce appropriate modifications in the remuneration rates affected by such materially incomplete or inaccurate representations. Any such modification shall have retroactive effect and, in case remuneration has already been paid by the Client before any such modification, (i) the Client shall be entitled to offset any excess payment against the next monthly payment to the Consultants, or (ii) if there are no further payments to be made by the Client to the Consultants, the Consultants shall reimburse to the Client any excess payment within thirty (30) days of receipt of a written claim of the Client. Any such claim by the Client for reimbursement must be made within twelve (12) calendar months after receipt by the Client of a final report and a final statement approved by the Client in accordance with Clause GCC 45.1(d) of this Contract*."]*

Model Form I
Breakdown of Agreed Fixed Rates in Consultant’s Contract

We hereby confirm that we have agreed to pay to the Experts listed, who will be involved in performing the Services, the basic fees and away from the home office allowances (if applicable) indicated below:

Name and Title:

APPENDIX D - FORM OF ADVANCE PAYMENTS GUARANTEE

[See Clause GCC 41.2.1 and SCC 41.2.1]

Bank Guarantee for Advance Payment

______________________________ *[Bank's Name, and Address of Issuing Branch or Office]*

Beneficiary: _________________ *[Name and Address of Client]*

Date: ________________

ADVANCE PAYMENT GUARANTEE No.: _________________

We have been informed that ____________ *[name of Consultant or a name of the Joint Venture, same as appears on the signed Contract]* (hereinafter called "the Consultant") has entered into Contract No. _____________ *[reference number of the contract]* dated ____________ with you, for the provision of __________________ *[brief description of Services]* (hereinafter called "the Contract").

Furthermore, we understand that, according to the conditions of the Contract, an advance payment in the sum of ___________ *[amount in figures]* (___________) *[amount in words]* is to be made against an advance payment guarantee.

At the request of the Consultant, we _______________ *[name of bank]* hereby irrevocably undertake to pay you any sum or sums not exceeding in total an amount of ___________ *[amount in figures]* (___________) *[amount in words]*[1] upon receipt by us of your first demand in writing accompanied by a written statement stating that the Consultant are in breach of their obligation under the Contract because the Consultant have used the advance payment for purposes other than toward providing the Services under the Contract.

It is a condition for any claim and payment under this guarantee to be made that the advance payment referred to above must have been received by the Consultant on their account number ___________ at _________________ *[name and address of bank]*.

The maximum amount of this guarantee shall be progressively reduced by the amount of the advance payment repaid by the Consultant as indicated in copies of certified monthly statements which shall be presented to us. This guarantee shall expire, at the latest, upon our receipt of the monthly payment certificate indicating that the Consultant has made full repayment of the

amount of the advance payment, or on the __ day of ___________, 2___,[2] whichever is earlier. Consequently, any demand for payment under this guarantee must be received by us at this office on or before that date.

---

[1] The Guarantor shall insert an amount representing the amount of the advance payment and denominated either in the currency(ies) of the advance payment as specified in the Contract, or in a freely convertible currency acceptable to the Client.

This guarantee is subject to the Uniform Rules for Demand Guarantees, ICC Publication No. 458.

____
[signature(s)]

Note: *All italicized text is for indicative purposes only to assist in preparing this form and shall be deleted from the final product.*

---

[2] Insert the expected expiration date. In the event of an extension of the time for completion of the Contract, the Client would need to request an extension of this guarantee from the Guarantor. Such request must be in writing and must be made prior to the expiration date established in the guarantee. In preparing this guarantee, the Client might consider adding the following text to the form, at the end of the penultimate paragraph: "The Guarantor agrees to a one-time extension of this guarantee for a period not to exceed [six months][one year], in response to the Client's written request for such extension, such request to be presented to the Guarantor before the expiry of the guarantee."

Minutes of the Meeting of Procurement Committee for evaluation of technical proposals for Assessment of Liveability Indices for 116 cities in India

The meetings of the Procurement Committee of Capacity Building for Urban Development (CBUD) Project for evaluation of technical proposals of firms for **Assessment of Liveability Indices for 116 cities in India** was held on 3rd January and 5th January, 2018 in the chamber of Economic Advisor, (room No. 232-C), Nirman Bhawan, New Delhi for the evaluation of the technical proposals.

The following were present:

- Mr. Sudhir Kumar Tiwari, Chairperson
- Mr. Shailendra Vikram Singh, Director (IFD
- Mr. Sajeesh Kumar N., Director (SC)
- Mr Shiv Pal Singh, Director (AMRUT) only on 3rd January, 2018.
- Mr. Yogendra Singh Awana, Dy. Secretary (NULM)
- Mr. Rakesh Gujral, PMU CBUD
- Ms. Vasavi Narla, PMU CBUD
- Mr Amit Gupta, PMU, CBUD

The Final RFP with shortlist was forwarded to World Bank on 30th October, 2017 whose 'No Objection' was received on 24th November, 2017. The RFP was issued to shortlisted consultants on 27th November, 2017. A pre proposal meeting was held on 12th December, 2017 and minutes were issued on 14th December, 2018. No addendum was issued. The last date and time of submission of the proposal was 15.00 hours on 27th December, 2017. Till last date and time, following proposals were received from following shortlisted consultants:

1	Ipsos Public Affairs	• Athena Infonomics India Pvt Ltd. • The Economic Group Limited
2	PricewaterhouseCoopers	
3	Jones Lang LaSalle	
4	Delloite Touche Tohmatsu India LLP	• Insight Development Group Pvt Ltd • Stesalit Systems Limited • Kadence International Pvt Ltd • Operations Research Guild (ORG) India Private Limited
5	Infrastructure Development Corporation (Karnataka) Ltd (iDecK)	• Institute for Social and Economic Change (ISEC) • Public Affairs Centre (PAC) • Sigma Research & Consulting Pvt. Ltd • Consortium Partner 4 - Nielsen
6	CRISIL Risk and Infrastructure Solutions Limited, INDIA	

The technical proposals received till deadline were opened by the Procurement Committee on 28th December, 2017. The Financial Proposals were securely stored. It was noted that as per clause 5.2 of RFP, "*The Evaluation Committee shall evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference, applying the evaluation criteria, sub-criteria, and point system specified in the Data Sheet*". The evaluation criteria indicated at Data sheet of RFP is as follows:

Dear G. Vijay Kumar;

India-P099979: Capacity Building for Urban Development Project , Ln./Cr # IDA-49970
No-Objection to Technical Evaluation Report for Shortlisting of Consulting Firms For Assessment of Liveability in Selected Cities – Quality And Cost-Based Selection – Reference No. IN-MOUD-27866-CS-QCBS

We have reviewed the Technical Evaluation Report for the above-mentioned consulting services, submitted to the Bank on 2018/01/09. Based on the information provided, including that sent by email on January 13, 2018 (as per format) the Bank has no objection to the outcome of the evaluation as follows:

Name of Consultant/Firm	Country	Points
DELOITTE TOUCHE TOHMATSU INDIA PRIVATE LIMITED	India	77.60
INSIGHT DEVELOPEMNT CONSULTING GROUP PVT LTD	India	
STESALIT SYSTEMS LIMITED	India	
KADENCE INTERNATIONAL PVT. LTD.	India	
OPERATIONS RESEARCH GUILD INDIA PVT. LTD	India	
PRICEWATERHOUSECOOPERS INDIA PRIVATE LIMITED	India	66.00
CRISIL RISK AND INFRASTRUCTURE SOLUTIONS LTD., (INDIA)	India	60.50
JONES LANG LASALLE PROPERTY CONSULTANTS	India	42.00
M/S INFRASTRUCTURE DEVELOPMENT CORPORATION (KARNATAKA) LTD., BANGALORE (IDECK)	India	62.10
NIELSON(INDIA) PRIVATE LIMITED	India	
PUBLIC AFFAIR CENTRE (PAC)	India	
INSTITUTE OF SOCIAL AND ECONOMIC CHANGE (ISEC)	India	

SIGMA RESEARCH AND CONSULTING PRIVATE LIMITED	India	
IPSOS RESEARCH PRIVATE LIMITED ATENA INFONOMICS INDIA PRIVATE LIMTED THE ECONOMIST GROUP LIMITED	India India United Kingdom	93.70

Please inform those consultants that have received the minimum passing technical score of the date when financial proposals will be opened. Please ensure you leave sufficient time (at least 7 days) for those firms to make necessary arrangement to attend should they wish. The opening of financial proposals should be made in public.

Please also inform those consultants that failed to achieve the minimum passing technical score of their scores and that their financial proposals will be returned to them unopened after signature of the contract.

We note that there is a significant gap between the two technically qualified firms which is mainly on Approach and methodology scoring. Both qualified firms have issues with reliability of secondary data and for Deloitte even the primary survey is very restricted. This weaknesses could be resolved at the negotiation without any cost implications or quality of deliverables. Subject to this, the evaluation is cleared.

We look forward to receiving the Combined Technical and Financial Evaluation a draft initialed negotiated contract for our review and no objection in due course.

Best Regards,

Vasudha Thawakar

Phone numer: +91 (11) 2306 3217

Dear Sirs:

We, the undersigned, offer to provide the consulting services for "Selection of Consulting Firms for Assessment of Liveability Indices for 116 cities in India", in accordance with your Request for Proposal dated 27th November 2017 and our Technical Proposal.

Our attached Financial Proposal is for the amount of Rupees Thirteen Crores Forty Lakhs Five Hundred and Forty Nine (INR 13,40,00,549), excluding all indirect local taxes in accordance with Clause 25.1 in the Data Sheet. The estimated amount of local indirect taxes is Rupees Two Crores Forty One Lakhs Twenty Thousand and Ninety Nine (INR 2,41,20,099) which shall be confirmed or adjusted, if needed, during negotiations.

Our Financial Proposal shall be binding upon us subject to the modifications resulting from Contract negotiations, up to expiration of the validity period of the Proposal, i.e. before the date indicated in Clause 12.1 of the Data Sheet.

Commissions and gratuities paid or to be paid by us to an agent or any third party relating to preparation or submission of this Proposal and Contract execution, paid if we are awarded the Contract, are listed below:

No commissions or gratuities have been or are to be paid by us to agents or any third party relating to this Proposal and Contract execution

We understand you are not bound to accept any Proposal you receive.

We remain,

Yours sincerely,

Anindya Mallick

I. Form of Contract

LUMP-SUM

This CONTRACT (hereinafter called the "Contract") is made the ……..……….. day of the month of *January,2018*, between, on the one hand, *Ministry of Housing and Urban Affairs* (hereinafter called the "Client") and, on the other hand, M/s IPSOS Research Private Limited (Lead) in consortium M/s Athena Infonomics India Private Limited. and The Economist Group Limited. (hereinafter called the "Consultant").

WHEREAS

(a) the Client has requested the Consultant to provide certain consulting services as defined in this Contract (hereinafter called the "Services");

(b) the Consultant, having represented to the Client that it has the required professional skills, expertise and technical resources, has agreed to provide the Services on the terms and conditions set forth in this Contract;

(c) the Client has received a credit from the *or International Development Association (IDA)]:* toward the cost of the Services and intends to apply a portion of the proceeds of credit to eligible payments under this Contract, it being understood that (i) payments by the Bank will be made only at the request of the Client and upon approval by the Bank; (ii) such payments will be subject, in all respects, to the terms and conditions of the loan agreement, including prohibitions of withdrawal from the credit account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by the decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations; and (iii) no party other than the Client shall derive any rights from the [loan agreement or have any claim to the credit proceeds;

NOW THEREFORE the parties hereto hereby agree as follows:

1. The following documents attached hereto shall be deemed to form an integral part of this Contract:

   (a) The General Conditions of Contract (including Attachment 1 "Bank Policy – Corrupt and Fraudulent Practices);
   (b) The Special Conditions of Contract;
   (c) Appendices:

   Appendix A: Terms of Reference

Appendix B: Key Experts
Appendix C: Breakdown of Contract Price

In the event of any inconsistency between the documents, the following order of precedence shall prevail: the Special Conditions of Contract; the General Conditions of Contract, including Attachment 1; Appendix A; Appendix B; Appendix C. Any reference to this Contract shall include, where the context permits, a reference to its Appendices.

2. The mutual rights and obligations of the Client and the Consultant shall be as set forth in the Contract, in particular:

(a) the Consultant shall carry out the Services in accordance with the provisions of the Contract; and
(b) the Client shall make payments to the Consultant in accordance with the provisions of the Contract.

IN WITNESS WHEREOF, the Parties hereto have caused this Contract to be signed in their respective names as of the day and year first above written.

For and on behalf of
Ministry of Housing and Urban Affairs

Mr. G.Vijay Kumar,
Under Secretary to the Government of India, Ministry of Housing and Urban Affairs

and

For and on behalf of
M/s IPSOS Research Private Limited (Lead) in consortium M/s Athena Infonomics India Private Limited. and The Economist Group Limited.

Mr. Parijat Chakraborty,
Executive Director and Head of Public Affairs and Loyalty
M/s IPSOS Research Private Limited (Lead),

II. General Conditions of Contract

A. GENERAL PROVISIONS

1. Definitions

1.1. Unless the context otherwise requires, the following terms whenever used in this Contract have the following meanings:

(a) "Applicable Guidelines" means Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011.

(b) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Special Conditions of Contract (SCC)**, as they may be issued and in force from time to time.

(c) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA).

(d) "Borrower" means the Government, Government agency or other entity that signs the financing agreement with the Bank.

(e) "Client" means the implementing agency that signs the Contract for the Services with the Selected Consultant.

(f) "Consultant" means a legally-established professional consulting firm or entity selected by the Client to provide the Services under the signed Contract.

(g) "Contract" means the legally binding written agreement signed between the Client and the Consultant and which includes all the attached documents listed in its paragraph 1 of the Form of Contract (the General Conditions (GCC), the Special Conditions (SCC), and the Appendices).

(h) "Day" means a working day unless indicated otherwise.

(i) "Effective Date" means the date on which this Contract comes into force and effect pursuant to Clause GCC 11.

(j) "Experts" means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or JV member(s) assigned by the Consultant to perform the Services or any part thereof under the Contract.

(k) "Foreign Currency" means any currency other than the currency of the Client's country.

(l) "GCC" means these General Conditions of Contract.

(m) "Government" means the government of the Client's country.

(n) "Joint Venture (JV)" means an association with or without a legal personality distinct from that of its members, of more than one entity where one member has the authority to conduct all businesses for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract.

(o) "Key Expert(s)" means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose Curricula Vitae (CV) was taken into account in the technical evaluation of the Consultant's proposal.

(p) "Local Currency" means the currency of the Client's country.

(q) "Non-Key Expert(s)" means an individual professional provided by the Consultant or its Sub-consultant to perform the Services or any part thereof under the Contract.

(r) "Party" means the Client or the Consultant, as the case may be, and "Parties" means both of them.

(s) "SCC" means the Special Conditions of Contract by which the GCC may be amended or supplemented but not over-written.

(t) "Services" means the work to be performed by the Consultant pursuant to this Contract, as described in Appendix A hereto.

(u) "Sub-consultants" means an entity to whom/which the Consultant subcontracts any part of the Services while remaining solely liable for the execution of the Contract.

(v) "Third Party" means any person or entity other than the Government, the Client, the Consultant or a Sub-consultant.

2. Relationship between the Parties

2.1. Nothing contained herein shall be construed as establishing a relationship of master and servant or of principal and agent as between the Client and the Consultant. The Consultant, subject to this Contract, has complete charge of the Experts and Sub-consultants, if any, performing the Services and shall be fully responsible for the Services performed by them or on their behalf hereunder.

3. Law Governing Contract

3.1. This Contract, its meaning and interpretation, and the relation between the Parties shall be governed by the Applicable Law.

4. Language

4.1. This Contract has been executed in the language specified in the **SCC**, which shall be the binding and controlling language for all matters relating to the meaning or interpretation of this Contract.

5. Headings

5.1. The headings shall not limit, alter or affect the meaning of this Contract.

6. Communications

6.1. Any communication required or permitted to be given or made pursuant to this Contract shall be in writing in the language specified in Clause GCC 4. Any such notice, request or consent shall be deemed to have been given or made when delivered in person to an authorized representative of the Party to whom the communication is addressed, or when sent to such Party at the address specified in the **SCC**.

6.2. A Party may change its address for notice hereunder by giving the other Party any communication of such change to the address specified in the **SCC**.

7. Location

7.1. The Services shall be performed at such locations as are specified in **Appendix A** hereto and, where the location of a particular task is not so specified, at such locations, whether in the Government's country or elsewhere, as the Client may approve.

8. Authority of Member in Charge

8.1. In case the Consultant is a Joint Venture, the members hereby authorize the member specified in the **SCC** to act on their behalf in exercising all the Consultant's rights and obligations towards the Client under this Contract, including without limitation the receiving of instructions and payments from the Client.

9. Authorized Representatives

9.1. Any action required or permitted to be taken, and any document required or permitted to be executed under this Contract by the Client or the Consultant may be taken or executed by the officials specified in the **SCC.**

10. Corrupt and Fraudulent Practices

10.1. The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in **Attachment 1** to the GCC.

a. Commissions and Fees

10.2. The Client requires the Consultant to disclose any commissions, gratuities or fees that may have been paid or are to be paid to agents or any other party with respect to the selection process or execution of the Contract. The information disclosed must include at least the name and address of the agent or other party, the amount and currency, and the purpose of the commission, gratuity or fee.

Failure to disclose such commissions, gratuities or fees may result in termination of the Contract and/or sanctions by the Bank.

B. COMMENCEMENT, COMPLETION, MODIFICATION AND TERMINATION OF CONTRACT

11. Effectiveness of Contract

11.1. This Contract shall come into force and effect on the date (the "Effective Date") of the Client's notice to the Consultant instructing the Consultant to begin carrying out the Services. This notice shall confirm that the effectiveness conditions, if any, listed in the **SCC** have been met.

12. Termination of Contract for Failure to Become Effective

12.1. If this Contract has not become effective within such time period after the date of Contract signature as specified in the **SCC**, either Party may, by not less than twenty two (22) days written notice to the other Party, declare this Contract to be null and void, and in the event of such a declaration by either Party, neither Party shall have any claim against the other Party with respect hereto.

13. Commencement of Services

13.1. The Consultant shall confirm availability of Key Experts and begin carrying out the Services not later than the number of days after the Effective Date specified in the **SCC**.

14. Expiration of Contract

14.1. Unless terminated earlier pursuant to Clause GCC 19 hereof, this Contract shall expire at the end of such time period after the Effective Date as specified in the **SCC**.

15. Entire Agreement

15.1. This Contract contains all covenants, stipulations and provisions agreed by the Parties. No agent or representative of either Party has authority to make, and the Parties shall not be bound by or be liable for, any statement, representation, promise or agreement not set forth herein.

16. Modifications or Variations

16.1. Any modification or variation of the terms and conditions of this Contract, including any modification or variation of the scope of the Services, may only be made by written agreement between the Parties. However, each Party shall give due consideration to any proposals for modification or variation made by the other Party.

16.2. In cases of substantial modifications or variations, the prior written consent of the Bank is required.

17. Force Majeure

a. Definition

17.1. For the purposes of this Contract, "Force Majeure" means an event which is beyond the reasonable control of a Party, is not foreseeable, is unavoidable, and makes a Party's performance of its obligations hereunder impossible or so impractical as reasonably to

be considered impossible under the circumstances, and subject to those requirements, includes, but is not limited to, war, riots, civil disorder, earthquake, fire, explosion, storm, flood or other adverse weather conditions, strikes, lockouts or other industrial action confiscation or any other action by Government agencies.

17.2. Force Majeure shall not include (i) any event which is caused by the negligence or intentional action of a Party or such Party's Experts, Sub-consultants or agents or employees, nor (ii) any event which a diligent Party could reasonably have been expected to both take into account at the time of the conclusion of this Contract, and avoid or overcome in the carrying out of its obligations hereunder.

17.3. Force Majeure shall not include insufficiency of funds or failure to make any payment required hereunder.

b. No Breach of Contract

17.4. The failure of a Party to fulfill any of its obligations hereunder shall not be considered to be a breach of, or default under, this Contract insofar as such inability arises from an event of Force Majeure, provided that the Party affected by such an event has taken all reasonable precautions, due care and reasonable alternative measures, all with the objective of carrying out the terms and conditions of this Contract.

c. Measures to be Taken

17.5. A Party affected by an event of Force Majeure shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall take all reasonable measures to minimize the consequences of any event of Force Majeure.

17.6. A Party affected by an event of Force Majeure shall notify the other Party of such event as soon as possible, and in any case not later than fourteen (14) calendar days following the occurrence of such event, providing evidence of the nature and cause of such event, and shall similarly give written notice of the restoration of normal conditions as soon as possible.

17.7. Any period within which a Party shall, pursuant to this Contract, complete any action or task, shall be extended for a period equal to the time during which such Party was unable to perform such action as a result of Force Majeure.

17.8. During the period of their inability to perform the Services as a result of an event of Force Majeure, the Consultant, upon instructions by the Client, shall either:

(a) demobilize, in which case the Consultant shall be reimbursed for additional costs they reasonably and

necessarily incurred, and, if required by the Client, in reactivating the Services; or

(b) continue with the Services to the extent reasonably possible, in which case the Consultant shall continue to be paid under the terms of this Contract and be reimbursed for additional costs reasonably and necessarily incurred.

17.9. In the case of disagreement between the Parties as to the existence or extent of Force Majeure, the matter shall be settled according to Clauses GCC 44 & 45.

18. Suspension

18.1. The Client may, by written notice of suspension to the Consultant, suspend all payments to the Consultant hereunder if the Consultant fails to perform any of its obligations under this Contract, including the carrying out of the Services, provided that such notice of suspension (i) shall specify the nature of the failure, and (ii) shall request the Consultant to remedy such failure within a period not exceeding thirty (30) calendar days after receipt by the Consultant of such notice of suspension.

19. Termination

19.1. This Contract may be terminated by either Party as per provisions set up below:

a. By the Client

19.1.1. The Client may terminate this Contract in case of the occurrence of any of the events specified in paragraphs (a) through (f) of this Clause. In such an occurrence the Client shall give at least thirty (30) calendar days' written notice of termination to the Consultant in case of the events referred to in (a) through (d); at least sixty (60) calendar days' written notice in case of the event referred to in (e); and at least five (5) calendar days' written notice in case of the event referred to in (f):

(a) If the Consultant fails to remedy a failure in the performance of its obligations hereunder, as specified in a notice of suspension pursuant to Clause GCC 18;

(b) If the Consultant becomes (or, if the Consultant consists of more than one entity, if any of its members becomes) insolvent or bankrupt or enter into any agreements with their creditors for relief of debt or take advantage of any law for the benefit of debtors or go into liquidation or receivership whether compulsory or voluntary;

(c) If the Consultant fails to comply with any final decision reached as a result of arbitration proceedings pursuant to Clause GCC 45.1;

(d) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days;

(e) If the Client, in its sole discretion and for any reason whatsoever, decides to terminate this Contract;

(f) If the Consultant fails to confirm availability of Key Experts as required in Clause GCC 13.

19.1.2. Furthermore, if the Client determines that the Consultant has engaged in corrupt, fraudulent, collusive, coercive or obstructive practices, in competing for or in executing the Contract, then the Client may, after giving fourteen (14) calendar days written notice to the Consultant, terminate the Consultant's employment under the Contract.

b. By the Consultant

19.1.3. The Consultant may terminate this Contract, by not less than thirty (30) calendar days' written notice to the Client, in case of the occurrence of any of the events specified in paragraphs (a) through (d) of this Clause.

(a) If the Client fails to pay any money due to the Consultant pursuant to this Contract and not subject to dispute pursuant to Clause GCC 45.1 within forty-five (45) calendar days after receiving written notice from the Consultant that such payment is overdue.

(b) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days.

(c) If the Client fails to comply with any final decision reached as a result of arbitration pursuant to Clause GCC 45.1.

(d) If the Client is in material breach of its obligations pursuant to this Contract and has not remedied the same within forty-five (45) days (or such longer period as the Consultant may have subsequently approved in writing) following the receipt by the Client of the Consultant's notice specifying such breach.

c. Cessation of Rights and Obligations

19.1.4. Upon termination of this Contract pursuant to Clauses GCC 12 or GCC 19 hereof, or upon expiration of this Contract pursuant to Clause GCC 14, all rights and obligations of the Parties hereunder shall cease, except (i) such rights and obligations as may have accrued on the date of termination or expiration, (ii) the obligation of confidentiality set forth in Clause GCC 22, (iii) the Consultant's obligation to permit

inspection, copying and auditing of their accounts and records set forth in Clause GCC 25, and (iv) any right which a Party may have under the Applicable Law.

d. Cessation of Services

19.1.5. Upon termination of this Contract by notice of either Party to the other pursuant to Clauses GCC 19a or GCC 19b, the Consultant shall, immediately upon dispatch or receipt of such notice, take all necessary steps to bring the Services to a close in a prompt and orderly manner and shall make every reasonable effort to keep expenditures for this purpose to a minimum. With respect to documents prepared by the Consultant and equipment and materials furnished by the Client, the Consultant shall proceed as provided, respectively, by Clauses GCC 27 or GCC 28.

e. Payment upon Termination

19.1.6. Upon termination of this Contract, the Client shall make the following payments to the Consultant:

(a) payment for Services satisfactorily performed prior to the effective date of termination; and

(b) in the case of termination pursuant to paragraphs (d) and (e) of Clause GCC 19.1.1, reimbursement of any reasonable cost incidental to the prompt and orderly termination of this Contract, including the cost of the return travel of the Experts.

C. OBLIGATIONS OF THE CONSULTANT

20. General

a. Standard of Performance

20.1 The Consultant shall perform the Services and carry out the Services with all due diligence, efficiency and economy, in accordance with generally accepted professional standards and practices, and shall observe sound management practices, and employ appropriate technology and safe and effective equipment, machinery, materials and methods. The Consultant shall always act, in respect of any matter relating to this Contract or to the Services, as a faithful adviser to the Client, and shall at all times support and safeguard the Client’s legitimate interests in any dealings with the third parties.

20.2. The Consultant shall employ and provide such qualified and experienced Experts and Sub-consultants as are required to carry out the Services.

20.3. The Consultant may subcontract part of the Services to an extent and with such Key Experts and Sub-consultants as may be

approved in advance by the Client. Notwithstanding such approval, the Consultant shall retain full responsibility for the Services.

b. Law Applicable to Services

20.4. The Consultant shall perform the Services in accordance with the Contract and the Applicable Law and shall take all practicable steps to ensure that any of its Experts and Sub-consultants, comply with the Applicable Law.

20.5. Throughout the execution of the Contract, the Consultant shall comply with the import of goods and services prohibitions in the Client's country when

(a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country; or

(b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

20.6. The Client shall notify the Consultant in writing of relevant local customs, and the Consultant shall, after such notification, respect such customs.

21. Conflict of Interests

21.1. The Consultant shall hold the Client's interests paramount, without any consideration for future work, and strictly avoid conflict with other assignments or their own corporate interests.

a. Consultant Not to Benefit from Commissions, Discounts, etc.

21.1.1 The payment of the Consultant pursuant to GCC F (Clauses GCC 38 through 42) shall constitute the Consultant's only payment in connection with this Contract and, subject to Clause GCC 21.1.3, the Consultant shall not accept for its own benefit any trade commission, discount or similar payment in connection with activities pursuant to this Contract or in the discharge of its obligations hereunder, and the Consultant shall use its best efforts to ensure that any Sub-consultants, as well as the Experts and agents of either of them, similarly shall not receive any such additional payment.

21.1.2 Furthermore, if the Consultant, as part of the Services, has the responsibility of advising the Client on the procurement of goods, works or services, the Consultant shall comply with the Bank's Applicable Guidelines, and shall at all times exercise such responsibility in the best interest of the Client. Any discounts or commissions obtained by the Consultant in the exercise of such procurement responsibility shall be for the account of the Client.

b. Consultant and Affiliates Not to Engage in Certain Activities

21.1.3 The Consultant agrees that, during the term of this Contract and after its termination, the Consultant and any entity affiliated with the Consultant, as well as any Sub-consultants and any entity affiliated with such Sub-consultants, shall be disqualified from providing goods, works or non-consulting services resulting from or directly related to the Consultant's Services for the preparation or implementation of the project, unless otherwise indicated in the **SCC**.

c. Prohibition of Conflicting Activities

21.1.4 The Consultant shall not engage, and shall cause its Experts as well as its Sub-consultants not to engage, either directly or indirectly, in any business or professional activities that would conflict with the activities assigned to them under this Contract.

d. Strict Duty to Disclose Conflicting Activities

21.1.5 The Consultant has an obligation and shall ensure that its Experts and Sub-consultants shall have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of their Client, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.

22. Confidentiality

22.1 Except with the prior written consent of the Client, the Consultant and the Experts shall not at any time communicate to any person or entity any confidential information acquired in the course of the Services, nor shall the Consultant and the Experts make public the recommendations formulated in the course of, or as a result of, the Services.

23. Liability of the Consultant

23.1 Subject to additional provisions, if any, set forth in the **SCC**, the Consultant's liability under this Contract shall be provided by the Applicable Law.

24. Insurance to be Taken out by the Consultant

24.1 The Consultant (i) shall take out and maintain, and shall cause any Sub-consultants to take out and maintain, at its (or the Sub-consultants', as the case may be) own cost but on terms and conditions approved by the Client, insurance against the risks, and for the coverage specified in the **SCC,** and (ii) at the Client's request, shall provide evidence to the Client showing that such insurance has been taken out and maintained and that the current premiums therefore have been paid. The Consultant shall ensure that such insurance is in place prior to commencing the Services as stated in Clause GCC 13.

25. Accounting, Inspection and Auditing

25.1 The Consultant shall keep, and shall make all reasonable efforts to cause its Sub-consultants to keep, accurate and systematic accounts and records in respect of the Services and in such form and detail as will clearly identify relevant time changes and costs.

25.2 The Consultant shall permit and shall cause its Sub-consultants to permit, the Bank and/or persons appointed by the Bank to inspect the Site and/or all accounts and records relating to the performance of the Contract and the submission of the Proposal to provide the Services, and to have such accounts and records audited by auditors appointed by the Bank if requested by the Bank. The Consultant's attention is drawn to Clause GCC 10 which provides, inter alia, that acts intended to materially impede the exercise of the Bank's inspection and audit rights provided for under this Clause GCC25.2 constitute a prohibited practice subject to contract termination (as well as to a determination of ineligibility under the Bank's prevailing sanctions procedures.)

26. Reporting Obligations

26.1 The Consultant shall submit to the Client the reports and documents specified in **Appendix A**, in the form, in the numbers and within the time periods set forth in the said Appendix.

27. Proprietary Rights of the Client in Reports and Records

27.1 Unless otherwise indicated in the **SCC**, all reports and relevant data and information such as maps, diagrams, plans, databases, other documents and software, supporting records or material compiled or prepared by the Consultant for the Client in the course of the Services shall be confidential and become and remain the absolute property of the Client. The Consultant shall, not later than upon termination or expiration of this Contract, deliver all such documents to the Client, together with a detailed inventory thereof. The Consultant may retain a copy of such documents, data and/or software but shall not use the same for purposes unrelated to this Contract without prior written approval of the Client.

27.2 If license agreements are necessary or appropriate between the Consultant and third parties for purposes of development of the plans, drawings, specifications, designs, databases, other documents and software, the Consultant shall obtain the Client's prior written approval to such agreements, and the Client shall be entitled at its discretion to require recovering the expenses related to the development of the program(s) concerned. Other restrictions about the future use of these documents and software, if any, shall be specified in the **SCC**.

28. Equipment, Vehicles and Materials

28.1 Equipment, vehicles and materials made available to the Consultant by the Client, or purchased by the Consultant wholly or partly with funds provided by the Client, shall be the property of the Client and shall be marked accordingly. Upon termination or expiration of this Contract, the Consultant shall make available to the

Client an inventory of such equipment, vehicles and materials and shall dispose of such equipment, vehicles and materials in accordance with the Client's instructions. While in possession of such equipment, vehicles and materials, the Consultant, unless otherwise instructed by the Client in writing, shall insure them at the expense of the Client in an amount equal to their full replacement value.

28.2 Any equipment or materials brought by the Consultant or its Experts into the Client's country for the use either for the project or personal use shall remain the property of the Consultant or the Experts concerned, as applicable.

D. CONSULTANT'S EXPERTS AND SUB-CONSULTANTS

29. Description of Key Experts

29.1 The title, agreed job description, minimum qualification and estimated period of engagement to carry out the Services of each of the Consultant's Key Experts are described in **Appendix B.**

30. Replacement of Key Experts

30.1 Except as the Client may otherwise agree in writing, no changes shall be made in the Key Experts.

30.2 Notwithstanding the above, the substitution of Key Experts during Contract execution may be considered only based on the Consultant's written request and due to circumstances outside the reasonable control of the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall forthwith provide as a replacement, a person of equivalent or better qualifications and experience, and at the same rate of remuneration.

31. Removal of Experts or Sub-consultants

31.1 If the Client finds that any of the Experts or Sub-consultant has committed serious misconduct or has been charged with having committed a criminal action, or shall the Client determine that Consultant's Expert of Sub-consultant have engaged in corrupt, fraudulent, collusive, coercive or obstructive practice while performing the Services, the Consultant shall, at the Client's written request, provide a replacement.

31.2 In the event that any of Key Experts, Non-Key Experts or Sub-consultants is found by the Client to be incompetent or incapable in discharging assigned duties, the Client, specifying the grounds therefore, may request the Consultant to provide a replacement.

31.3 Any replacement of the removed Experts or Sub-consultants shall possess better qualifications and experience and shall be acceptable to the Client.

31.4 The Consultant shall bear all costs arising out of or incidental to any removal and/or replacement of such Experts.

E. OBLIGATIONS OF THE CLIENT

32. Assistance and Exemptions

32.1 Unless otherwise specified in the **SCC**, the Client shall use its best efforts to:

(a) Assist the Consultant with obtaining work permits and such other documents as shall be necessary to enable the Consultant to perform the Services.

(b) Assist the Consultant with promptly obtaining, for the Experts and, if appropriate, their eligible dependents, all necessary entry and exit visas, residence permits, exchange permits and any other documents required for their stay in the Client's country while carrying out the Services under the Contract.

(c) Facilitate prompt clearance through customs of any property required for the Services and of the personal effects of the Experts and their eligible dependents.

(c) Issue to officials, agents and representatives of the Government all such instructions and information as may be necessary or appropriate for the prompt and effective implementation of the Services.

(d) Assist the Consultant and the Experts and any Sub-consultants employed by the Consultant for the Services with obtaining exemption from any requirement to register or obtain any permit to practice their profession or to establish themselves either individually or as a corporate entity in the Client's country according to the applicable law in the Client's country.

(e) Assist the Consultant, any Sub-consultants and the Experts of either of them with obtaining the privilege, pursuant to the applicable law in the Client's country, of bringing into the Client's country reasonable amounts of foreign currency for the purposes of the Services or for the personal use of the Experts and of withdrawing any such amounts as may be earned therein by the Experts in the execution of the Services.

(f) Provide to the Consultant any such other assistance as may be specified in the **SCC**.

33. Access to Project Site

33.1 The Client warrants that the Consultant shall have, free of charge, unimpeded access to the project site in respect of which access is required for the performance of the Services. The Client will be

responsible for any damage to the project site or any property thereon resulting from such access and will indemnify the Consultant and each of the experts in respect of liability for any such damage, unless such damage is caused by the willful default or negligence of the Consultant or any Sub-consultants or the Experts of either of them.

34. Change in the Applicable Law Related to Taxes and Duties

34.1 If, after the date of this Contract, there is any change in the applicable law in the Client's country with respect to taxes and duties which increases or decreases the cost incurred by the Consultant in performing the Services, then the remuneration and reimbursable expenses otherwise payable to the Consultant under this Contract shall be increased or decreased accordingly by agreement between the Parties hereto, and corresponding adjustments shall be made to the Contract price amount specified in Clause GCC 38.1

35. Services, Facilities and Property of the Client

35.1 The Client shall make available to the Consultant and the Experts, for the purposes of the Services and free of any charge, the services, facilities and property described in the Terms of Reference (**Appendix A)** at the times and in the manner specified in said **Appendix A.**

36. Counterpart Personnel

36.1 The Client shall make available to the Consultant free of charge such professional and support counterpart personnel, to be nominated by the Client with the Consultant's advice, if specified in **Appendix A**.

36.2 Professional and support counterpart personnel, excluding Client's liaison personnel, shall work under the exclusive direction of the Consultant. If any member of the counterpart personnel fails to perform adequately any work assigned to such member by the Consultant that is consistent with the position occupied by such member, the Consultant may request the replacement of such member, and the Client shall not unreasonably refuse to act upon such request.

37. Payment Obligation

37.1 In consideration of the Services performed by the Consultant under this Contract, the Client shall make such payments to the Consultant for the deliverables specified in **Appendix A** and in such manner as is provided by GCC F below.

F. PAYMENTS TO THE CONSULTANT

38. Contract Price

38.1 The Contract price is fixed and is set forth in the **SCC.** The Contract price breakdown is provided in **Appendix C**.

38.2 Any change to the Contract price specified in Clause 38.1 can be made only if the Parties have agreed to the revised scope of Services

pursuant to Clause GCC 16 and have amended in writing the Terms of Reference in **Appendix A**.

39. Taxes and Duties

39.1 The Consultant, Sub-consultants and Experts are responsible for meeting any and all tax liabilities arising out of the Contract unless it is stated otherwise in the **SCC**.

39.2 As an exception to the above and as stated in the **SCC**, all local identifiable indirect taxes (itemized and finalized at Contract negotiations) are reimbursed to the Consultant or are paid by the Client on behalf of the Consultant.

40. Currency of Payment

40.1 Any payment under this Contract shall be made in the currency(ies) of the Contract.

41. Mode of Billing and Payment

41.1 The total payments under this Contract shall not exceed the Contract price set forth in Clause GCC 38.1.

41.2 The payments under this Contract shall be made in lump-sum installments against deliverables specified in **Appendix A**. The payments will be made according to the payment schedule stated in the **SCC**.

41.2.1 *Advance payment:* Unless otherwise indicated in the **SCC**, an advance payment shall be made against an advance payment bank guarantee acceptable to the Client in an amount (or amounts) and in a currency (or currencies) specified in the **SCC**. Such guarantee (i) is to remain effective until the advance payment has been fully set off, and (ii) is to be in the form set forth in **Appendix D**, or in such other form as the Client shall have approved in writing. The advance payments will be set off by the Client in equal portions against the lump-sum installments specified in the **SCC** until said advance payments have been fully set off.

41.2.2 *The Lump-Sum Installment Payments.* The Client shall pay the Consultant within sixty (60) days after the receipt by the Client of the deliverable(s) and the cover invoice for the related lump-sum installment payment. The payment can be withheld if the Client does not approve the submitted deliverable(s) as satisfactory in which case the Client shall provide comments to the Consultant within the same sixty (60) days period. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated.

41.2.3 *The Final Payment* .The final payment under this Clause shall be made only after the final report l have been submitted by the Consultant and approved as satisfactory by the Client. The

Services shall then be deemed completed and finally accepted by the Client. The last lump-sum installment shall be deemed approved for payment by the Client within ninety (90) calendar days after receipt of the final report by the Client unless the Client, within such ninety (90) calendar day period, gives written notice to the Consultant specifying in detail deficiencies in the Services, the final report. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated. 41.2.4 All payments under this Contract shall be made to the accounts of the Consultant specified in the **SCC**.

41.2.4 With the exception of the final payment under 41.2.3 above, payments do not constitute acceptance of the whole Services nor relieve the Consultant of any obligations hereunder.

42. Interest on Delayed Payments

42.1 If the Client had delayed payments beyond fifteen (15) days after the due date stated in Clause GCC 41.2.2 , interest shall be paid to the Consultant on any amount due by, not paid on, such due date for each day of delay at the annual rate stated in the **SCC.**

G. FAIRNESS AND GOOD FAITH

43. Good Faith

43.1 The Parties undertake to act in good faith with respect to each other’s rights under this Contract and to adopt all reasonable measures to ensure the realization of the objectives of this Contract.

H. SETTLEMENT OF DISPUTES

44. Amicable Settlement

44.1 The Parties shall seek to resolve any dispute amicably by mutual consultation.

44.2 If either Party objects to any action or inaction of the other Party, the objecting Party may file a written Notice of Dispute to the other Party providing in detail the basis of the dispute. The Party receiving the Notice of Dispute will consider it and respond in writing within fourteen (14) days after receipt. If that Party fails to respond within fourteen (14) days, or the dispute cannot be amicably settled within fourteen (14) days following the response of that Party, Clause GCC 49.1 shall apply.

45. Dispute Resolution

45.1 Any dispute between the Parties arising under or related to this Contract that cannot be settled amicably may be referred to by either Party to the adjudication/arbitration in accordance with the provisions specified in the **SCC**.

II. General Conditions

Attachment 1: Bank's Policy – Corrupt and Fraudulent Practices

(the text in this Attachment 1 shall not be modified)

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

"**Fraud and Corruption**

1.23 It is the Bank's policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

- (i) "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[1];
- (ii) "fraudulent practice" is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[2];
- (iii) "collusive practices" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[3];

---

[1] For the purpose of this sub-paragraph, "another party" refers to a public official acting in relation to the selection process or contract execution. In this context "public official" includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[2] For the purpose of this sub-paragraph, "party" refers to a public official; the terms "benefit" and "obligation" relate to the selection process or contract execution; and the "act or omission" is intended to influence the selection process or contract execution.

[3] For the purpose of this sub-paragraph, "parties" refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other's bid prices or other conditions.

(iv) "coercive practices" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[4];

(v) "obstructive practice" is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank's inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare mis procurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank's sanctions procedures[5], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[6] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[4] For the purpose of this sub-paragraph, "party" refers to a participant in the selection process or contract execution.

[5] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank's sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[6] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant's proposal for the particular services; or (ii) appointed by the Borrower.

45.1	**Disputes shall be settled by arbitration in accordance with the following provisions:** 1. Selection of Arbitrators. Each dispute submitted by a Party to arbitration shall be heard by a sole arbitrator or an arbitration panel composed of three (3) arbitrators, in accordance with the following provisions: (a) Where the Parties agree that the dispute concerns a technical matter, they may agree to appoint a sole arbitrator or, failing agreement on the identity of such sole arbitrator within thirty (30) days after receipt by the other Party of the proposal of a name for such an appointment by the Party who initiated the proceedings, either Party may apply to *Council of Arbitrators, New Delhi* for a list of not fewer than five (5) nominees and, on receipt of such list, the Parties shall alternately strike names therefrom, and the last remaining

	nominee on the list shall be the sole arbitrator for the matter in dispute. If the last remaining nominee has not been determined in this manner within sixty (60) days of the date of the list, *Council of Arbitrator, New Delhi* shall appoint, upon the request of either Party and from such list or otherwise, a sole arbitrator for the matter in dispute. (b) Where the Parties do not agree that the dispute concerns a technical matter, the Client and the Consultant shall each appoint one (1) arbitrator, and these two arbitrators shall jointly appoint a third arbitrator, who shall chair the arbitration panel. If the arbitrators named by the Parties do not succeed in appointing a third arbitrator within thirty (30) days after the latter of the two (2) arbitrators named by the Parties has been appointed, the third arbitrator shall, at the request of either Party, be appointed by *Secretary, Council of Arbitration, New Delhi* (c) If, in a dispute subject to paragraph (b) above, one Party fails to appoint its arbitrator within thirty (30) days after the other Party has appointed its arbitrator, the Party which has named an arbitrator may apply to the *Secretary, Indian Council of Arbitration, New Delhi* to appoint a sole arbitrator for the matter in dispute, and the arbitrator appointed pursuant to such application shall be the sole arbitrator for that dispute. Note: All disputes between domestic consultant the proceeding shall be in accordance with Indian Arbitration Act, 1996.
	2. Rules of Procedure. Except as otherwise stated herein, arbitration proceedings shall be conducted in accordance with the rules of procedure for arbitration of the United Nations Commission on International Trade Law (UNCITRAL) as in force on the date of this Contract. For any dispute between a domestic consultant, the proceedings shall be in accordance with Indian Arbitration Act, 1996. 3. Substitute Arbitrators. If for any reason an arbitrator is unable to perform his/her function, a substitute shall be appointed in the same manner as the original arbitrator. 4. Nationality and Qualifications of Arbitrators. The sole arbitrator or the third arbitrator appointed pursuant to paragraphs 1(a) through 1(c) above shall be an internationally recognized legal or technical expert with extensive experience in relation to the matter in dispute and shall not be a national of the Consultant's home country *[If the Consultant consists of more than one entity, add:* or of the home country of any of their members or Parties*]* or of

	the Government's country. For the purposes of this Clause, "home country" means any of: (a) the country of incorporation of the Consultant *[If the Consultant consists of more than one entity, add:* or of any of their members or Parties*]*; or (b) the country in which the Consultant's [or any of their members' or Parties'] principal place of business is located; or (c) the country of nationality of a majority of the Consultant's [or of any members' or Parties'] shareholders; or (d) the country of nationality of the Sub-consultants concerned, where the dispute involves a subcontract.
	5. Miscellaneous. In any arbitration proceeding hereunder: (a) proceedings shall, unless otherwise agreed by the Parties, be held in a neutral venue or mutually agreed venue. (b) the English language shall be the official language for all purposes; and (c) the decision of the sole arbitrator or of a majority of the arbitrators (or of the third arbitrator if there is no such majority) shall be final and binding and shall be enforceable in any court of competent jurisdiction, and the Parties hereby waive any objections to or claims of immunity in respect of such enforcement.

IV. Appendices

APPENDIX A– TERMS OF REFERENCE

7.1 Background

i. The Government of India along with State and Local Governments is implementing several flagship Urban Missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more 'Liveable'. This will mean not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunity;

ii. In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their 'Liveability' and measure their progress over time. In this context, the Ministry of Housing and Urban Affairs has developed a set of 'Liveability Standards in Cities'. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft 'Liveability Standards in Cities' as at http://smartcities.gov.in/upload/uploadfiles/files/LiveabilityStandards.pdf ;

iii. A total of 79 different Liveability Standards are proposed across 15 different categories. The Ministry proposes to conduct an 'Annual Assessment of Liveability in Cities' across the various standards and develop a 'City Liveability Index' – an annual index of the liveability standards in Indian cities. This is an ambitious national project requiring yearly compilation of a large number of datasets across the various Liveability Standards;

iv. A total of 116 cities will be covered in Year 1 (list of cities for Year 1 is provided at Annexure A), and the coverage of cities may be extended in subsequent years. The following classification of cities will be used for the purpose of the study

Classification*		**Population range**
1	Small Towns	Less than 50,000 population
2	Medium Towns	Population ≥ 50,000 < 5 lakh
3	Large Towns	Population ≥ 5 lakh < 1 million
4	Metropolitan Cities	Population ≥ 1 million < 5 million

5	Megapolis	Population ≥ 5 million

** Based on the Classification given in the URDPFI guidelines, 2014*

V. Given the magnitude of data collection and field surveys required, the MoHUA wishes to engage the services of a reputed national/international agency/institution for **Conducting a study and field survey of Liveability Standards** (the **'Assignment'**) across all cities included in the study. This will cover all relevant data required by the MoHUA for computing the 79 Liveability Standards. The data generated from the assignment will be used by the MoHUA for calculating the City Liveability Index of cities on an annual basis;

VI. The contract will be valid for activities in Year 1 (as defined in Clause 7.5) only.

7.2 *Objective of the Assignment*

i. Compile reliable and high quality data for all cities included in the study, as required by the MoHUA for the computation of Liveability Indexes and as prescribed in the 'Liveability Standards in Cities' document;

ii. Develop a robust electronic database of datasets that can be used to assess the progress of cities on an annual basis.

7.3 *Description of Tasks*

The Tasks to be performed and key activities under the assignment will include:

Initiation Activities

i. Conduct State-level workshops (1-day each) on behalf of MoHUA Cost for such workshops must be included in the proposal. The workshops shall achieve the following:

  a. Familiarise States and City governments regarding the overall programme, process that will be followed for data collection, and likely timelines;

  b. Provide State and City governments with a detailed list of data points needed, likely areas of support and information on how the cities should prepare for the surveys;

  c. Help in preparing a preliminary time-line for city meetings and field visits based on preferences indicated by states and cities;

ii. Conduct a Reconnaissance Study of all cities included in the project (as per Annexure A). The study shall inter-alia include:

   a. City-level kick-off meetings with key officials from City governments, Smart City SPVs, various departments and utilities, DISCOMs etc. for assessing data availability and sources, preferred timelines, key nodal officers etc.;
   b. Study of city demography, socio-economic stratification and geography that has a bearing on sample size and distribution;
   c. Study of existing reports, studies, alternative data sources etc.

iii. Prepare and submit to the MoHUA, an Inception Report (separate for all cities included in the study), including inter-alia the following:
   a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.;
   b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments;
   c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;

iv. Convey the finalized schedule and Plan of Action to cities allowing them to mobilise support for the activities. A Minimum of 15 days of preparation period must be given to cities before data collection and surveys;

Data Collection and Field Surveys

v. Mobilize Field Teams (with adequate and qualified manpower as indicated in Clause 7.6) for obtaining data required for all 79 Standards;
vi. Conduct field surveys for a statistically relevant sample as per nationally/internationally accepted standards for sampling size and distribution. The method for determining sample size and distribution should be as proposed in the bid during RfP stage and finalized in consultation with the MoHUA as part of the Inception Report;
vii. Maintain and submit all raw data and data collection forms to MoHUA without any editing and/or masking (including particulars such as names of respondents, exact address and contact details, date and time of survey, and GPS coordinates in case of samples taken for pollution etc.);
viii. Conduct analysis of the raw data through the Analytics Team ((with adequate and qualified manpower as indicated in Clause 7.6) and prepare aggregate data sets for all 79 standards for each of the cities adopting the methodology as prescribed in http://smartcities.gov.in/upload/uploadfiles/files/MethodologicalReportFinal.pdf

ix. Submit Draft City Assessment Report to the MoHUA (separate for each city), including inter-alia the following:
    a. Database of aggregate data in the format as mutually agreed
    b. All raw data and data sheets;
    c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;

x. Submit Draft City Assessment Report to respective city and state governments for inviting comments and suggestions (if any). A period of 15 days shall be given to cities to submit their responses, after which the data will be deemed to be accepted by the city,

xi. Submit Final City Assessment Report to the MoHUA after including any recommendations of the MoHUA and after suitably incorporating any valid feedback received from cities/states with the approval of the MoHUA;

xii. Develop and maintain a digital database of all data sets collected every year for each city. The format should be finalized in consultation with the MoHUA and enable examination of raw data as well as aggregated numbers on a year-on-year basis;

Other support activities

xiii. Provide all necessary support to the NIUA or other reputed third-party agency(ies) appointed by the MoHUA for undertaking verification of the data submitted by the Consultant;

xiv. Provide any technical support as required by the MoHUA or its assigned team during the development of scoring sheets and city indexes for the various Standards;

xv. Conduct a National workshop (1-day) on behalf of MoHUA for disseminating the findings of the Ministry. Costs for the workshop must be included in the proposal.

7.4 *Results to be achieved*

The Assignment will result in the creation of a robust database (updated annually) of critical datasets across 79 different Liveability parameters in Indian Cities. This will form the basis for the Ministry to compute an annual City Liveability Index of cities. This can also act as a repository of critical data for encouraging research on cities in India.

7.5 *Timelines and Deliverables for Year 1**

Report	Time line	Documents	Deliverables and Contents
Inception Report	8 weeks from start date as per contract	Hard copies, and Electronic version	Separate for each city, including: a. Detailed Plan of Action, Minutes of state level workshops, , city meetings including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.; b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments; c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;
Draft City Assessment Report	12 weeks from start date as per contract	Hard Copies, and Electronic version	Separate for each city, including: a. Database of aggregate data in the format as mutually agreed. b. All raw data and data sheets; c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other
Final City Assessment Report	20 weeks from start date as per contract	Hard Copies, and Electronic version	Separate report for each city. The Reports should include all recommendations of the MoHUA on the Draft Reports. The Report should also incorporate any valid suggestions/feedback received from cities/states with the approval of the MoHUA.

***** Timelines for subsequent years will be as decided by MoHUA

7.6 *Team Composition and Qualification Requirement for key Experts*

a. **Team (full-time):** Given that the assignment requires a deep understanding of the urban sector, as well as of economics, statistics and field studies, the Team Leader and the Core Team of experts must have suitable skills for undertaking the assignment and successfully completing the tasks enumerated. The Team Leader should bring to the table a strong mix of academic accomplishments, urban sector experience and experience of leading similar national/international assignments.

b. **Analytics Team (full-time):** should be manned with experts capable of analysing large data sets, checking and correcting for errors and inconsistencies, development and management of digital databases and preparation of reports. The team should therefore include adequate number of IT specialist(s), database management/ MIS expert(s), urban economics/planning specialists for **Core** data analysis and verification.

c. **Field Teams per city:** should be manned with adequate number of persons (depending upon city size, stratification and geography) capable of conducting field surveys and extracting credible secondary data from various city/state departments and utilities. Each team should therefore include adequate number of qualified urban professionals for extracting secondary data from various sources, persons with market/field research experience and data processors/ data entry operators. Each team should be led by a suitably experienced Urban Specialist (Urban Planner/ Urban Economist) with at least 10 years of experience in the urban sector and at least 5 years of experience in secondary and primary data collection and analysis. The Core Team proposed should be able to demonstrate the qualifications and experience as prescribed in table below:

7.7 *Core Team (CV to be evaluated)*

Position	**Minimum Qualifications & skills**	**Minimum Experience**
Team Leader	Qualification - Bachelor’s Degree in Engineering/Architecture/Planning/Economics/Management with post-graduate degree in Planning/Management or equivalent from a recognized University In-depth knowledge of all aspects of urban sector, including governance-related, socio-economic, environmental and engineering aspects Proven academic credibility in terms of published papers, articles etc. Experience of leading national level urban research assignments Experience of leading	At least 20 years of which at least last 10 years must have been for the Urban Sector
Urban Management Specialist/ Planning Expert	Bachelor’s Degree in Engineering/Architecture/Planning with post-graduate degree in Management or equivalent from a recognized University Good knowledge of urban sector Experience of playing a core role in similar national/international data collection and ranking assignments	At least 15 years of experience in the Urban Sector
Market Research Specialist	Master’s Degree in Management from a recognized University Good knowledge of mobilization and organization for market research Experience of leading national/international field research assignments	At least 15 years of which at least last 7 years must have been in the field of Market Research
Statistician	Master’s Degree in Statistics from a recognized University Good knowledge of urban data sources and urban data analysis Experience of statistically designing and managing sample surveys	At least 15 years of which at least last 5 years must have been for the Urban Sector

7.8 *TA management and counterpart staff*

The assignment will be contracted by the MoHUA (erstwhile MOUD) for carrying out the assignment.

Items to be provided by the MoHUA

a. The MoHUA will set up a Coordinating Team at the national level for providing guidance and support to the Core Team for executing the assignment;
b. Provide support for organizing various State and city level workshops and meetings;.
c. Provide feedback from time to time for finalizing deliverables;
d. Set up a monitoring system for timely validation of data and finalization of aggregate data.

Items to be provided by the agency

In addition to the results and deliverables listed above, the Consultant will:

a. Provide for all manpower, materials and equipment necessary for carrying out the assignment;
b. Provide all resources for report production and necessary translations;
c. Provide all Computers and software required by the teams for carrying out the tasks;
d. Arrange for all transportation and travelling required for the teams including Investigations.

Annexure A: List of Cities

Sl. No.	Name of State	Name of City	Population
1	Andaman Nicobar	Portblair	1,40,572
2	Andhra Pradesh	Kakinada	3,12,538
3	Andhra Pradesh	Visakhapatnam	17,28,128
4	Andhra Pradesh	Tirupati	2,87,482
5	Andhra Pradesh	Amaravati	1,03,000
6	Andhra Pradesh	Vijayawada	10,34,358
7	Arunachal Pradesh	Itanagar	59,490
8	Arunachal Pradesh	Pasighat	24,656
9	Assam	Guwahati	9,57,352

116	West Bengal	Howrah	10,77,075

Note: During Negotiation the above mentioned list of the cities is mutually agreed.

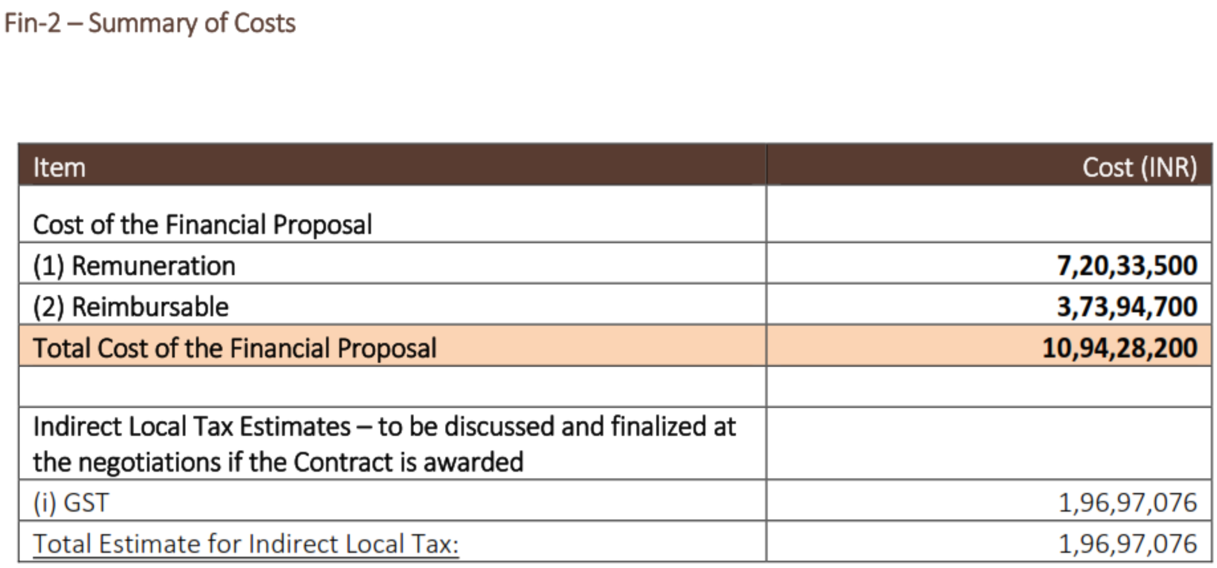
APPENDIX B - KEY EXPERTS

[Insert a table based on Form TECH-6 of the Consultant's Technical Proposal and finalized at the Contract's negotiations. Attach the CVs (updated and signed by the respective Key Experts) demonstrating the qualifications of Key Experts.]

……

APPENDIX C – BREAKDOWN OF CONTRACT PRICE

[Insert the table with the unit rates to arrive at the breakdown of the lump-sum price. The table shall be based on [Form FIN-3 and FIN-4] of the Consultant's Proposal and reflect any changes agreed at the Contract negotiations, if any. The footnote shall list such changes made to [Form FIN-3 and FIN-4] at the negotiations or state that none has been made.]



Fin-2 – Summary of Costs

Item	Cost (INR)
Cost of the Financial Proposal	
(1) Remuneration	**7,20,33,500**
(2) Reimbursable	**3,73,94,700**
Total Cost of the Financial Proposal	**10,94,28,200**
Indirect Local Tax Estimates – to be discussed and finalized at the negotiations if the Contract is awarded	
(i) GST	1,96,97,076
Total Estimate for Indirect Local Tax:	1,96,97,076

Fin-3 – Breakdown of Remuneration

M/s IPSOS Research Private Limited, 801, 8th Floor, Vipul Square, B-Block,
Sushant Lok, Part-1, Gurgaon-122016, Haryana.

Subject: Selection of M/s IPSOS Research Private Limited (lead) in consortium with M/s Athena Infonomics Private Limited and M/s The Economist Group Limited for assignment of Liveability Indices for 116 Cities in India- Issue of Letter of Intent Reg.

Sir,

This has a reference to your responses for the Request for Expression of Interest (REOI) issued by the Ministry on 8th September 2017 and the Request for Proposal (RFP) issued by the Ministry on 27th November 2017 regarding **"Selection of Consulting firm for the assignment of Liveability Indices for 116 Cities in India"** under Capacity Building for Urban Development project. On the basis of combined Technical and Financial evaluation of the bids, in consultation with the World Bank, this Ministry issues a **Letter of Intent (LoI)** to the consortium led by M/s IPSOS Research Private Limited to carry out the project activities mentioned in the RFP document. The total cost of the Financial Proposal is Rs. 10,94,28,200 (without applicable taxes).

2. You are requested to contact the concerned CBUD officials of the Ministry to complete the formalities on the project and further signing of the contract immediately.

3. You are also requested to send your acceptance to this Letter of Intent.

Statutory Alert:

1. The authenticity of this Stamp Certificate should be verified at "www.shcilestamp.com". Any discrepancy in the details on this Certificate and as available on the website renders it invalid.
2. The onus of checking the legitimacy is on the users of the certificate.
3. In case of any discrepancy please inform the Competent Authority.

WHEREAS

(a) The Client has requested the Consultant to provide certain consulting services as defined in this Contract (hereinafter called the "Services");

(b) the Consultant, having represented to the Client that it has the required professional skills, expertise and technical resources, has agreed to provide the Services on the terms and conditions set forth in this Contract;

(c) the Client has received a credit from the *International Development Association (IDA)]:* toward the cost of the Services and intends to apply a portion of the proceeds of credit to eligible payments under this Contract, it being understood that (i) payments by the Bank will be made only at the request of the Client and upon approval by the Bank; (ii) such payments will be subject, in all respects, to the terms and conditions of the loan agreement, including prohibitions of withdrawal from the credit account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Bank, is prohibited by the decision of the United Nations Security council taken under Chapter VII of the Charter of the United Nations; and (iii) no party other than the Client shall derive any rights from the [loan agreement or have any claim to the credit proceeds;

NOW THEREFORE the parties hereto hereby agree as follows:

1. The following documents attached hereto shall be deemed to form an integral part of this Contract:
   (a) The General Conditions of Contract (including Attachment 1 "Bank Policy – Corrupt and Fraudulent Practices);
   (b) The Special Conditions of Contract;
   (c) Appendices:
      Appendix A: Terms of Reference
      Appendix B: Key Experts
      Appendix C: Breakdown of Contract Price

   In the event of any inconsistency between the documents, the following order of precedence shall prevail: the Special Conditions of Contract; the General Conditions of Contract, including Attachment 1; Appendix A; Appendix B; Appendix C. Any reference to this Contract shall include, where the context permits, a reference to its Appendices.

2. The mutual rights and obligations of the Client and the Consultant shall be as set forth in the Contract, in particular:
   (a) The Consultant shall carry out the Services in accordance with the provisions of the Contract; and
   (b) The Client shall make payments to the Consultant in accordance with the provisions of the Contract.

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

IN WITNESS WHEREOF, the Parties hereto have caused this Contract to be signed in their respective names as of the day and year first above written.

For and on behalf of
Ministry of Housing and Urban Affairs

G. VIJAY KUMAR

Mr. G.Vijay Kumar
Under Secretary,
Ministry of Housing and Urban Affairs

and

For and on behalf of
M/s IPSOS Research Private Limited (Lead) in consortium M/s Athena Infonomics India Private Limited. and The Economist Group Limited.

Mr. Parijat Chakraborty.
Executive Director and Head of Public Affairs and Loyalty
M/s IPSOS Research Private Limited (Lead).

II. General Conditions of Contract

A. GENERAL PROVISIONS

1. Definitions

1.1. Unless the context otherwise requires, the following terms whenever used in this Contract have the following meanings:

(a) "Applicable Guidelines" means Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011.

(b) "Applicable Law" means the laws and any other instruments having the force of law in the Client's country, or in such other country as may be specified in the **Special Conditions of Contract (SCC)**, as they may be issued and in force from time to time.

(c) "Bank" means the International Bank for Reconstruction and Development (IBRD) or the International Development Association (IDA).

(d) "Borrower" means the Government, Government agency or other entity that signs the financing agreement with the Bank.

(e) "Client" means the implementing agency that signs the Contract for the Services with the Selected Consultant.

(f) "Consultant" means a legally-established professional consulting firm or entity selected by the Client to provide the Services under the signed Contract.

(g) "Contract" means the legally binding written agreement signed between the Client and the Consultant and which includes all the attached documents listed in its paragraph 1 of the Form of Contract (the General Conditions (GCC), the Special Conditions (SCC), and the Appendices).

(h) "Day" means a working day unless indicated otherwise.

(i) "Effective Date" means the date on which this Contract comes into force and effect pursuant to Clause GCC 11.

(j) "Experts" means, collectively, Key Experts, Non-Key Experts, or any other personnel of the Consultant, Sub-consultant or JV member(s) assigned by the Consultant to perform the Services or any part thereof under the Contract.

G. VIJAY KUMAR
Under Secretary
DELHI

(k) "Foreign Currency" means any currency other than the currency of the Client's country.

(l) "GCC" means these General Conditions of Contract.

(m) "Government" means the government of the Client's country.

(n) "Joint Venture (JV)" means an association with or without a legal personality distinct from that of its members, of more than one entity where one member has the authority to conduct all businesses for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable to the Client for the performance of the Contract.

(o) "Key Expert(s)" means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract and whose Curricula Vitae (CV) was taken into account in the technical evaluation of the Consultant's proposal.

(p) "Local Currency" means the currency of the Client's country.

(q) "Non-Key Expert(s)" means an individual professional provided by the Consultant or its Sub-consultant to perform the Services or any part thereof under the Contract.

(r) "Party" means the Client or the Consultant, as the case may be, and "Parties" means both of them.

(s) "SCC" means the Special Conditions of Contract by which the GCC may be amended or supplemented but not over-written.

(t) "Services" means the work to be performed by the Consultant pursuant to this Contract, as described in Appendix A hereto.

(u) "Sub-consultants" means an entity to whom/which the Consultant subcontracts any part of the Services while remaining solely liable for the execution of the Contract.

(v) "Third Party" means any person or entity other than the Government, the Client, the Consultant or a Sub-consultant.

2. Relationship between the Parties

2.1. Nothing contained herein shall be construed as establishing a relationship of master and servant or of principal and agent as between the Client and the Consultant. The Consultant, subject to this Contract, has complete charge of the Experts and Sub-consultants, if any, performing the Services and shall be fully responsible for the Services performed by them or on their behalf hereunder.

G. VIJAY KUMAR
Under Secretary

3. Law Governing Contract

3.1. This Contract, its meaning and interpretation, and the relation between the Parties shall be governed by the Applicable Law.

4. Language

4.1. This Contract has been executed in the language specified in the **SCC**, which shall be the binding and controlling language for all matters relating to the meaning or interpretation of this Contract.

5. Headings

5.1. The headings shall not limit, alter or affect the meaning of this Contract.

6. Communications

6.1. Any communication required or permitted to be given or made pursuant to this Contract shall be in writing in the language specified in Clause GCC 4. Any such notice, request or consent shall be deemed to have been given or made when delivered in person to an authorized representative of the Party to whom the communication is addressed, or when sent to such Party at the address specified in the **SCC**.

6.2. A Party may change its address for notice hereunder by giving the other Party any communication of such change to the address specified in the **SCC**.

7. Location

7.1. The Services shall be performed at such locations as are specified in **Appendix A** hereto and, where the location of a particular task is not so specified, at such locations, whether in the Government's country or elsewhere, as the Client may approve.

8. Authority of Member in Charge

8.1. In case the Consultant is a Joint Venture, the members hereby authorize the member specified in the **SCC** to act on their behalf in exercising all the Consultant's rights and obligations towards the Client under this Contract, including without limitation the receiving of instructions and payments from the Client.

9. Authorized Representatives

9.1. Any action required or permitted to be taken, and any document required or permitted to be executed under this Contract by the Client or the Consultant may be taken or executed by the officials specified in the **SCC**.

10. Corrupt and Fraudulent Practices

10.1. The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in **Attachment 1** to the GCC.

a. Commissions and Fees

10.2. The Client requires the Consultant to disclose any commissions, gratuities or fees that may have been paid or are to be paid to agents or any other party with respect to the selection process or execution of the Contract. The information disclosed must include at least the name and address of the agent or other party, the amount and currency, and the purpose of the commission, gratuity or fee.

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

Failure to disclose such commissions, gratuities or fees may result in termination of the Contract and/or sanctions by the Bank.

B. COMMENCEMENT, COMPLETION, MODIFICATION AND TERMINATION OF CONTRACT

11. Effectiveness of Contract

11.1. This Contract shall come into force and effect on the date (the "Effective Date") of the Client's notice to the Consultant instructing the Consultant to begin carrying out the Services. This notice shall confirm that the effectiveness conditions, if any, listed in the SCC have been met.

12. Termination of Contract for Failure to Become Effective

12.1. If this Contract has not become effective within such time period after the date of Contract signature as specified in the SCC, either Party may, by not less than twenty two (22) days written notice to the other Party, declare this Contract to be null and void, and in the event of such a declaration by either Party, neither Party shall have any claim against the other Party with respect hereto.

13. Commencement of Services

13.1. The Consultant shall confirm availability of Key Experts and begin carrying out the Services not later than the number of days after the Effective Date specified in the SCC.

14. Expiration of Contract

14.1. Unless terminated earlier pursuant to Clause GCC 19 hereof, this Contract shall expire at the end of such time period after the Effective Date as specified in the SCC.

15. Entire Agreement

15.1. This Contract contains all covenants, stipulations and provisions agreed by the Parties. No agent or representative of either Party has authority to make, and the Parties shall not be bound by or be liable for, any statement, representation, promise or agreement not set forth herein.

16. Modifications or Variations

16.1. Any modification or variation of the terms and conditions of this Contract, including any modification or variation of the scope of the Services, may only be made by written agreement between the Parties. However, each Party shall give due consideration to any proposals for modification or variation made by the other Party.

16.2. In cases of substantial modifications or variations, the prior written consent of the Bank is required.

17. Force Majeure

a. Definition

17.1. For the purposes of this Contract, "Force Majeure" means an event which is beyond the reasonable control of a Party, is not foreseeable, is unavoidable, and makes a Party's performance of its obligations hereunder impossible or so impractical as reasonably to

G. VIJAY KUMAR
Under Secretary

DELHI
Dt...........

be considered impossible under the circumstances, and subject to those requirements, includes, but is not limited to, war, riots, civil disorder, earthquake, fire, explosion, storm, flood or other adverse weather conditions, strikes, lockouts or other industrial action confiscation or any other action by Government agencies.

17.2. Force Majeure shall not include (i) any event which is caused by the negligence or intentional action of a Party or such Party's Experts, Sub-consultants or agents or employees, nor (ii) any event which a diligent Party could reasonably have been expected to both take into account at the time of the conclusion of this Contract, and avoid or overcome in the carrying out of its obligations hereunder.

17.3. Force Majeure shall not include insufficiency of funds or failure to make any payment required hereunder.

b. No Breach of Contract

17.4. The failure of a Party to fulfill any of its obligations hereunder shall not be considered to be a breach of, or default under, this Contract insofar as such inability arises from an event of Force Majeure, provided that the Party affected by such an event has taken all reasonable precautions, due care and reasonable alternative measures, all with the objective of carrying out the terms and conditions of this Contract.

c. Measures to be Taken

17.5. A Party affected by an event of Force Majeure shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall take all reasonable measures to minimize the consequences of any event of Force Majeure.

17.6. A Party affected by an event of Force Majeure shall notify the other Party of such event as soon as possible, and in any case not later than fourteen (14) calendar days following the occurrence of such event, providing evidence of the nature and cause of such event, and shall similarly give written notice of the restoration of normal conditions as soon as possible.

17.7. Any period within which a Party shall, pursuant to this Contract, complete any action or task, shall be extended for a period equal to the time during which such Party was unable to perform such action as a result of Force Majeure.

17.8. During the period of their inability to perform the Services as a result of an event of Force Majeure, the Consultant, upon instructions by the Client, shall either:

(a) demobilize, in which case the Consultant shall be reimbursed for additional costs they reasonably and

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs
IPSOS RESEARCH
DELHI

necessarily incurred, and, if required by the Client, in reactivating the Services; or

(b) continue with the Services to the extent reasonably possible, in which case the Consultant shall continue to be paid under the terms of this Contract and be reimbursed for additional costs reasonably and necessarily incurred.

17.9. In the case of disagreement between the Parties as to the existence or extent of Force Majeure, the matter shall be settled according to Clauses GCC 44 & 45.

18. Suspension

18.1. The Client may, by written notice of suspension to the Consultant, suspend all payments to the Consultant hereunder if the Consultant fails to perform any of its obligations under this Contract, including the carrying out of the Services, provided that such notice of suspension (i) shall specify the nature of the failure, and (ii) shall request the Consultant to remedy such failure within a period not exceeding thirty (30) calendar days after receipt by the Consultant of such notice of suspension.

19. Termination

19.1. This Contract may be terminated by either Party as per provisions set up below:

a. By the Client

19.1.1. The Client may terminate this Contract in case of the occurrence of any of the events specified in paragraphs (a) through (f) of this Clause. In such an occurrence the Client shall give at least thirty (30) calendar days' written notice of termination to the Consultant in case of the events referred to in (a) through (d); at least sixty (60) calendar days' written notice in case of the event referred to in (e); and at least five (5) calendar days' written notice in case of the event referred to in (f):

(a) If the Consultant fails to remedy a failure in the performance of its obligations hereunder, as specified in a notice of suspension pursuant to Clause GCC 18;

(b) If the Consultant becomes (or, if the Consultant consists of more than one entity, if any of its members becomes) insolvent or bankrupt or enter into any agreements with their creditors for relief of debt or take advantage of any law for the benefit of debtors or go into liquidation or receivership whether compulsory or voluntary;

(c) If the Consultant fails to comply with any final decision reached as a result of arbitration proceedings pursuant to Clause GCC 45.1;

जि. विजय कुमार/G. VIJAY KUMAR
अवर सचिव/Under Secretary
DELHI

(d) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days;

(e) If the Client, in its sole discretion and for any reason whatsoever, decides to terminate this Contract;

(f) If the Consultant fails to confirm availability of Key Experts as required in Clause GCC 13.

19.1.2. Furthermore, if the Client determines that the Consultant has engaged in corrupt, fraudulent, collusive, coercive or obstructive practices, in competing for or in executing the Contract, then the Client may, after giving fourteen (14) calendar days written notice to the Consultant, terminate the Consultant's employment under the Contract.

b. By the Consultant

19.1.3. The Consultant may terminate this Contract, by not less than thirty (30) calendar days' written notice to the Client, in case of the occurrence of any of the events specified in paragraphs (a) through (d) of this Clause.

(a) If the Client fails to pay any money due to the Consultant pursuant to this Contract and not subject to dispute pursuant to Clause GCC 45.1 within forty-five (45) calendar days after receiving written notice from the Consultant that such payment is overdue.

(b) If, as the result of Force Majeure, the Consultant is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days.

(c) If the Client fails to comply with any final decision reached as a result of arbitration pursuant to Clause GCC 45.1.

(d) If the Client is in material breach of its obligations pursuant to this Contract and has not remedied the same within forty-five (45) days (or such longer period as the Consultant may have subsequently approved in writing) following the receipt by the Client of the Consultant's notice specifying such breach.

c. Cessation of Rights and Obligations

19.1.4. Upon termination of this Contract pursuant to Clauses GCC 12 or GCC 19 hereof, or upon expiration of this Contract pursuant to Clause GCC 14, all rights and obligations of the Parties hereunder shall cease, except (i) such rights and obligations as may have accrued on the date of termination or expiration, (ii) the obligation of confidentiality set forth in Clause GCC 22, (iii) the Consultant's obligation to permit

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

inspection, copying and auditing of their accounts and records set forth in Clause GCC 25, and (iv) any right which a Party may have under the Applicable Law.

d. **Cessation of Services**

19.1.5. Upon termination of this Contract by notice of either Party to the other pursuant to Clauses GCC 19a or GCC 19b, the Consultant shall, immediately upon dispatch or receipt of such notice, take all necessary steps to bring the Services to a close in a prompt and orderly manner and shall make every reasonable effort to keep expenditures for this purpose to a minimum. With respect to documents prepared by the Consultant and equipment and materials furnished by the Client, the Consultant shall proceed as provided, respectively, by Clauses GCC 27 or GCC 28.

e. **Payment upon Termination**

19.1.6. Upon termination of this Contract, the Client shall make the following payments to the Consultant:

(a) payment for Services satisfactorily performed prior to the effective date of termination; and

(b) in the case of termination pursuant to paragraphs (d) and (e) of Clause GCC 19.1.1, reimbursement of any reasonable cost incidental to the prompt and orderly termination of this Contract, including the cost of the return travel of the Experts.

C. OBLIGATIONS OF THE CONSULTANT

20. General

a. **Standard of Performance**

20.1 The Consultant shall perform the Services and carry out the Services with all due diligence, efficiency and economy, in accordance with generally accepted professional standards and practices, and shall observe sound management practices, and employ appropriate technology and safe and effective equipment, machinery, materials and methods. The Consultant shall always act, in respect of any matter relating to this Contract or to the Services, as a faithful adviser to the Client, and shall at all times support and safeguard the Client's legitimate interests in any dealings with the third parties.

20.2. The Consultant shall employ and provide such qualified and experienced Experts and Sub-consultants as are required to carry out the Services.

20.3. The Consultant may subcontract part of the Services to an extent and with such Key Experts and Sub-consultants as may be

G. VIJAY KUMAR
Under Secretary

approved in advance by the Client. Notwithstanding such approval, the Consultant shall retain full responsibility for the Services.

b. Law Applicable to Services

20.4. The Consultant shall perform the Services in accordance with the Contract and the Applicable Law and shall take all practicable steps to ensure that any of its Experts and Sub-consultants, comply with the Applicable Law.

20.5. Throughout the execution of the Contract, the Consultant shall comply with the import of goods and services prohibitions in the Client's country when

(a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country; or

(b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

20.6. The Client shall notify the Consultant in writing of relevant local customs, and the Consultant shall, after such notification, respect such customs.

21. Conflict of Interests

21.1. The Consultant shall hold the Client's interests paramount, without any consideration for future work, and strictly avoid conflict with other assignments or their own corporate interests.

a. Consultant Not to Benefit from Commissions, Discounts, etc.

21.1.1 The payment of the Consultant pursuant to GCC F (Clauses GCC 38 through 42) shall constitute the Consultant's only payment in connection with this Contract and, subject to Clause GCC 21.1.3, the Consultant shall not accept for its own benefit any trade commission, discount or similar payment in connection with activities pursuant to this Contract or in the discharge of its obligations hereunder, and the Consultant shall use its best efforts to ensure that any Sub-consultants, as well as the Experts and agents of either of them, similarly shall not receive any such additional payment.

21.1.2 Furthermore, if the Consultant, as part of the Services, has the responsibility of advising the Client on the procurement of goods, works or services, the Consultant shall comply with the Bank's Applicable Guidelines, and shall at all times exercise such responsibility in the best interest of the Client. Any discounts or commissions obtained by the Consultant in the exercise of such procurement responsibility shall be for the account of the Client.

b. Consultant and Affiliates Not to Engage in Certain Activities

21.1.3 The Consultant agrees that, during the term of this Contract and after its termination, the Consultant and any entity affiliated with the Consultant, as well as any Sub-consultants and any entity affiliated with such Sub-consultants, shall be disqualified from providing goods, works or non-consulting services resulting from or directly related to the Consultant's Services for the preparation or implementation of the project, unless otherwise indicated in the **SCC**.

c. Prohibition of Conflicting Activities

21.1.4 The Consultant shall not engage, and shall cause its Experts as well as its Sub-consultants not to engage, either directly or indirectly, in any business or professional activities that would conflict with the activities assigned to them under this Contract.

d. Strict Duty to Disclose Conflicting Activities

21.1.5 The Consultant has an obligation and shall ensure that its Experts and Sub-consultants shall have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of their Client, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.

22. Confidentiality

22.1 Except with the prior written consent of the Client, the Consultant and the Experts shall not at any time communicate to any person or entity any confidential information acquired in the course of the Services, nor shall the Consultant and the Experts make public the recommendations formulated in the course of, or as a result of, the Services.

23. Liability of the Consultant

23.1 Subject to additional provisions, if any, set forth in the **SCC**, the Consultant's liability under this Contract shall be provided by the Applicable Law.

24. Insurance to be Taken out by the Consultant

24.1 The Consultant (i) shall take out and maintain, and shall cause any Sub-consultants to take out and maintain, at its (or the Sub-consultants', as the case may be) own cost but on terms and conditions approved by the Client, insurance against the risks, and for the coverage specified in the **SCC**, and (ii) at the Client's request, shall provide evidence to the Client showing that such insurance has been taken out and maintained and that the current premiums therefore have been paid. The Consultant shall ensure that such insurance is in place prior to commencing the Services as stated in Clause GCC 13.

डॉ. विजय कुमार/Dr. VIJAY KUMAR
अवर सचिव/Under Secretary
IPSOS RESEARCH
DELHI

25. Accounting, Inspection and Auditing

25.1 The Consultant shall keep, and shall make all reasonable efforts to cause its Sub-consultants to keep, accurate and systematic accounts and records in respect of the Services and in such form and detail as will clearly identify relevant time changes and costs.

25.2 The Consultant shall permit and shall cause its Sub-consultants to permit, the Bank and/or persons appointed by the Bank to inspect the Site and/or all accounts and records relating to the performance of the Contract and the submission of the Proposal to provide the Services, and to have such accounts and records audited by auditors appointed by the Bank if requested by the Bank. The Consultant's attention is drawn to Clause GCC 10 which provides, inter alia, that acts intended to materially impede the exercise of the Bank's inspection and audit rights provided for under this Clause GCC25.2 constitute a prohibited practice subject to contract termination (as well as to a determination of ineligibility under the Bank's prevailing sanctions procedures.)

26. Reporting Obligations

26.1 The Consultant shall submit to the Client the reports and documents specified in **Appendix A**, in the form, in the numbers and within the time periods set forth in the said Appendix.

27. Proprietary Rights of the Client in Reports and Records

27.1 Unless otherwise indicated in the **SCC**, all reports and relevant data and information such as maps, diagrams, plans, databases, other documents and software, supporting records or material compiled or prepared by the Consultant for the Client in the course of the Services shall be confidential and become and remain the absolute property of the Client. The Consultant shall, not later than upon termination or expiration of this Contract, deliver all such documents to the Client, together with a detailed inventory thereof. The Consultant may retain a copy of such documents, data and/or software but shall not use the same for purposes unrelated to this Contract without prior written approval of the Client.

27.2 If license agreements are necessary or appropriate between the Consultant and third parties for purposes of development of the plans, drawings, specifications, designs, databases, other documents and software, the Consultant shall obtain the Client's prior written approval to such agreements, and the Client shall be entitled at its discretion to require recovering the expenses related to the development of the program(s) concerned. Other restrictions about the future use of these documents and software, if any, shall be specified in the **SCC**.

28. Equipment, Vehicles and Materials

28.1 Equipment, vehicles and materials made available to the Consultant by the Client, or purchased by the Consultant wholly or partly with funds provided by the Client, shall be the property of the Client and shall be marked accordingly. Upon termination or expiration of this Contract, the Consultant shall make available to the

Client an inventory of such equipment, vehicles and materials and shall dispose of such equipment, vehicles and materials in accordance with the Client's instructions. While in possession of such equipment, vehicles and materials, the Consultant, unless otherwise instructed by the Client in writing, shall insure them at the expense of the Client in an amount equal to their full replacement value.

28.2 Any equipment or materials brought by the Consultant or its Experts into the Client's country for the use either for the project or personal use shall remain the property of the Consultant or the Experts concerned, as applicable.

D. CONSULTANT'S EXPERTS AND SUB-CONSULTANTS

29. Description of Key Experts

29.1 The title, agreed job description, minimum qualification and estimated period of engagement to carry out the Services of each of the Consultant's Key Experts are described in **Appendix B.**

30. Replacement of Key Experts

30.1 Except as the Client may otherwise agree in writing, no changes shall be made in the Key Experts.

30.2 Notwithstanding the above, the substitution of Key Experts during Contract execution may be considered only based on the Consultant's written request and due to circumstances outside the reasonable control of the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall forthwith provide as a replacement, a person of equivalent or better qualifications and experience, and at the same rate of remuneration.

31. Removal of Experts or Sub-consultants

31.1 If the Client finds that any of the Experts or Sub-consultant has committed serious misconduct or has been charged with having committed a criminal action, or shall the Client determine that Consultant's Expert of Sub-consultant have engaged in corrupt, fraudulent, collusive, coercive or obstructive practice while performing the Services, the Consultant shall, at the Client's written request, provide a replacement.

31.2 In the event that any of Key Experts, Non-Key Experts or Sub-consultants is found by the Client to be incompetent or incapable in discharging assigned duties, the Client, specifying the grounds therefore, may request the Consultant to provide a replacement.

31.3 Any replacement of the removed Experts or Sub-consultants shall possess better qualifications and experience and shall be acceptable to the Client.

G. VIJAY KUMAR
Under Secretary

IPSOS RESEARCH
DELHI

31.4 The Consultant shall bear all costs arising out of or incidental to any removal and/or replacement of such Experts.

E. OBLIGATIONS OF THE CLIENT

32. Assistance and Exemptions

32.1 Unless otherwise specified in the **SCC**, the Client shall use its best efforts to:

(a) Assist the Consultant with obtaining work permits and such other documents as shall be necessary to enable the Consultant to perform the Services.

(b) Assist the Consultant with promptly obtaining, for the Experts and, if appropriate, their eligible dependents, all necessary entry and exit visas, residence permits, exchange permits and any other documents required for their stay in the Client's country while carrying out the Services under the Contract.

(c) Facilitate prompt clearance through customs of any property required for the Services and of the personal effects of the Experts and their eligible dependents.

(c) Issue to officials, agents and representatives of the Government all such instructions and information as may be necessary or appropriate for the prompt and effective implementation of the Services.

(d) Assist the Consultant and the Experts and any Sub-consultants employed by the Consultant for the Services with obtaining exemption from any requirement to register or obtain any permit to practice their profession or to establish themselves either individually or as a corporate entity in the Client's country according to the applicable law in the Client's country.

(e) Assist the Consultant, any Sub-consultants and the Experts of either of them with obtaining the privilege, pursuant to the applicable law in the Client's country, of bringing into the Client's country reasonable amounts of foreign currency for the purposes of the Services or for the personal use of the Experts and of withdrawing any such amounts as may be earned therein by the Experts in the execution of the Services.

(f) Provide to the Consultant any such other assistance as may be specified in the **SCC**.

33. Access to Project Site

33.1 The Client warrants that the Consultant shall have, free of charge, unimpeded access to the project site in respect of which access is required for the performance of the Services. The Client will be

जि. विजय कुमार/G. VIJAY KUMAR
अवर सचिव/Under Secretary
Ministry of Housing and Urban Affairs
IPSOS RESEARCH
DELHI

responsible for any damage to the project site or any property thereon resulting from such access and will indemnify the Consultant and each of the experts in respect of liability for any such damage, unless such damage is caused by the willful default or negligence of the Consultant or any Sub-consultants or the Experts of either of them.

34. Change in the Applicable Law Related to Taxes and Duties

34.1 If, after the date of this Contract, there is any change in the applicable law in the Client's country with respect to taxes and duties which increases or decreases the cost incurred by the Consultant in performing the Services, then the remuneration and reimbursable expenses otherwise payable to the Consultant under this Contract shall be increased or decreased accordingly by agreement between the Parties hereto, and corresponding adjustments shall be made to the Contract price amount specified in Clause GCC 38.1

35. Services, Facilities and Property of the Client

35.1 The Client shall make available to the Consultant and the Experts, for the purposes of the Services and free of any charge, the services, facilities and property described in the Terms of Reference (**Appendix A**) at the times and in the manner specified in said **Appendix A.**

36. Counterpart Personnel

36.1 The Client shall make available to the Consultant free of charge such professional and support counterpart personnel, to be nominated by the Client with the Consultant's advice, if specified in **Appendix A**.

36.2 Professional and support counterpart personnel, excluding Client's liaison personnel, shall work under the exclusive direction of the Consultant. If any member of the counterpart personnel fails to perform adequately any work assigned to such member by the Consultant that is consistent with the position occupied by such member, the Consultant may request the replacement of such member, and the Client shall not unreasonably refuse to act upon such request.

37. Payment Obligation

37.1 In consideration of the Services performed by the Consultant under this Contract, the Client shall make such payments to the Consultant for the deliverables specified in **Appendix A** and in such manner as is provided by GCC F below.

F. PAYMENTS TO THE CONSULTANT

38. Contract Price

38.1 The Contract price is fixed and is set forth in the **SCC**. The Contract price breakdown is provided in **Appendix C**.

38.2 Any change to the Contract price specified in Clause 38.1 can be made only if the Parties have agreed to the revised scope of Services

G. VIJAY KUMAR
Under Secretary

DELHI

pursuant to Clause GCC 16 and have amended in writing the Terms of Reference in **Appendix A.**

39. Taxes and Duties

39.1 The Consultant, Sub-consultants and Experts are responsible for meeting any and all tax liabilities arising out of the Contract unless it is stated otherwise in the **SCC**.

39.2 As an exception to the above and as stated in the **SCC**, all local identifiable indirect taxes (itemized and finalized at Contract negotiations) are reimbursed to the Consultant or are paid by the Client on behalf of the Consultant.

40. Currency of Payment

40.1 Any payment under this Contract shall be made in the currency(ies) of the Contract.

41. Mode of Billing and Payment

41.1 The total payments under this Contract shall not exceed the Contract price set forth in Clause GCC 38.1.

41.2 The payments under this Contract shall be made in lump-sum installments against deliverables specified in **Appendix A**. The payments will be made according to the payment schedule stated in the **SCC**.

41.2.1 *Advance payment:* Unless otherwise indicated in the **SCC**, an advance payment shall be made against an advance payment bank guarantee acceptable to the Client in an amount (or amounts) and in a currency (or currencies) specified in the **SCC**. Such guarantee (i) is to remain effective until the advance payment has been fully set off, and (ii) is to be in the form set forth in **Appendix D**, or in such other form as the Client shall have approved in writing. The advance payments will be set off by the Client in equal portions against the lump-sum installments specified in the **SCC** until said advance payments have been fully set off.

41.2.2 *The Lump-Sum Installment Payments.* The Client shall pay the Consultant within sixty (60) days after the receipt by the Client of the deliverable(s) and the cover invoice for the related lump-sum installment payment. The payment can be withheld if the Client does not approve the submitted deliverable(s) as satisfactory in which case the Client shall provide comments to the Consultant within the same sixty (60) days period. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated.

41.2.3 *The Final Payment* .The final payment under this Clause shall be made only after the final report l have been submitted by the Consultant and approved as satisfactory by the Client. The

G. VIJAY KUMAR
Under Secretary

Services shall then be deemed completed and finally accepted by the Client. The last lump-sum installment shall be deemed approved for payment by the Client within ninety (90) calendar days after receipt of the final report by the Client unless the Client, within such ninety (90) calendar day period, gives written notice to the Consultant specifying in detail deficiencies in the Services, the final report. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated.

41.2.4 All payments under this Contract shall be made to the accounts of the Consultant specified in the **SCC**.

With the exception of the final payment under 41.2.3 above, payments do not constitute acceptance of the whole Services nor relieve the Consultant of any obligations hereunder.

42. Interest on Delayed Payments

42.1 If the Client had delayed payments beyond fifteen (15) days after the due date stated in Clause GCC 41.2.2 , interest shall be paid to the Consultant on any amount due by, not paid on, such due date for each day of delay at the annual rate stated in the **SCC.**

G. FAIRNESS AND GOOD FAITH

43. Good Faith

43.1 The Parties undertake to act in good faith with respect to each other's rights under this Contract and to adopt all reasonable measures to ensure the realization of the objectives of this Contract.

H. SETTLEMENT OF DISPUTES

44. Amicable Settlement

44.1 The Parties shall seek to resolve any dispute amicably by mutual consultation.

44.2 If either Party objects to any action or inaction of the other Party, the objecting Party may file a written Notice of Dispute to the other Party providing in detail the basis of the dispute. The Party receiving the Notice of Dispute will consider it and respond in writing within fourteen (14) days after receipt. If that Party fails to respond within fourteen (14) days, or the dispute cannot be amicably settled within fourteen (14) days following the response of that Party, Clause GCC 45.1 shall apply.

45. Dispute Resolution

45.1 Any dispute between the Parties arising under or related to this Contract that cannot be settled amicably may be referred to by either Party to the adjudication/arbitration in accordance with the provisions specified in the **SCC**.

II. General Conditions

Attachment 1: Bank's Policy – Corrupt and Fraudulent Practices

(the text in this Attachment 1 shall not be modified)

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

"**Fraud and Corruption**

1.23 It is the Bank's policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

  (i) "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party[1];

  (ii) "fraudulent practice" is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation[2];

  (iii) "collusive practices" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party[3];

---

[1] For the purpose of this sub-paragraph, "another party" refers to a public official acting in relation to the selection process or contract execution. In this context "public official" includes World Bank staff and employees of other organizations taking or reviewing selection decisions.

[2] For the purpose of this sub-paragraph, "party" refers to a public official; the terms "benefit" and "obligation" relate to the selection process or contract execution; and the "act or omission" is intended to influence the selection process or contract execution.

[3] For the purpose of this sub-paragraph, "parties" refers to participants in the procurement or selection process (including public officials) attempting either themselves, or through another person or entity not participating in the procurement or selection process, to simulate competition or to establish prices at artificial, non-competitive levels, or are privy to each other's bid prices or other conditions.

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs
IPSOS RESEARCH
DELHI

(iv) "coercive practices" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party[4];

(v) "obstructive practice" is

(aa) deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or

(bb) acts intended to materially impede the exercise of the Bank's inspection and audit rights;

(b) will reject a proposal for award if it determines that the consultant recommended for award or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

(c) will declare mis procurement and cancel the portion of the Loan allocated to a contract if it determines at any time that representatives of the Borrower or of a recipient of any part of the proceeds of the Loan were engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices during the selection process or the implementation of the contract in question, without the Borrower having taken timely and appropriate action satisfactory to the Bank to address such practices when they occur, including by failing to inform the Bank in a timely manner they knew of the practices;

(d) will sanction a firm or an individual at any time, in accordance with prevailing Bank's sanctions procedures[5], including by publicly declaring such firm or an ineligible, either indefinitely or for a stated period of time: (i) to be awarded a Bank-financed contract, and (ii) to be a nominated[6] sub-consultant, supplier, or service provider of an otherwise eligible firm being awarded a Bank-financed contract.

---

[4] For the purpose of this sub-paragraph, "party" refers to a participant in the selection process or contract execution.

[5] A firm or an individual may be declared ineligible to be awarded a Bank-financed contract upon (i) completion of the Bank's sanctions proceedings as per its sanctions procedures, including inter alia: cross-debarment as agreed with other International Financial Institutions, including Multilateral Development Banks, and through the application of the World Bank Group corporate administrative procurement sanctions procedures for fraud and corruption; and (ii) as a result of temporary suspension or early temporary suspension in connection with an ongoing sanctions proceedings. See footnote 12 and paragraph 8 of Appendix 1 of these Guidelines.

[6] A nominated sub-consultant, supplier, or service provider is one which has been either (i) included by the consultant in its proposal because it brings specific and critical experience and know-how that are accounted for in the technical evaluation of the consultant's proposal for the particular services; or (ii) appointed by the Borrower.

45.1	**Disputes shall be settled by arbitration in accordance with the following provisions:** 1. Selection of Arbitrators. Each dispute submitted by a Party to arbitration shall be heard by a sole arbitrator or an arbitration panel composed of three (3) arbitrators, in accordance with the following provisions: (a) Where the Parties agree that the dispute concerns a technical matter, they may agree to appoint a sole arbitrator or, failing agreement on the identity of such sole arbitrator within thirty (30) days after receipt by the other Party of the proposal of a name for such an appointment by the Party who initiated the proceedings, either Party may apply to *Council of Arbitrators, New Delhi* for a list of not fewer than five (5) nominees and, on receipt of such list, the Parties shall alternately strike names therefrom, and the last remaining nominee on the list shall be the sole arbitrator for the matter in dispute. If the last remaining nominee has not been determined in this manner within sixty (60) days of the date of the list, *Council of Arbitrator, New Delhi* shall appoint, upon the request of either Party and from such list or otherwise, a sole arbitrator for the matter in dispute. (b) Where the Parties do not agree that the dispute concerns a technical matter, the Client and the Consultant shall each

जि. विजय कुमार/G. VIJAY KUMAR
अवर सचिव/Under Secretary

DELHI

appoint one (1) arbitrator, and these two arbitrators shall jointly appoint a third arbitrator, who shall chair the arbitration panel. If the arbitrators named by the Parties do not succeed in appointing a third arbitrator within thirty (30) days after the latter of the two (2) arbitrators named by the Parties has been appointed, the third arbitrator shall, at the request of either Party, be appointed by *Secretary, Council of Arbitration, New Delhi*

(c) If, in a dispute subject to paragraph (b) above, one Party fails to appoint its arbitrator within thirty (30) days after the other Party has appointed its arbitrator, the Party which has named an arbitrator may apply to the *Secretary, Indian Council of Arbitration, New Delhi* to appoint a sole arbitrator for the matter in dispute, and the arbitrator appointed pursuant to such application shall be the sole arbitrator for that dispute.

Note: All disputes between domestic consultant the proceeding shall be in accordance with Indian Arbitration Act, 1996.

2. Rules of Procedure. Except as otherwise stated herein, arbitration proceedings shall be conducted in accordance with the rules of procedure for arbitration of the United Nations Commission on International Trade Law (UNCITRAL) as in force on the date of this Contract. For any dispute between a domestic consultant, the proceedings shall be in accordance with Indian Arbitration Act, 1996.

3. Substitute Arbitrators. If for any reason an arbitrator is unable to perform his/her function, a substitute shall be appointed in the same manner as the original arbitrator.

4. Nationality and Qualifications of Arbitrators. The sole arbitrator or the third arbitrator appointed pursuant to paragraphs 1(a) through 1(c) above shall be an internationally recognized legal or technical expert with extensive experience in relation to the matter in dispute and shall not be a national of the Consultant's home country *[If the Consultant consists of more than one entity, add:* or of the home country of any of their members or Parties*]* or of the Government's country. For the purposes of this Clause, "home country" means any of:

(a) the country of incorporation of the Consultant *[If the Consultant consists of more than one entity, add:* or of any of their members or Parties*]*; or

(b) the country in which the Consultant's [or any of their members' or Parties'] principal place of business is located; or

G. VIJAY KUMAR

IV. Appendices

APPENDIX A– TERMS OF REFERENCE

7.1 Background

i. The Government of India along with State and Local Governments is implementing several flagship Urban Missions for improving various aspects of urban development in Indian cities. An underlying goal of these initiatives is to make Indian cities more 'Liveable'. This will mean not only providing good quality core infrastructure and services, but also developing cities with ample opportunities for work, entertainment and cultural activities, improved social infrastructure and economic opportunity;

ii. In order to do this through a structured approach it is important to create a common minimum framework, which cities can use to assess their 'Liveability' and measure their progress over time. In this context, the Ministry of Housing and Urban Affairs has developed a set of 'Liveability Standards in Cities'. These will act as a guiding framework for cities to chart their pathway towards liveability and result in a systematic improvement in the quality of life of citizens in Indian cities. The draft 'Liveability Standards in Cities' as at http://smartcities.gov.in/upload/uploadfiles/files/LiveabilityStandards.pdf ;

iii. A total of 79 different Liveability Standards are proposed across 15 different categories. The Ministry proposes to conduct an 'Annual Assessment of Liveability in Cities' across the various standards and develop a 'City Liveability Index' – an annual index of the liveability standards in Indian cities. This is an ambitious national project requiring yearly compilation of a large number of datasets across the various Liveability Standards;

iv. A total of 116 cities will be covered in Year 1 (list of cities for Year 1 is provided at Annexure A), and the coverage of cities may be extended in subsequent years. The following classification of cities will be used for the purpose of the study

Classification*		Population range
1	Small Towns	Less than 50,000 population
2	Medium Towns	Population ≥ 50,000 < 5 lakh
3	Large Towns	Population ≥ 5 lakh < 1 million
4	Metropolitan Cities	Population ≥ 1 million < 5 million

/G. VIJAY KUMAR
/Under Secretary
Ministry of Housing and U

IPSOS RESEARCH
DELHI

5	Megapolis	Population ≥ 5 million

** Based on the Classification given in the URDPFI guidelines, 2014*

V. Given the magnitude of data collection and field surveys required, the MoHUA wishes to engage the services of a reputed national/international agency/institution for **Conducting a study and field survey of Liveability Standards** (the '**Assignment**') across all cities included in the study. This will cover all relevant data required by the MoHUA for computing the 79 Liveability Standards. The data generated from the assignment will be used by the MoHUA for calculating the City Liveability Index of cities on an annual basis;

VI. The contract will be valid for activities in Year 1 (as defined in Clause 7.5) only.

7.2 *Objective of the Assignment*

i. Compile reliable and high quality data for all cities included in the study, as required by the MoHUA for the computation of Liveability Indexes and as prescribed in the 'Liveability Standards in Cities' document;

ii. Develop a robust electronic database of datasets that can be used to assess the progress of cities on an annual basis.

7.3 *Description of Tasks*

The Tasks to be performed and key activities under the assignment will include:

Initiation Activities

i. Conduct State-level workshops (1-day each) on behalf of MoHUA Cost for such workshops must be included in the proposal. The workshops shall achieve the following:

  a. Familiarise States and City governments regarding the overall programme, process that will be followed for data collection, and likely timelines;

  b. Provide State and City governments with a detailed list of data points needed, likely areas of support and information on how the cities should prepare for the surveys;

  c. Help in preparing a preliminary time-line for city meetings and field visits based on preferences indicated by states and cities;

ii. Conduct a Reconnaissance Study of all cities included in the project (as per Annexure A). The study shall inter-alia include:

S. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

IPSOS RESEARCH
DELHI

  a. City-level kick-off meetings with key officials from City governments, Smart City SPVs, various departments and utilities, DISCOMs etc. for assessing data availability and sources, preferred timelines, key nodal officers etc.;
  b. Study of city demography, socio-economic stratification and geography that has a bearing on sample size and distribution;
  c. Study of existing reports, studies, alternative data sources etc.

iii. Prepare and submit to the MoHUA, an Inception Report (separate for all cities included in the study), including inter-alia the following:
  a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.;
  b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments;
  c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;

iv. Convey the finalized schedule and Plan of Action to cities allowing them to mobilise support for the activities. A Minimum of 15 days of preparation period must be given to cities before data collection and surveys;

Data Collection and Field Surveys

v. Mobilize Field Teams (with adequate and qualified manpower as indicated in Clause 7.6) for obtaining data required for all 79 Standards;
vi. Conduct field surveys for a statistically relevant sample as per nationally/internationally accepted standards for sampling size and distribution. The method for determining sample size and distribution should be as proposed in the bid during RfP stage and finalized in consultation with the MoHUA as part of the Inception Report;
vii. Maintain and submit all raw data and data collection forms to MoHUA without any editing and/or masking (including particulars such as names of respondents, exact address and contact details, date and time of survey, and GPS coordinates in case of samples taken for pollution etc.);
viii. Conduct analysis of the raw data through the Analytics Team ((with adequate and qualified manpower as indicated in Clause 7.6) and prepare aggregate data sets for all 79 standards for each of the cities adopting the methodology as prescribed in http://smartcities.gov.in/upload/uploadfiles/files/MethodologicalReportFinal.pdf

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

IPSOS RESEARCH PVT LTD
DELHI

ix. Submit Draft City Assessment Report to the MoHUA (separate for each city), including inter-alia the following:

  a. Database of aggregate data in the format as mutually agreed
  b. All raw data and data sheets;
  c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other relevant documentation;

x. Submit Draft City Assessment Report to respective city and state governments for inviting comments and suggestions (if any). A period of 15 days shall be given to cities to submit their responses, after which the data will be deemed to be accepted by the city,

xi. Submit Final City Assessment Report to the MoHUA after including any recommendations of the MoHUA and after suitably incorporating any valid feedback received from cities/states with the approval of the MoHUA;

xii. Develop and maintain a digital database of all data sets collected every year for each city. The format should be finalized in consultation with the MoHUA and enable examination of raw data as well as aggregated numbers on a year-on-year basis;

Other support activities

xiii. Provide all necessary support to the NIUA or other reputed third-party agency(ies) appointed by the MoHUA for undertaking verification of the data submitted by the Consultant;

xiv. Provide any technical support as required by the MoHUA or its assigned team during the development of scoring sheets and city indexes for the various Standards;

xv. Conduct a National workshop (1-day) on behalf of MoHUA for disseminating the findings of the Ministry. Costs for the workshop must be included in the proposal.

7.4 *Results to be achieved*

The Assignment will result in the creation of a robust database (updated annually) of critical datasets across 79 different Liveability parameters in Indian Cities. This will form the basis for the Ministry to compute an annual City Liveability Index of cities. This can also act as a repository of critical data for encouraging research on cities in India.

7.5 *Timelines and Deliverables for Year 1**

Report	Time line	Documents	Deliverables and Contents
Inception Report	8 weeks from start date as per contract	Hard copies, and Electronic version	Separate for each city, including: a. Detailed Plan of Action, Minutes of state level workshops, , city meetings including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.; b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments; c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA;
Draft City Assessment Report	12 weeks from start date as per contract	Hard Copies, and Electronic version	Separate for each city, including: a. Database of aggregate data in the format as mutually agreed. b. All raw data and data sheets; c. Sources of data, assumptions (if any), record of discussions with key stakeholders, minutes of city kickoff meeting and other
Final City Assessment Report	20 weeks from start date as per contract	Hard Copies, and Electronic version	Separate report for each city. The Reports should include all recommendations of the MoHUA on the Draft Reports. The Report should also incorporate any valid suggestions/feedback received from cities/states with the approval of the MoHUA.

* Timelines for subsequent years will be as decided by MoHUA

7.6 *Team Composition and Qualification Requirement for key Experts*

a. **Team (full-time):** Given that the assignment requires a deep understanding of the urban sector, as well as of economics, statistics and field studies, the Team Leader and the Core Team of experts must have suitable skills for undertaking the assignment and successfully completing the tasks enumerated. The Team Leader should bring to the table a strong mix of academic accomplishments, urban sector experience and experience of leading similar national/international assignments.

b. **Analytics Team (full-time):** should be manned with experts capable of analysing large data sets, checking and correcting for errors and inconsistencies, development and management of digital databases and preparation of reports. The team should therefore include adequate number of IT specialist(s), database management/ MIS expert(s), urban economics/planning specialists for **Core** data analysis and verification.

c. **Field Teams per city:** should be manned with adequate number of persons (depending upon city size, stratification and geography) capable of conducting field surveys and extracting credible secondary data from various city/state departments and utilities. Each team should therefore include adequate number of qualified urban professionals for extracting secondary data from various sources, persons with market/field research experience and data processors/ data entry operators. Each team should be led by a suitably experienced Urban Specialist (Urban Planner/ Urban Economist) with at least 10 years of experience in the urban sector and at least 5 years of experience in secondary and primary data collection and analysis. The Core Team proposed should be able to demonstrate the qualifications and experience as prescribed in table below:

IPSOS RESEARCH PVT. LTD.

7.8 *TA management and counterpart staff*

The assignment will be contracted by the MoHUA (erstwhile MOUD) for carrying out the assignment.

Items to be provided by the MoHUA

a. The MoHUA will set up a Coordinating Team at the national level for providing guidance and support to the Core Team for executing the assignment;
b. Provide support for organizing various State and city level workshops and meetings;.
c. Provide feedback from time to time for finalizing deliverables;
d. Set up a monitoring system for timely validation of data and finalization of aggregate data.

Items to be provided by the agency

In addition to the results and deliverables listed above, the Consultant will:

a. Provide for all manpower, materials and equipment necessary for carrying out the assignment;
b. Provide all resources for report production and necessary translations;
c. Provide all Computers and software required by the teams for carrying out the tasks;
d. Arrange for all transportation and travelling required for the teams including Investigations.

FORM TECH 1:

Technical Submission Proposal Form

TECH-1: TECHNICAL PROPOSAL SUBMISSION FORM

New Delhi, 26th December 2017

To:

Shri G. Vijay Kumar,
Under Secretary,
Ministry of Housing and Urban Affairs (MoHUA)
202-C, Nirman Bhawan,
Maulana Azad Road,
New Delhi.
Telephone: 011-23063217
E-mail: g.vijaykumar@nic.in and g.vijaykumar.moud@gmail.com

Dear Sir:

We, the undersigned, offer to provide the consulting services for Selection of Consulting Firms for Assessment of Liveability Indices for 116 cities in India in accordance with your Request for Proposals dated 27th November 2017 and our Proposal.

We are submitting our Proposal a joint venture with: Ipsos Public Affairs with legal address at Lotus Corporate Park, 1701, 17th Floor, F Wing, Off Western Express Highway, Goregaon East, Mumbai 400 063, India as lead member and Athena Infonomics India Private limited with legal address at 15 Arcot Street, T. Nagar, Chennai, Tamil Nadu – 600 017, India as Associate Member. We have attached a copy of our letter of intent to form a joint venture signed by every participating member, which details the likely legal structure of and the confirmation of joint and severable liability of the members of the said joint venture.

And

We are submitting our Proposal with the following firms as Sub-consultants: The Economist Group Limited having its registered office at 20 Cabot Square, London, E14 4QW, United Kingdom

We hereby declare that:

a) All the information and statements made in this Proposal are true and we accept that any misinterpretation or misrepresentation contained in this Proposal may lead to our disqualification by the Client and/or may be sanctioned by the Bank.
b) Our Proposal shall be valid and remain binding upon us for 90 days (the period of time specified in the Data Sheet, Clause 12.1).
c) We have no conflict of interest in accordance with ITC 3.
d) We meet the eligibility requirements as stated in ITC 6, and we confirm our understanding of our obligation to abide by the Bank's policy in regard to corrupt and fraudulent practices as per ITC 5.
e) In competing for (and, if the award is made to us, in executing) the Contract, we undertake to observe the laws against fraud and corruption, including bribery, in force in the country of the Client.]
f) Except as stated in the Data Sheet, Clause 12.1, we undertake to negotiate a Contract on the basis of the proposed Key Experts. We accept that the substitution of Key Experts for reasons other than

About the Joint Venture and Sub Consultant

Ipsos India's Public Affairs team, together with Athena Infonomics India Private Limited, and Sub Consultant The Economist Intelligence Unit Limited are pleased to submit their request for proposal for providing consulting services for Assessment of Liveability Indices for 116 cities in India by the Ministry of Housing and Urban Affairs. As a consortium, we possess a comprehensive understanding of national and global learnings from liveability studies. Collectively, we have carried out over 10,000+ studies in urban areas on a range of subjects, including: Infrastructure and Public Services (showcasing a blend of global and national perspectives on Urban Development and Governance), Data Analytics, Indices creation, Monitoring and Evaluation and undertaking large scale quantitative and qualitative surveys. The consortium possesses vast knowledge and experience of using a wide range of data collection and analysis, both primary and secondary data. Our data collection methods range from PAPI (Pen and Paper Interview), CATI (Computer Assisted Telephonic Interview), CAPI (Computer Assisted Personal Interview), rapid ethnographies, mobile based surveys, stakeholder consultations, third party audits of infrastructure, participatory assessment methods, and workshops:

- **Ipsos (Lead Member):** Ipsos has a long-held reputation of carrying out surveys that capture citizen perceptions. It has a pan India presence (22 offices in strategic locations), accompanying infrastructure (2800+ tablets for digital data collection), human resource (3500 investigators familiar with language, geography, and experienced in data collection), and the technical and managerial capability (presence of a strong analytics team of 30+ staff, 300+ researchers) in India to deliver this assessment according to global standards. Their technical expertise includes research design, probability sampling procedures, survey instrument, design survey management, qualitative methodologies and using technological innovations to ensure timeliness, efficiency and quality of the data collected.

- **Athena Infonomics (Associate Member):** Athena Infonomics employs rigorous quantitative and qualitative assessments applying state-of-the-art tools and methodologies from social science and statistics to answer urban governance challenges. Its portfolio of tools and methods include: qualitative comparative assessment, cost benefit and cost effectiveness analysis, experimental methods, participatory impact assessments, systems assessment tools, social impact measurement tools, spatial data analysis, Computer Assisted Personal Interviewing (CAPI), online and offline survey implementation among others.

IPSOS RESEARCH PVT. LTD.
DELHI

VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

- **The Economist Intelligence Unit (Sub Consultant):** The Economist Intelligence Unit possesses technical expertise in economic, political and social demographic forecasting, bespoke modelling and scenario analysis, country and city forecasting and location benchmarking.

The key strengths of our submission as partners are summarised in the table below.

Knowledge of Thematic area	Ipsos	AIIPL	EIU
Staff having experience of carrying out similar assignments and having performed tasks related to the assignment	▨	▨	▨
Large scale projects for Central/ State governments/ departments, para-statals, ULBs and multilateral agencies	▨	▨	▨
Experience in implementing urban studies in the areas of water, health, education, transportation etc.	▨	▨	▨
Data Interoperability & Policy Convergence		▨	▨
Experience of Applicant in development of indices, preparation of national/international reports		▨	▨
Strong Market Research Infrastructure & Resource Network	▨		
Digital data collection- use of tablets and mini laptops	▨	▨

Data generation

- *IPSOS* has vast experience undertaking large scale surveys (both quantitative and qualitative) across multiple sectors
- *IPSOS* also has expertise in advanced survey design, data collection and data management
- *Athena Infonomics* also specializes in large data collection including behavioural aspects such as satisfaction, perception attitudes etc.

Indicator development

- *EIU* has proprietary methodologies for benchmarking and indexing
- *EIU* also has strong expertise in qualitative and quantitative data, and weighting it together to conduct multi-dimensional comparisons
- *Athena Infonomics* specializes in developing indicators using a minimalistic data approach

Data analysis and Management

- *Athena Infonomics* has the technical expertise in quantitative and qualitative data analysis, data management
- *Athena Infonomics* also bring in the capacity to deliver integrated services all through a project value chain, including data collection, information analysis, capacity building and evaluation
- *IPSOS* specialises in CAPI, CATI, Rapid ethnographies, mobile based surveys, etc.

Dissemination through Media

- EIU has developed dissemination platform called "The Hub" @ Economist
- Engage with international and national media

Ipsos Research Private Limited – Lead Member

Ipsos is the third largest survey-based market research company in the world. Ipsos Public Affairs is a specialized unit (WSBL) of Ipsos and focuses exclusively on social and development research. Ipsos is also rated as the second most innovative market research company per the GRIT Report 2017.

Ipsos Public Affairs teams around the world conduct research on public policy issues and on the attitudes and behaviors of citizens and consumers. Ipsos Public Affairs in India is organized around the two major disciplines: Social and Developmental Research and Corporate Reputation. As part of their social research and evaluation specialization, they have undertaken more than 300+ research studies in India, including quantitative, qualitative, and participatory research over 17 + years of their operations in India. Generating new hypotheses and exploring landscapes with a relevant lens is key to any exploratory exercise and program's success. Thus, with its strong and experienced team, Ipsos Public Affairs India have delivered high quality outputs to its clients in various domains. These outputs not only validated the true situation on ground but helped client build and test various hypothesis which they were unaware of at the designing stage. Ipsos Public Affairs India's technical expertise in Baseline, Midline and End Line Studies, Participatory Rural Research, Mind Mapping, In–Depth Interviews, ethnographies, Exploratory and Formative Research, Communication Designing and Evaluation studies etc. have been use in different contexts to bring out actionable insights. Thematic areas of its experience include Public Health, Water, Sanitation & Hygiene (WASH), Education, Gender etc.

Ipsos Public Affairs India has extensive experience of working with the central and state ministries, government departments and national and international non-governmental organizations in the social and international development sector.

Ipsos Public Affairs India provides clients with information that helps them understand how they can build efficient and effective policies, programs, communications strategies, and marketing initiatives. In India, Ipsos Public Affairs has worked on a range of social policy issues that includes public health, WASH, education, gender, governance, micro finance, using quantitative survey methods, qualitative and participative approaches, and mixed methods. Ipsos is an ISO 20252 certified company for both research and field (Enclosed Certification) that requires that all processes are carried out in accordance with standards laid out in ISO 20252:2012[1]

We have invested significantly in digital data collection mode and have transitioned from pen and paper mode to CAPI. Over 90% of our data collection is CAPI (Computer Aided Telephonic Interviews). The

The Economist Group Limited – Sub Consultant

The Economist Group is the leading source of analysis on international business and world affairs. They deliver information through a range of formats, from newspapers and magazines to conferences and electronic services.

What ties Economist together is the objectivity of their opinion, the originality of their insight and their advocacy of economic and political freedom around the world.

The Economist Intelligence Unit (EIU) is the research and analysis division of The Economist Group and the world leader in global business intelligence. Its extensive international reach and unfettered independence make it the most trusted and valuable resource for international business throughout the world. To meet the changing needs of today's organisation, the Economist Intelligence Unit is uniquely able to deliver its analysis online or in print, via webcast or face-to-face, through subscription services or custom research. EIU has pioneered the design and development of the Worldwide Cost of Living Index and the Global Liveability Index. A snap shot of the EIU Global Liveability index is presented below:

EIU's Global Liveability Ranking

Global Liveability Ranking 2016

The latest findings of The Economist Intelligence Unit's Global Liveability Ranking – which provides scores for lifestyle challenges in 140 cities worldwide – show that although Melbourne has retained its crown as the world's most liveable city, liveability has deteriorated in 24 of the 140 cities (20 per cent) surveyed over the last 12 months.

The decline is largely a result of heightened fears over terrorism with more than 1,000 reported attacks in 2016 so far, with incidents in France, Turkey, the US and Belgium being the most high profile. Factors such as social unrest in many US cities due to the deaths of black people in police custody, tensions in Eastern Europe and Asia and the ongoing civil wars in Ukraine, Syria and Libya have compounded the decline.

The Economist Intelligence Unit's liveability rating, part of the Worldwide Cost of Living survey, quantifies the challenges that might be presented to an individual's lifestyle across five broad categories of Stability, Healthcare, Culture and environment, Education and Infrastructure.

Download the report for our full analysis.

EIU's research capabilities range from economics to gender, and from finance to energy and technology. They conduct research through interviews, regulatory analysis, quantitative modelling and forecasting, and display the results via interactive data visualisation tools.

	Brief description of main deliverables: As cities compete in the SCM, consulting support was envisaged to hand-hold cities in identification of innovative and viable smart solutions following a bottoms-up approach with citizens at the centre of the solutions. Output: Collected city level data on GDP, industry composition, ULB service delivery, infrastructure availability among others , Developed a people-driven participatory research framework that calls for active participation of Residents Welfare Associations, Tax Payers Associations, Senior Citizens, Chamber of Commerce and Industries, Slum Dwellers Associations and other groups,Developed research instruments and conducted citizen satisfaction survey for the identification of issues, needs and priorities in line with the smart cities vision. A three-layered engagement strategy (Capture-Investigate-Validate & Disseminate) was deployed to ensure that citizens are meaningfully engaged to provide inputs on the city's vision and goals. Over 3.8 lakh citizens with a focus on low-income groups were engaged as part of the smart cities planning process in Vellore alone. A combination of online google forms, direct interviews using a mobile app, WhatsApp and social media channels were deployed for the outreach activities. FORM TECH 3:

Comments and suggestions on the Terms of Reference, counterpart staff, and facilities to be provided by the client

TECH-3: COMMENTS AND SUGGESTIONS ON THE TERMS OF REFERENCE, COUNTERPART STAFF, AND FACILITIES TO BE PROVIDED BY THE CLIENT

A - On the Terms of Reference

Comments on the Terms of Reference

At the outset, we commend the efforts of the Ministry to embark on such a timely and relevant exercise and the detailed methodology document, which serves as a guidance note for the same. We are excited to be given an opportunity to participate in developing a framework for rolling out such an exercise. Based on our experience of developing a technical response to this bid, our observations are summarized below.

Our review of the methodology document confirms need for some form of physical assessment- sample survey or validation required for 24 of these indicators Phase 1 of our proposal. These 24 indicators vary from non-motorized transport, hotels and schools among others. The TOR does not clearly specify what a consultant must do if the data is not available for these indicators. Several of them (for example modal share of transport) are technical outputs that demand detailed studies and cannot be determined through a random physical audit

Given the timelines available, a critical assumption made is that the physical validation will be performed on only those data parameters submitted by the city government, through a random audit/physical inspection

Also our approach categorizes the data sub groups into a) Indicators where secondary data will be provided by city/ report 'as is' and no validation required b) Indicators where secondary data is available and will require validation through field visits/ sample survey/ citizen feedback c) indicators where secondary data is missing but can be collected d) indicators where secondary data is not available and will be excluded.

Our technical proposal and financial proposal is built on this categorisation We would be very keen to discuss and receive your feedback during proposal discussion stage to finetune this categorisation as well as discuss implication of this approach for both the timelines and costs.

B - On Counterpart Staff and Facilities

A summary of the key support areas where we look forward for support for MoHUA is outlined below:

- City officials are informed of the assignment vide a circular of the proposed assessment
- A state nodal officer will be appointed in every state to co-ordinate with the consultants to facilitate the implementation of the entire process
- A clear reporting structure is established for approval and sign off on all the key milestones and deliverables
- A clear process for reconciliation of differences between self-reported and audited data outputs to be identified and put in place early on.
- Facilitation of secondary datasets available across different flagship schemes within the ministry to ensure effective delivery of the 'pre-filled' data templates for each city

FORM TECH 4:
Description of Approach, Methodology, and Work Plan in responding to the Terms of Reference

TECH-4: DESCRIPTION OF APPROACH, METHODOLOGY, AND WORK PLAN IN RESPONDING TO THE TERMS OF REFERENCE

A. Technical Approach and Methodology

Liveability – Ranking and Beyond

Urban expansion in India is anticipated to grow at a pace unlike anything the country or the world has seen before, with much of the population likely to be concentrated in cities with a population of a 1 million plus. This trend brings with it several opportunities and challenges and clearly a trend of intensified competition among cities to attract talent and resources, with 'liveability' occupying centre stage in much of the new discourse.

Livability rankings are a common feature in several countries and is an opportunity to systematically quantify the challenges that may be presented to an individual's lifestyle and offers itself as an instrument for policy reform, resource mobilization, investment prioritization and management of services.

It is heartening to note that India, under the leadership of MoHUA, has embarked on measuring the 'liveability' of its cities and we are excited to draw from our collective experience to summarize our appreciation/understanding of what such an exercise can offer.

First, are a set of highlights of our approach to the data collection and the ranking exercise:

1. **Indicator development:** While the guidelines define a set of indicator areas, for the exercise to be objective and consistent, bespoke guiding questions for data collection that is aligned with the 'language of data' used by city governments and aligned with global best-practices needs to be developed. This aim here is to minimise comparability issues – e.g. the definition of capital spending for indicator 1.7 under Category 1: Governance (such as what expenditure categories may fall into infrastructure and assets) or the definition of access to digital education under indicator 3.4 for Category 3: Education, (mapping what qualifies as access to digital education) Here the team seeks to leverage the experience of the Economist's step by step approach in developing such frameworks and the experience of IPSOS and Athena Infonomics in creating and scaling up similar large scale ranking exercises in India. (Refer Phase 1 of our detailed A&M for a detailed description of this approach)

2. **A pilot for city GDP:** The ability to measure a city's output and use that as a baseline to track its growth can be invaluable particularly in the context of the large capex investments that the identified smart cities are expected to attract. Given the opportunity to interact with a large number of cities, with varying data ecosystems, an attempt will be made to pilot test as part of the data collection exercise an approach to systematically map and calculate the city's GDP, which can be further refined in the subsequent rounds.

3. **Innovations in sampling and audit using spatial data:** A unique system of auditing indicators using publicly available open source spatial data sets will be deployed and a geo-spatial

G. VIJAY KUMAR

DELHI

sampling strategy to ensure that the citizen surveys are well diversified across the city will be deployed

4. **An online portal for real-time tracking of progress and outcomes:** Through the creation of an online portal right at the start of the assessment and real-time tracking of the progress of the liveability ranking exercise across phases (training workshops, data collection, validation and ranking) we hope to induce and leverage the competitive spirit that has driven the smart city process.

5. **Economist Hub- Effective national and global dissemination:** The Economist Intelligence Unit is a global leader in data intelligence and as a key intellectual partner to this JV will lead the development of a dedicated 'economist hub' with interactive workbooks and dashboards to present the findings of the liveability rankings.

While there are numerous positive spill overs to the liveability ranking, there are three key strands that we hope to get a dialogue initiated on. The team will submit at the end of the exercise a white paper on the potential the liveability ranking exercise has in moving the needle of various policy and programmatic goals of the nation, with a detailed analysis on the following:

- **Data availability, access and quality:** A framework to systematically evaluate the key gaps in data availability and quality will be developed and deployed and suggestions on smart data collection protocols developed to inform future data collection strategies and strengthen the data ecosystem. This approach it segregates "available data" from "quality data". In areas like water and sanitation, which carry with them a number of citizen sensitivities, there is a conflict of interest between data reporting and service delivery functions, which are usually vested in the same agency. By looking at data quality through a standardized process view (representativeness, third party validation etc.), it is possible to identify datasets which are more likely to be error prone than others

- **City-centric use cases- Interoperability and convergence with domestic policy and programme levers:** MoHUA under the smart city mission has already launched an initiative to set up integrated digital platforms which will provide the infrastructure backbone to host and run citizen and other e-government applications. The newly created datasets when generated can be linked to the platform and opportunities for use-cases by overcoming interoperability concerns may be explored. The ranking exercise (once the data maturity improved) may also serve as a planning tool or soft collateral for attracting investments and raising resources as illustrated in the figure below. Some of the key convergence and use-case applications between this exercise and the key goals set out by the MoHUA will be explored and documented

Economic
Physical
CITY LIVEABILITY INDEX
01 City responds to data queries
02 Opportunities for smarter data collection protocols identified
03 Top priority areas for solutioning identified
04 Links to relevant case studies and support tools – USE CASE APPLICATIONS
05 Improvements reflected in next assessment rounds
This study serves as a data enabler assessment exercise
Application
Data management
Data adaptation
Data scrapping

Currently cities are at various levels in the data pyramid and operate with data that is scattered and available in various legacy formats

The liveability index is an excellent opportunity in the first phase to systematically identify gaps in data and map its use cases

In subsequent phases, it emerges as a driver to build mature data ecosystems with a common data architecture, addressing issues of data interoperability, scalability and integration

Cities leverage data as an instrument for urban planning and management

Application
- Dashboard
- Application programme interface

Data management
- Data storing & indexing
- Database – Linked open source, semantic vocabularies, triple scores, NoSQL

Data adaptation
- Ontology modelling
- Semantic mapping

Data scrapping
- Data gathering
- Data refining

Figure 1: Our understanding of the assignment

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

IPSOS RESEARCH PVT. LTD.
DELHI

- **Global use-cases- Alignment with global data reporting requirements:** The newly generated data sets may also serve as an opportunity to systematically explore convergence between the data being generated by cities and global development standards like the SDGs and provides for an opportunity to explore what it means to achieve some of those goals at the local level and generate data at the level of local governments to better track progress on development goals.

Summary of our approach & methodology

Phase 1 Preparatory phase

Duration
W1-W5

Literature review of existing studies and data sources (Smart City Reports, AMRUT reports, Data.gov, etc.) to prepare baselines for each city

Data availability/gap assessment to assess a) Data points to be collected through primaries b) Metrics that would merit smart proxies

Indicator development

Finalization of stakeholder participation lists

Development of workshop structure and content

Finalisation of workshop dates for the state workshops

Development of data entry application /interface

Prototypes for a) Nation-wide workshop tracker b) City-level data updation dashboard c) Data visualisation

Draft report templates- City Assessment

Preparation of research instrument for primaries and physical validation

Data entry and quality control template

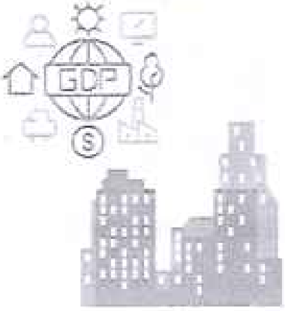
Data administration protocols and data collection monitoring framework

Under Secretary
Ministry of Housing and Urban Affairs
Govt. of India

Summary of our approach & methodology

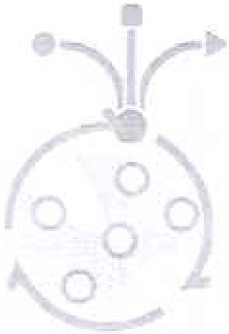
Phase 1 Preparatory phase (Continued…)

Duration
W1-W5



Framework to estimate city GDP

Formulation of media strategy



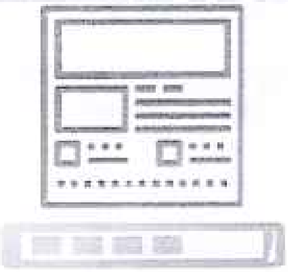
Approach note for data interoperability

Media dissemination through photo journals, national portal to be an on-going exercise

Phase 2 State/City level engagement

Duration
W5-W8

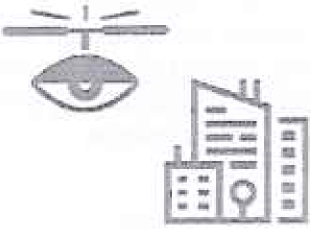
Organisation of State-level Workshops



Launch and updation of nation-wide tracker

Preparation of workshop proceedings, materials and key-takeaways

Internal ToT, training of Field Staff and orientation of ULB Official



City level Reconnaissance meetings

Final list of indicators (with details on collection protocols), incorporating comments from the workshop; and Inception Report preparation

Media dissemination through photo journals, national portal to be an on-going exercise

V. VIJAY KUMAR
Under Secretary

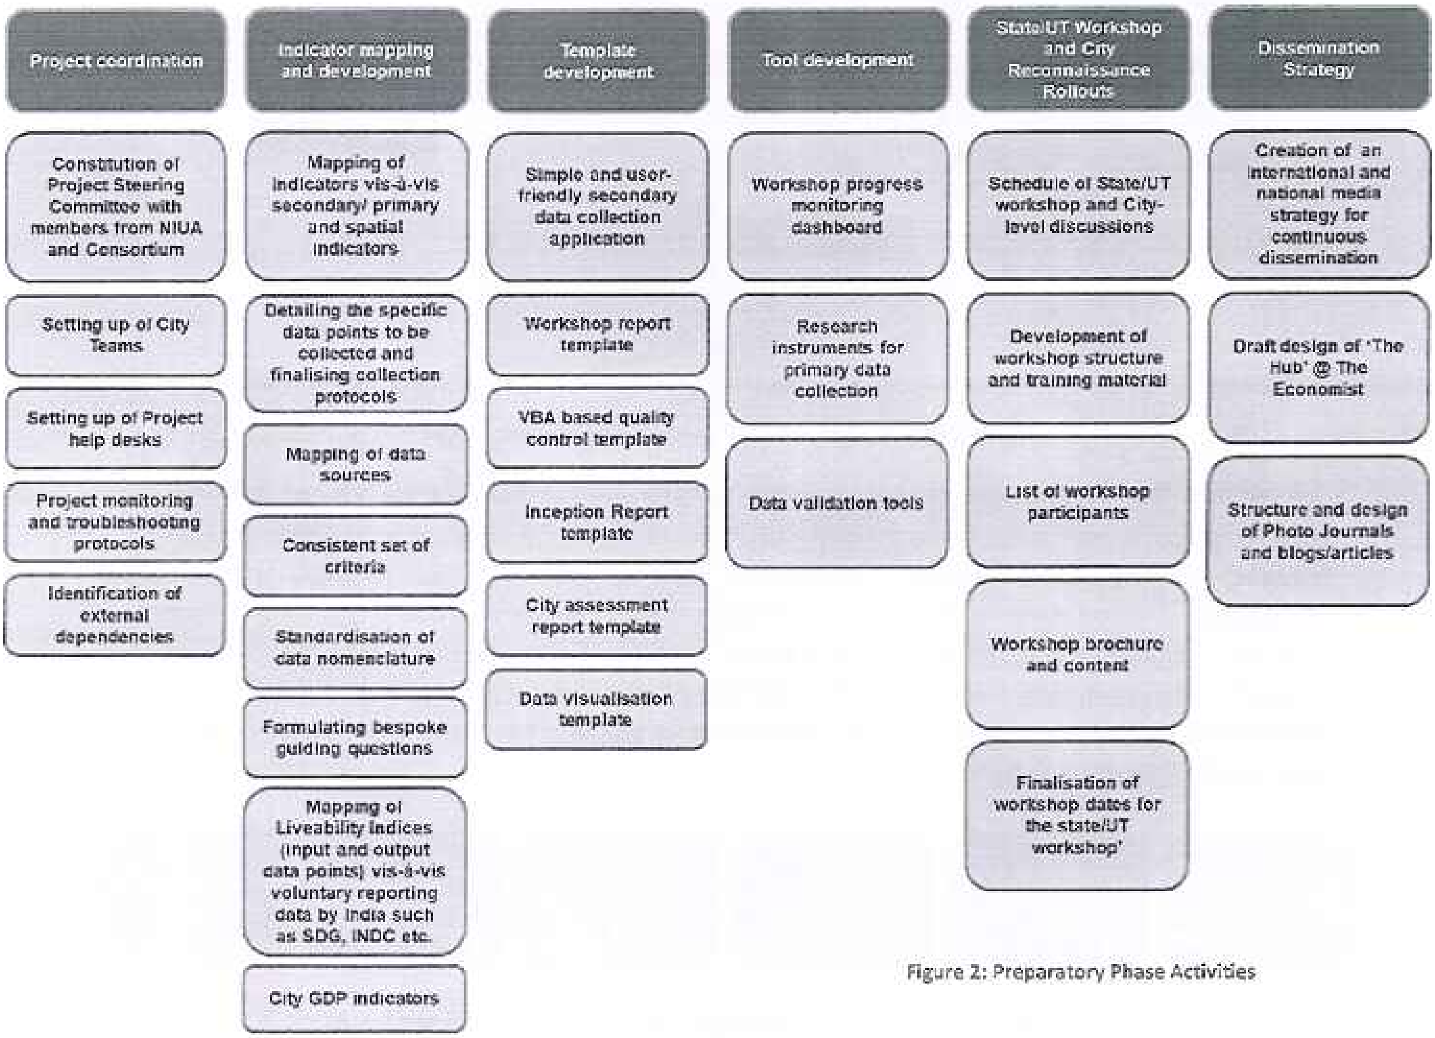
Phase 1: Preparatory phase: [Week 1 – W8]

The first four weeks are extremely crucial for this assignment as it would entail completion of preparatory steps for the short-term project milestones such as state level workshops and city reconnaissance discussions and gain momentum on the mid-term project milestones involving secondary and primary data collection including validation and report preparation. This phase will involve activities on the following areas:



Project coordination	Indicator mapping and development	Template development	Tool development	State/UT Workshop and City Reconnaissance Rollouts	Dissemination Strategy
Constitution of Project Steering Committee with members from NIUA and Consortium	Mapping of indicators vis-à-vis secondary/ primary and spatial indicators	Simple and user-friendly secondary data collection application	Workshop progress monitoring dashboard	Schedule of State/UT workshop and City-level discussions	Creation of an international and national media strategy for continuous dissemination
Setting up of City Teams	Detailing the specific data points to be collected and finalising collection protocols	Workshop report template	Research instruments for primary data collection	Development of workshop structure and training material	Draft design of 'The Hub' @ The Economist
Setting up of Project help desks	Mapping of data sources	VBA based quality control template	Data validation tools	List of workshop participants	Structure and design of Photo Journals and blogs/articles
Project monitoring and troubleshooting protocols	Consistent set of criteria	Inception Report template		Workshop brochure and content	
Identification of external dependencies	Standardisation of data nomenclature	City assessment report template		Finalisation of workshop dates for the state/UT workshop'	
	Formulating bespoke guiding questions	Data visualisation template			
	Mapping of Liveability Indices (input and output data points) vis-à-vis voluntary reporting data by India such as SDG, INDC etc.				
	City GDP indicators

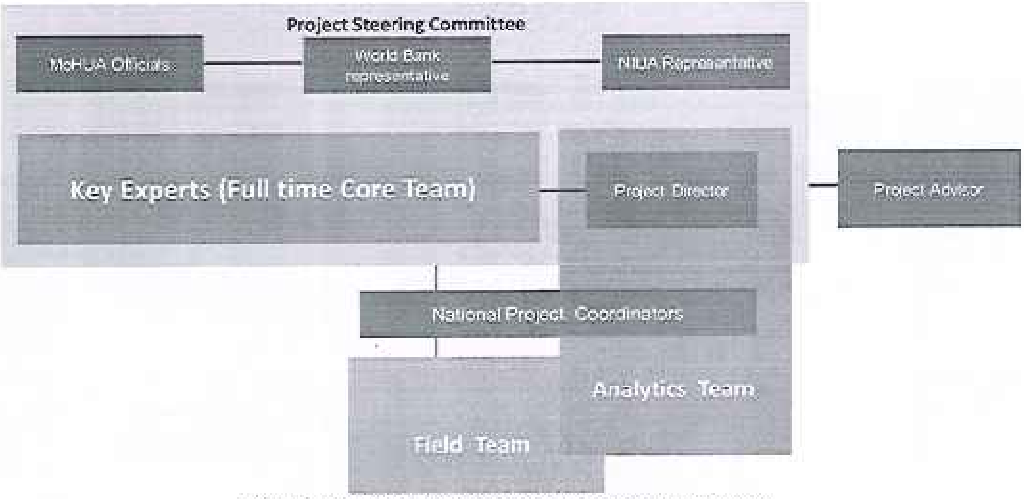
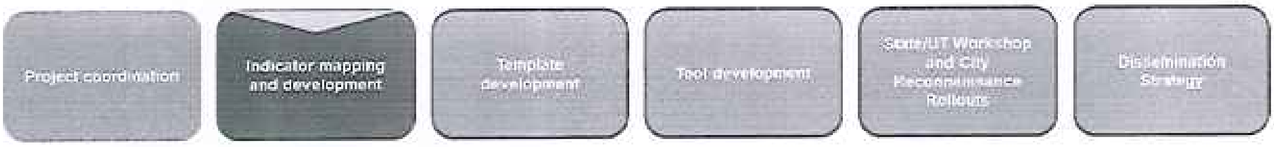
Given the short and intense nature of the assignment we propose to have a human resources structure in place to enable seamless effective and timely coordination. A four-tier project team is proposed comprising a Project Steering Committee (PSC), Key Experts (Full time Core Team) and Support Teams shortly after commencement of the assignment.



Project Steering Committee
MoHUA Officials
World Bank representative
NIUA Representative
Key Experts (Full time Core Team)
Project Director
Project Advisor
National Project Coordinators
Analytics Team
Field Team

Figure 3: Project Governance and Management Structure

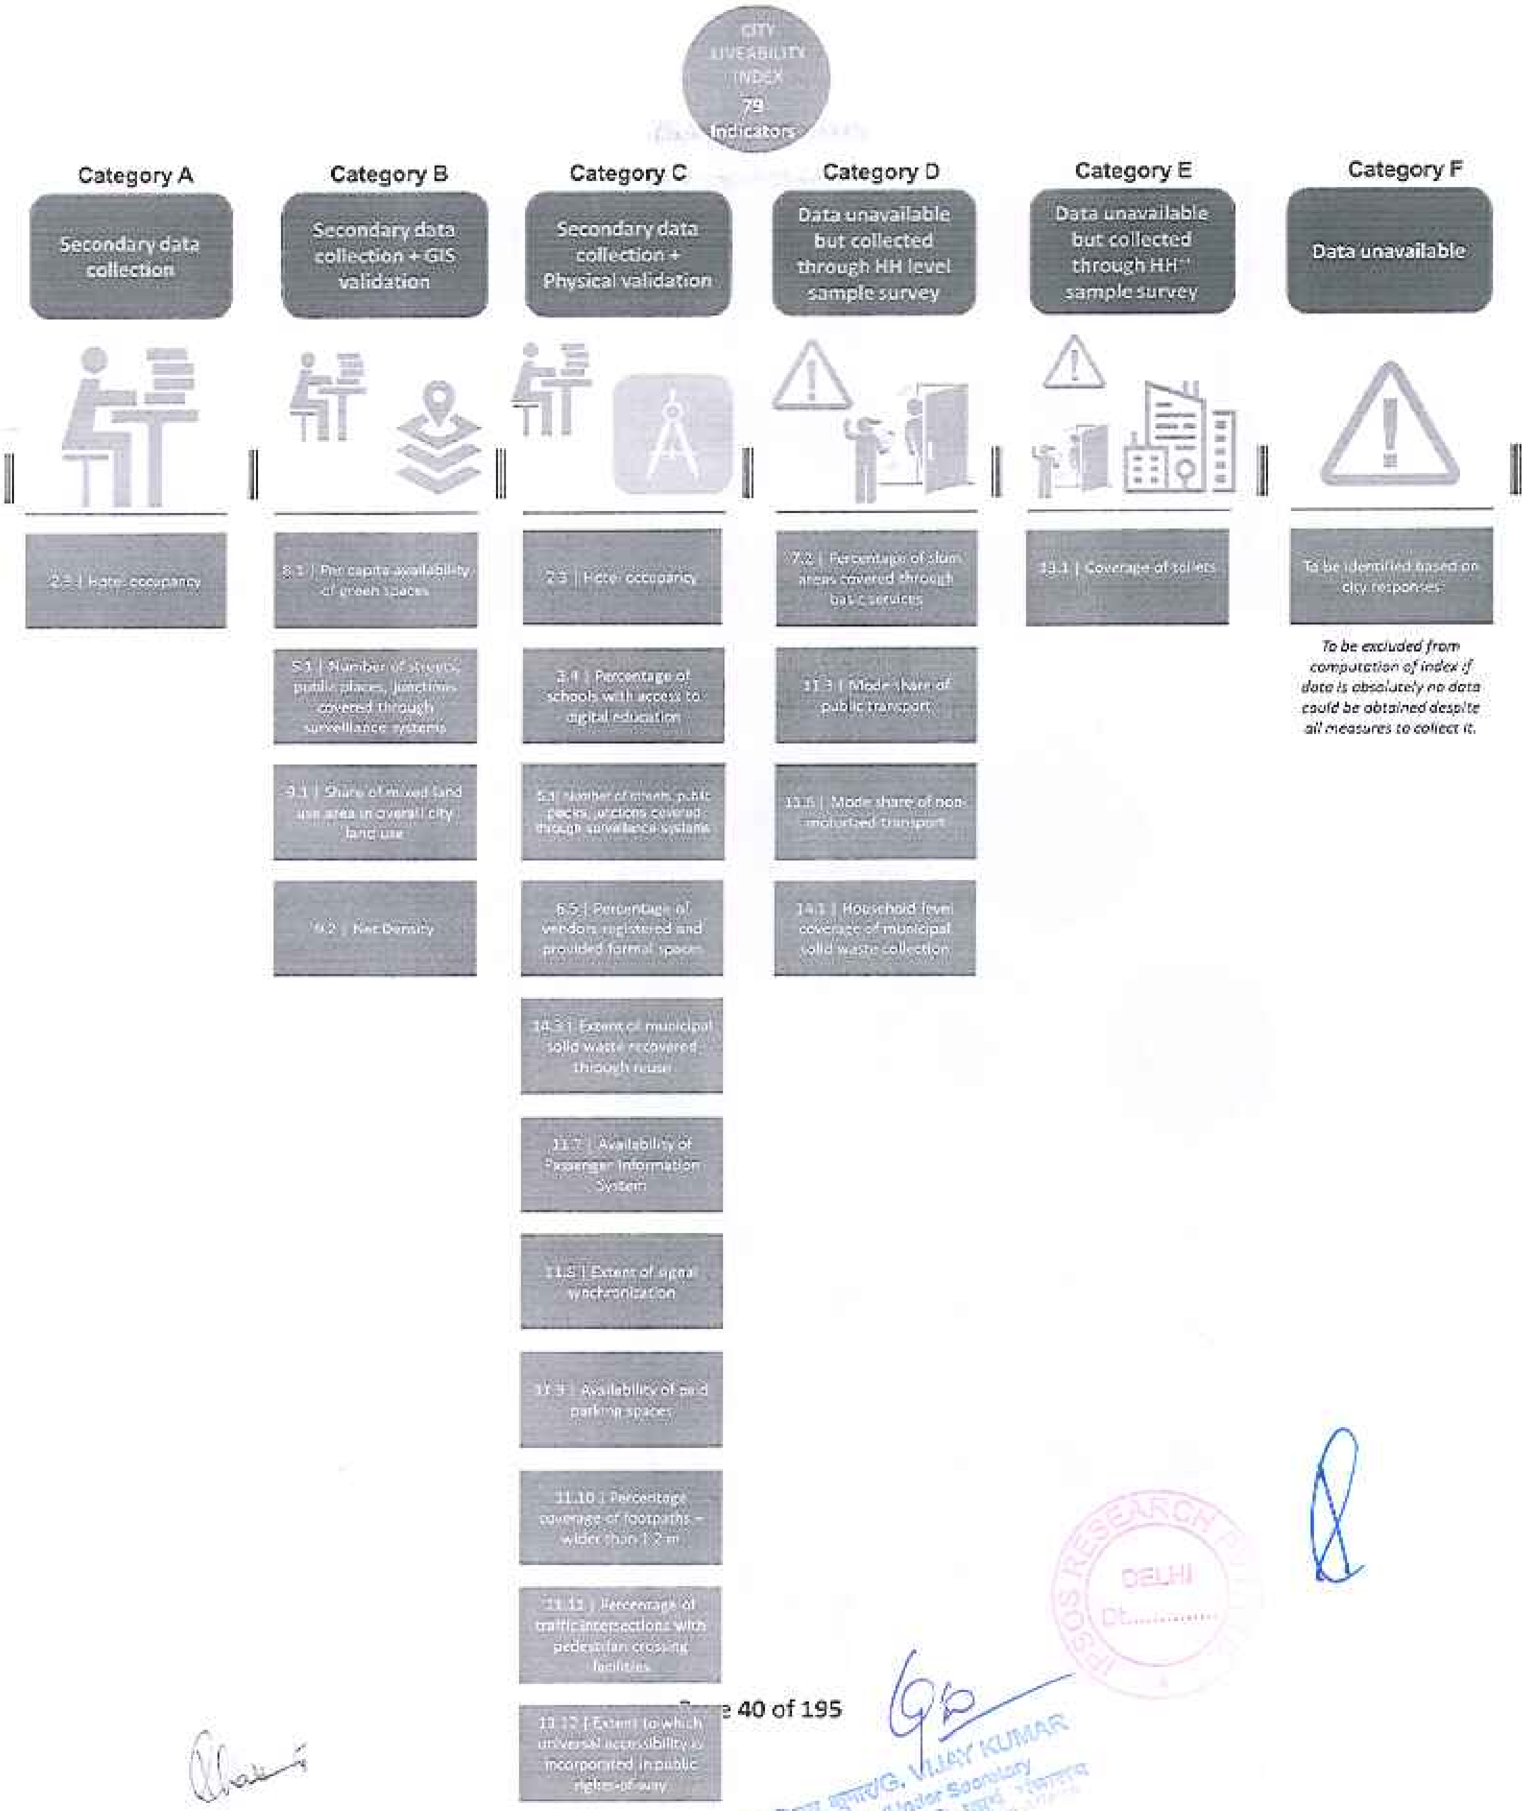
The PSC will have representative from the MoHUA, NIUA, the World Bank and Key Experts. A Project Command Centre with video conferencing facilities would be set up to monitor the entire project including state workshops, secondary and primary data collection. The PSC will have access to dashboards for monitoring the progress of a) state level workshops b) secondary and primary data collection c) Queries and troubleshooting at state/UT-level Help Desks. The PSC will be the final point of approval on protocols for data collection, training content, project reporting, issue escalation and, troubleshooting for various aspects of the project such as support from state/UT/City Governments, data availability/gaps or lags etc.



Project coordination
Indicator mapping and development
Template development
Tool development
State/UT Workshop and City Reconnaissance Rollouts
Dissemination Strategy

While most of the 79 indicators comprising the Liveability Indices can be computed based on secondary data available with the City Government, some of them require primary and/or spatial data inputs/validation. The 'Methodology for Collection and Computation of Liveability Standards in Cities' document has detailed the input data points required for computation of each indicator and has also specified the type (secondary/ primary/ spatial) of data points required. The figure below maps and categorises indicators based on different data collection interfaces.

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs



CITY LIVEABILITY INDEX
79 Indicators

Category A
Secondary data collection
- 2.3 | Hotel occupancy

Category B
Secondary data collection + GIS validation
- 8.1 | Per capita availability of green spaces
- 5.1 | Number of streets, public places, junctions covered through surveillance systems
- 9.1 | Share of mixed land use area in overall city land use
- 9.2 | Net Density

Category C
Secondary data collection + Physical validation
- 2.3 | Hotel occupancy
- 3.4 | Percentage of schools with access to digital education
- 5.1 Number of streets, public places, junctions covered through surveillance systems
- 6.5 | Percentage of vendors registered and provided formal spaces
- 14.3 | Extent of municipal solid waste recovered through reuse
- 11.7 | Availability of Passenger Information System
- 11.8 | Extent of signal synchronization
- 11.9 | Availability of paid parking spaces
- 11.10 | Percentage coverage of footpaths – wider than 1.2 m
- 11.11 | Percentage of traffic intersections with pedestrian crossing facilities
- 11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

Category D
Data unavailable but collected through HH level sample survey
- 7.2 | Percentage of slum areas covered through basic services
- 11.3 | Mode share of public transport
- 11.6 | Mode share of non-motorized transport
- 14.1 | Household level coverage of municipal solid waste collection

Category E
Data unavailable but collected through HH** sample survey
- 13.1 | Coverage of toilets

Category F
Data unavailable
- To be identified based on city responses

To be excluded from computation of index if data is absolutely no data could be obtained despite all measures to collect it.

3 ECONOMIC
4 PHYSICAL
Economy & Unemployment: 6.5
Mixed Land-use & Compactness: All
Transportation & Mobility: 11.3, 11.6, 11.7, 11.11, 11.12
Solid Waste Management: 14.1, 14.2, 14.3
Legend
Secondary
Primary
Spatial
ILLUSTRATIVE

It will also involve building a consistent set of criteria for computation of the indicators – for instance method for estimation of city population (estimating city population based on 2011 Census or estimates provided by City Governments), approach for testing air/water quality etc. that could be used across cities. Our team will deploy a systematic approach to define clearly every indicators and collection protocols to ensure comparability (E.g., what could be construed as a Command Centre? Are there a minimum number of services that should be integrated under the Command Centre?) What is the standard definition of a 'smart meter?' etc. Here, the aim is to provide guidance for cities and analysts, with good tracking mechanisms.

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

Some of the indicators such as 'percentage of citizen services available online', 'percentage of services integrated through Command Centre,' etc. have been detailed for some of the ULB functions (e.g., property tax functions) and sub-services (e.g., city transport) but the rest needs to be further developed. Please refer figure below for an illustration of our overall approach

IPSOS RESEARCH
DELHI

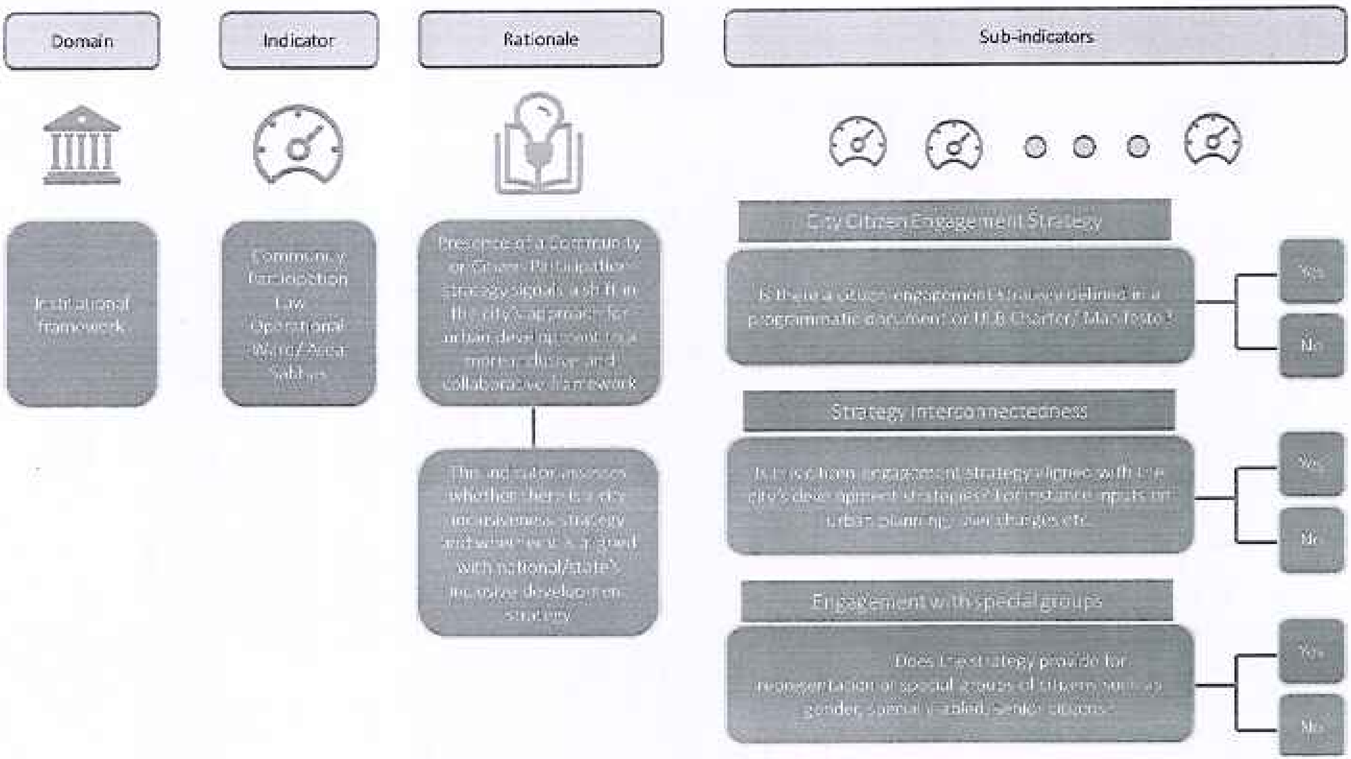
Our approach aims to minimise comparability issues – e.g., the definition of capital spending for indicator 1.7 under Category 1: Governance (such as what expenditure categories may fall into infrastructure and assets) or the definition of access to digital education under indicator 3.4 for Category 3: Education, which covers the type of digital infrastructure available as well as various ways to access digital learning networks.

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs
Govt. of India

IPSOS RESEARCH
DELHI

A detailed guidance document capturing suggestive list of items/key words would be prepared based on secondary research as well as global best practices for key definitions and provided to Cities for reference. The draft detailed indicator list will subsequently be validated in Phase 2.

Scoring indicators requires a robust methodology. To add robustness and objectivity to the scoring, we propose developing bespoke guiding questions (in a manner consistent with local body nomenclature and jargon) for the indicator. This will greatly enhance the robustness of the framework. An example of our step by step approach is shown below, for an existing index namely percentage of population covered under Ward Committees/ Area Sabhas.



Domain
Indicator
Rationale
Sub-indicators
Institutional framework
Community Participation Law Operational Ward/Area Sabhas
Presence of a Community or Citizen Participation strategy signals a shift in the city's approach for urban development to a more inclusive and collaborative framework
This indicator assesses whether there is a city inclusiveness strategy and whether it is aligned with national/state's inclusive development strategy
City Citizen Engagement Strategy
Is there a citizen engagement strategy defined in a programmatic document or ULB Charter/ Manifesto?
Yes
No
Strategy interconnectedness
Is the citizen engagement strategy aligned with the city's development strategies? For instance inputs on urban planning, user charges etc.
Yes
No
Engagement with special groups
Does the strategy provide for representation of special groups of citizens such as gender, specially abled, senior citizens?
Yes
No

Figure 5: Approach for developing bespoke questions

Framework for Measuring City GDP

As part of this exercise, we are keen to explore the feasibility of estimating the economic output of the identified smart cities and explore if a baseline on the same can be created with publicly available data sets/information provided by cities. This is perhaps particularly credible given the kind of capex investments these cities are expected to attract. As part of this exercise we will develop and integrate the data requirements associated with the process of measuring the city's GDP in the overall data collection exercise and explore the quality of the data ecosystem to support such an exercise.

EIU is currently carrying out a similar exercise in China.

Context

The prosperity and welfare of cities around depend on the capacity of cities to take advantage of opportunities for sustained employment growth and minimise the challenges of national and global economic integration and urban population growth. Therefore, the quality of economic development planning and city management is extremely important. Developing sound local economic development strategies at the city level is critical to both good city management and economic performance.

The purpose of the city economic rankings is to augur a health sense of competition between cities to attract investments and high-quality jobs. These rankings will also help smart city managers identify fast-growing economic opportunities in their cities and further propel their growth. As such, growth indicators, rather than those reflecting absolute size or wealth, will be chosen. However, to ensure that the ranked cities have a critical mass attractive to investors and new businesses, a minimum population cut-off point of will be determined and used. A nuanced methodology will be developed after a detailed review of the data ecosystem available. Ex: The metropolitan population will be a measured as the true urban population of a city; it includes the population only in the contiguously built city area.

Proposed Methodology

A comprehensive methodology for assessment of City level economic performance will be developed and tested for top twenty cities as part of the project. The methodology will be akin Economist Intelligence Unit's China Emerging city rankings is to identify where new business opportunities in urban China are likely to emerge because of rapid growth in population and incomes.

Growth over the next five-year period of 2018-2023 in infrastructure and property, economic output (GDP per head), consumption, job creation and population will form the core of the ranking framework. Consumer markets are included in the form of household incomes and spending. For population and GDP per head, five-year forecasts derived from the EIU's demographic and regional forecasting models will be used so that the index reflects expectations for the future.

We will supplement these indicators, wherever possible with historic city-level data that assess changes in infrastructure and property (fixed-asset investment and the urban built area), public finances (fiscal revenue) and the external environment (foreign direct investment and goods exports). Although these indicators are historic, the effects they bring to the real economy will be lagged and last for years. The CAGRs will be normalized and benchmarked to produce rankings across each indicator. The nine indicators are weighted equally in the overall index.

Disaggregation of data at the city level using a combination of official statistics and smart proxies will be attempted. Data parameters will be collected and studied at the city level. Inter alia, these include population, real estate market trends, tax receipts, infrastructure investments and demand, transportation, energy consumption, night-time light data (radiance and saturated light emissions) etc.

Illustrations

These illustrations are largely drawn from the China Emerging City Rankings (2010-13) which has been developed in collaboration with the Chinese authorities to analyse and present a city level picture of economic resilience and performance. These Rankings are prepared and disseminated by EIU widely and are highly referenced by analysts and business leaders globally. Significant decisions on job-propelling investments are made with the help if unique and highly nuanced insights provided by this data.

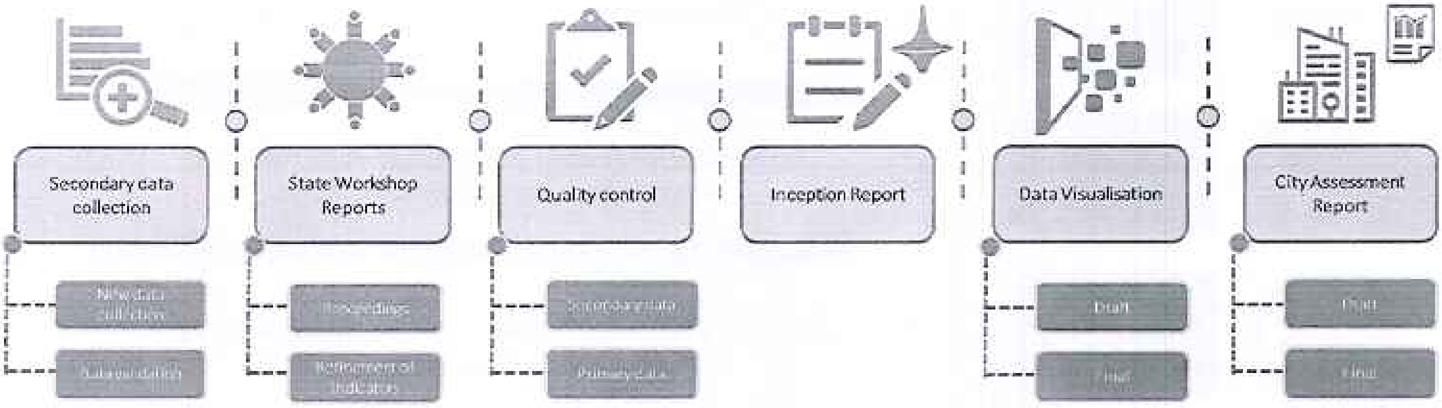
Project coordination
Indicator mapping and development
Template development
Tool development
State/UT Workshop and City Reconnaissance Rollouts
Dissemination Strategy

To ensure readiness for the subsequent phases, our team will develop templates ranging from secondary data collection to city assessment reports and collect inputs from the MoHUA early on. The following templates shall be prepared during the preparatory phase.



Secondary data collection
New data collection
Data validation
State Workshop Reports
Proceedings
Refinement of indicators
Quality control
Secondary data
Primary data
Inception Report
Data Visualisation
Draft
Final
City Assessment Report
Draft
Final

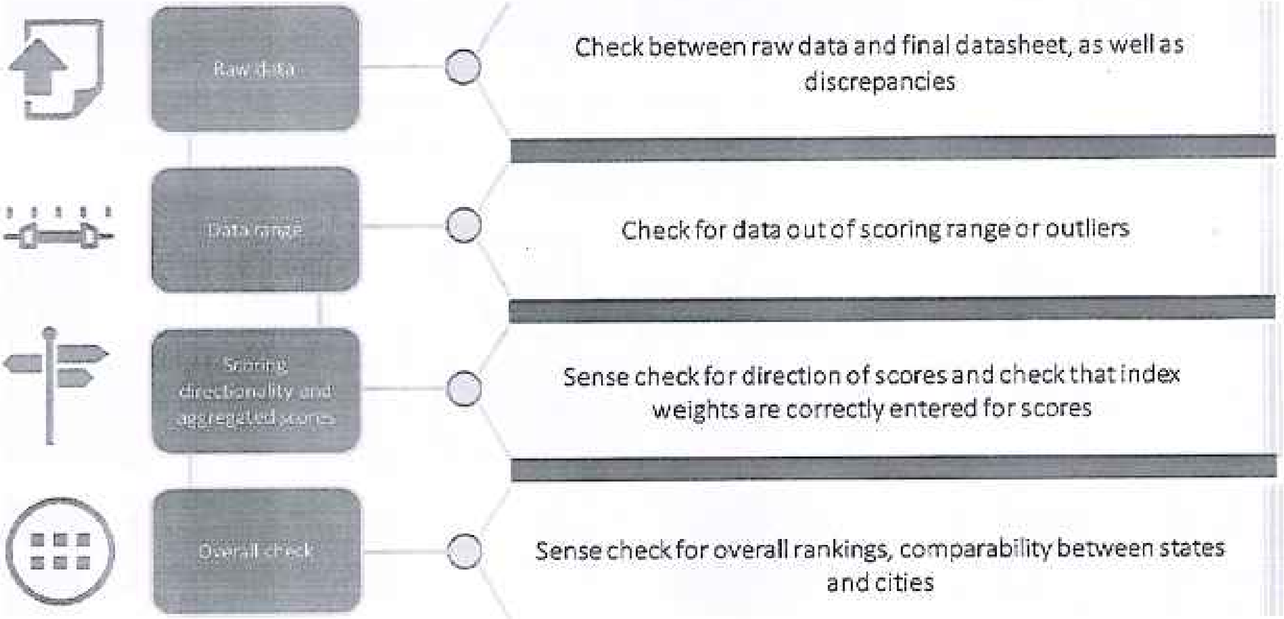
Customised secondary data template shall be prepared in advance for each city. The data template would comprise two categories of data fields, namely"

- New data fields
- Validation data fields

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

IPSOS RESEARCH
DELHI

While the new data field will require cities to fill the data points afresh, the validation data field would comprise collation of real data from existing sources such as Census 2011, data.gov.in, *Swacch Bharat Mission* (Urban), Smart Cities Mission, *Swacch Sarvekshan*, HRIDAY, AMRUT and other programmes/schemes that could be either validated or revised by the cities. The data collection template will be an online tool e.g., *sharepoint* with in-built functions including drop-down menus for ease of access; this tool can be used without internet and cities could save draft versions and upload post finalisation. It is our standard practice to have a set of robust quality assurance procedures to be performed on every Excel index to minimise errors and oversight.



Check between raw data and final datasheet, as well as discrepancies

Check for data out of scoring range or outliers

Sense check for direction of scores and check that index weights are correctly entered for scores

Sense check for overall rankings, comparability between states and cities

As stated earlier a simple and user-friendly online data entry portal will be developed on Sharepoint/VB and shared with the cities. Each city will be provided a customized login user name and password. Categories of data will be generated along the thematic heads identified under the Liveability programme guidelines and the user can easily navigate across pages and fill out those data points that are available at hand first. (an illustration of a sharepoint portal developed for Tamil Nadu is provided below)

Commissionerate of Municipal Administration
ULB Assessment

ULB Name: Dharmapuri
Assessment Year: 2014
Quarter: October - December

Basic Information | ULB Information-1 | ULB Information-2 | General Finance and SO Certification | Awards

Basic Information

		Not Applicable	Unavailable
Has the ULB witnessed expansion in the last 12 months	○ Yes ○ No	☐	☐
Commissioner/EO's Contact Details			
Name of the Municipal Commissioner/Executive Officer		☐	☐
Municipal Commissioner/Executive Officer's Contact Address		☐	☐
Municipal Commissioner/Executive Officer's Mobile Number		☐	☐
Municipal Commissioner/Executive Officer's E-Mail ID		☐	☐
Name of the Chairman/Mayor		☐	☐

The user will be given an option to save their work mid-way and resume at any time. For every data indicator, options such as 'not available' and 'not applicable' (for example: some cities may not have a centralized treatment plant and thus the data may not be applicable at all to that city) will be provided.

Once completed, the city will submit the data, no changes can be made to the data that is filled in once the data file is submitted.

The cleaned and checked data will be fed into the model data analysis and visualisation template. Our consortium has the experience and expertise of building stunning data representation, interactive maps and digital story telling. For this assignment, we would develop a craft Excel model[2] which uses an interactive dashboard to visualise the data and benchmarking process; this can include:

- Interactive heat map
- Adjustable weightings to allow for customisation
- A list of city scores by category and/or indicator
- Custom scatterplots and correlation analysis
- Ability to compare multiple cities simultaneously
- Geography profile page with key data, along with strengths and weaknesses

The craft data visualisation template will be presented to the state and city officials during the state/UT-level engagements and shared with MoHUA for review and feedback. At the same time, the template will be revisited by our analysts as part of a quality-control procedure and to ensure city comparability. An example of the EIU's interactive workbooks and dashboards can be seen below

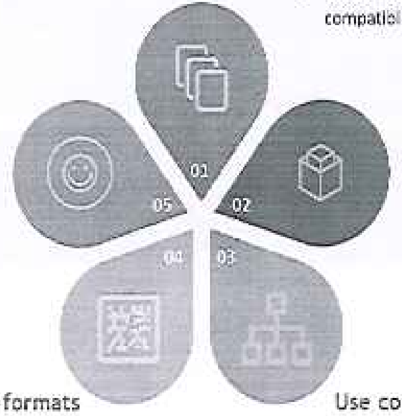
Data interoperability considerations

Global efforts are underway to integrate the increasing gamut of urban data for monitoring understanding, decision making, steering and control of urban landscape. However, the design of urban data is still on-going. with measures to standardise it can be seen even in India through game changing initiatives such as the Smart Cities Mission. We believe that the value of data multiplies when it is easily grasped by key stakeholders e.g., city administrators, citizens, etc. analysed and shared. The multiplicity of sources and formats poses a challenge to addressing queries raised by city stakeholders. These queries could be from city administrators or citizens, for instance, 'where is the greatest risk of mosquito-borne illness?' Or from citizens 'Which parts of the cities have the highest chances of receiving flash floods in the next few days?' The Smart Cities concept globally seeks to move towards this by addressing the issue of interoperability of urban data by defining an overarching framework of concepts and relationships that can be used to describe data from any sector and any source (BSI, 2016).

The liveability assessment exercise provides a platform to leverage the value of data by making it *interoperable*, open yet secure and *use case* applications. We see this assignment as opportunity to move the needle on data interoperability by developing a framework for urban data interoperability based on the principles of interoperability consolidated in the Cape Town Global Action Plan for Sustainable Development (2017). The key guiding principles are presented in figure below:



Use and re-use existing standards

- No new standards should be created in areas they already exist unless absolutely necessary.
- When new standards are created, they must be compatible with existing standards

Do not overlook metadata

- Metadata includes information on origin, authors/producers, date of production/version, etc.
- It is crucial for discoverability, accessibility and fostering trust and understanding of the context in which the data was produced.

Use common classifications wherever possible

- As more and more data is produced, we need to ensure that to the extent possible, the language used to define and classify that data is the same.

Publish data in machine-readable formats

- publishing data in machine readable formats is crucial to interoperability.
- It enables a computer to access, identify and filter data in an automated way.

Ensure that standards are user driven

- For data to be usable, it has to be driven by the needs of users themselves.
- The process of ensuring that data is usable can be complex and require trial and error, but is crucial to long-term success and impact.

Source: The frontiers of data interoperability for sustainable development, Development Initiatives, November 2017

Our framework will also examine the political economy framework for urban data (Edwards et. Al., 2016) that calls for a shift the focus of data driven governance policies and practices from capacity and supply to incentivising service delivery, transparency and accountability. The recent initiative of the MoHUA to provide INR 10,000 crore for municipal reform ushers this spirit in governance of cities in India. The political economy framework calls for provisioning and usage of urban data should be about the solution to concrete problems in urban environments, not just about the pure quantities of urban data.

At the end, urban data is simply a means to do urban monitoring, steering and development more effectively, efficiently and reliably. We also propose to outline some of the use case applications based on the consultations with state/UTs and cities considering the data that will be generated from this assessment exercise. Some of the operation enhancing questions or use case applications could be the following:

- When citizens apply for / obtain multiple services, which service do they typically apply for first?
- Is there a correlation between energy consumption and tenement structures?

ILLUSTRATIVE

- Where is there the greatest risk of mosquito borne illness?
- Is there a correlation between service delivery efficiencies in SWM and settlement type?

Project coordination
Indicator mapping and development
Template development
Tool development
State/UT Workshop and City Reconnaissance Rollouts
Dissemination Strategy

Three tools would be developed to assist with tracking consultations with state government and cities, primary data collection and for validation of secondary data points

Dashboard – Monitoring State Workshops and Secondary Data Submission by cities
Research Instrument for Primary Data Collection
Validation Tool (Secondary Data Collection)

The first tool i.e., for tracking State/UT/City level consultations will monitor the progress of 36 State/UT level workshops and 116 City Reconnaissance Meetings and provide updates on agreed data points, nodal contact person, timelines, mode of secondary data provision (online tool e.g., *sharepoint* vs. manual) among other aspects. This tool will be in the form of a dashboard that will also monitor the progress made by cities on secondary data submission.

We will develop a set of research instrument for primary data collection for an identified set of indicators. The research instrument will be coded into a mobile application and finalised post field test. Additionally, we will also develop draft template for validation of secondary data pertaining to some indicators such as number of schools having facilities for using digital content etc.

Project coordination
Indicator mapping and development
Template development
Tool development
State/UT Workshop and City Reconnaissance Rollouts
Dissemination Strategy

We see the state/UT level engagements as a platform for not only disseminating the objectives and rationale for undertaking the liveability assessment of cities within each state/UT but also as an opportunity to finalise our approach for arriving at the input data points for each of the 79 indicators and associated modalities. As a run-up to the state/UT workshops and city reconnaissance missions, the following preparatory activities would be undertaken:

G. VIJAY KUMAR
Under Secretary

IPSOS RESEARCH PVT. LTD.
DELHI

Identification of City level Stakeholders

City level stakeholder would be identified with respect to key stakeholder with respect to each indicator. The Methodology Report states the agency/department from which data could be obtained for each of the indicator. For instance, data on cost recovery, online services would be provided by the ULB, data on restoration of historic buildings are to be provided by ASI and State ASI apart from ULB. Similarly, data on projects on ecologically sensitives areas would be provided by the local development authority. Consideration would be given to identify key officials within an organisation as well.

Preparation and dispatch of city wise Secondary data collection sheets

An important step in this phase is to prepare city level data sheets covering the input data points for the 79 indicators to all the cities through the State nodal officer. The data sheets would be populated from existing data sources such as Census 2011, Swachh Sarvekshan, AMRUT, SCM, HRIDAY and other programmes/schemes. Advance dispatch of the sheets would provide cities some time to review and understand the required data points so that issues/clarifications could be made at the workshops.

Scheduling of State-level workshops and City Reconnaissance Missions

Timelines for State-level workshops and City level reconnaissance missions would be scheduled in consultations with the State nodal officer for each State. The dates for the workshop would be reflected on the State Workshop Progress Monitoring Dashboard as and when the dates for each workshop gets finalised. This dashboard would help MoHUA and States to track the progress of State workshops and city reconnaissance missions, respectively. This dashboard would later be utilized to monitor progress of secondary data submission by cities.

Preparation of draft workshop agenda and discussion content

A draft workshop agenda would be prepared and finalised in consultation with the MoHUA and respective State Governments. The workshop would have structured discussions around the following thematic areas – Project Background and Methodology, Understanding the indicators (demystifying nomenclatures and data points), smart proxies, data collection template, standardization of reporting period, data lags, Incentives for timely/early submissions, etc.

Project coordination | Indicator mapping and development | Template development | Tool development | State/UT Workshop and City Reconnaissance Rollouts | **Dissemination Strategy**

We will create a strategy for dissemination of the city liveability assessments at the international and national level. While a national workshop to share the city level rankings is planned towards the end of the study we plan to engage with international, national, state and local level on an on-going basis through a host of media dissemination activities such as photo journals, articles, blogs and a high decibel social media campaign. One key outreach event is the creation of a dissemination platform – 'The Hub' @ The Economist to connect and share progress with global audience. Our dissemination activities will conclude with the national level workshop to demonstrate use-case of evidence generated by this exercise for futuristic urban planning for Indian cities.

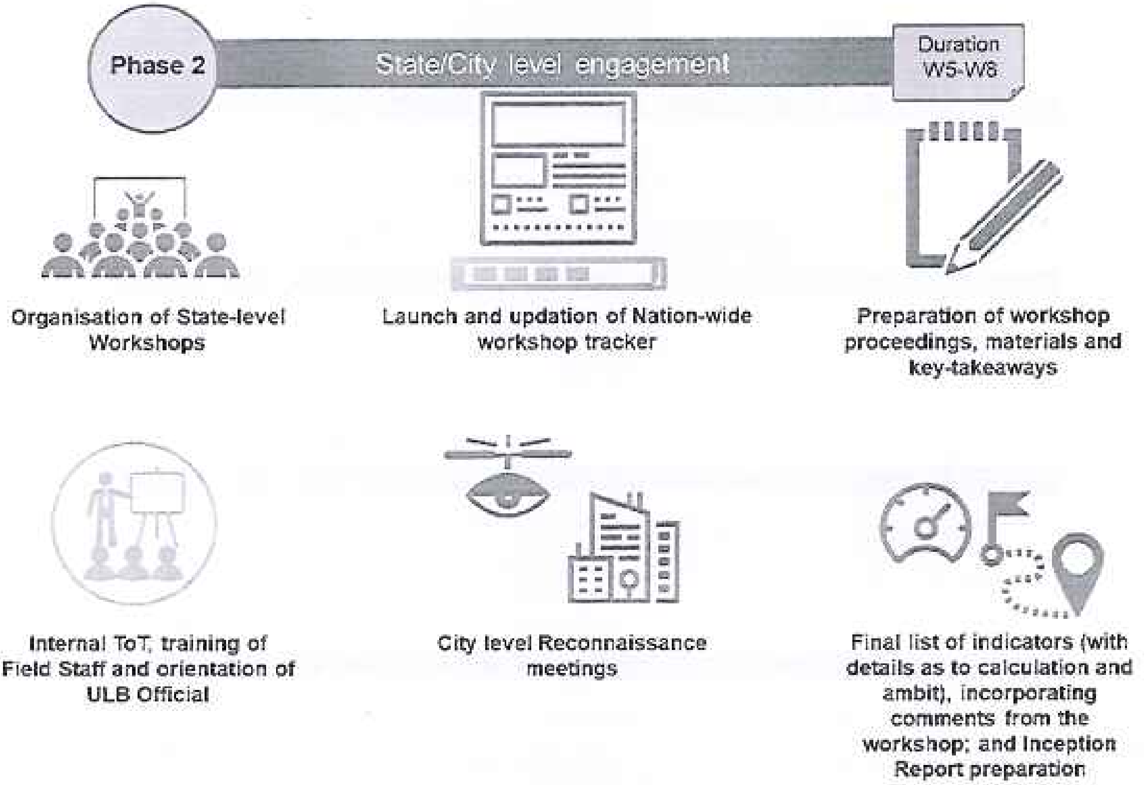
IPSOS RESEARCH
DELHI

Phase 2: State/UT-level Engagements and City Reconnaissance Missions [Week 5- Week 8]

Phase two will commence with launch of state/UT level workshops. Overall a total of 36 workshops will be conducted over a period of two to three months. Our teams would coordinate with the state level nodal officers early on for tentative dates for scheduling workshops. The objective of the State level workshop will be to familiarize the state/UT government and city representatives about the overall concept of Liveability Index, assessment methodology, data requirements, data sources, data collection interface/application and validation methodology and associated processes and timelines for submission of complete data. Schedule for city level reconnaissance meetings will able to finalised during the state/UT workshops. The figure below summarises the key activities and milestones to be complete in this phase.



Phase 2 State/City level engagement Duration W5-W8

Organisation of State-level Workshops

Launch and updation of Nation-wide workshop tracker

Preparation of workshop proceedings, materials and key-takeaways

Internal ToT, training of Field Staff and orientation of ULB Official

City level Reconnaissance meetings

Final list of indicators (with details as to calculation and ambit), incorporating comments from the workshop; and Inception Report preparation

Media dissemination through photo journals, national portal to be an on-going exercise

It is expected that about 40-45 participants comprising city representatives, state nodal officer, representatives from relevant line department of the State government and other participants suggested by the State Government will attend the workshop. Key outcomes of the State level workshops will include the following:

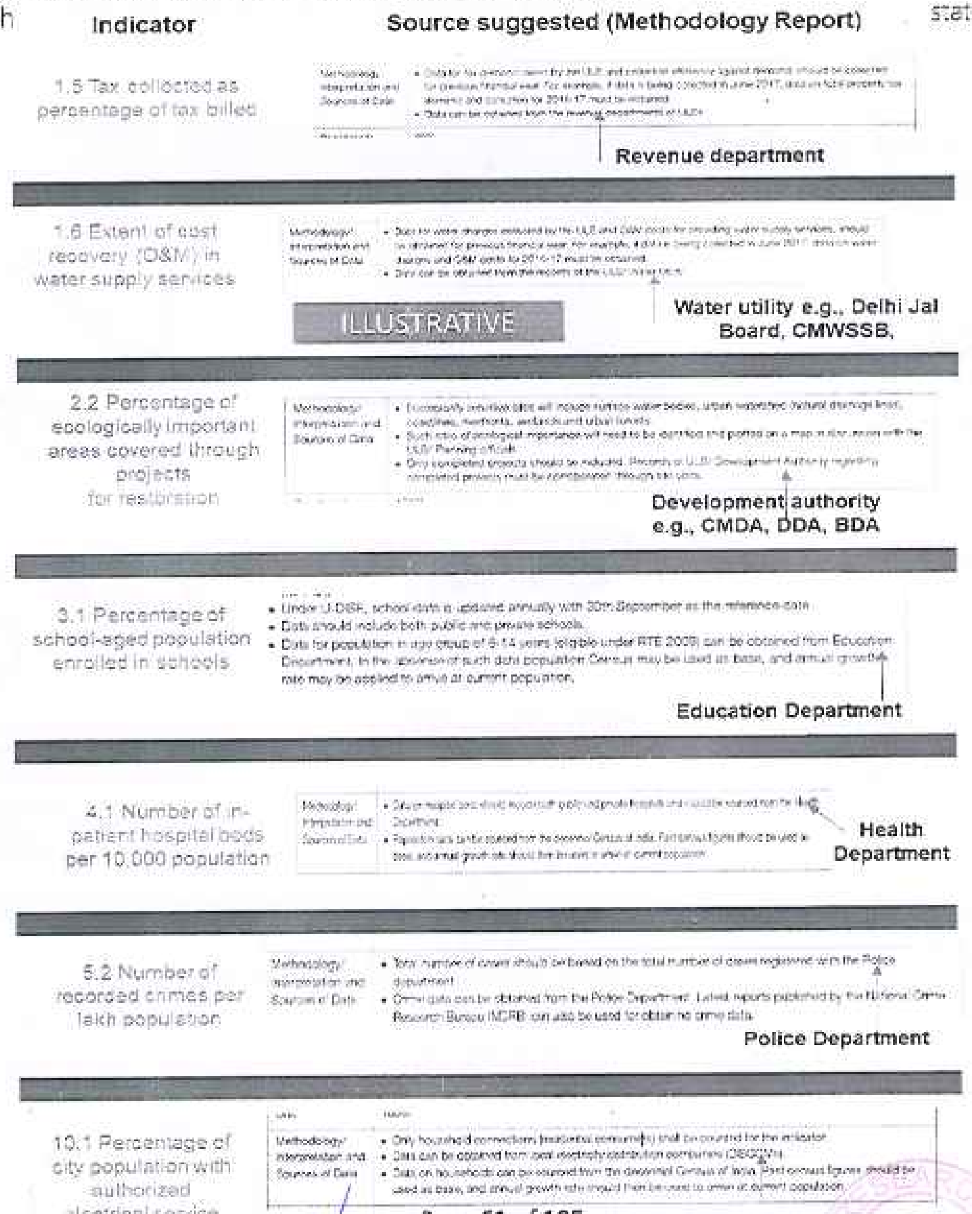
- Timelines for city level reconnaissance meetings

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

IPSOS RESEARCH PVT. LTD.
DELHI

- Identification of preferred mode of data collection interface
- Timelines for confirming availability/unavailability of required data
- Timeliness for submission of secondary data
- Timelines for review and agreement on data
- Protocols for escalation of issues relating to data nomenclature, submission delays etc.
- Incentive structure for timely submission of secondary data

An initial list of participants will be drawn based on the agency suggested for different data points in the 'Methodology Report. This list would be finalised in consultation with the nodal officers of each state.



Indicator
Source suggested (Methodology Report)
1.5 Tax collected as percentage of tax billed
Revenue department
1.6 Extent of cost recovery (O&M) in water supply services
ILLUSTRATIVE
Water utility e.g., Delhi Jal Board, CMWSSB,
2.2 Percentage of ecologically important areas covered through projects for restoration
Development authority e.g., CMDA, DDA, BDA
3.1 Percentage of school-aged population enrolled in schools
Education Department
4.1 Number of in-patient hospital beds per 10,000 population
Health Department
5.2 Number of recorded crimes per lakh population
Police Department
10.1 Percentage of city population with authorized electrical service
DISCOMS

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

Key ULB officials will participate in the state level workshops while the remaining officials may be encouraged to participate in city level reconnaissance discussions. An indicative programme structure is presented below:

Programme	Day 1	Day 2	Day 3	Day 4
Internal orientation to state/regional coordinators	√		ILLUSTRATIVE	
State/UT workshop		√		
City/ULB Reconnaissance discussions			√	

Post the State/UT workshops, our team will engage in city-level reconnaissance missions that would involve meeting relevant city-level stakeholders including utilities (DISCOMS, water supply, etc.) SPV for Smart Cities, different project heads, parastatals such as development authorities, district collector, concerned line departments such as health, education, police, tourism, among others. Special focus will be given to engage with key officials within ULBs such as revenue, accounts, solid waste management etc.

For effective coordination, smooth exchange of information flow and continuity, it is proposed that engagement with the cities will be undertaken through a nodal officer at the state/UT level. A critical milestone of this workshop will be designation of nodal officer for overall coordination by the respective state/UT government. The nodal officer will also serve as the State Data Ombudsman and troubleshoot issues relating to data.

Incentive structure for data submission

A key challenge envisaged in this study pertains to potential challenges related to timely submission of secondary data by the cities. We propose to formulate an innovative incentive structure in consultation with MoHUA and convey it at the state/UT workshops/city meetings to ensure their buy-in. Some of the ways in which cities could be incentivised could be 'appreciation of best performing cities on national portal and social media campaign.' with SMS alerts sent to all key city representatives, and exclusive coverage of best performing cities in photo journals etc.

Monitoring progress of state/UT workshops and City Reconnaissance Missions

The progress of the state/UT workshops and City Reconnaissance Missions will be monitored through a dashboard that will be updated near-real time. The dashboard will information on upcoming, on-going and completed workshops and reconnaissance missions. Associated documents such as workshop agenda, list of participants, discussion materials, workshop proceedings/minutes, photographs, etc. will be accessible through the dashboard.

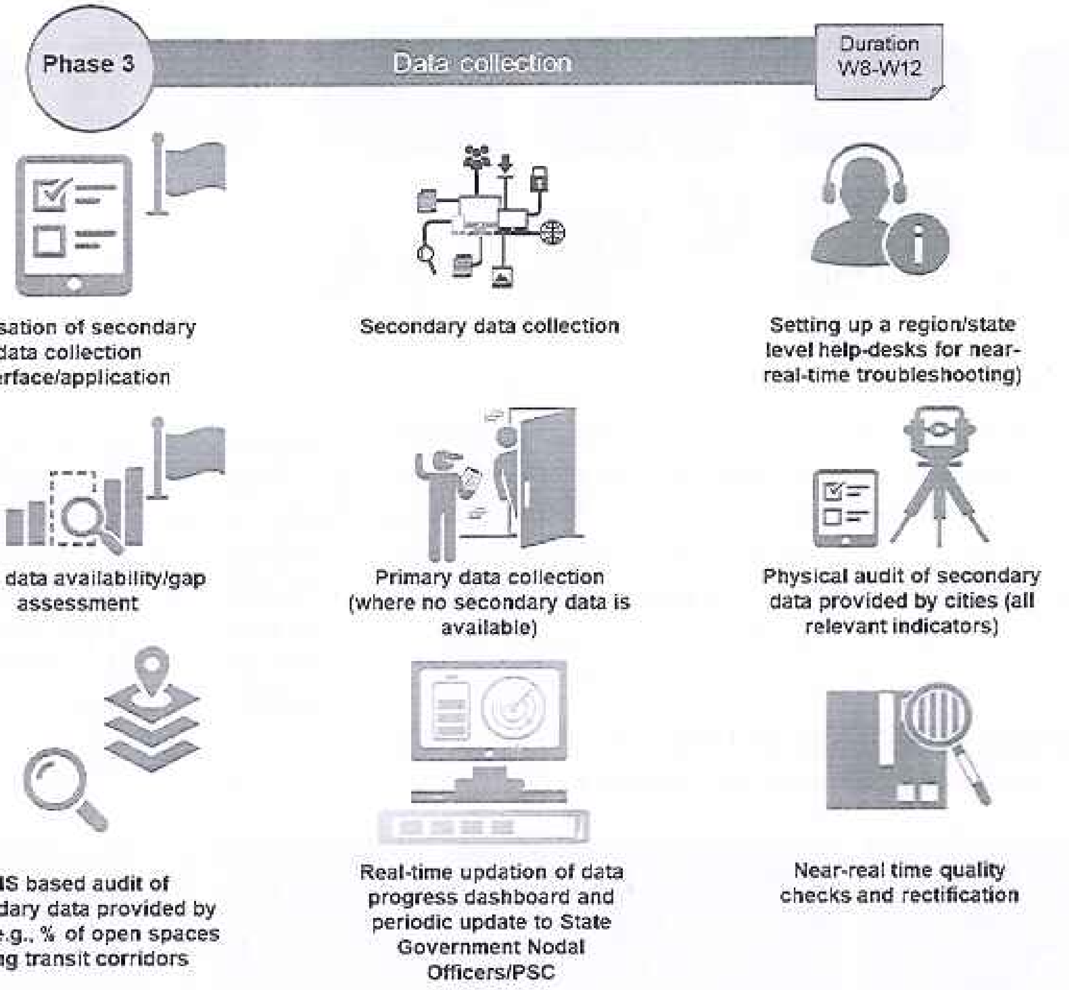
Phase 3: Data collection [Week 9 – Week 12]

This phase will involve the following activities:



Phase 3 — Data collection — Duration W8-W12

- Finalisation of secondary data collection interface/application
- Secondary data collection
- Setting up a region/state level help-desks for near-real-time troubleshooting)
- Final data availability/gap assessment
- Primary data collection (where no secondary data is available)
- Physical audit of secondary data provided by cities (all relevant indicators)
- GIS based audit of secondary data provided by cities e.g., % of open spaces along transit corridors
- Real-time updation of data progress dashboard and periodic update to State Government Nodal Officers/PSC
- Near-real time quality checks and rectification

Media dissemination through photo journals, national portal to be an on-going exercise

We propose collection of secondary data as an on-going exercise as our teams will start collating city level data from the preparatory phase itself and prepare data sheets with pre-filled data covering the 79 indicators to the extent possible. However, formal data collection will commence from week 9 as indicated in the ToR.

As presented in the section on preparatory phase, the 79 indicators could have six categories of data collection interface.

CITY LIVEABILITY INDEX
79 Indicators

Category A	Category B	Category C	Category D	Category E	Category F
Secondary data collection	Secondary data collection + GIS validation	Secondary data collection + Physical validation	Data unavailable but collected through HH level sample survey	Data unavailable but collected through HH** sample survey	Data unavailable

While it is expected that input data associated with all the 79 indicators will be provided by the cities, there could be some data gaps and concerns regarding period of availability, reporting units and formats, reliability etc. In this section we outline our preliminary approach for addressing the issues for various indicator category. For **Category A** (Secondary data collection), pre-filled templates will be prepared for each city wherever possible and shared for validation/filling new data.

Category B involves indicators that merit spatial validation. Some of the indicators under this category are:

State level helpdesks will be set up for each State/UT to assist the cities on any aspect relating to filling secondary data templates. This helpdesk would be manned by respective State level coordinators with technical back stopping facility by the support team.

- 8.1 | Per capita availability of green spaces
- 5.1 | Number of streets, public places, junctions covered through surveillance systems
- 9.1 | Share of mixed land use area in overall city land use
- 9.2 | Net Density

For these indicators, we will be undertaking validation of the secondary data provided by cities through visual analysis using satellite and vector data. Figure below presents our approach:

Indicators under Category C merit physical validation in the field to strengthen reliability of the indicators. Preliminary review of the indicators suggest that physical validation exercises would need to be carried out for 11 Indicators. Figure below presents our sampling approach:

Indicator	Validation approach
2.3 | Hotel occupancy	Total 35 hotels; 5 star (5 hotels); 4 star (10 hotels), 3 star (10 hotels) less than 3 star (10 hotels) randomly in each city
3.4 | Percentage of schools with access to digital education	Randomly select 40 schools for validation in each city
5.1| Number of streets, public places, junctions covered through surveillance systems	Inspect 30 major public places and junctions in each city, randomly
6.5 | Percentage of vendors registered and provided formal spaces	Randomly select 30 street vendors in each city
11.7 | Availability of Passenger Information System	Select 30 interchange sites- bus depots/stations, metro or suburban rail stations and water transport terminals (e.g. ferry terminal), randomly
11.8 | Extent of signal synchronization	Randomly select 30 signalized intersections in each city
11.9 | Availability of paid parking spaces	Select 30 paid parking spaces, randomly in each city
11.10 | Percentage coverage of footpaths – wider than 1.2 m	Select 30 footpath sections across major roads, randomly in each city
11.11 | Percentage of traffic intersections with pedestrian crossing facilities	Select 30 intersections randomly in each city
11.12 | Extent to which universal accessibility is incorporated in public rights-of-way	Select 30 public right-of-way areas to represent areas such as Government buildings, sidewalks/ footpaths, subways/city
14.3 | Extent of municipal solid waste recovered through reuse	Random selection and visits of recovery/re-use sites in each city

VIJAY KUMAR

Ministry of Housing and Urban Affairs
Govt. of India

IPSOS RESEARCH
DELHI

Categories D and E call for collecting data from households and households plus institutional and commercial entities such as schools, public offices etc. Category D covers four indicators while Category E covers one indicator as presented below. We propose to undertake a survey of about 400 households in each of the 116 cities for both these categories. For Category C, 400 households will be spread across different socio-economic strata of respective cities and for Category D, 200 households will cover only low-income urban communities (notified slums) in each city.

Category D

Indicator	Validation approach
7.2 | Percentage of slum areas covered through basic services	Random sampling of 200 citizens across ten notified slums in each city
11.3 | Mode share of public transport	Random sampling of 400 citizens across different socio-economic strata in each city
11.6 | Mode share of non-motorized transport	Random sampling of 400 citizens across different socio-economic strata in each city
14.1 | Household level coverage of municipal solid waste collection	Random sampling of 400 citizens across different socio-economic strata in each city

Category E

Indicator	Validation approach
13.1 | Coverage of toilets	Random sampling of 400 respondents It would cover households, schools, public institutions, commercial establishments, etc. per city

Indicators where data is not available will be excluded from computation from the liveability index in line with the suggested methodology

Methodology for sample determination

For arriving at the sample size for this study, we have treated the present research problem as a Case of Proportions, i.e., a problem involving the estimation of the proportion of respondents exhibiting a certain kind of behaviour (in our case, proportion of households who have access to safe drinking water). In a Case of Proportions, the sample size is determined as under:

Let the sample size be n. The various assumptions made in calculating n is as under:

विजय कुमार/VIJAY KUMAR
अवर सचिव/Under Secretary
आवासन और शहरी कार्य मंत्रालय
Ministry of Housing and Urban Affairs
भारत सरकार/Govt. of India

IPSOS RESEARCH
DELHI

p is the proportion of the households (our universe in the project area) having benefited from the various urban mission. This proportion p is called the population proportion. In the absence of any estimate of p, a figure of 50 per cent could be used for the anticipated population proportion.

π is the proportion of the sample having benefited from the urban missions. This proportion π is called the sample proportion. π is obviously a dichotomous variable (a dichotomous variable is one which has only two response choices, such as "Yes, benefited from the urban mission " and "No, did not benefit from the urban mission")

E is the allowable error, i.e., the allowable difference between p and π while drawing the sample. We have fixed this 5 percent say 0.05

Z is the number of standard errors associated with the confidence level. The confidence level is fixed at 95 per cent, i.e., the pre-assigned chance of finding the true population proportion p to be within the range of ($\pi \pm 1.96s$), where, s is the standard deviation of the sampling distribution.

At a confidence level of 95 percent, the value of Z is 1.96. The estimated sample size n is worked out based of the below formula.

$$n = \frac{\pi(1 - \pi)Z^2}{E^2}$$

$$n = \frac{0.5(1 - 0.5)1.96^2}{0.05^2}$$

Thus, sample size n works out to 384. Considering the possibility of non-availability and non-consent of the beneficiaries, about 5 per cent additional sample is proposed. With this allowance, the sample size works out to 400 per city.

A total of about 400 respondents will be covered from each city. Given that there are 116 cities to be covered in 1st year, the total sample size works out to minimum 46,400 respondents. This is a minimum sample size needed if we want the observed proportions (π) to be within ± 5 percent of the unknown population proportion (p).

Approach for geospatial sampling:

We propose to select our survey respondents based on a geospatial sampling methodology after evaluating the spread of the city under multiple criteria. The table shown below is an illustration of our approach towards rating each of the wards in the city. It is to be noted that any ward is likely to receive the score based on the presence of the criterion mentioned in each of the question (for eg: Presence of park/playground in the ward = 4.5%, else = 0). The scores obtained against each of these questions will be summed to provide ward level total score. It is to be noted that "slums" have been given a special attention to ensure social inclusion in our geospatial sampling methodology.

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

IPSOS RESEARCH PVT. LTD.
DELHI

Table 1: Sampling criteria

Questions	Answers	Score / Ward
List the wards having market area in your city?		4.5%
List the wards having tourist attraction places in your city?		5.0%
List the wards having schools in your city?		5.0%
List the wards having hospitals in your city?		5.0%
List the wards having parks / playgrounds in your city?		4.5%
List the wards having rivers, lakes and/or mountains in your city?		4.5%
List the wards having large commercial areas in your city?		4.5%
List the wards having proximity to industries in your city?		4.5%
List the wards having earthen roads in your city?		4.5%
List the wards having footpath in your city?		4.5%
List the wards having good road network connectivity in your city?		4.5%
List the wards having UGSS penetration in your city?		4.5%
List the wards having low incidence of crime in your city?		5.0%
List the wards having high population density in your city?		4.5%
Score (A)		65.0%

Questions	Answers	Score / Ward
List the wards having large slums in your city?		35.0%
Score (B)		35.0%

Based on the obtained total scores, wards will be shortlisted based on the following combination:

- Combo 1: Wards with larger slum population with higher livability characteristics
- Combo 2: Wards with fewer slum population with higher livability characteristics
- Combo 3: Wards with fewer slum population with lesser livability characteristics
- Combo 4: Wards with larger slum population with lesser livability characteristics

Within the shortlisted wards, about 33% of the primary survey (200 Surveys) will be conducted in wards having larger slum population. We would also ensure that the survey conducted within every ward will

Govt. of India
IPSOS RESEARCH
DELHI

be well spread within the ward boundary to ensure representativeness of the entire city and this will be constantly monitored by the field officer through a mobile application.

Score (A)	SCORE (B)	Sample
High	High	200 SURVEYS
Low	High	
Low	Low	400 SURVEYS
High	Low	

Sampling of Households

In each starting point 10 households(HH) will be covered for eliciting feedback about the various facilities available in the city. The first household shall be z^{th} number household from a starting point. The second household will be $(5+z)^{th}$ household. This process should be continued till the time we achieve the sample size (10 HHs) for that particular starting point. During selection of household serpentine Right Hand Rule will be followed.

Sampling of respondents

Adult members of the sampled household, who are aged 18 and above would be considered as eligible respondents for the survey. Where ever there are more than on eligible respondent in the household KISH grid will be used for unbiased selection of the eligible respondent. The usage of KISH grid will also ensure the fair representation of both the gender in the sample. For the Indicator 7.2, percentage of slum areas covered through basic services, we propose a sample of 200 per city across 10 slums (as per list available with slum rehabilitation board).

Kish Grid Selection - Illustration

Respondent No.	Gender	Age	Adult No.	Selected Respondent
1	M	57	1	
2	M	44	2	
3	M	35	3

The slums will be selected using a simple random sampling from the available list. We will overlay this selection to ascertain the geographical spread across wards / zones in the city. The same process as outlined above will be followed for selection of HHs and individuals in the selected HH.

Overall sample size

The total number of respondents to be covered as part of our primary data collection including physical audit across identified indicators is presented below:

Unit	Sample per city	No of cities	Total sample
HH survey/ Citizen (slum and non-slum)	600	116	69,600
Institutions- Hotels, Schools, Establishments	98	116	11,368
Physical validation through Observation	270	116	31,320
Total	968	116	1,12,288

Data collection team structure

Based on different categories of data to be collected/validated, three different teams will be working in tandem to collect the required data in time. First team comprises regional/state/UT coordinators who will be entrusted primarily with the responsibility of secondary data collection. Second team comprises field investigators and supervisors who will be involved in collection of primary data for indicators identified under Category D and Category E. The third team will include physical auditors who will be validate the reliability of secondary data provided by cities for indicators identified under Category C.

Team 1

Regional/State/UT Coordinators

Responsible for secondary data collection, organising State/UT workshops and city reconnaissance meetings, follow-ups, help desk support, and local support to Team 2 and Team 3

Team 2

Field Investigators and Supervisors

Responsible for pilot testing, primary data collection for indicators identified under Category D and Category E

Team 3

Physical Auditors

Responsible for physical inspection and verification of secondary data provided for indicators identified under Category C

All these team will be supported by a pool of quality control, IT and analytical team. The state

All teams will be supported by a centralised quality control, IT and technical backstopping team

जी. विजय कुमार/G. VIJAY KUMAR
अवर सचिव/Under Secretary
आवासन और शहरी कार्य मंत्रालय
Ministry of Housing and Urban Affairs
भारत सरकार/Govt. of India
नई दिल्ली

coordinators will serve as an additional layer of local support for guiding the field team on different aspects of primary data collection and physical validation.

Training of regional/state coordinators [secondary data collection]

We will conduct an internal brainstorming cum training session wherein the Regional/State Coordinators will participate and familiarise themselves with the assignment and modalities involved along with non-key staff/consultants. Subsequently, we will be conducting a three-day training programme for the Regional/State Coordinators and key city/ULB representative along the State/UT workshops. Training will cover secondary data collection interface/application, data formats including reporting period, reporting units, data collection process, escalation protocols, and ethical considerations among other modules. Subsequently, the Regional/State Coordinators with support from the PCC team will train field supervisors, investigators and physical auditors.

Research instrument development, pilot test and training [primary data collection]

The overall sampling strategy for categories indicated above will be finalised in consultation with MoHUA. Subsequently, the team will develop research instruments covering relevant indicators and target groups. Each of the research instrument will be pilot tested and finalised based on field level insights. Our consortium specialises in developing minimalistic instruments without losing coverage and rigour of data collection. To carry out the survey, the research instruments will be developed as mobile application such as **ODK Collect** or **Kobo Tool Box** that allows that cloud based storage of backend data and provides near analysis ready data.

We will explore using a computer-aided in-person interviewing (CAPI) methodology to collect data on Windows-based phones or tablets, which has numerous advantages over traditional pen-and-paper methods. The programmed instrument will have built-in logic that ensures the correct path through skip-patterns, doesn't allow interviewers to enter invalid responses to closed ended questions, and runs internal consistency checks.

Using CAPI enhances measurement quality, reduces error, and limits the need for editing and cleaning following data collection. For every interview, the exact GPS location is captured, which means that quality control departments can verify interviews are being performed at the correct locations. In addition, quotas are automatically tracked on the mobile device which reduces the need for manual tracking. We have invested significantly in enhancing our CAPI capacities both in terms of infrastructure and human capacity. Ipsos has a well-trained pool of interviewers that are familiar with quality processes for CAPI interviews and used to close scrutiny and rigor of monitoring. Our expert data team will program the survey, after which extensive quality checks will be carried out by the Ipsos team. We will then run sample cases through the survey to test for logic and skip patterns. Following the completion of programming in English, we will overlay the translated instruments and additional quality checks on

जि. विजय कुमार/G. VIJAY KUMAR
अवर सचिव/Under Secretary
[illegible]
DELHI

all translations will be done. The programmed instrument will be downloaded to the Phone/Tablet devices to be used by interviewers.

The research instruments will be **translated in all relevant regional languages** for all 116 cities. All translation will be checked by the researchers to ensure that the meaning of the questions has not

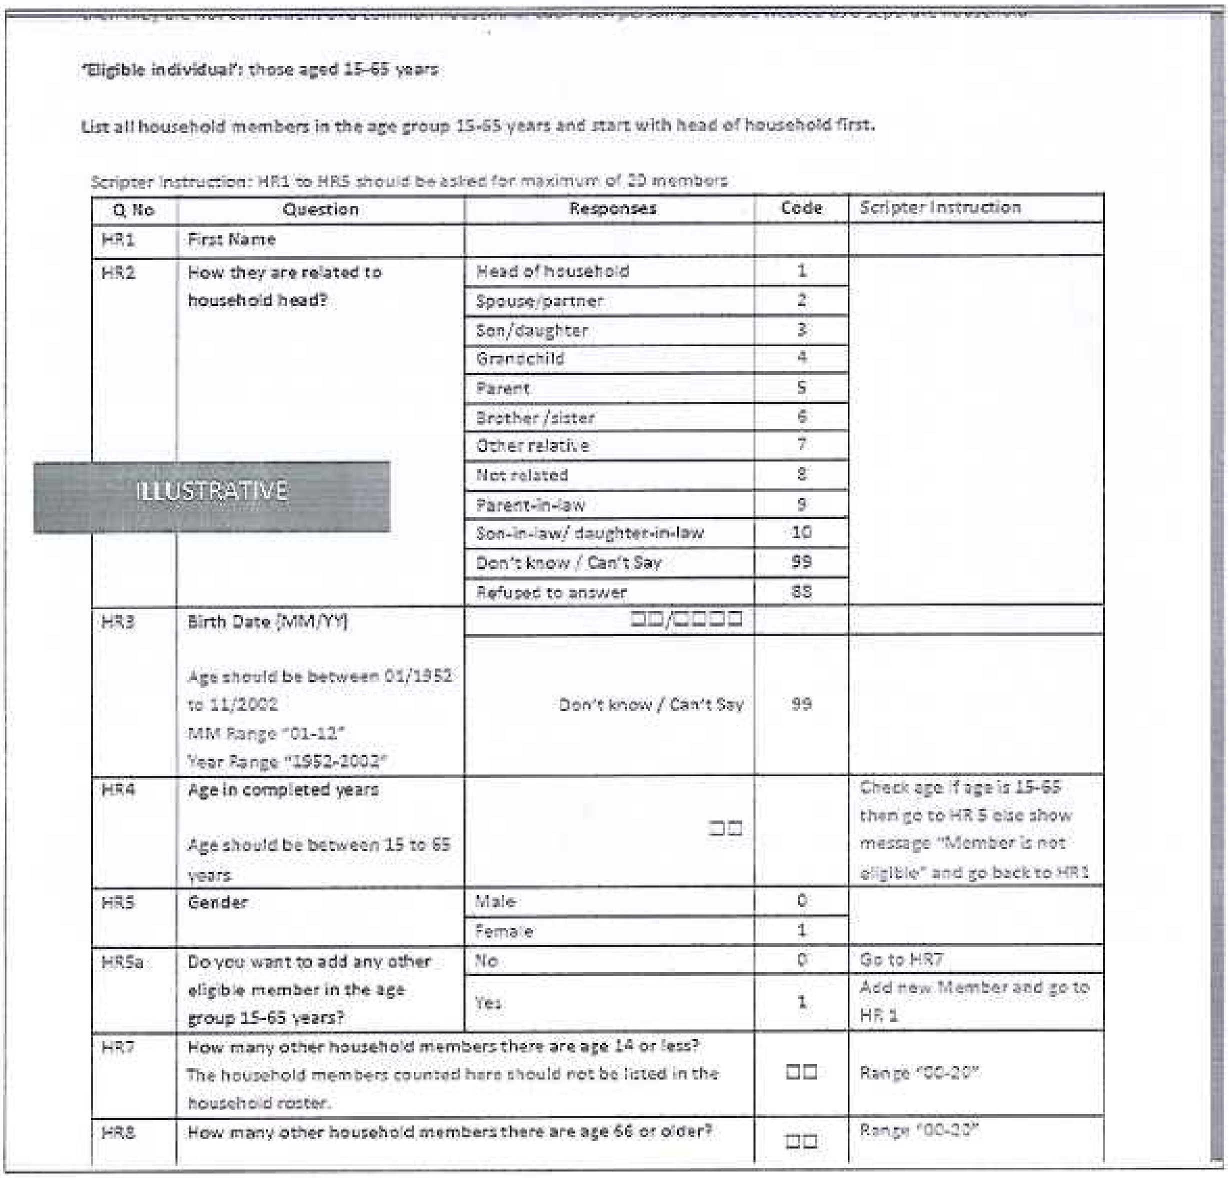
Our extensive experience conducting quantitative social research in a variety of fields has taught us that the questionnaire can be designed to maximise participation based on the following key principles:

Concise and well-structured survey design:	A short survey will get more responses than a long survey, and competing priorities can lead to very long questionnaires. It is important to focus on top priorities and understand key opinions while also being realistic both **regarding** length of survey but also respondent ability to report on certain items.
Questions are easy to answer:	Instruments that are difficult to complete lead to errors from the interviewer as well as the respondent. Although we provide extensive training to interviewers, complicated questions can be difficult to complete accurately. Additionally, we ensure that questions are drafted with as few clauses as possible, without double-negatives, and should include as comprehensive a range of answer options as possible.
Take into account the respondent's knowledge and sensitivities:	Sensitive questions, such financial questions or those about socially unacceptable behaviors (for instance open defecation), most often lead to inaccurate reporting and poor data because respondent over/under report or give the more socially acceptable answer.
Questions should allow respondents to not know:	Where respondents are forced to answer questions, they do not feel they know the answer to, they are likely to become frustrated and close the survey early. We therefore recommend that a "DK (Don't Know)/NA (Not Applicable)" option is always provided, particularly in sensitive environments.
Allow respondents to feel heard without burdening them unduly:	Limit open-ended questions to one to two and do not require respondents to fill them out. Additionally, a confusing screener or imprecise definitions of the target respondent can take a lot of time and lead to errors in data collection.

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

IPSOS RESEARCH PVT. LTD.
DELHI
Dt...........

Additionally, we will ensure that questions used are tested and used as a standard. We will also have all survey instruments undergo a thorough review by sociologists and psychologists with expertise in instrument design, who will look to ensure the overall instrument and individual questions are structured in a way that is accessible to respondents (by, for instance, organizing the instrument logically and introducing new topics/question modules so that respondents are not confused about why they are being asked certain questions at a given point in the interview) and cognitively unambiguous (avoiding, for instance, questions where one question asks about multiple constructs).



'Eligible individual': those aged 15-65 years

IPSOS RESEARCH
Delhi

changed while translating into regional languages. We propose to pre-test the questionnaire in two non-sampled areas in any two selected cities. The pre-testing of the questionnaires will be undertaken on the translated questionnaires. The pretesting will ensure the following aspects:

- Whether all the questions are comprehensible to the enumerator
- Whether the respondents have any difficulty in understanding the questions
- Whether the length of the questionnaire is optimum?
- Whether the questions ordered properly
- Whether any change is required in the questionnaire

Finally, it will help in fine tuning the questionnaire and to determine the flow of questions, to make life easy for the investigator as well as the respondent.

The final tool will be scripted and uploaded in all regional languages for the main survey. Ipsos internal platform i-field will be used for HH survey that brings in the advantage of GPS capture and audio recording as well as real time tracking of field work completion status

Approach to data collection:

Secondary data collection for cities will start immediately after culmination of State/UT workshop and subsequent training of key city/ULB representative through city level reconnaissance meetings. The launch date for cities will vary depending upon the workshop schedule and fixing of appointment for city level meetings in each State. In the mean-time we will update secondary data collection interface/application based on the inputs and suggestions provided by the State and city representative at the workshop. Progress of data collection will be monitored through an integrated dashboard (refer prototype presented in the section on preparatory phase activities). We propose to deploy a team of four field investigators, four physical auditors and one field supervisor per city to undertake primary data collection/audit exercise in each city. Overall 69 such teams will be deployed to complete primary data collection across 116 cities in 16 days' time. Our pool of enumerators is experienced in undertaking large surveys in the urban areas across different sectors and hand-held devices. We will be undertaking a three-day training programme at a regional level to familiarise our field team with project objectives, research instruments, sampling frame and survey ethics. We propose to involve the field team in pilot testing of the research instruments for field-based training and better understanding of the research instrument. Our experience in managing large-scale survey research assignments tells us that the successful organisation and management of an assignment such as this requires the following approach:

A national level presence: We will work through its own offices and teams in all states and Union Territories and will not outsource any part of the survey management or data collection task to any external supplier or vendor. This will ensure that data in each state is collected as per agreed protocols

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

and quality norms. All our offices are manned by local teams that have a panel of interviewers and supervisors from the state/ districts that are familiar with the geography and local dialects.

Zonal hubs: The core project management team based in Delhi will be supported by zonal hub managers who will be Ipsos permanent staff – field managers with experience of managing large scale projects. These hubs will help the core team in all phases of the research process. Their contributions are particularly important while team mobilisation, making the route plan, translation in local languages, and managing the fieldwork. They will also provide valuable support at time-intensive stages of the project, such as script checking, fieldwork monitoring, and data checking. These zonal coordinators will operate under the guidance Central Project Team.

Centralised Training of Trainers: We will conduct centralised TOT for Zonal and State Managers to plan and implement the fieldwork. The training will be for 4 days including field visits to ensure that field managers are familiar with the field situations, exposed to potential challenges, and have a thorough understanding of research subject. Emphasis will also be on imparting them facilitation and risk assessment skills required for managing the survey.

Multi-disciplinary expert teams, with resource at the right level to ensure value for money: The organisation and implementation requires expertise in sampling, scripting, and strong operations, but also proven skills in co-ordination, rigorous analysis of quantitative data, high quality reporting skills, as well as relevant experience in the states. Given the scale of this project, there are certain stages that are resource and time intensive, and we know that it is important to maximise the skills of resources to ensure value for money, with senior oversight. We propose a very strong core team together based on their multi-disciplinary skills. In addition, all offices will be supported through layers of reporting by the respective functions- operations, research, and IT for monitoring completion of the survey and reviewing completes.

Fieldwork monitoring procedures

This section details PCC Team monitoring responsibilities **prior to and during the survey implementation** to guarantee timely delivery of the project, while maintaining high quality. There will be several standard monitoring actions undertaken by the PCC-Team prior to and throughout the fieldwork:

- Providing state offices with **guidelines on managing fieldwork** and checking that these guidelines are correctly implemented;
- A dedicated fieldwork manager will be appointed in each state and will be responsible for receiving and reviewing the **weekly resource planning** of its state.
- Project executives from the PCC Team will also review **daily progress and sample reports** (and outcomes) and share their observations with the state teams, following up where necessary.

Ministry of Housing and Urban Affairs

The quality control plan envisages quality check mechanisms at the at the data collection level as discussed below.

Table 2: Structure for Quality Checks in the Field

Level of staff	Functions in quality check
Field Investigators	Data Collection
Field Supervisors	100% scrutiny & accompaniments
Core and research support team	25% scrutiny, overall field monitoring and quality checks

1. Spot check and observation

In a spot check, the supervisor will attend an interview along with the investigator, to see if the investigator is comfortable with the flow of the questionnaire, is explaining the questions as they should be and is recording the responses correctly. The following forms a part of the spot checks and observation process to be adhered by the Supervisor:

- Observe some of the interviews, to ensure that the interviewers are conducting themselves well, asking the questions in the right manner, and interpreting the answers correctly
- Spot check some of the addresses selected for interviewing to be sure the interviewers interviewed the right household
- Review the questionnaire to be sure it is complete and is internally consistent
- Meet with each member of the team on a daily basis to discuss performance
- Help to solve any problems that interviewer might have with finding assigned households, understanding the concepts in the questionnaire or with difficult respondents.

2. Back checks

Field supervisors shall ensure that for all sampled areas wherein completion rate is found to be low or seems to be a problem, back checks shall be done by himself/supervisor of other team.

3. Inbuilt Quality Control

The manually filled in questionnaires have a risk of manual errors which would be eliminated completely at the software development process. The following checks would be inbuilt within the questionnaire design:

- Range Checks: To make sure that an entered number is within the right range. For example; a field indicating month cannot be more than 12.
- Consistency Checks: To make sure that the information entered is consistent and there are no errors. These checks are important for open ended questions.

जी. विजय कुमार/G. VIJAY KUMAR
अवर सचिव/Under Secretary
आवासन और शहरी कार्य मंत्रालय
Ministry of Housing and Urban Affairs

IPSOS RESEARCH PVT. LTD.
DELHI

- Validation Checks: To check that the data type entered is valid as per the design of the questionnaire. For example, age cannot be entered as an alphabetical value.
- Skip Checks: To make sure that the question is chosen logically correctly based on a previously answered question.

Ethical Considerations

Following three categories of ethical norms advocated by our consortium will be adhered to by all project staff:

Integrity

- The staff on payroll or contract always demonstrates honesty, integrity, and professionalism at all times.
- The team understands and appreciates that, while primary data represents attributes of real people, the actual person is not described in the reports.
- The staff is aware of applicable statutes, regulations, practices, and ethical standards governing data collection and reporting.
- The team reports information accurately and without bias.
- The team is accountable, and holds others accountable, for ethical use of data.

Data Quality

- The team promotes data quality by adhering to best practices and operating standards.
- The team provides all relevant data, definitions, and documentation to promote comprehensive understanding and accurate analysis when releasing information.

Security

- The team treats data systems as valuable organizational assets and hence data backup is a mandatory affair.
- The team safeguards sensitive data to guarantee privacy and confidentiality as our servers are accessible to limited staff only.

Within the ambit of the above ethical norms, the team for this assignment would ensure that no violations like collecting data not pertaining to this assignment, accessing areas within the institution premises for which approval has not been taken etc. are committed during the data procurement from various institutions.

The team would also ensure that any data which may have been classified as confidential is not disclosed intentionally or unintentionally. Any other issues that may emerge during the course of the assignment, will be informed to the client and as per the advice given, necessary safeguards would be undertaken by the consultants.

जि. विजय कुमार/G. VIJAY KUMAR
अवर सचिव/Under Secretary

Real time access to status of fieldwork/ online monitoring: Efficient and fast communication is a pre-requisite for any survey these days to identify problems early on and introduce mid-course corrections. Ipsos globally and in India is transitioning away from PAPI to use of CAPI which helps addresses some of the inherent challenges of PAPI survey in terms of quality and reporting. CAPI will allow the core team to get daily updates across all centres. A dedicated project management team will monitor completes and review trends in data to review that the interviews are being conducted as planned and the quality of interviews is good. CAPI allows us to capture GPS coordinates that is useful in tracking spread of locations for the interviews and ascertain that the sampling protocols are followed, facility to record part of interviews. and capture photograph with consent of respondents provide additional levels of quality checks.

The research team will assess the minimum quality check requirements that can be drawn from CAPI and implement for the survey. We will also schedule regular hub conference calls at key stages of the project can help disseminate essential information, and that hub managers and junior members of the core coordination team are in daily written/telephone contact with field managers.

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

Phase 4: Data collation, sign-off and finalisation [Week13 – Week 14]

Once we receive secondary data, validated secondary data and primary data we will collate these into a single format and share them back with the cities post detailed scrutiny and review with proper citation. It is possible that there could be some variation in the secondary data provided by cities vis-à-vis data validated for some of the indicators identified under Category C. For instance, data from City A may report 80% of the schools to have facilities for using digital content but physical validation exercise could report 70%. Such variations are possible even after due consideration of aspects such as sampling only from sub-set of schools reported to have such facilities, random selection of schools etc. We will be developing protocols for addressing such issues during the preparatory phase itself and will work closely with the State Nodal Officer who will also serve as the data ombudsman to help reconcile such deviations.

Overall, each city will have a window of two weeks to review the final data sets and indices and revise/modify and sign-off on their datasets. Post sign-off, we will finalise the datasets (considering receipt of new data from cities during the two-week review window) and develop final indices for report preparation and visualisation.

Data availability and quality assessment framework

Cities typically lack the ability and the institutional mechanisms to reliably collect data. Datasets which have internal decision-making linkages are usually better reported than datasets reported solely for compliance purposes. Hence, both criticality and reliability of datasets is not homogenous, but specific to each indicator, and possibly jurisdiction. In this context, we present a rubric to help assess quality and reliability of datasets below:

Table 3: Rubric for Data Quality Assessment

No.	Indicator	Notes
Data Quality and Reliability		Designed to provide an overview of the availability and quality of the dataset in discussion. Calculated as a combination of five sub parameters below
A	Availability	Measure of whether the dataset is available at all. A multiplicative factor (in case data on the indicator is not available, the data quality/availability is given a score of zero, without any further investigation into other sub areas)
B	Open access	Measure of the open availability of the dataset in question. Incorporates both user access (which user groups is the data made available to), nature of access (open access, or access upon request), and the format of availability (paper vs. machine readable formats)
C	Representativeness	In case the collected data is through a sample, this captures the representativeness of the same. A measure of robustness of the sampling and estimation methodology
D	Frequency	Measures the gap between the desired frequency of reporting for the dataset (based on global standards and best practices) with the available frequency. It is important to note that the frequency of datasets is a function of their mutability (e.g., topographic information can be decadal, but toilet usage behaviours warrant more frequent data)
E	Granularity	Measures disaggregation at two levels – by spatial characteristics and user characteristics
F	Reliability	Measure of mechanisms available to audit the data, and the results of such audits. A proxy to the level of confidence which users typically have for the dataset, third party validation etc.

Based on the insights from the data collection exercise pertaining to sectoral and city level data ecosystems, we will develop a data availability and quality assessment framework considering the above parameters.

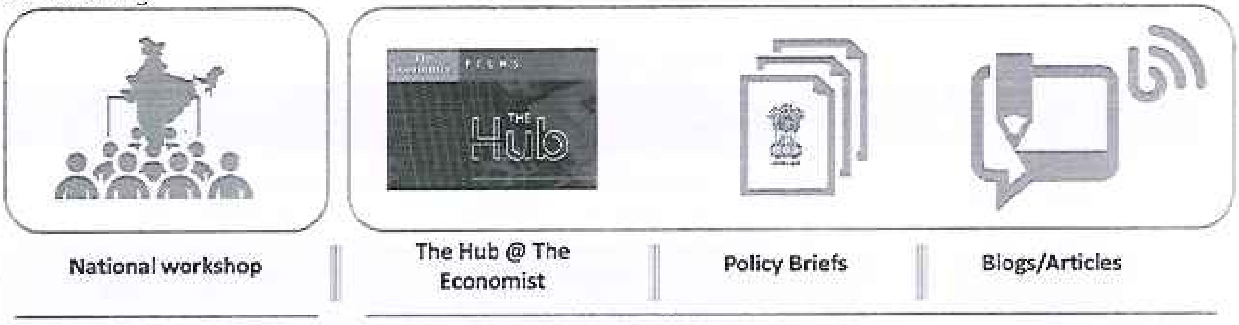
आवासन और शहरी कार्य मंत्रालय
Ministry of Housing and Urban Affairs
भारत सरकार/Govt. of India

IPSOS RESEARCH PVT. LTD.
DELHI

We propose a multi-pronged platform for dissemination of the assessment of the liveability status of the cities. Apart from a national level workshop proposed by the MoHUA to share the findings from the study and set the stage for a futuristic vision wherein the information generated as part of this country wide exercise could inform urban planning, we propose to disseminate the findings to a larger global audience by leveraging our outreach capacities. Overall our media and dissemination channels include the following:



The National workshop could be structured as a panel discussion comprising international and national experts from academia, industries, public authorities, media, civil societies to discuss and debate the concept and measurement of urban liveability and its role in urban and infrastructure planning. City level liveability assessment could be presented on the sidelines of the workshop while the focus would be to help understand how people (and special groups thereof such as women, transgenders, children, specially-abled, senior citizens etc.) assess quality of life, wellbeing and citizen aspirations, and translate and scale them to inform how cities and regional centres can be better designed and managed.

Specific focus could be on defining conditions under which scientific models can encapsulate adaptive and heterogeneous social responses in a meaningful way.

Agenda of National Workshop

- *To drive new knowledge development into the interaction of assets, people and networks across critical aspects of the infrastructure system.*
- *To invite activity and creativity in knowledge development on infrastructure and infrastructure planning and management in the future*

We propose to keep the dissemination as an ongoing activity through a series of engaging and interactive content assets designed for marketing and dissemination such as infographics, photo journals covering State/UT workshops, city reconnaissance missions and data visualisation tools under the Ministry's name both before and after the National workshop.

It is proposed that the liveability assessment results could be housed on 'The Hub' – a prestigious online knowledge dissemination platform of the Economist Group that has global outreach. Our team would design the hub and finalise the design in consultation with MoHUA. The Liveability Index Hub would

विजय कुमार / VIJAY KUMAR
अवर सचिव/Under Secretary
आवासन और शहरी कार्य मंत्रालय
Ministry of Housing and Urban Affairs
भारत सरकार/Govt. of India

host policy briefs, two interviews from senior officials/policy makers from the MoHUA, infographics and an interactive digital data map of India containing assessment results. Each of the 116 cities will contain the liveability index for that city, its ranking, as well as the rankings for the four underlying pillars of liveability for each city.

Quality Assurance

We provide high quality of services are committed to continuously improving what we do. Our integrated quality, compliance and information security management system, along with our quality assurance guidelines ensures all our projects are delivered to quality standards that we are committed to. Ipsos is ISO 20252 certified company for both research and field (Enclosed Certification) that requires that all processes are carried out in accordance with standards laid out in ISI 20252:2012. Athena and EIU serve reputed clients globally.

Our Quality Objectives

Our most important quality objectives are:

- To *provide assurance* to Ipsos's clients that we will deliver reliable and robust research findings by, among other measures, meeting the requirements of the international quality standard for market research, ISO 20252.
- To support the business in meeting its overall objectives, including client retention and new business development – by having effective policies, procedures and practices in place to ensure that we all work to the same quality standards.
- To minimise risk to the business by focussing on quality and continuous improvement.

We achieve these objectives by having in place a Quality Assurance System which is continually reviewed for effectiveness and improvement in a number of ways:

At every step of the project, we will ensure the compliance with the standard working procedures and quality assurance methods that have been designed for the success of the project. Online data input and collection platforms will be very powerful tools that will enable the PCC (Project Command Centre) Team to have tighter control over research process, accurate and up-to date information about state teams' performance and more efficient fieldwork monitoring and quality control. In addition to this, many standard procedures, such as training, supervision and back checking, will be put in place to ensure quality standards are adhered to (and exceeded where appropriate).

Throughout this proposal we discuss the measures we will take to ensure high quality deliverables which will meet the objectives of the study. They are summarised here in brief:

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

DELHI

- Carefully resourced and structured Coordination Team with the relevant skills and experience to design and deliver international studies of this nature including regional social research experts;
- Internal field teams that are part of Ipsos State offices who are familiar with the geography, local dialect, nuances, and experienced in working to expected quality standard.
- Cascading training approach starting with ToT for core team, Centralised State Coordinators training and state level face to face trainings for validation and primary survey
- Direct observation of interviewer training and the early stages of fieldwork in each zone;
- Using Ipsos Dimensions/ Dooblo platform to closely monitor progress and quality indicators across all states allowing any issues to be identified early (daily updates from the field);
- Weekly conference calls with all local teams to discuss the current situation and with MoUHA to assess actual progress and make key decisions for the next steps;
- A detailed risk register updated on a weekly basis;
- At least 15% of back-checks in states;
- A dedicated Quality Director assigned to the project team.

Our approach to minimising problems

As outlined above, we are keen to properly set up this study to minimise problems and risks during execution. In addition, effective project management using an experienced PCC Team with the correct balance of technical expertise and project management expertise means that problems are avoided through clear instruction, regular and open communication, and careful monitoring and review during the project set-up and throughout project implementation. However, we know that even with the best teams in place the complexities of large-scale projects mean that problems do arise, and sometimes quick and effective intervention is needed. We are determined to be proactive and set up the process in a way it will enable us to detect any problem in an early phase and solve it before it escalates.

As a consortium responsible for implementing the project, we regard risk management as a key part of project management. We will put in place **a risk management process** because we know from experience that management of a survey such as this involves dealing with many logistical challenges, complexities and risks.

जी. विजय कुमार/G. VIJAY KUMAR
अवर सचिव/Under Secretary
आवासन और शहरी कार्य मंत्रालय
Ministry of Housing and Urban Affairs
भारत सरकार

We are keen to discuss with you all potential risks in the inception meeting and to register all issues we might experience during the process. This will be a 'live' document, reviewed weekly throughout the project both internally and with you. As Project Co-ordinators, Ankit and Tripti, will retain overall responsibility for risk management, will work with the Technical Team and functional to find solutions if any aspect of the project is deemed at risk.

We would provide a full assessment of what we believe to be the most important risks to the successful completion of the project. This would constitute a starting point for further discussion with MoHUA. Below we have provided an initial assessment of what we believe to be the most important risks to the successful completion of the project.

Key risks and mitigation plan

Risk description	Probability	Impact	Mitigation Plan
Delays in finalizing the schedule for state workshops	Low	High	An intense preparatory phase has been outlined wherein co-ordination with the state mission directorates is expected to begin within the first week of the inception kick-off meeting at MoHUA. A detailed workshop schedule will be developed within the first week of project commencement and a discussion will be initiated early on to fix the dates and finalize and publish the workshop calendar.
Inconsistency in the way data is interpreted and entered by cities	High	High	There is a possibility that the city representatives might interpret the data entry requirement in a manner inconsistent with the required protocol. In addition, to an intensive training session, where cities will be apprised of the data requirements, data sources and entry protocols, the regional and state co-ordinators will be responsible for both auditing the way in which the presented data is being sourced and troubleshooting if there are discrepancies
Delays in data entry by the city	Medium	High	Given the very short timelines of the exercise, any delays in data entry by the city can have serious cascading effects on the overall timelines of the programme. In addition to close follow up that the consulting team will undertake with every city, we hope to co-ordinate closely with the state nodal officer (appointed in every state) to ensure that cities comply with the stated timelines
Challenges in reconciling physical audit data with secondary data	High	High	There is a possibility of discrepancy between the audited data outcomes and the self-reported data. To seamlessly resolve and respond to such instances, we hope to jointly set up a process in place in consultation with MoHUA representatives and the state missions right at the outset and inform cities of the same during the training workshop
Challenge securing	Medium	High	Ipsos' has local teams who has experience of working in the project cities so they are familiar with the process for

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

IPSOS RESEARCH PVT. LTD.
DELHI

Risk description	Probability	Impact	Mitigation Plan
permissions for research			seeking consent for interviewing. As per our experience of seeking permission for interviews in different officials , a formal letter from client side will be issued to the local office. A senior team member will visit the offices with the letter for prior consent. assuring confidentiality and seek their inputs on timings, accessibility to respondents.
Poor administration of questionnaire by the data collection team	Medium	High	Qualified and experienced field investigators will be recruited. The training programme (face to face) will be intensive and focus on all aspects of the study, sensitisation for self on issues of gender, being aware of implicit biases, and tips on being aware and to counter this bias during data collection. Levels of monitoring in form of accompaniment by supervisors will also facilitate identifying interviewers demonstrating any bias and take corrective measures.
Fieldwork delays- Citizen Surveys and Physical Validation	Medium	Low	At the planning stage, Ipsos local team will review the list of selected clusters for the survey and their geographical spread. Number of teams will be recruited based on the geographical spread of sample locations. The field movement plan will be developed to ensure that a team covers contiguous clusters minimizing travel. The plan will also include off days and travel days with buffer days that allows timely completion.
Challenges in physical validation and primary data collection	Low	High	Quality Assurance plan developed at the onset of fieldwork preparation will detail out the measures and process at each stage of planning and fieldwork to ensure quality. Beginning with training, field plan, and field monitoring detailed parameters of quality and process to monitor the same will be detailed. Each team working will be accompanied by a supervisor and will be monitored daily. Additional layers of

S. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

Risk description	Probability	Impact	Mitigation Plan
			monitoring in form of state coordinators will be deployed who will manage all the cities of a particular state. More over the state coordinators will be in continuous coordination with zonal coordinators. Formats for monitoring will be developed that will focus on reviewing the interviews and interviewers' performance. Regular debriefs and feedback sessions will be led by field coordinator and state coordinators during fieldwork
Inconsistency in data collected	Medium	High	Field investigators when administering paper survey are prone to making mistakes in following the flow and may not check responses that seem inconsistent. To counter this, we propose using CAPI for administration. The scripting process will take care of the logic and consistency check and improve the quality of interviews.
Refusal of respondents to take part / high non-response rate	Low	High	All interviewers will be fully briefed on how to deal with refusal. They will be trained to reassure the respondent that the research is independent, that all information provided is confidential, and to emphasize the survey's short length and the importance of the topics it covers. Interviewer training will stress the importance of confidentiality, safety and ethical aspects of the survey. Reasons for refusal will be recorded so any potential issues can be identified early and resolved.
Issues related to data quality and storage	Low	High	The Ipsos Team adheres to the highest possible standards for market research set by European Society for Opinion and Market Research (ESOMAR) and has been awarded numerous certifications for quality in market research, ensuring data security, confidentiality, and participant safety. Ipsos data storage is audited annually as part of our ISO 27001 and 20252 accreditations.
Issues related to IT security	Low	Medium	We are proud of the reliability and security of the Ipsos data storage systems, at the forefront of best practice in information security. Ipsos has a comprehensive backup

			system to ensure that we can retrieve data files from that day or, if necessary, even months beforehand. This system consists of incremental, daily, weekly, and monthly full system backups. All emails, files, and internet content are swept regularly for viruses, and our servers have protection software.

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

B. Work Plan

Our approach to this assignment seeks to fully leverage the first 5 weeks of the project as a phase of intensive preparation where all the key templates, tools and formats for secondary and primary data collection will be developed and submitted for inputs and approval to MoHUA. This will allow us time to deliberate on the data collection instruments as well as the interface design and ensure that we pilot test the prototypes to ensure that the entire data entry process is hassle free for the city. Efforts will also be made to mine and integrate the secondary data sets collected through different programmes (Smart City Mission, AMRUT, HRIDAY etc.) and already available with the ministry to create 'pre-filled' instruments (with the source indicated) that may be validated by the cities.

Developing the indicators (defining specific data points to be collected) and ensuring that there are bespoke data collection protocols and sources will be lead by the team by drawing on international benchmarks and national standards.

This phase will also see us commence engagements with state mission directorates to ensure that the scheduling of workshops is in line with the stated timelines. A draft structure for every workshop, with the list of participants required/desired, will be circulated within a week of the inception kick off with MoHUA to give the state mission directorates enough time to plan and mobilize resources. The training material with supporting reading material will be circulated at least 1 week before the training commences to provide participants with enough preparation time. State level discussions will also serve as a channel to do a first level reconnaissance on data availability and map the current sources and the need for proxies. Draft frameworks for documenting the workshop proceedings and the city level assessment reports will also be developed during this phase, along with an internal training workshop for the core staff.

Another unique value proposition that this team brings to the table is an effective global and national media and dissemination strategy and real-time tracking system to closely monitor the progress of the assignment. The blueprint for the media strategy and the tracking system will also be developed and submitted for inputs with the MoHUA in the preparatory phase.

Phase 1: Deliverables

This phase will culminate with the following deliverables at end of 5 weeks from project commencement:

1) Indicator development
2) Data collection instruments (primary and secondary)
3) Data entry portal (secondary)- Beta version
4) Blueprint for media strategy and project progress tracking
5) Workshop structure, content and participant list
6) Draft templates for workshop proceedings and city reports
7) Training of core staff (Key Consultants, Regional Co-ordinators and State Co-ordinators)
8) Framework for city GDP measurement

Phase 2, which is expected to last 3 weeks, will commence with the launch of the 'Liveability Tracker' and will see the roll out of the state workshops and city reconnaissance visit, led by a team of 20 trained

G. VIJAY KUMAR
Under Secretary

professionals. The training of the field staff (field supervisors and enumerators) will also be conducted during this phase. The key outcomes/deliverables envisaged under this phase include:

Phase 2: Deliverables

1. State workshop and city-reconnaissance reports
2. Finalization of data entry interface and collection protocols based on feedback from cities
3. Updation of the Liveability Tracker
4. Dissemination of the workshop interactions and outcomes through social media

Much of the actual data collection is expected to be undertaken in phase 3, which will be for a period of 4 weeks, and will be backed by a team of market research professionals and analysts who will perform real time QC checks on the quality of data that is generated and aggregated at the back-end. The core consulting staff alongside the network of state and regional coordinators will work closely with the cities and the field staff to trouble shoot on questions/clarifications through a network of help-desks and work towards encouraging cities to complete data collection over a period of 10 days. This phase will also see the commencement of the primary surveys and physical validation, which will be closely supervised with strong QC checks. Unique geo-spatial sampling methods will be deployed to ensure that we capture citizen feedback in the context of different geo-spatial incident conditions and 600 citizens (with 33% of the sample concentrated in slums) will be interviewed in every city. Open data that is spatial will also be leveraged to validate certain data sets in combination with physical audits of a random set of units. The key deliverables in this phase include:

Phase 3: Deliverables

1. Sampling plan for citizen surveys
2. Raw data sets

Each city will be given an opportunity to review the final data sets in detail and sign off on the same in phase 4. Reconciliation between self-reported and audited data if any will commence in this phase and the Index will be developed and the cities will be ranked based on the formula. The draft and final city assessment reports will also be prepared in this phase over an 8-week period and submitted for approval to MoHUA.

Phase 4: Deliverables

1. Ranking List
2. Draft and final city assessment reports
3. Updated online tracker/portal
4. Social media dissemination

Phase 5, which is likely to last 4 weeks, will involve creating a dedicated economist portal with the findings of the study to be disseminated to a global audience and will culminate with a national workshop where the experience and the findings of the exercise are shared with all the cities and other key stakeholders. Special focus on the use-case applications of this process and alignment with national and global programs and specific opportunities to strengthen data interoperability and quality will be discussed.

G. VIJAY KUMAR
Under Secretary
Ministry of Housing and Urban Affairs

Phase 5: Deliverables

1. Economist Hub Portal
2. National workshop
3. White paper on use-case applications, interoperability and levers

C. Organization and Staffing

We propose a four-tier project planning, governance and execution team for timely completion of the overall project and sub-tasks thereof. For continuous updation and monitoring of the overall project progress we propose to constitute a Project Steering Committee with representatives from the MoHUA, NIUA, World Bank, Full-time Core/Key Experts and Project Director to conceptualise, plan, guide and troubleshoot during the 20-week period. The Core/Key Experts, Project Director, National Project Coordinators, and Senior members from the Support/Analytical Team will constitute the Project Command Centre Team. We have structured the Project Command Centre (PCC) Team to ensure that the appropriate level of skills, experience and resource is available to carry out the tasks involved in a timely and cost-effective manner. The PCC will coordinate and manage all activities for the Assessment of Liveability Indices and provide a central point of contact for both MoHUA and the Technical Team, State Specific teams. The PCC will ensure compliance of with the working procedures and quality assurance measures that have been designed for the success of this project.

Two national level project coordinators along with five regional coordinators and 30 state/UT level coordinators will manage information exchange across the core team, field team and support/analytics team. A 15 to 18 member support team comprising senior economists, policy expert, statisticians, data scientists, visualisation experts, senior analysts, urban planner, IT expert and content editor will provide research, analytical and technical support to the core and field teams. Figure below presents our organisation and staff of key and non-key experts on this assignment. The Core Team, Project Director, Project Coordinators, and regional and functional teams illustrated in our team structure will be responsible for the overall design and delivery of the central tasks as well as monitoring quality on each. They are supported by an experienced senior director of the consortium

The core team will be supported by 5 regional coordinators all senior permanent staff of Ipsos who will coordinate all activities for the project for the states in their region. The Regional Coordinators will support the State Facilitators in scheduling and conduct of state level workshops, support facilitation of city level kick-off meetings, oversee the translation of the questionnaire and other materials into the relevant languages, provide feedback on the pilot and oversee all data collection activities. The Regional Coordinators will attend a project briefing in Phase 1 before delivering the training to their team members. They will contribute to the interim and technical reports and be responsible for reviewing and approving the datasets for the states and cities in their region. At the State level, the State Coordinators/Facilitators will be responsible and the POC for State Mission Director's office and allied departments. They will be supported by city specific teams for carrying out the tasks outlined such as scheduling and conduct of state level workshops (supported by Regional Coordinator) and PCC team, city reconnaissance studies, coordinating and facilitating submission of secondary data, training the city teams for primary validation, and HH surveys.

Annexure 7: Indicator Benchmarks ... 451
Annexure 8: Progress Reporting Template for MoHUA ... 463

A. Executive Summary

The Liveability Index is a flagship initiative embarked upon by the Ministry of Housing and Urban Affairs (MoHUA) to help cities systematically assess themselves against global and national benchmarks and encourage cities to shift towards an 'outcome-based' approach to urban planning and management.

The implementation of the assessment commenced formally on 19th January 2018 and is expected to be completed by 25th June 2018.

This report marks the first milestone in the implementation of the initiative and seeks to summarize the overall delivery approach, timelines, governance structure and the progress made so far.

A.1 Progress Achieved

Finalization of the detailed assessment questionnaire

The Methodology Guidelines prepared by MoHUA provides a detailed overview of the indicators to be covered including rationale, description, formula, unit, potential data sources, benchmark and the SDG references. The following key activities were undertaken to break down the indicators and ensure that all cities fill information on a standard set of data inputs, which are comparable:

- All 79 indicators listed were revisited and evaluated on the basis of the robustness of the formula proposed. Several modifications were proposed to the original calculation of indicators for various considerations such as theoretical robustness, efficiency of the metric to capture the objective of the indicator, availability and accessibility of data, etc. A complete list of all the changes made to the indicator list is provided in Annexure 1.

- Every indicator was broken down into granular questions which the cities can relate to and respond with ease. This list of questions was developed through extensive desk-research followed by two rounds of consultations with senior officials at the MoHUA. The 79 indicators have been broken down into 500 plus unique questions and all the questions have been classified by 'data owners' to ensure smooth coordination across multiple departments. The detailed questionnaire is provided in Annexure 2.

- A National Orientation Workshop was held on 13 February 2018 at *Vigyan Bhawan*, New Delhi to discuss the questionnaire and evaluate the availability of data and the ease of using the questionnaire through an audience response system. The workshop had participation from 55 cities from 27 States/ UTs. The questionnaire was refined based on the feedback provided in the National Orientation Workshop and through a final round of expert review. The proceeding of the National Orientation Workshop is attached in Annexure 3.

- As part of the assessment, cities are required to provide supporting documents against the data provided for all the 79 indicators. Additionally, a set of 8 indicators will undergo physical audits in each of 116 cities. There are about 5 indicators where data is less likely to be present across cities and the consortium will support the cities in collecting the corresponding data sets. A more detailed description of the data sets to be collected through secondary and primary channels is provided in Chapter 3.

Development of data collection and monitoring tools

To enable the cities to effectively collate and submit the data online, a data entry portal is developed. Unique username and login has been provided to all 121 Urban Local Bodies[1] (ULBs). The data entry portal is designed to be user-friendly, with options to fill data both online and offline (through spreadsheets). A more detailed description of the data entry portal is provided in Section 3.2.

In addition to the data entry portal, a progress monitoring dashboard has also been developed where the overall timelines and the data collection progress is captured real time. The project monitoring dashboard has a public interface which is open to all and provides an overview of the workshop schedules, workshop presentations, participants list and state workshop reports. (Refer Chapter 7 for more details).

Training and deployment of the State and City Coordinators

A total of 3 regional coordinators, 3 Senior Consultants, 24 state coordinators and 99 city coordinators[2] have been trained and deployed in the respective states/ cities. An intensive 3-day training workshop was held for the State Coordinators and Regional Coordinators from 26-28 February 2018 in Chennai to familiarise the coordinators on the overall liveability assessment, indicators, potential data sources, data audit protocols, structure and schedule of state orientation workshops and overall roles and responsibilities. The workshop was structured to be interactive and a combination of game-based and participatory learning techniques were applied.

The detailed training structure along with the Training the Trainer's Workshop proceeding is provided in Annexure 4. The roles and responsibilities of the regional, state and city coordinators and the overall protocols for co-ordination and project governance is described in greater detail in Chapter 7. Also, the list of state and city coordinators is attached in Annexure 4.

---

[1] In NCT Delhi, four municipal corporation are covered and each ULB is provided with a unique login ID and password. Data from all the four ULBs will be collated subsequently for the Liveability Assessment of NCT Delhi as a whole.

[2] Select state coordinators are also performing the responsibilities of a city coordinators in the following instances: 1) Manage the coordination of those cities where the state coordinators are physically present and 2) States where only one city is under assessment, no city coordinators are appointed. They will be managed completely by State Coordinators

Commencement of State Orientation Workshops

30 Orientation workshops are expected to be undertaken to cover all states and union territories. The workshops commenced on March 9, 2018 with the Chhattisgarh State workshop and the detailed schedule for the same is provided in Chapter 5 This section also outlines the workshop structure/agenda along with the expected participant list.

The workshop is expected to have 5 key sessions covering a range of topics such as 'why is this assessment relevant to cities' to providing cities with very specific information on the liveability assessment framework, key timelines and protocols for data collection.

Commencement of City Reconnaissance Missions (CRMs)

The state coordinators and city coordinators initiated their activities from 2nd March 2018 (post their ToT workshop) starting with the workshop schedule and invitation. While the terms of reference had suggested CRMs to be a one-time activity, the consortium believes that cities may require continuous handholding support during the overall data submission period given the nature of the assignment. Hence, city coordinators are deployed in the cities for a duration of one month (12th March until 16th April) as part of the city reconnaissance strategy to support the cities with data collation and submission.

Creation of data collection protocols for primary data collection

The National Orientation Workshop brought forward the issue of poor data availability and reporting for some of the indicators; hence many cities may not have secondary data. A list of five indicators were identified in the discussion and is listed below:

Sl. No.	Indicator	Indicator Category
1	Indicator 4.3: Average response time in case of health emergencies	**Supporting**
2	Indicator 11.3: Mode share of public transport	**Core**
3	Indicator 12.3: Quality of water supplied	**Core**
4	Indicator 15.4: Level of noise pollution	**Core**
5	Indicator 15.5: Quality of water in public surface water bodies	**Core**

Data for these select five indicators will be collected through rapid assessments to help cities create a baseline that will serve as reference points for improvements in the future liveability assessment rounds. Detailed notes on the data collection protocol for each of these 5 indicators is provided in Section 3.3

Formulation of secondary and physical audit protocols

Secondary audit protocols

It is expected that cities provide supporting documents in lieu of every data submitted by them for an objective and fair assessment. As part of the data submission process, cities will be required to submit a dossier of all supporting documents referenced to each question/indicator for verification. Wherever data is available in soft copy, the same will be collected through a secure email to ensure data confidentiality. State and city coordinators will check the dossier submitted by the cities and flag missing or unacceptable documents. To familiarise cities with the nature of supporting documents to be submitted, a checklist of standard documents will be provided to them for reference purposes. A detailed description of the secondary and primary audit protocols is outlined in Section 3.4.

Physical audit protocols

For eight indicators, the data validation process will involve verification through field visits (referred to as ‘physical audits’ henceforth). Detailed approach note for each of the eight indicators is prepared that will assist in reconciliation of data reported by cities. Physical audits will involve selection of random samples from the list of data points submitted by cities for physical inspection.

Creation of draft research instruments for citizen surveys

While the overall assessment of liveability standards of cities is based on secondary data submitted by cities, a citizen perception survey is planned for each of the 116 cities to gather citizen perspective of their cities on a host of thematic areas such as availability of citizen services, access to amenities etc. Close to 600 citizen surveys will be carried out in each city. A detailed questionnaire and analysis framework has been developed to evaluate the perception of cities and the same is described in greater detail in Chapter 4. Inputs from the Citizen Perception Survey is envisioned to be reference points for cities to identify areas for improvement highlighted by citizens. The findings from the citizen survey will not feed into the computation of liveability indices of the cities.

Creation of a draft media plan/strategy

To enable effective participation from all the cities a draft media strategy combining multiple channels that can be driven by Ministry and State officials has been prepared and described in Section 6.2

A. 2 Report Structure

The report is structured as follows:

- Chapter 1: Context

The introduction of the report sets the context for the liveability assessment and presents the meaning of liveability and value of the ranking exercise.

- Chapter 2: Delivery Approach

This chapter describes the overall approach of the study and presents an overview of the key activities involved across the five phases

- Chapter 3: Indicator Development and Data Collection

This chapter outlines the process of aggregating city government data across 79 indicators and the data validation protocols

- Chapter 4: Citizen Perception Survey

This chapter presents the approach for conducting "Citizen Pulse" which aims to provide insights on citizens' level of satisfaction or dissatisfaction with city services as well as their priorities for improvement

- Chapter 5: Engaging with the State and City Government

This chapter outlines the engagement practices- City Reconnaissance and State Orientation Workshop employed by the consortium to continuously interact with the state/city officials during the data collection phase

- Chapter 6: Analysis & Dissemination

This chapter presents the ranking and index methodology for the liveability assessment and outlines the dissemination strategy

- Chapter 7: Quality Control and Project Management Structure

This chapter lays down the overall management framework including governance structure and project reporting

Chapter 1: Context

Urban expansion in India is anticipated at a pace unlike anything the country or the world has seen before, with much of the population likely to be concentrated in cities with a population of a 1 million plus. This trend brings with it several opportunities and challenges and clearly a trend of intensified competition among cities to attract talent and resources, with 'liveability' occupying centre stage in much of the new discourse.

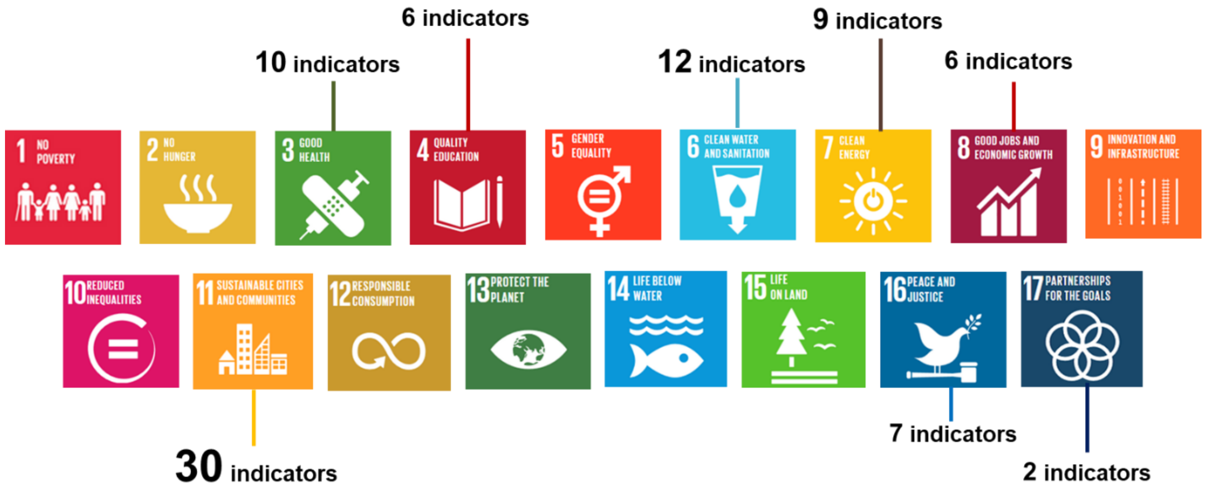
'Liveability' as a term is often difficult to define. For some, it is fundamentally tied to physical amenities such as water supply, solid waste management, parks and green space etc.; for others it relates to cultural offerings, career opportunities, economic dynamism, or some degree of reasonable safety within which to raise a family. However, liveability as a concept is a common feature in several countries and is an opportunity to systematically quantify the challenges that may be presented to an individual's lifestyle. It offers itself as an instrument for policy reform, resource mobilisation, investment prioritisation and management of services.

The Ministry of Housing and Urban Affairs (MoHUA) has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly survey and compilation of datasets across the various indicators, analysis of such datasets, development of indices and ranking of cities. The implementation of this framework will help cities to understand their baseline and pursue tangible outcomes over time.

MOHUA has developed a set of liveability criteria in cities which was launched in June 2017. The objective of developing these standards is to generate a liveability index and rate cities against these standards to facilitate a competitive environment and encourage systematic improvement in the quality of life of citizens.

All these standards are also strongly linked to Sustainable Development Goals (SDGs). An illustration of some of the key SDG indicators that the Liveability Indicators feeds into in provided below in Exhibit 1.

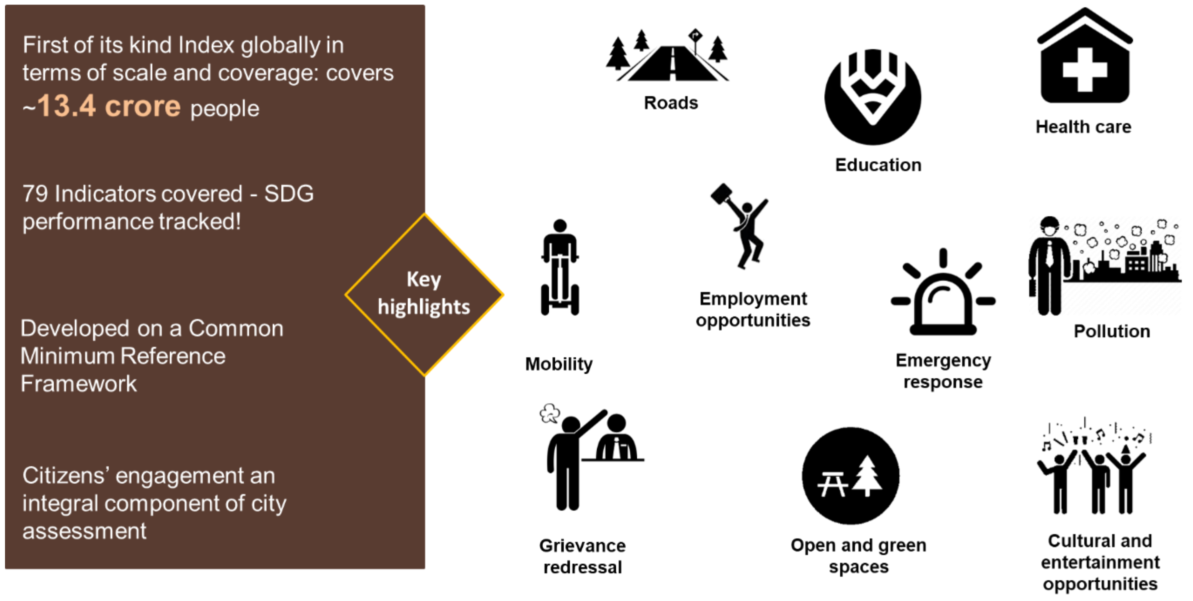
Exhibit 1: Sustainable Development Goals and Liveability Assessment



6 indicators
10 indicators
12 indicators
9 indicators
6 indicators
1 NO POVERTY
2 NO HUNGER
3 GOOD HEALTH
4 QUALITY EDUCATION
5 GENDER EQUALITY
6 CLEAN WATER AND SANITATION
7 CLEAN ENERGY
8 GOOD JOBS AND ECONOMIC GROWTH
9 INNOVATION AND INFRASTRUCTURE
10 REDUCED INEQUALITIES
11 SUSTAINABLE CITIES AND COMMUNITIES
12 RESPONSIBLE CONSUMPTION
13 PROTECT THE PLANET
14 LIFE BELOW WATER
15 LIFE ON LAND
16 PEACE AND JUSTICE
17 PARTNERSHIPS FOR THE GOALS
7 indicators
30 indicators
2 indicators

These indicators have been adapted from various national/international indicator sets and service level benchmarks and finalised after extensive consultations with State/City Governments and citizens through MyGov portal and peer review by sector experts. There are 79 indicators that have been organized in 15 distinct categories covering aspects such as Governance, Health and Education, Safety, Identity and Culture, Economy, Pollution, Mixed Land Use and Compactness, Open Spaces, Urban Mobility and various Core Urban Services, and contribute to the four essential pillars of comprehensive development namely: institutional, social, economic and physical.

Exhibit 2: Framework for Liveability Index



First of its kind Index globally in terms of scale and coverage: covers ~**13.4 crore** people

79 Indicators covered - SDG performance tracked!

Developed on a Common Minimum Reference Framework

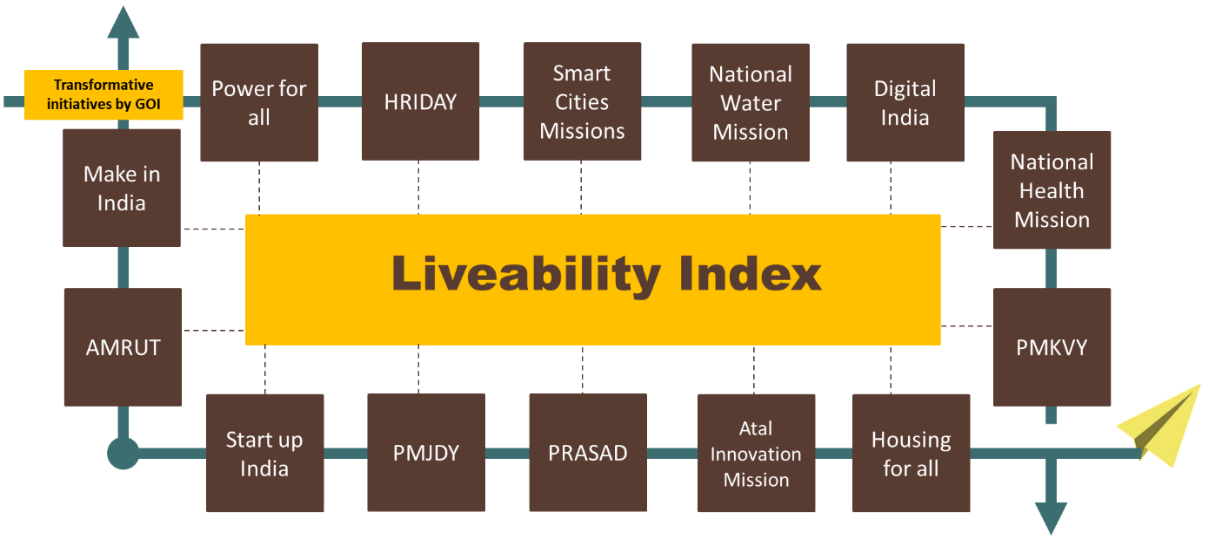
Citizens' engagement an integral component of city assessment

Key highlights

Roads
Education
Health care
Mobility
Employment opportunities
Emergency response
Pollution
Grievance redressal
Open and green spaces
Cultural and entertainment opportunities

The index serves as an opportunity to further provide momentum to an 'outcome-based' planning and management approach and monitor the performance of various central, state and city government driven programmes and schemes as illustrated in Exhibit 3 below

Exhibit 3: Convergence of Liveability Assessment with Central Government Initiatives



Transformative initiatives by GOI
Power for all

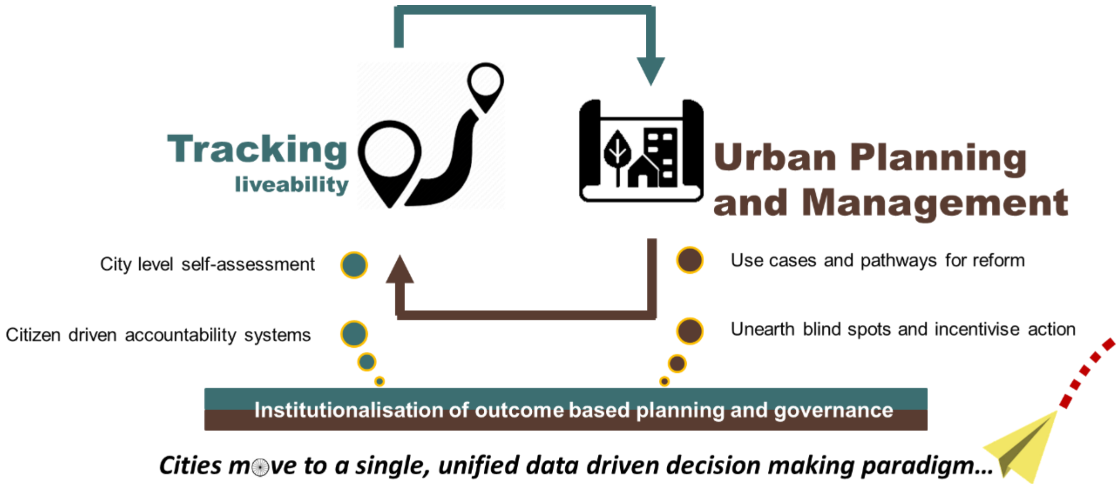
Smart Cities Missions
National Water Mission
Digital India
Make in India
National Health Mission
Liveability Index
AMRUT
PMKVY
Start up India
PMJDY
PRASAD
Atal Innovation Mission
Housing for all

It also provides an opportunity to empower cities to organize their investment and reform priorities based on the self-assessment and move towards an evidence-based system of planning and management.

Exhibit 4: Evidence Based Planning



Tracking
liveability
Urban Planning and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

Cities move to a single, unified data driven decision making paradigm…

Chapter 2: Delivery Approach

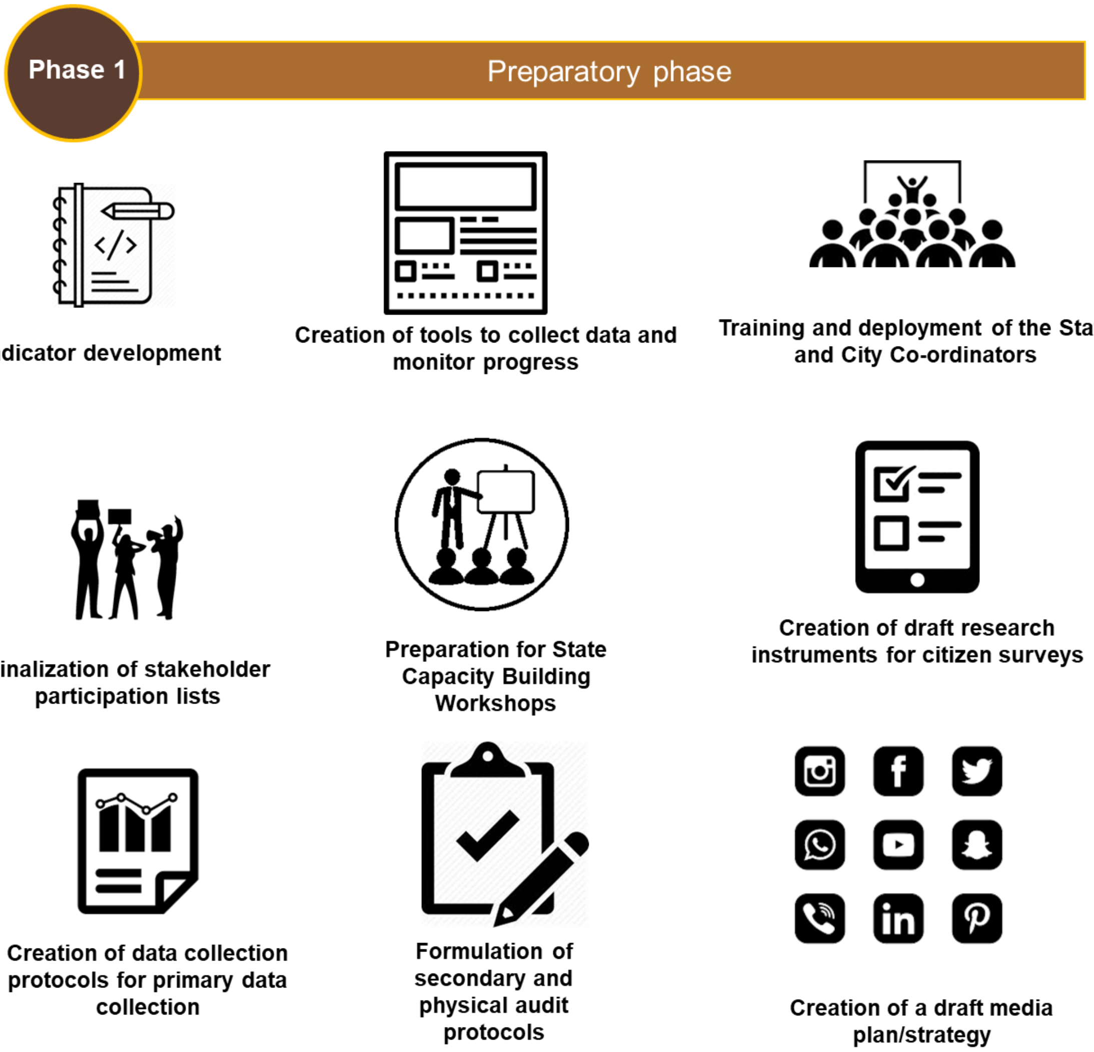
This section describes the approach deployed to roll out the liveability assessment programme in India. The tasks are described in a chronological order and is divided into five phases as illustrated below:

Phase 1: Preparatory	Phase 2: National/State/City level engagement	Phase 3: City Reconnaissance Mission data submission/collection	Phase 4: Data audit	Phase 5: Analysis, ranking and dissemination
19th March - 8th March	13th Feb – 21st March	2nd March – 16th April	1st April - 23rd April	1st May onwards

2.1 Phase 1: Preparatory Phase

The preparatory phase is an intensive one, entailing a series of parallel activities required to lay the ground to create an enabling ecosystem for cities to participate in the exercise. The following activities have been completed in phase 1:

- Indicator Development
- Creation of tools to collect data and monitor progress
- Training and deployment of the state and city coordinators
- Preparation for State Orientation Workshops
- Creation of draft research instruments for citizen surveys
- Creation of data collection protocols for primary data collection
- Formulation of secondary and physical audit protocols
- Creation of a draft media plan/strategy



Phase 1 Preparatory phase

Indicator development

Creation of tools to collect data and monitor progress

Training and deployment of the State and City Co-ordinators

Finalization of stakeholder participation lists

Preparation for State Capacity Building Workshops

Creation of draft research instruments for citizen surveys

Creation of data collection protocols for primary data collection

Formulation of secondary and physical audit protocols

Creation of a draft media plan/strategy

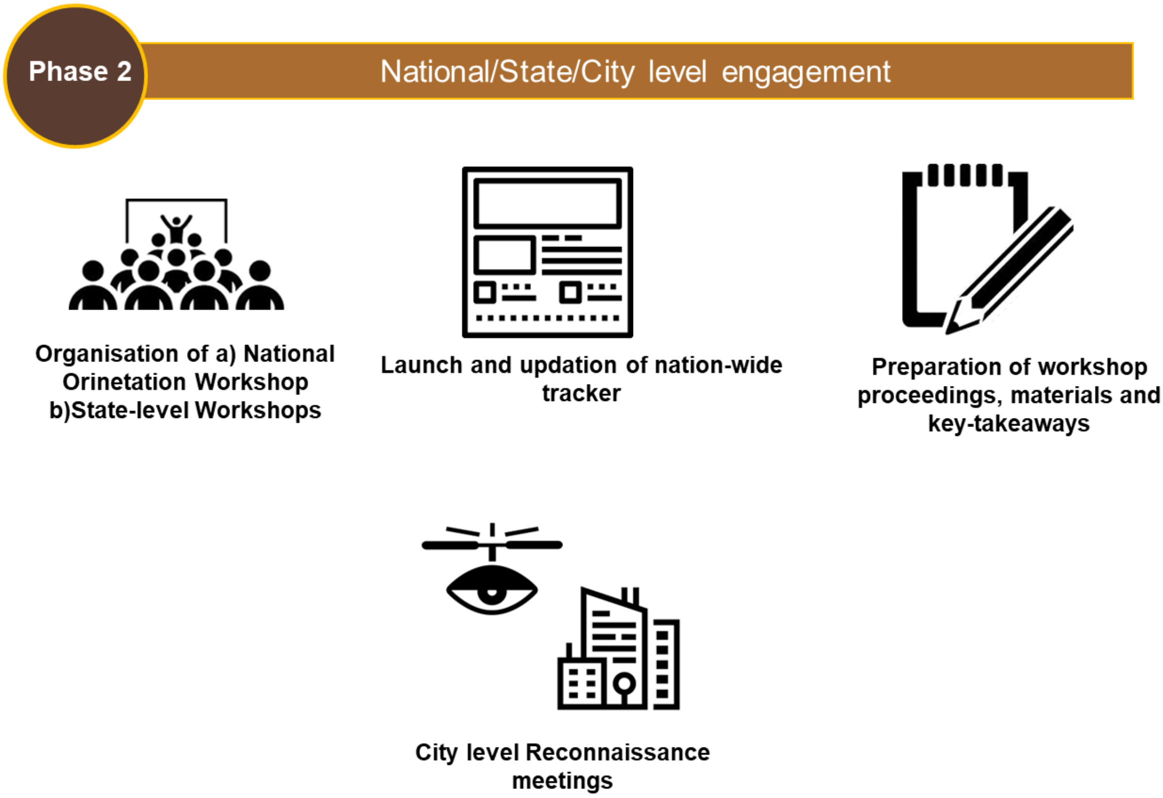
2.2 Phase 2: State and City Level Engagement

This phase signals commencement of engagement with the states and cities by the network of regional, state and city coordinators and begins with the delivery of the state orientation workshops.

The goal of this phase is to acquaint all the key relevant stakeholders within the state and the city on the expectations from the assessment and discuss in detail the assessment questionnaire and the data collation and submission protocols.

A dedicated city coordinator will be deployed in every city as part of the city reconnaissance mission (CRMs) to support cities to better acquaint themselves with the assessment questions and hand-hold them in collating the data and making the submission.

A detailed description of the roles of the city coordinators and the expected outcomes from the city reconnaissance missions is described in chapter 6.



Phase 2 National/State/City level engagement

Organisation of a) National Orinetation Workshop b)State-level Workshops

Launch and updation of nation-wide tracker

Preparation of workshop proceedings, materials and key-takeaways

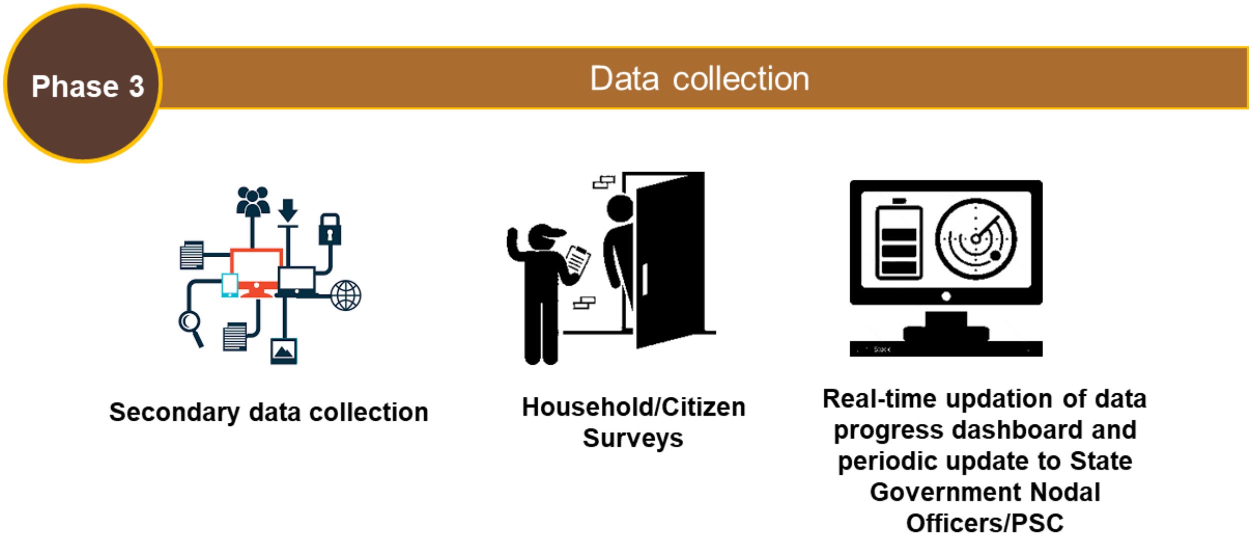
City level Reconnaissance meetings

2.3 Phase 3: Data Collection

Three parallel strands of data collection will be undertaken -

- The **first** entails facilitating collation of secondary data sets available with multiple departments and agencies within cities
- The **second** is a primary data collection exercise where data on 5 of the 79 metrics (where data may not be available with the cities) is collected though rapid assessments.
- The **third** strand includes citizen perception surveys, where feedback is collected from citizens directly on their perception about the 'liveability' of their cities. In the current assessment round, citizen perception is not expected to feedback into the 'index' but to act as a barometer for cities to assess and benchmark themselves.

All three strands of data collection are expected to complete by the 16th of April.



Phase 3 Data collection

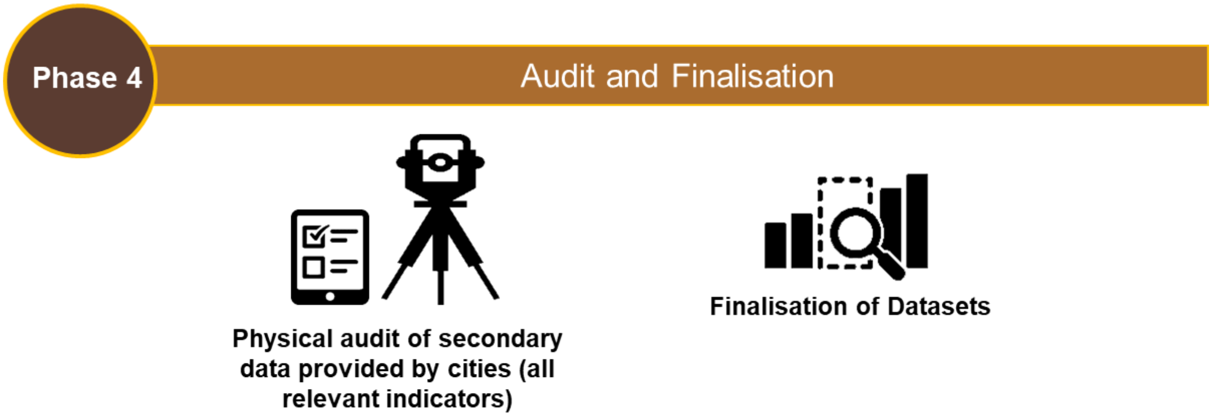
Secondary data collection

Household/Citizen Surveys

Real-time updation of data progress dashboard and periodic update to State Government Nodal Officers/PSC

2.4 Phase 4: Audit and Finalization

Given the short duration of the assignment, audit of secondary data submitted by the cities will be an ongoing exercise and will be completed by 23rd April 2018. A combination of secondary and physical audits will be performed, and the final datasets will be updated based on the audit results and this dataset will be considered for calculation of final indices.



Phase 4 Audit and Finalisation

Physical audit of secondary data provided by cities (all relevant indicators)

Finalisation of Datasets

2.5 Phase 5: Ranking and Dissemination

A detailed scoring rubric will be developed for every indicator and the ranks will be calculated.

A detailed assessment report articulating the results of the index for every city will be prepared and the same will be made available to each city for review and validation.

Additionally, a note presenting an approach to systematically map and calculate the city's GDP as well as a framework for key convergence and use-case applications between this liveability assessment and the key goals set out by the MoHUA will be developed. This will help the MoHUA refine the subsequent rounds.

The results will be published on the Smart Net Dashboard and will also be presented on the Economist Portal. A national workshop will be held to announce the results of the index assessment.

Phase 4 Ranking and Dissemination

Preparation of Draft data sets circulation with cities for validation

City level discussions for addressing queries and incorporating revisions, modifications etc.

Sign-off on final list of data points/ indicators

Indices development and visualisation

Preparation of draft assessment report

Preparation of final assessment report

Framework to estimate city GDP

Approach note for data interoperability

National-level Workshop

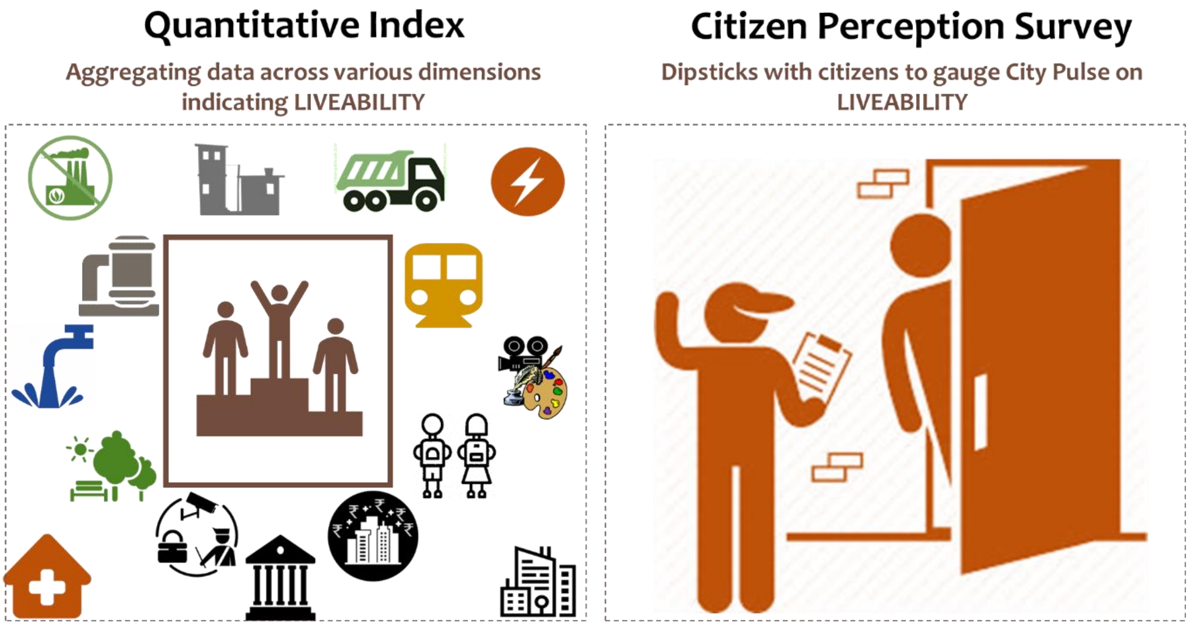
THE
Hub

Launch of ‘The Hub’ @ The Economist

Chapter 3: Indicator Development and Data Collection

The study involves aggregating data across 79 listed indicators for the quantitative liveability index; this includes government data collated from secondary sources or through rapid surveys. Additionally, to complement liveability assessment exercise, citizen perception survey will be conducted to capture "Citizen Pulse" on liveability, determine satisfaction with the local government and gather inputs to help cities determine priorities for improving the quality of governance and liveability.



Quantitative Index
Aggregating data across various dimensions indicating LIVEABILITY
Citizen Perception Survey
Dipsticks with citizens to gauge City Pulse on LIVEABILITY

Only the ***Quantitative Index*** *will be considered for computation of the Index*

This chapter outlines in detail the process for collecting city government data and Chapter 4 presents the approach for collecting citizen feedback

3.1 Indicator Development

All 79 indicators listed were revisited and evaluated on the basis of the robustness of the formula proposed. Several modifications were proposed to the original calculation of indicators for various considerations such as theoretical robustness, efficiency of the metric to capture the objective of the indicator, availability and accessibility of data, etc. The following examples will illustrate the rationale for suggesting modification for some of the indicators

- For Indicator 1.7 which measures capital spending as percentage of total expenditure, it was proposed that the metric will be modified to focus on capital expenditure made from ULB's own income. This metric is a better representation to assess the fiscal health of the city better.

- Indicator number 10.3 and 10.4 which measures average number and length of electrical interruptions per customer per year, respectively were re-defined to include only the absolute number/length of electrical interruptions to eliminate the base effect (which in this case is the number of customers).

- Due to non-availability of data on pass rates and new students joining a particular school, the indicator capturing 'survival rate' (Indicator 3.5 and Indicator 3.6) was modified to capture the estimated survival rate using the 'Apparent Cohort Method' instead of the actual survival rate. This methodology has also been suggested by the Sarve Shiksha Abhiyan manual.

- Several modifications in indicators were also incorporated based on the suggestions and feedbacks received from the National and the State Orientation Workshops. For instance, the indicator on the number of cultural/ sports events hosted by the city was broadened to include privately hosted non-restrictive events as well as city authorities need to facilitate them, and they add to a city's liveability. A complete list of the changes made to the indicator list attached in Annexure 1
- Every indicator was broken down into simple granular questions through extensive desk-research followed by two rounds of consultations with senior officials at the Ministry of Urban Development. The 79 indicators were broken down into ~540 unique questions and all the questions were classified by 'data owners' to ensure smooth coordination across multiple departments. (Refer Annexure 2 for the full final assessment questionnaire)

- A national orientation workshop was held to discuss the questionnaire and evaluate the availability of data and the ease of using the questionnaire through an audience response system. The outcome of the National Orientation workshop is attached in Annexure 3.

- The questionnaire was refined based on the feedback provided in the National Orientation workshop and through a final round of expert review.

The indicators were further classified into 'Secondary' and 'Primary' based on the data collection methods with the consortium extending support on conducting sample-based studies and data collection in the latter.

- **Secondary Data**: Secondary data collated by the city governments from various sources including reports, surveys and government statistical reports and inputted in the online data portal or spreadsheet.

- **Primary Data**: Primary data collection protocols have been developed for those indicators where computation based on secondary data is not possible.

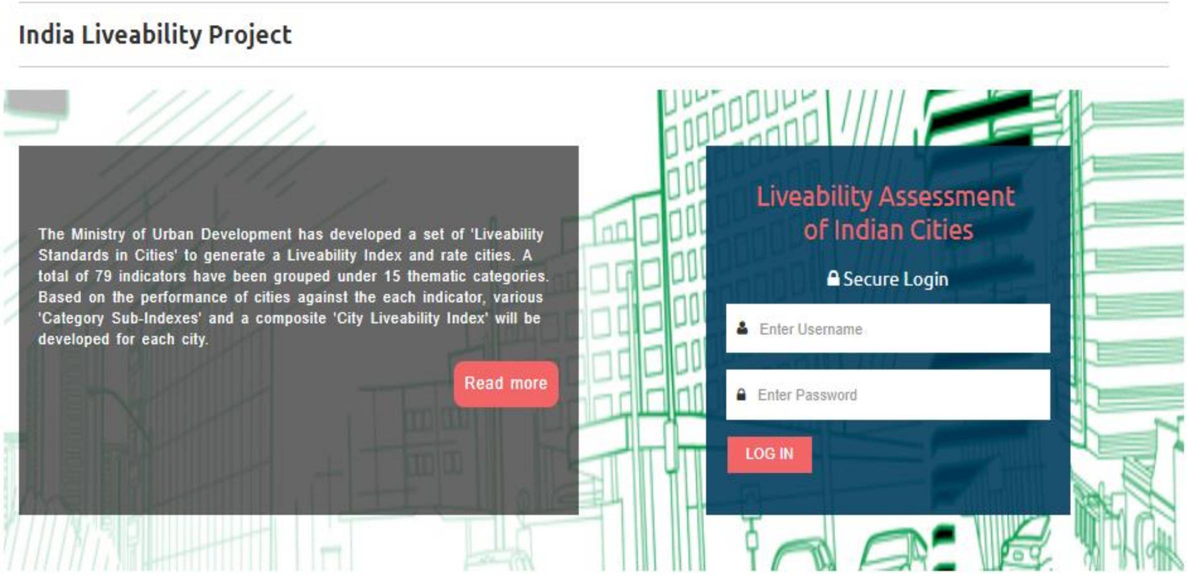
The survey instruments for secondary data collection, primary data collection has been designed by the consortium in line with the 'Methodology for Collection and Computation of Liveability Standards in Cities' document developed by the MoHUA. Inputs from the Ministry, Sector Expert and the National and State Orientation Workshops helped to refine and finalise the questionnaire.

Additionally, the indicators have also been classified based on the validation technique that will be adopted to verify the accuracy of the reported data. For eight out of the 79 indicators, the validation will be through physical audits where a random sample will be selected and observed. For the remaining data points, a detailed audit strategy explaining the potential sources of data which will be accepted as evidence/data source, has been listed.

Category A	Category B	Category C
Secondary data collection	Secondary data collection + Physical validation	Primary Data Collection
79 indicators	8 indicators	5 indicators

3.2 Secondary data collection

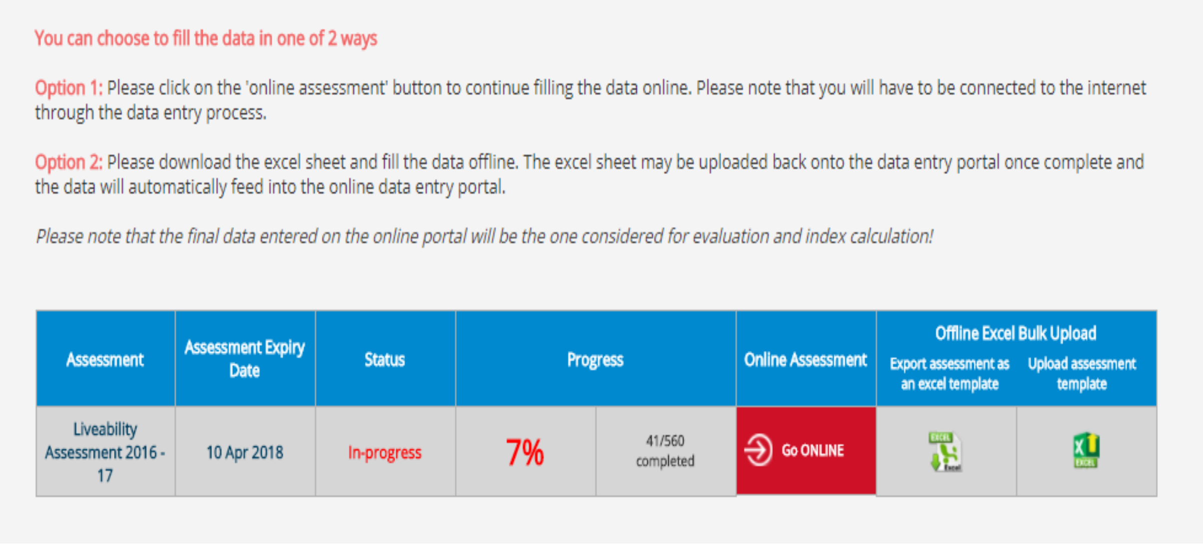
To enable the cities to effectively collate and submit the data online, the consortium has developed a web- based application which is hosted by the MoHUA's portal (https://smartnet.niua.org/). The secondary data collection commenced on March 1, 2018 with the online portal going live online. Secured access and login credentials has been shared with the city governments to allow the officials to familiarise themselves with the portal, data requirement, data sources and the validation process. Any queries and clarification will be addressed through the state orientation workshops.



India Liveability Project

The Ministry of Urban Development has developed a set of 'Liveability Standards in Cities' to generate a Liveability Index and rate cities. A total of 79 indicators have been grouped under 15 thematic categories. Based on the performance of cities against the each indicator, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

Data can be entered either by completing the online data entry form or offline, by filling in a detailed spreadsheet which can be uploaded on the web portal. The data in the spreadsheet will automatically feed into the online data entry portal. The online platform also allows to monitor the progress made by the cities on the secondary data submission.



You can choose to fill the data in one of 2 ways

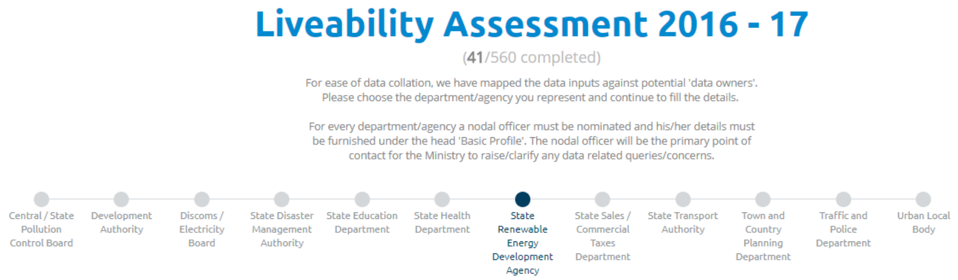
Option 1: Please click on the 'online assessment' button to continue filling the data online. Please note that you will have to be connected to the internet through the data entry process.

Option 2: Please download the excel sheet and fill the data offline. The excel sheet may be uploaded back onto the data entry portal once complete and the data will automatically feed into the online data entry portal.

Please note that the final data entered on the online portal will be the one considered for evaluation and index calculation!

Assessment	Assessment Expiry Date	Status	Progress		Online Assessment	Offline Excel Bulk Upload	
						Export assessment as an excel template	Upload assessment template
Liveability Assessment 2016 - 17	10 Apr 2018	In-progress	7%	41/560 completed	Go ONLINE		

For ease of administration and coordination, the questionnaire is grouped by the originator or owner of the data source. A set of 'potential data owners' have been identified across state departments, parastatal agencies and Urban Local Bodies (ULBs).



Liveability Assessment 2016 - 17

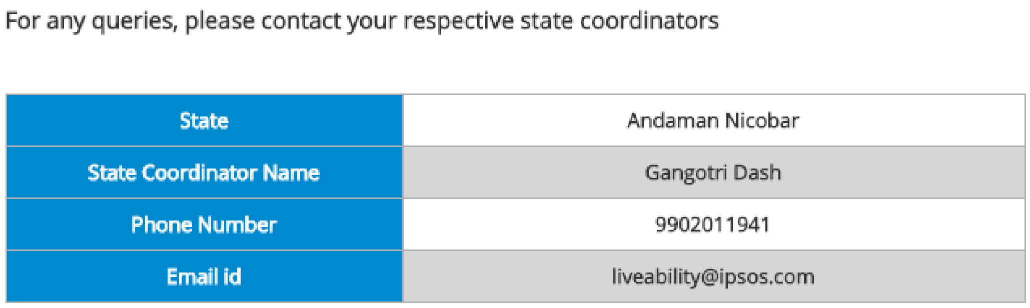
(41/560 completed)

For ease of data collation, we have mapped the data inputs against potential 'data owners'. Please choose the department/agency you represent and continue to fill the details.

For every department/agency a nodal officer must be nominated and his/her details must be furnished under the head 'Basic Profile'. The nodal officer will be the primary point of contact for the Ministry to raise/clarify any data related queries/concerns.

Central / State Pollution Control Board
Development Authority
Discoms / Electricity Board
State Disaster Management Authority
State Education Department
State Health Department
State Renewable Energy Development Agency
State Sales / Commercial Taxes Department
State Transport Authority
Town and Country Planning Department
Traffic and Police Department
Urban Local Body

State and city coordinators are the fulcrum of the response protocol initiated by the consortium. As part of the data entry portal, information of the state coordinators (their mobile number and email-id) has been furnished. City officials are encouraged to actively seek help from the state coordinators. The state coordinators have undergone an intensive training programme (for 3 days) and are equipped to trouble shoot on a wide range of aspects such as definition of the metric, data collection protocol, potential data sources, audit method and protocol. The state coordinators also have direct lines of communication with the central technical team – allowing for quick escalation and resolution of queries, if required.



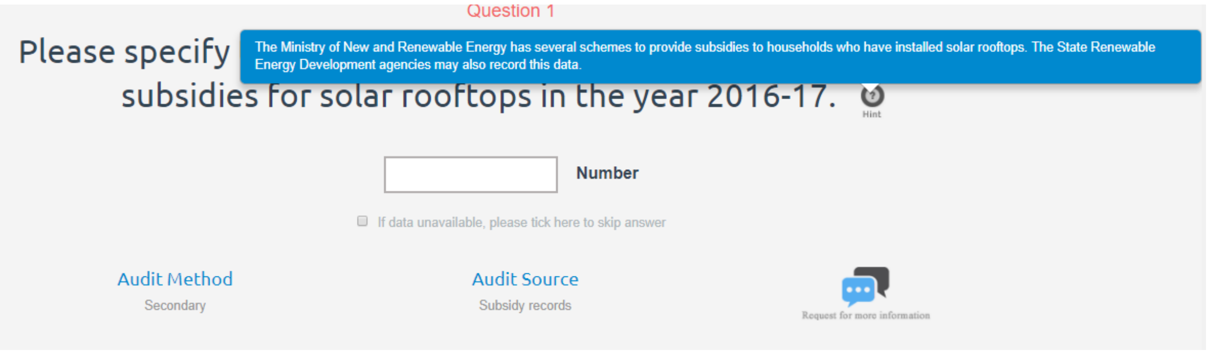
For any queries, please contact your respective state coordinators

State	Andaman Nicobar
State Coordinator Name	Gangotri Dash
Phone Number	9902011941
Email id	liveability@ipsos.com

Every query raised by the city and the responses provided by state coordinators/ Central Team will be recorded (daily) in a pre-determined format illustrated below.

Sl.no	Date of Query	Department	Name and contact details of Official Who Raised the query	Issue/ Clarification Raised	Response Provided	Escalated to the Central Technical Team (Y/N)	Date of Resolution	Follow up Actions Required (if any)

Detailed rules for understanding the questions, data validation, potential data sources and supporting documents are provided as guidance note on the online platform as well as the spreadsheet. This reference document has been developed based on secondary research as well as global best practices for key definitions to aid the city officials in completing the questionnaire.



Question 1

Please specify

The Ministry of New and Renewable Energy has several schemes to provide subsidies to households who have installed solar rooftops. The State Renewable Energy Development agencies may also record this data.

subsidies for solar rooftops in the year 2016-17.

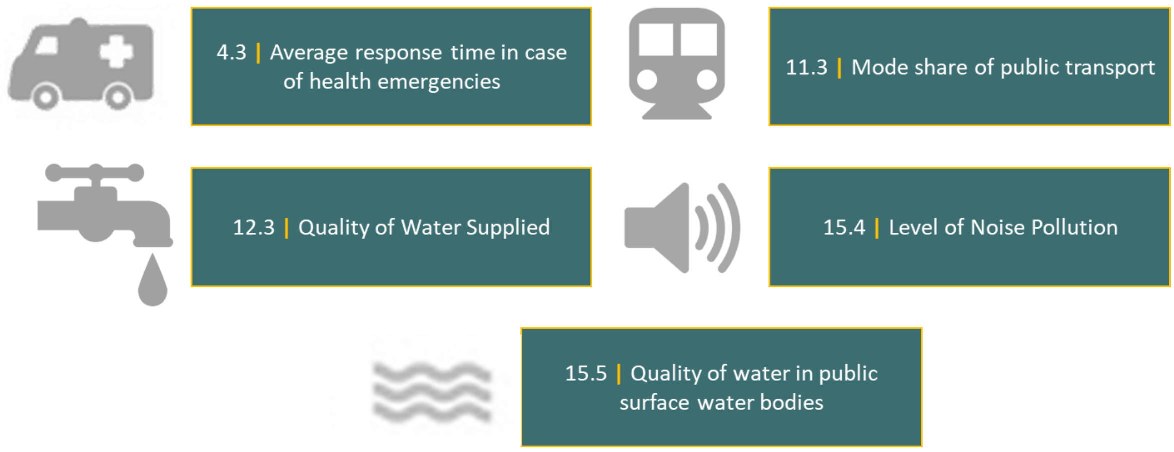
The standard response time for answering queries is provided below:

Queries received before 13:00 PM	**The response will be provided before close of business on the same day (19:00)**
Queries received after 13:00 PM	The response will be provided before 11:00 AM next day

3.3 Primary Data Collection

The MoHUA has identified a set of five indicators where existing datasets may not available. For these indicators, rapid surveys will be conducted, and the data will be collected directly from the source using standardised approach.

Exhibit 5: Indicators which requires Rapid Surveys



4.3 | Average response time in case of health emergencies
11.3 | Mode share of public transport
12.3 | Quality of Water Supplied
15.4 | Level of Noise Pollution
15.5 | Quality of water in public surface water bodies

Detailed notes on the data collection protocol for each of these five indicators are provided below:

Indicator 4.3 Average Response Time in case of Health Emergencies

The approach to collect baseline data on the average response time for the Emergency Medical Response System (EMRS) is outlined below:

Option 1: Collect data/ official records from the state health department (State Mission Director under National Health Mission) or agencies[3] operating ambulance services under the National Health Mission) for the last quarter of the financial year March 2017- February 2018 on the following parameters:

Exhibit 6: Data Entry Template - EMRS

Particulars	Oct 2017	Nov 2017	Dec 2017	Jan 2017
1. Details of call				
1.1 Number of call				
1.2 Number of unanswered call				
1.3 Number of calls answered				
2. Types of Calls				
2.1 Number of Emergency Calls				
2.1.1 Number of medical emergency call				
2.1.2 Number of Police Emergency Call				
2.1.3 Number of Fire Emergency Calls				
2.2 Non-emergency calls				
2.3 Ineffective Calls				
3. Ambulance Services				
3.1 Number of Medical Emergency Dispatch requests				
3.2 Total number of ambulance trips				
3.3 Number of ambulance services utilised				
3.4 Total number of cases transported				
4. Call/ Dispatch Time				
4.1 Average call to dispatch time				
4.3 Average time taken from the base to Scene/ Incident				
4.4 Average time taken from the scene to the hospital				

---

[3] For e.g. GVK EMRI which provides 108 emergency response service, is currently operational in 15 States and 2 Union Territories i.e. Andhra Pradesh, Telangana, Gujarat, Uttarakhand, Goa, Tamil Nadu, Karnataka, Assam, Meghalaya, West Bengal, Himachal Pradesh, Chhattisgarh, Uttar Pradesh, Rajasthan and 2 Union Territories, Dadra & Nagar Haveli and Daman & Diu.

Option 2: Private Ambulance Record Data

Many hospitals operate ambulance services and maintain records of calls and response time. This record will be collected by the researchers during their primary visit to the hospitals for surveys.

Option 3: Rapid Survey

i) Number of hospitals and sampling criteria

In cities where secondary data are unavailable, a hospital-based survey will be conducted to collect data on response time. The distribution of the sample of hospital for each city classification is given below:

Exhibit 7: Sample Size- EMRS

Sl. No.	Classification of Cities	Number of Hospitals to be surveyed
1	Megapolis	3
2	Metropolitan Cities	3
3	Large Towns	2
4	Medium Town	2
5	Small Town	2

The hospitals for the survey will be purposively sampled based on the following criteria:

Exhibit 8: Sampling Criteria-EMRS

City category	Sampling distribution
Metropolitan cities and Metropolis	• The sample distribution based on the type of hospital are as follows: ○ 1 Multi Speciality hospital which has a trauma care facility ○ 1 Government Hospital (District Hospital or corporation hospital) ○ 1 private hospital with accident care facilities • Located near main accident-prone areas within the city (derived from the accident record data) • Select the largest/ prominent hospital in the city
Small, Medium and Large Towns	• District hospital/ corporation hospital will be covered in the study • Located near main accident-prone areas within the city (derived from the accident record data) • Select the largest/ prominent hospital in the city

ii) Respondent Selection

Surveys will be conducted with patients who are admitted in the hospital or by standers of the patients.

Exhibit 9: Respondent Selection - EMRS

Classification of the City	Sample Distribution	Total Number of Surveys
Megapolis	• 50 Patients who have used the ambulance service per hospital • 10 Patients who arrived at the hospital in private vehicles per hospital	180
Metropolitan Cities	• 50 Patients who have used the ambulance service per hospital • 10 Patients who arrived at the hospital in private vehicles	180
Large Towns	• 30 Patients who have used the ambulance service per hospital • 5 Patients who arrived at the hospital in private vehicles	70
Medium Town	• 30 Patients who have used the ambulance service per hospital • 5 Patients who arrived at the hospital in private vehicles	70
Small Town	• 30 Patients who have used the ambulance service per hospital • 5 Patients who arrived at the hospital in private vehicles	70

- A systematic random sampling strategy will be adopted to identify respondents (patients or by stander) the survey.
- The respondents, who are currently hospitalised will be selected from the emergency or trauma care ward patients' records. Respondents who arrived at emergency or trauma care ward and later shifted to other wards (including maternity, general or other specialist ward) will also be considered for the study.
- The treatment group will involve those patients who utilised the Government Ambulance Service (108/102/100) and the control group will include those who utilised private vehicles to arrive at the emergency facility
- The questionnaire for the patient survey is presented in Exhibit 10

Exhibit 10: Questionnaire for the Patient Survey

Name of the city	
Name of the hospital	
Gender of the respondent	
Age of the respondent	
Did you avail govt. transport from PHC/ 108? If yes, what kind of transport facility did you avail?	A) Yes b) No If yes, 1) 100 – Police

	2) 102- Ambulance 3) 108- Ambulance 99) Don't know
When did you avail this facility?	
What was the response time of the transport?	1) Within 15 minutes 2) 15 min-30min 3) More than half an hour but less than 1 hr. 4) More than one hour 99) Don't Know

Indicator 11.3: Mode Share of Public Transport

The different approach to collect data on mode split is outlined below:

Option 1: Secondary Data Sources

Mode share taken from secondary **data sources** (see below). If data is more than 5 years old, it can be extrapolated based on vehicle registration data trends.

Data Needs:

- Mode Share
- Vehicle registration data

Data Sources:

- Comprehensive Mobility Plans for each city – mostly available with Institute of Urban Transport/Ministry of Urban and Housing Affairs
- Comprehensive traffic and transport plan prepared for the city independently or as part of a Master Plan exercise /under the JNNURM / any other planning efforts
- If no plan exists, ridership data can be obtained from local Transport agency (Metro, bus, feeder services, rail, and car) or from research institutions who have conducted transport studies for the city.
- Review of Urban Transport (2014)- Pg 65 – Motorized Trip Rates by Category (based on inputs from several CMPs) for different category cities (attached)
- http://planningcommission.nic.in/sectors/NTDPC/voulme3_p2/urban_v3_p2.pdf contains modal split data collected from various cities across India. See page 387, Table 5.4. This data was compiled in 2014.

Option 2: Secondary Data is Unavailable

If secondary data is not available at all, **Method 2** will be applicable.

If data not available, conduct primary surveys at a sample of mid blocks involve vehicle counts and a visual assessment of occupancy is appropriate.

Mode Share is also calculated as Occupancy X # of vehicles /for each mode
Occupancy = # of persons/vehicle
For Public Transport (if difficult to count- a visual assessment could be done using the following rule)
Seating Capacity of the vehicle: Seating + Standing capacity= X
Spill Over: X* 1.25
Full = X
Half = X * 0. 5
Quarter= X*0.25

The primary surveys may be conducted as follows:

Classified Volume Counts

Objective of the Survey: These surveys shall be conducted at identified mid-block and junctions for 4-6 hours covering morning and evening peak hours, which will be used for calculation of mode share. The mode of survey could be 1) Manual or 2) Video camera placed at median to record traffic in both directions.

Conduct of the Survey:

- Traffic counts will be carried out on a typical working day at major arterials.
- The city could be divided into zones and mid-block locations identified accordingly with high activity centres like schools, colleges, commercial places, Government institutions and near slums and also different categories of streets (arterials, sub arterials, collectors, etc.)
- Where a city has a bypass, count locations should be placed at the approach to the bypass from the city.
- At each identified station, both directional counts will be carried out by vehicle type. i.e. cars, jeeps, vans, buses, trucks, MAVs, LCV's tractors, motorized two wheelers and three wheelers, and slow moving vehicles.
- Additionally, occupancy of each vehicle also need to be noted. Occupancy = # of persons/vehicle

Monitoring Time

The traffic counts will be conducted for 3 hours each in the morning and evening peak periods (6 hours per site) at 15 minute intervals for continuous 3 hours. Each city may have different peak periods.

- Day shift – 3 hrs
- Evening shift- 3 hrs

The traffic data collected from the field will be scrutinized and processed.

Mode of Survey

These surveys shall be conducted at identified mid-block and junctions.

The mode of survey could be 1) Manual (see template) or 2) Video camera placed at median to record traffic in both directions (and then processed based on the template)

Sample Size

- At least 10 to 20 locations based on size of city.

Recording the data

The data will be recorded at 15 minute intervals for 3 hours shifts for peak periods. See template attached.

Exhibit 11: Template for Recording Data on Mode Share

Location	Direction:																										
Time (based on morning and evening peak periods)	Buses								Private Vehicles & IPT						Goods Vehicles								Slow Moving Vehicles			Pedestrians

Indicator 12.3: Quality of Water Supplied

The approach below describes in detail the process and guidelines for identifying sampling locations, collecting water samples and testing for the quality of water supplied for drinking.

Location of sampling points

One objective of surveillance is to assess the quality of the water supplied by the water supply agency and of that at the point of use, so that samples of both should be taken. Any significant difference between the two has important implications for remedial strategies.

Identify sampling locations

The number of locations from where samples for water quality testing should be collected is based on the source of water and the water supply system in a city.

Water samples should be collected at the fresh water and ground water source (if directly supplied to customers). Many cities draw water from their own surface source, while others buy treated water from Water Supply and Sewerage Board. Many cities or parts of cities with no fresh water source of their own often buy raw or treated water from State agencies, Irrigation Department or private agencies to supplement their ground water resources.

Locations where samples must be collected:

1. Ground water source
2. Own surface water source
3. Purchase water (not necessarily from treated sources)
4. Water treatment plant
5. Water distribution system (WDS)
6. Consumer end (taps and tankers)

Sampling Points

Sampling points should be selected such that all different sources from which water is obtained are covered.

- There should be at least one sampling point at the clean-water outlet of each water treatment plant (WTP).- Sample size - 1
- Similarly there should be at least one sampling point at the inlet of sump in a water distribution system (WDS). – Sample size -1
- Samples in all WDS zones in the city should be collected for testing. Within a WDS zone, sampling sites should be geographically distributed to include areas in close proximity as well as far from the WDS station.- Sample 1 per 2500 population
- In addition to the fixed locations, sampling should also be carried out at variable locations which prove helpful in detecting local problems in the water supply system- Identified locations- 1 per location

Sampling locations at consumer end should be identified based on the population served by each water distribution zones.

- Samples should be collected in slum as well as non-slum areas proportionate to the slum population in a city – 1 per 2500 population
- A portion of samples collected at consumer end should include community stand posts.
- Sampling at consumer end should include sites such as municipal schools and government hospitals – distributed geographically

Required on field and laboratory tests

Test.	Test location
Residual Chlorine	On site using Water Quality Field Test Kits
Physical (turbidity, taste, colour, odour and temperature)	On site using Water Quality Field Test Kits
Chemical	Indicative tests using on site using Water Quality Field Test Kits. Samples to be sent to laboratories for testing.
Bacteriological	H2S Vial Test. Preliminary test on site. Only positive cases sent to Municipal or other accredited laboratories

How to collect samples at site

The objective of sampling is to collect a small portion of water which can be easily transported to laboratory if needed, without contamination or deterioration and which should accurately represent the water being supplied.

1. **Preparation and Planning**
   - Based on the established sampling regime identify the total number of samples to be collected, the sampling locations and the parameters for which samples need to be collected.
   - Make a list of equipment for sample collection and on site testing.

List of equipment for sample collection and field testing is presented in the table below:

Exhibit 12: List of Equipment- Water Quality Testing

List of equipment	
For sample collection	For onsite RC and physical testing
Sampling bottle	Field testing kits
Sticker label	Chlorometer
Sketch Pen	Test tube
Date collection formats	H2 S Vial Kit
Labels	Others, as mentioned in the kits (reagents etc.) Please check the need for reagents as they might not be available in smaller cities

- For physical and RC tests, 500 ml virgin plastic bottles with air tight cap should be used for one sample collection. Purchase a mineral water bottle with its seal intact. Transfer/ consume the mineral water. Bottles are ready for sample collection.
- For chemical and bacteriological tests that are carried out at the state/ district laboratory, contact the laboratory to obtain trip blank bottles, the appropriate sterilized sample bottles and preservatives, and to confirm storage conditions and holding times.
- Prepare/ print data recording formats for various tests.
- Obtain any necessary permission for site access.
- Pre-clean sampling and sample processing equipment.
- In case of residual chlorine, the test is carried out at site itself. In such case standard test tube of capacity 10 to 25 ml may be used.
- Print off all necessary sample labels, sample tracking forms

2. Sample collection from surface source

- Note sampling conditions such as location, time and surrounding conditions on the sample format.
- Always collect samples keeping the bottles facing upstream.
- Make sure any disturbed sediments are moved downstream by the current before collecting the sample.
- Samples should be collected in the river/lake/dam site if possible but if this area is to deep, choose a point in the channel cross-section where water is flowing and appears to be well-mixed (avoid backflows and eddies). In wetland areas with little or no flow, extreme caution should be taken to avoid contamination from sediment stirred up by boats or walking to sample locations.
- Use regular plastic bottles for collecting samples for physical and chemical tests and sterilized bottles for bacteriological testing. Reach forward facing the bottle opening into the current upstream and quickly plunge the container below the surface to avoid any introduction of surface scum or floating debris. Do not touch the inside of the bottle cap, lip of the container, or inside of the container. Avoid touching the bottle to the stream bottom.
- Be careful not to overfill sample bottles, unless directed by laboratory. For bottles pre-filled with preservative, overfilling could cause loss of the preservative.
- Bring the bottle up out of the water and immediately replace the cap.
- Repeat for the remaining sample bottles

3. Sample collection from ground water source

- Wash your hands thoroughly.
- Note sampling conditions on field formats.
- Start the pump. Allow water to flow for 5 to 10 minutes.
- Use regular plastic bottles for collecting samples for physical tests and sterilized bottles for bacteriological testing. Remove the sample bottle cap. Do not touch the inside of the bottle cap, lip of the container, or inside of the container.

- Be careful not to overfill sample bottles. Fill 80%-90% of the bottle with sample water. Leave some space for oxygen to avoid killing the bacteria in the sample. For bottles pre-filled with preservative, overfilling could cause loss of the preservative.
- Close the bottle tightly.
- Bring the bottle up out of the water and immediately replace the cap.
- Repeat for the remaining sample bottles.
- Note sampling conditions on field sheet formats.

4. **Sample collection from distribution system (WTP/ Head work/ Storage)**
    - Always collect samples facing from depth at least 30 cm from water level of WTP/Storage
    - Use regular plastic bottles for collecting samples for physical tests and sterilized bottles for bacteriological testing. Remove the sample bottle cap.
    - Submerged the bottle (if empty), collect the water sample from 30 cm depth
    - In case of bottles filled with preservative, (For bottles pre-filled with preservative, overfilling would cause loss of the preservative and therefore some headspace must be remaining).
    - Avoid touching the bottle to the stream bottom.
    - Bring the bottle up out of the water and immediately replace the cap.
    - Repeat for the remaining sample bottles.

5. **Sample collection from consumer end (House connection/ Stand post)**
    - Allow water to flow from tap or stand post for about one bucket.
    - Take 3 samples of 500 ml in test bottles (sterilized virgin plastic bottle with airtight cap for bacteriological testing and regular plastic bottles for RC, chemical and physical tests).
    - Remove the sample bottle cap.
    - Reach forward facing the bottle opening into the flow direction.
    - Do not touch the inside of the bottle cap, lip of the container, or inside of the container.
    - Be careful not to overfill sample bottles, unless directed by laboratory.
    - For bottles pre-filled with preservative, overfilling would cause loss of the preservative and therefore some headspace must be remaining.
    - Immediately replace the cap.

6. **Sample Handling**

Samples for physical and RC testing:

Since these tests are carried out on site, there are no special handling, storage or transportation procedures. The samples collected should be immediately transferred to test tubes and tested. These samples need not be labelled. The samples collected for these tests should be discarded after the tests are done.

Samples for chemical and bacteriological testing:

Once the samples are collected from different locations, the bottles must be properly labelled. Sample label format is shown below.

The water quality testing field kits generally allow the following parameters to be tested:

- Physical: Colour, Odour, Turbidity
- Residual Chlorine
- Chemical: Ph, hardness, indicative tests for chloride and fluoride and nitrates

7. Sample Testing

1. Performing residual chlorine test

Aim

Chlorine is added to drinking water before distribution for disinfection. Chlorine also acts as an oxidizing agent. The residual chlorine test should be routinely carried out to check that a sufficient amount of chlorine was added to the water to kill disease causing bacteria. As per IS 10500, the acceptable limit of residual chlorine in water is 0.2 mg/l and permissible limit is 1 mg/l. In case of epidemics when protection against viral infections is required, the quantity should be minimum 0.5 mg/l.

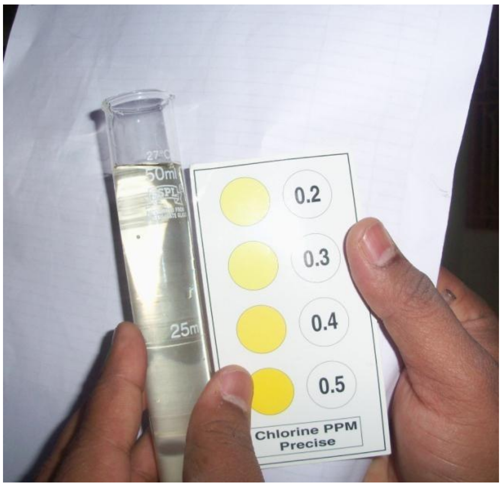
Required instruments

- Nessler tube/ test tube (50 milliliters)
- Standard colour chart / chloroscope
- Appropriate Reagent Rod
- Nessler stand

Method

- Add 10 to 12 drops of the reagent in the test tube. Add water sample up to the 50 millilitre marking and stir with a rod.
- Match colour of water in the tube with standard colour chart for chlorine or use a chloroscope.
- The reading of the matching colour on the charts indicates the amount of residual chlorine in water.
- If the results shows nil or less than 0.2 ppm then perform the same \test again with a sample taken from the same spot within 5 minutes.
- If the amount of residual chlorine is still less than 0.2 ppm immediately send the sample for bacteriological testing.

RC testing on site , Source : SOP, UMC



2. **Performing Physical Tests**

The following physical parameters should be checked by the field staff and noted on the recording formats.

- Color (By looking at the color of water)
- Odor (By smelling the sample water)
- Transparency / Turbidity (By looking for the clarity of water)
- Temperature (measured using thermometer)

3. **Conducting turbidity test**

Aim

Turbidity is the amount of cloudiness in the water and can be caused by silt, sand and mud as well as bacteria and other germs chemical precipitates. As per IS 10500, 1 NTU is the acceptable limit and 5 NTU is permissible limit.

Required instruments

- Glass beaker (100 millilitres)
- Ideal acknowledged picture with turbidity chart (provided in water quality test kits)

Method

- Take water sample up in a beaker to the100 millilitre marking.
- Place turbidity chart on a raised platform in an area with ample sunlight.
- Keep the beaker with the water sample on the ideal acknowledged picture.
- Look at the Ideal acknowledged picture through the beaker
- Match the ideal acknowledged picture seen from beaker with the turbidity chart.
- Record the turbidity NTU.

Result

- If the picture is seen clear, the water sample is clean with zero turbidity.
- If picture seen is not very clear, the water is turbid.
- If turbidity is less than 5 NTU, water is potable
- If turbidity is more than 5 NTU, water is not potable.
- If picture is not seen at all, the water is muddy. Muddy water is not potable.

4. Conducting pH test:

Required instruments

- pH paper
- Given pH colour chart
- Beaker

Method

- Take a small amount of water sample for testing in a beaker.
- Immerse the pH paper (about 1/2 inch) into the water.
- The pH paper will change its colour. Match the colour of paper with the given pH chart and record the corresponding value.

Result

- If the pH value of water sample is in the range of 6.5 to 8.5, the water is potable (good for drinking).

5. Conducting TDS (total dissolved solids) test

Required instruments

- TDS meter
- Beaker

Method

- Pour the sample water in a beaker.
- Dip the TDS testing machine in the sample water.
- Record the reading on the digital display on the machine.

Result

- If the reading is up to 500 mg/l, the water is potable. A reading up to 2000mg/l is permissible to be considered as potable by IS 10500.

6. Performing bacteriological tests

This could be done through a H_2S vial test to check for the presence or absence of e.coli an indicator bacteria for more harmful bacteria in the water

- Buy some H2S vial test bottles[4]
- Pick a water sample of the water in the different locations (random samples)
- Fill it till the blue line visible on the bottle.
- Observe for 48 hours.
- If the water turns black as in the bottle to the leftmost then the water has e.coli. If it stays brown as in the water bottle to the centre then there is no e.coli in the water.

7. Performing chemical tests

Chemical tests are not conducted on site. Some kits allow indicative tests on site. In any case samples for chemical testing should be sent to accredited laboratories. A list of laboratories in different states carrying out different water quality tests could be used based on the proximity of the city. Some indicative chemical tests such as **fluorides, chlorides and nitrates** can be conducted on field by following the instructions provided in the booklet of the water quality testing kits.

Indicator 15.4 Level of Noise Pollution

The approach to collect noise pollution data is based on the Government of India document titled 'Protocol for Ambient Level Noise Monitoring' developed by Central Pollution Control Board and is described in detail below:

Determine the Sample size: The number of sample location to collect noise pollution data is based on the city population and city type. The site selection[5] for each city type is presented below:

Exhibit 14: Sample Size - Noise Pollution Data

Classification of Cities	Population	

---

[4] Water Health Laboratories 4, Hydel Road, Industrial Area,

Roorkee - 247 667 INDIA

Tel: +91 (1332) 265320, 270053

Fax: +91 (1332) 274950

Cell: +91 94120 74490 (Dr. S.K.Sisodia)

[5] Sample size determination and distribution is in line with The Study on Ambient Noise Monitoring in Metropolitan city 2014 in Maharashtra

		Total Number of Location
Megapolis	Population ≥ 5 million	10
Metropolitan Cities	Population ≥ 1 million < 5 million	10
Large Towns	Population ≥ 5 lakh < 1 million	4
Medium Town	Population ≥ 50,000 < 5 lakh	4
Small Town	<1 million	4

The location selected for the study should meet the land use pattern as prescribed in the standard e.g. Industrial (I), Commercial (C), Residential (R) and Silence Zone (S). The distribution of the sample for each city classification is given below:

Exhibit 15: Sample Distribution by Land Use Pattern

Classification of Cities	Sample Distribution			
	S	R	I	C
Megapolis	3	2	2	3
Metropolitan Cities	3	2	2	3
Large Towns	1	1	1	1
Medium Town	1	1	1	1
Small Town	1	1	1	1

Collate information on the location of ambient air quality monitoring stations from the PCB in the illustrated template to aid in the site selection for ambient noise pollution monitoring. The site for collecting data on noise pollution can be in close proximity to the air quality monitoring station.

Exhibit 16: Data Entry Template- Noise Pollution Data

Sl.no	Location of the Air Quality Monitoring Station	Land Use Pattern	Address and Landmark

In the absence of air quality monitoring stations, the selection of the sites will be purposive based on inputs from the Urban Local Bodies and Pollution Control Board. The following criteria can be kept in mind while selecting the sites:

Exhibit 17: Criteria for Site Selection - Noise Pollution Data

Silence Zone	• **Ideally located within 100 meters around premises such as government hospitals, high courts or government educational institutions (University)**
Residential Areas	• For small, medium and large towns, identify residential areas which have high population density. • In case of metropolitan cities and Megapolis, identify two residential areas- one with high population density and second with medium population density.
Industrial Areas	• Identify industrial areas with heavy concentration of industries operating in close proximity
Commercial Areas	• For small, medium and large town, identify a site which is at the heart of the city and hence has many commercial shops and heavy traffic density is seen • In case of metropolitan cities and Megapolis, the first location will be at the heart of city having many commercial shops and heavy traffic. The second location can be located in proximity to a railway station or bus depot or airport where many commercial shops and hotels are located

The sites selected for monitoring noise pollution can located in close proximity to the air ambient quality monitoring station. However care must be taken ensure that the station is located at the ambient level i.e. away from the direct source, away from any vibration and any obstruction.

Monitoring Time: The noise level will be monitored in the identified location (s) continuously for a period 4 hrs each during the peak and off-peak hours. The monitoring period will at fifteen-minute intervals on a working day (Monday)[6]. For each city, the peak and off-peak hours will vary and will be informed by inputs provided by the City Traffic Police.

Instrument for data collection: The ambient noise-level will be monitored with the help of Sound Level Meter (like AZ Instruments, 8921 or MS 6701 Type II)[7] which consist of a microphone, a processing section and read-out unit will be used for monitoring.

Few things to keep in mind while using the Sound Level Meters are listed below:

---

[6] The guideline states that the monitoring should be carried out minimum 75% of the prescribed Day time (06.00 am to 22.00 pm) and Night time (22.00 pm to 06.00 am). Duration is of 6 hours from 18.00 Hrs to 24.00 Hrs with 1 sec sampling period.

[7] The Government of India recommends a Type 1 integrating sound level meter with free-field microphone which meets the Accuracy of noise measurement as per IEC 804 (BS 6698) Grade I or ANSI Type I or equivalent IEC 61672-1(2002-05) Class-I.

- Only pre-calibrated Sound Level Meters should be used for the monitoring[8].
- Hand held monitoring should be avoided and a tripod stand should be used which is located at above the ground level of 1 to 1.5 m for areas
- The noise measurement equipment will be supervised continuously during the monitoring period and notes will be made of the date, time and prevailing weather conditions;
- Noise measurements should not be made in fog and rain
- The instrument must be isolated from strong vibration and shock and a wind shield can be used to prevent interference of reflecting noise

Recording the data: Standard instruments can record measurement (upto 500 records) which can be later transferred to a computer for analysis. The following data should be recorded in the data sheets provided to the field investigators:

- The date, time and location of measurement
- Details of equipment used, together with model and type numbers, calibrators used and dates of last calibrations
- All predominant noise sources, which may include extraneous noise such as road traffic, aero-planes and other activity
- Weather conditions will be recorded including wind speed and approximate direction, cloud cover, rain and ground frost

Indicator 15.5: Quality of water in public surface water bodies

Types of public surface water bodies found in a city include rivers, streams, lakes / tanks, reservoirs, wetlands, and the ocean. Public surface water bodies that are identified for the designated best use in the city needs to be tested to see if they meet the benchmarks mentioned in the table above (CPCB, Guidelines for Water Quality Management, 2008). A detailed approach note to collect and test surface water sample is outlined below:

OPTION 1: Collect background information / available secondary data.

First check if data on quality of public surface water bodies is available in your city.

- Check if the municipality or State Pollution Control Board has a water quality management / monitoring system or program that has been measuring the water quality[9] of the surface bodies in your city. If the data is available from such programs, this may be used to compare the trends / changes in water quality over the years.

---

[8] Measurements should be accepted as valid only if the calibration level from before and after the noise measurement agrees to within 1.0 dB.

[9] From the user's point of view, the term "water quality" is defined as "those physical, chemical or biological characteristics of water by which the user evaluates the acceptability of water". For example for drinking water should be pure, wholesome, and potable. Similarly, for irrigation dissolved solids and toxicants are important, for outdoor bathing pathogens are important and water quality is controlled accordingly. Textiles, paper, brewing, and dozens of other industries using water, have their specific water quality needs.

- There are 1032 monitoring stations set up by the CPCB spread over all important water bodies in the country.[10] Check if any of these are located in your city. If yes, then obtain surface water quality data from this station for that particular water body. This may be used to compare the trends / changes in water quality over the years.

OPTION 2: If data on quality of public surface water is not available, the following process for primary data collection can be adopted

STEP 1: Conduct an inventory of the various water bodies and identify the designated best use of each

- Collect background information on the city such as geography, topography, climate and weather, hydrology, hydrogeology, land use, urbanization, industrialization and agriculture, including farming in riverbeds.
- Record and map human activities and potential polluting sources around the water body.

All sources of waste, all entering tributaries that might contribute a potential pollutant, and all uses, and abstractions of the water need to be noted. Also schedules and quantity of water flow regulated is to be noted. This information will help in an appropriate siting of sampling locations.

- Locate the surface water bodies on a base map or the existing land use map of your city obtained from the ULB / Development Authority.

Identify all the surface water bodies such as rivers, streams, lakes, ponds, reservoirs, and estuaries that contribute to the water ecology and are critical for maintaining health. They include public water bodies used for irrigation, swimming, fishing, rafting, boating, and industrial uses. Satellite images / Google earth map of the city may also be used to locate them on the base map.

- Based on the location and surrounding land uses and activity areas, and random interviews with the people in the areas surrounding the water body, categorize the water bodies by designated best use

STEP 2: Select the water bodies to be sampled. In a given city, select the surface water body under each designated use classification as shown in Box 4 of the Guidelines for Water Quality Management, 2007-08.

- Drinking water source without conventional treatment but with chlorination
- Outdoor bathing (organized)
- Drinking water source with conventional treatment
- Propagation of wildlife and fisheries
- Irrigation, industrial cooling, and controlled disposal

---

[10] Guidelines for Water Quality Monitoring, Central Pollution Control Board, 2007-08.

If a city has more than one surface water body for any designated best use, then select at least one of them for sample collection / testing.

STEP 3: Decide the sampling location (sampling site selection) and the number of samples to be taken

The table below shows where samples must be collected for testing based on the selected water body.

Exhibit 18: Guideline for Collecting Sample - Surface Water

	Up stream	Centre	Down stream	Inlet - the point where the principal feeder opens into the water body	Outlet - the place where the overflow occurs	Centre - the point that gives the general water quality of the water body	Other* To be specified – but generally three samples are to be taken
Rivers	**X**	**X** ***(from well-mixed section of the river (main stream) 30 cm below the water surface using a weighted bottle or DO sampler)***	**X**				
Streams	**X**	**X**	**X**				
Lakes / ponds				**X**	**X**	**X**	
Reservoirs				***collected from the outgoing canal, power channel or water intake structure, in case water is pumped. When there is no discharge in the canal, sample should be collected from the upstream side of the regulator structure, directly from the reservoir.***	**X**	**X**	
Wetlands							**X**
Ocean							**X**

b. Since surface water bodies are large and deep, it is necessary to keep in mind the place from where the sample should be collected. It should be collected

- Against the current flow
- Away from banks of river/ lake
- About 30cm below the surface
- Midway across the river and midway between the top and bottom of the river.

c. The GPS location of all the sampling points must be noted and mapped (GIS / MapInfo) to show the exact location of sampling points and other features.

d. To get effective results, some general criteria for site selection are to be followed as mentioned below[11]. Some general criteria to be followed for site selection[12]:

1) Sites should be accessible under all conditions of weather and river flow.
2) Sites for biological sampling should match with sites for chemical sampling.
3) Biological sampling stations need to be selected with proper attention to representative habitats (kind of substrate, depth and flow).
4) The sampling team normally must carry an appreciable burden of sampling gear and water samples, and the distance they can walk is limited. Accessibility is therefore an important consideration.
5) Travel time greater than 24 hours between the site and laboratory is not recommended.
6) Sites that are hazardous in bad weather (such as high flow) should be avoided.
7) Sites with disturbing influences in the rivers, especially cattle wading, melon farming, fishing, and sand recovery and Dams and barrages should be avoided.
8) Availability of sampling facilities such as bridges, boats, and possibilities for wading are important criteria in the selection of sampling sites.

e. Sampling frequency: Since this data collection exercise is to be carried out in a short time frame, sampling and testing may be carried out only once in the chosen sampling sites. That is sampling across days, weeks and seasons is not expected to be done.

STEP 4: Conducting the tests / analysis of samples

- On-site analysis includes air and water temperature, transparency and dissolved oxygen. Ammonia, coliform bacteria, fluoride, iron, pH (in the field), phosphorus, residual chloride, and turbidity for samples may be tested using a Jal-Tara Water Quality Testing Kit produced by Development Alternatives in New Delhi (Development Alternatives 2000).
- Laboratory analysis[13] includes: acidity, alkalinity, biochemical oxygen demand (BOD), chemical oxygen demand (COD), chloride, chlorine residual, coliform bacteria, dissolve oxygen (DO),

---

[11] Guidelines for Water Quality Monitoring, Central Pollution Control Board, 2007-08

[12] This list is not exhaustive. For complete list of the criteria, refer to the Guidelines for Water Quality Monitoring, Central Pollution Control Board, 2007-08

[13] Labs where samples may be sent for testing:
http://www.labgo.in/nabl-accredited-testing-labs-India

electrical conductivity (EC), fluoride, hardness, iron, nitrate, pH, phosphate, potassium, sodium, sulphate, solids (total, total dissolved, and total suspended) and turbidity.

- The majority of analyses should follow standard procedures published by the Indian National Environmental Engineering Research Institute (NEERI, 1998).
- Parameters to be measured: Conduct tests to measure the parameters mentioned in the table below, that is, total coliform, pH, Dissolved Oxygen14 and Biochemical Oxygen Demand as indicated in the table for benchmarks. The table below indicates the testing parameters for each designated use:

---

http://indiawater.gov.in/IMISReports/Reports/WaterQuality/rpt_WQM_EntryStatusLabs.aspx?Rep=0&Rtype=BI
http://www.cwc.nic.in/newsite/Documents/annexure-3.pdf

[14] DO is determined in a sample collected in a DO bottle using a DO sampler. The DO in the sample must be fixed immediately after collection, using chemical reagents. DO concentration can then be determined either in the field or later, in a level I or level II laboratory.

Exhibit 19: Testing parameters- Surface Water

Designated Uses	**Drinking water source without conventional treatment but with chlorination**				**Outdoor bathing (organized)**				**Drinking water source with conventional treatment**				**Propagation of wildlife and fisheries**			**Irrigation, industrial cooling, and controlled disposal**

Acidity, total (mg/l)	n/a	n/a	n/a	n/a	64.0	64.0	92.0	140.0	n/a	n/a	n/a	N/a
Alkalinity, total (mg/l)	n/a	n/a	n/a	n/a	336.0	336.0	332.0	348.0	n/a	n/a	n/a	N/a
Alkalinity as HCO3 (mg/l)	n/a	n/a	n/a	n/a	336.0	336.0	332.0	348.0	n/a	n/a	n/a	N/a
Ammonia (mg/l)	>3.0	1.0-3.0	>3.0	>3.0	n/a	n/a	n/a	n/a	n/a	n/a	n/a	N/a
BOD (mg/l)	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	76.4	74.2	74.2	74.2

3.4 Audit protocol

Confirming the accuracy of data is a critical part of the study, necessary to validate and safeguard the integrity of the overall liveability assessment. A detailed audit strategy has been developed to encourage cities to provide reliable data backed by well-recognised sources. A combination of secondary evidence-based audit and primary audit will be deployed to evaluate the reliability of the information/data provided by the cities.

3.4.1 Documentation review to cross check reported data

Document review will ensure that data from the source documents were accurate and entered the right data fields. During the indicator development process, efforts were made to identify and determine the key secondary sources for all the 79 indicators. This includes reports, administrative data, survey results and other statistical records, log books among other. A detailed checklist of the source documents has been prepared agency wise and is illustrated below:

Exhibit 21: Illustrative Checklist of Secondary Audit Sources

Department	Data source
Pollution Control Board	• Air Quality Monitoring Programme (NAMP) Report • Water Monitoring Programme report

Development Authority	• URL of the authority to check if relevant services are available online • Planning permission records • Occupancy certificate records
Discom/ Electricity board	• URL of the authority to check if relevant services are available online • Grievance register (online/ offline) • Electricity connection records • Metered connection records
State Education department	• Unified District Information System for Education
State Health department	• URL of the authority to check if relevant services are available online • NHM records of medical infrastructure • Department records of medical personnel • Integrated Disease Surveillance Programme records
Renewable energy development agency	• Subsidy register of Renewable Energy Development Agency
State sales/Commercial taxes department	• Periodic revenue report for VAT
Town and Country Planning Organisation	• Land-use/Masterplan • URL of TCPO's web portal for online services provided (building plan approval) • Planning permission records
Traffic and Police Department	• Accident reports • National/ State Crime Records Bureau (N/SCRB) reports • Intelligent Traffic Study • FIR Register of city police
Transport Authorities	• Grievance register (online/ offline) of respective transport agency • Route network map • Service time table (bus time table, metro time table etc.) • Vehicle registration records
Electricity Board/DISCOM	• SAP Reports • Standard of Performance Report • URL of EB's/ DISCOM's web portal for online services (electricity connection, payment etc.)
Education Department	• School Report Cards • U-DISE data
Urban Local Body	• Planning permission records • Pradhan Mantri Awas Yojana (PMAY) records/ Demand Survey data • Citizen's Charter (Committed time period for grievance redressal) • City Master Plan • City ward map • Comprehensive Mobility Plan • District Census Handbook, Census 2011 • Gazette notification (Constitution of Ward Sabhas) • Minutes of Ward Sabhas meeting • Property-tax register

	• Category-state wise approved hotels report, Ministry of Tourism • Income & expenditure statement • Slum Compendium • Budget document • Balance Sheet • Hawker/Vendor Registration List • Service connections register/ Water supply payment register • Service Level Improvement Plan (SLIP) under AMRUT • Smart City Proposal • Sanitary Inspector logbook • STP logbook • Slum Maps • Weighbridge receipts • Comprehensive Mobility Plan/City Transport and Traffic Plan/City Transport and Traffic Study/CDP • Coastal Regulation Zone (CRZ) records • Current consumption charges register • URL of ULB’s web portal (for online services) • Government Order (G.O.) [e.g., addition of new areas within city limits]

The state coordinator is tasked with the responsibility of collecting the supporting documents - hard copy or through secure emails. State coordinators will verify all the supporting documents and flag to the City/State Nodal Officer any documents that is not clear or is unacceptable. The state coordinator will maintain confidentiality of the supporting documents provided by cities throughout the data collection phase (protocols for document archiving is presented in Annexure 6)

3.4.2 Conduct site-visit for physical audit

For eight select indicators, random audits and site visit will be conducted to ensure that the data submitted on the portal are accurate and reliable. General standards and indicator specific criteria that the auditors will use have been detailed out in the Physical Audit Protocols document.

Exhibit 22: Indicators where Physical Audit will be conducted

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

The state coordinators have been informed about the physical audit process requirements and will be leading the following activities with support from the city coordinators:

- Procure official authorisation letters from the State Nodal Officer and relevant departments to conduct the physical audit
- Inform the department and city officials of the objective and process of audit
- Determine mutually agreeable dates with the city governments to conduct the site visit
- Conduct audit using standardised audit tools to physically verify if the data reported by the city governments is valid, accurate and reliable

Indicator 1.2 Percentage of services integrated through Command and Control Centre (CCC)

It is envisaged that cities may have integrated or singular CCCs due to modular nature of their development. The physical audit for this indicator will involve the following:

- Visit to the CCC (one location for ICCC and multiple locations for singular or independent CCCs
- Inspection of the dashboard for each of the services integrated under the CCC
- Collection of feeds for each of the service from the CCC that is claimed by the city to be integrated through the CCC

Indicator 2.3 Hotel Occupancy

As the first step, the following information about hotels in the city will be sourced from the city governments and/or the tourism department:

- Total number of hotels in the city
- Total number of hotels with HRACC certificates in the city.
- Total number of hotels with Municipal Corporation licenses in the city.

- Hotel-wise data entry:

All hotels in the aforementioned list should have the following data entered across their respective names

- Name of the hotel
- Type of the hotel (5-1 Star, Heritage-Grand/ Classic/ Basic)
- Address of the hotel
- HRACC issued certificate number of the hotel
- Municipal corporation issued license number of the hotel
- Total number of rooms available in the hotel
- Percentage of rooms occupied per month (2016-17)

Exhibit 23: Data Entry Template – Hotel Occupancy

SL. No	Hotel Name	Type	Address	HRACC Certificate No.	Municipal corporation issued License No.	Occupancy rate	
						Total no. of rooms	Average occupancy rate for 2016-17 (%)
1							January
							February
							March
							April
							May
							June
							July
							August
							September
							October
							November
							December
2							January
							February
							March
							April
							May
							June
							July
							August
							September
							October
							November
							December

A random sample of 30 hotels per city will be selected from the listing provided by the ULBs and shared with the auditors.

The below-mentioned process will be followed to complete the validation of Hotel Occupancy Rates by the auditors:

a. Request Management: Once the auditor reaches premises of the sampled hotel, he/she will meet the hotel manager and explain the purpose of the visit and request for support from the hotel management.

b. Furnish Authorized Letter: The authorised letter provided to auditor by the city government to conduct the physical audit will be presented to the hotel managers

c. Set Context: The hotel managers will be briefed by the auditors on the objective of the audit exercise

d. Request Bookings Register: The bookings register[15] for the calendar year 2016-17 will be requested for the audit

e. Validation: The total occupancy of rooms for the past 12 months (01.01.2016 and 31.12.2017) will be calculated and entry will be made in a pre-determined template.

F. Documentation: Photograph of the bookings register will be captured as evidence

Indicator 3.4 Percentage of Schools with Access to Digital Education

The following information about schools in the city can be accessed from the U-DISE School Database:

Exhibit 24: Categories of Information Sourced from U-DISE

School U-DISE code	
School Name	
Address	
School Category	All school categories should be included in the search criteria. Schools could belong to any of the following categories based on the grades they offer: • Primary only (Class 1-5); • Primary with Upper Primary (Class 1-8); • Primary with Upper Primary, Secondary and Higher Secondary (Class 1-12); • Upper Primary only (Class 6-8); • Upper Primary with Secondary and Higher Secondary (Class 6-12); • Primary with Upper Primary and Secondary (Class 1-10); • Upper Primary with Secondary (Class 6-10) • Secondary only (Class 9 & 10) • Secondary with Higher secondary (Class 9-12) • Higher Secondary only/ Junior College (Class 11 & 12)
School management/ Managed by	All kinds of school management should be included in the search criteria. These would include schools managed by:

---

[15] The auditors will request to review the physical bookings register as against the hotel's digital bookings register.

	- Department of Education - Tribal/Social Welfare Department - Local Body - Private Aided - Private Unaided - Central Government - Unrecognized - Madarsa recognized - Madarsa unrecognized - Others
Total number of students enrolled	
Availability of ICT Lab	
Availability of Computer room	
Total number of computers in the school	
Total number of functional computers in the school	
Availability of Audio/Visual/Public Address System	
Availability of LCD Projector/ Overhead Projector	
Availability of internet connection	

From this larger database, schools should be filtered based on the following criteria:

a. Schools which have an ICT Lab and/or Computer room
b. Schools which have at least 10 computers
c. Schools which have an Audio/Visual/Public Address System and/or LCD Projector/ Overhead Projector
d. Schools which have internet connectivity

A random sample of 30 schools per city shall be selected from the above list and considered for the audit. This list will be shared by the central team with the auditors in the below format and will include information from U-DISE.

Exhibit 25: Data Entry Template- Digital Education in Schools

School U-DISE code	School Name	Address	School Category	School management/ Managed by	Total Number of students enrolled	Availability of ICT Lab	Availability of Computer room	Total no. of computers	Total no. functional computers	Availability of Audio/Visual/ Public Address System/ LCD Projector/ Overhead Projector	Functionality of Audio/Visual/ Public Address System/LCD Projector/ Overhead Projector	Availability of internet connection	Time taken for loading the web-page
Pre-filled	Pre-filled	Pre-filled	Pre-filled	Pre-filled	Pre-filled	Yes/No	Yes/No	Number	Number	Yes/No	Yes/No	Yes/No	Time (in seconds)

Auditors will visit each of the sampled school for a physical inspection and will inspect the following for each school:

- **Inspection Item #1**: **One** Information and Communication Technology (ICT) Lab / Computer lab/ Computer room (any of the suggested names are accepted).
- **Inspection Item # 2**: A total of **ten** functional computers inside that are located at any of the following places:
  - Information and Communication Technology (ICT) Lab / Computer lab/ Computer room
  - Class rooms
  - Any other student lab or room used for teaching
- **Inspection Item #3**: Any **one** of the following audio-visual facilities can be considered:
  - Projector
  - Loud speaker
  - Sound system
  - OHP
  - Any other audio-visual facility used to teach
- **Inspection item #4**: Internet connection (broadband or wi-fi)

The physical audit protocol is described below:

- **The auditors will meet the head of the school administration (Head Master/ Head Mistress/ Principal / Head In-charge)**, present the authorisation letter and elaborate on the objective of the audit exercise
- **The auditors will check physical availability of ONE** Information and Communication Technology (ICT) Lab / Computer lab/ Computer room and computer systems
- **The auditors will verify the functionality** of **any 10 computer systems** used for teaching purposes that are located at labs/ classrooms/ other student's room by switching on the systems
- **The auditors will check the availability of any one type** of audio-visual facilities (e.g., Audio/Visual/Public Address System/ LCD Projector/ Overhead Projector, etc.)
- **The auditors will verify the functionality of Audio-visual facilities** by switching on a device randomly selected and connecting it to the computer system
- **The auditors will check the internet connectivity** by accessing the following link through the available web-browser https://smartnet.niua.org/liveability
- **The auditors will record the time** taken **to load the web-page**
- **The auditors will document** labs, functional computer systems, functioning Audio-visual facilities and the web browser **through photograph**
- **The auditors must complete the data entry template** shared by the central team for the audit

Exhibit 26: Data Entry Template - Digital Education

School U-DISE code	School Name	Address	School Category	School management/ Managed by	Total Number of students enrolled	Availability of ICT Lab	Availability of Computer room	Total no. of computers	Total no. functional computers	Availability of Audio/Visual/ Public Address System/ LCD Projector/ Overhead Projector	Functionality of Audio/Visual/ Public Address System/LCD Projector/ Overhead Projector	Availability of internet connection	Time taken for loading the web-page
Pre-filled	Pre-filled	Pre-filled	Pre-filled	Pre-filled	Pre-filled	Yes/No	Yes/No	Number	Number	Yes/No	Yes/No	Yes/No	Time (in seconds)

Indicator 5.1: Number of streets, public places, junctions covered through surveillance systems

A data template will be shared with the city authority and details of the surveillance cameras installed will be sought. The data entry template should be circulated among the **Police Department, Traffic Police Department** and the **Control Centres monitoring the camera feeds** for their inputs.

The data should be facilitated in the excel format and will include the following information:

- The unique ID for CCTV cameras installed
- The address or geographical coordinates of the exact location where the CCTV cameras have been installed.
- The address of the centre where the footage from cameras is monitored from.
- The authority which installed the camera.

Exhibit 27: Data Entry Template- Surveillance Systems

Camera unique ID	Placement Location address	Monitoring centre address	Installing authority

A total of 30 surveillance location or cameras will be audited in each city. A random sample will be drawn from the list of CCTV camera installations provided by the city. The sampled CCTV cameras will be validated in terms of physical presence as well as their functionality. A random day in the last 30 days will be selected for which the video footage/ time stamp will be collected.

The following protocol will be followed by the auditor:

- As the first step, the auditor will meet the Nodal person at the City Police and Traffic Department with the authorization letter to conduct the audit
- The purpose of the audit will be clearly explained by the auditor
- The list of sampled CCTV cameras and pre-determined date will be shared with the Nodal Officer
- Request will be made to the nodal person to access footage/time-stamp of the feed of the sampled cameras on the selected date

Indicator 6.5: Percentage of street vendors registered and provided formal spaces

As the first step, data on street vendors will be requested from the ULBs and should contain registered / licensed vendors list, the records of the TVC, and the details regarding the vending zones allocated by ward / city zones (map with holding capacity details) as illustrated below:

Exhibit 28: Data Entry Template- Street Vendors

Sl. No.	Ward and token	Vendor name	Phone No.	Vendor Type	Gender	Vending product	Area name	Street name	Landmark
1	To be pre-filled by ULB	To be pre-filled by ULB	To be pre-filled by ULB	To be pre-filled by ULB	To be pre-filled by ULB	To be pre-filled by ULB	To be pre-filled by ULB	To be pre-filled by ULB	To be pre-filled by ULB
2									

A total of 30 random sample of vendors will be selected in each city for the audit. The physical audit team will contact the selected vendors and understand from them whether license/ formal vending spaces has been provided to them by the city. Copy of the vending licences issued by the concerned authority will be collected from the sampled vendors.

Indicator 11.7: Availability of Passenger Information System

For conducting the physical audit, the data on all major transport interchanges with passenger information systems in the city will be collated in a pre-determined format illustrated in the Figure 10. This data will have to be collected from all the transport agency – ferry, sub-urban railways, metro rail among others. From this list, a random sample of 30 transport interchanges will be selected and shared with the physical auditors.

Exhibit 29: Data Entry Template- Passenger Information System

SL. No	Type of transport interchange	Address	GPS Coordinates	Total no. of gates/ platform	Total no. of LCD/ LED display boards installed	Total no. of audio announcement system installed	Remark
1	To be pre-filled	To be pre-filled	To be recorded by Physical Auditor	To be recorded by Physical Auditor	To be recorded by Physical Auditor	To be recorded by Physical Auditor	To be recorded by Physical Auditor
2	To be pre-filled	To be pre-filled					
…							
3	To be pre-filled	To be pre-filled					

Three main types of passenger information system will be audited – Display Board, Audio Announcement System and Vehicle Tracking System. The auditor will chose a minimum of two and a maximum of 5 gates/ platform at the interchanges to conduct the audit. Detailed audit checklist (refer Figure 11) will be provided where the auditors will record remarks and photographs on both presence and functionality.

Exhibit 30: Audit Checklist- Passenger Information System

Entrance - Master Display Board				
Question	**Yes**	**No**	**Remark**	**Reference**
Are there display boards installed in the main entrance?				
Are display boards installed in the main entrance operational?				
Does the display board feature real time information of arrival of all vehicles in station/ shelter?				
Does the display board feature real time information of departure of all vehicles in the station/ shelter?				

Does the display board feature gate/ platform number of all vehicles outbound/ arriving?				
Does the display board feature vehicle number/ route number of all vehicles outbound/ arriving?				
Does the display board feature Estimated Time of Arrival (ETA)?				

Gate/ Platform - Display Board

Question	Yes	No	Remark	Reference
Are there display boards installed in every gate/ platform?				
Are display boards installed in every gate/ platform operational?				
Does the gate/ platform display board feature real time information of arrival?				
Does the gate/ platform display board feature real time information of departure?				
Does the display board feature gate/ platform number?				
Does the gate/ platform display board feature vehicle number/ route number?				
Does the gate/ platform display board feature Estimated Time of Arrival (ETA)?				

Audio Announcement

Question	Yes	No	Remark	Reference
Are there loudspeaker and/ or similar systems installed in the main entrance?				
Are there loudspeaker and/ or similar systems installed in regular interval across all gates/ platforms?				
Are the loudspeaker and/ or similar systems installed in the main entrance operational?				
Are the loudspeaker and/ or similar systems announce real-time updates of departure/ arrival?				
Are the loudspeaker and/ or similar systems announce real-time updates of gate/ platform number?				
Are the loudspeaker and/ or similar systems announce real-time updates of vehicle/ route number?				

Vehicle Tracking System (VTS)

Question	Yes	No	Remark	Reference
Does the interchange have a dedicated centre for vehicular tracking with GPS?				
Does the interchange share the real-time tracking of vehicular movement with passengers?				

If yes, do the display boards feature real-time GPS data of vehicles?				

Indicator 11.11 Percentage of traffic intersections with pedestrian crossing facilities

Data on major roads with pedestrian crossing facilities will be sourced from the Urban Local Bodies and Transport Department in the following template:

Name of the Major Road	**Name of the intersections/ junctions**	**Please indicate Y/N to the availability of pedestrian facilities.**				
		Pedestrian Crossing at the intersection using Zebra Crossing and/or Retro Reflective Pavement Marker's	**Mid-Block Zebra Crossing away from the intersection**	**Signalized pedestrian crossing with pedestrian push buttons**	**Subways**	**Foot overbridge**
Major Road 1_____	Intersection 1___					
	Intersection 2___					
	Intersection 3					
Major Road 2____	Intersection 1___					
	Intersection 2___					

A total of 30 random locations with pedestrian facilities will be drawn from the master list shared by the city government for the audit. In the event, the total number of pedestrian crossing in small, medium and large towns is equal to or less than 30, then all sites will be visited as part of the physical audit. A Population Proportionate Sampling approach will be adopted to determine the sample distribution across type of pedestrian crossings. Checklist for each type of pedestrian crossing facilities will be shared with auditors to record observations on the availability and any problems or obstructions to its use by citizen. The checklist will also capture basic information on road name, name of the auditor, designation, landmarks and date before starting the audit.

Exhibit 31: Audit Checklist - Pedestrian Crossing

Checklist for Pedestrian Crossing at the intersection using Zebra Crossing and Mid-Block Zebra Crossing away from the intersection

1) **Is there a Zebra Crossing at the intersection/ at the mid-block zebra crossing?**
   Yes No

2) **Is the zebra markings clear and visible?**
   Yes No

3) **Is the pedestrian crossing at the same level as the footpath for easy access?**
   Yes No

4) **Are there any Potholes or uneven road surface on the crossing path at the intersection?**
   Yes No

5) **Is there street lighting at the intersection?**
   Yes No

Checklist for Signalized pedestrian crossing with pedestrian push buttons

1) **Is there a Signalized pedestrian crossing with pedestrian push buttons?**
   Yes No
2) **Is the pedestrian push buttons functioning? (Please test it!)**
   Yes No
3) **Is the push buttons aligned in such a way that it is comfortably accessible to people on wheel chair?**
   Yes No

Checklist for subways

1) **Is there a subway at the intersection?**

Yes No

2) **Does the crossing involves climbing a large number of steps?**
Yes No

3) **Is there elevators/ lifts for easy access?**
Yes No

4) **Is there escalators for easy access?**
Yes No

5) **Are the elevators/ escalators fully functional?**
Yes No

6) **Is the opening to subways wide enough to at least to allow two people to comfortably cross each other?**
Yes No

7) **Is there adequate lighting and illumination?**
Yes No

8) **Is the facility clean?**
Yes No

9) **Is CCTV surveillance provided?**
Yes No

Checklist for foot over bridge

1) **Is there a foot over bridge at the intersection?**
Yes No

2) **Does the crossing involves climbing a large number of steps?**
Yes No

3) **Is there elevators/ lifts for easy access?**
Yes No

4) **Is there escalators for easy access?**
Yes No

5) **Are the elevators/ escalators fully functional?**
Yes No

6) **Is the opening to FOB wide enough to at least to allow two people to comfortably cross each other?**
Yes No

7) **Are railings provided along the stairs for safety?**
Yes No

8) **Is CCTV surveillance provided?**
Yes No

INDICATOR 11.12 Extent to Which Universal Accessibility Is Incorporated In Public Rights-Of Way (ROWs)

Information on public right-of-way areas designed as per universal design principles will be sought from the ULBs and the Public Works Department. This information will be sought for six categories as presented below:

- Total number of government buildings in the city constructed as per universal design principles.
- Total number of subways in the city constructed as per universal design principles
- Total number of Foot-over-Bridges (FOB) in the city constructed as per universal design principles.
- Total number of roads with footpaths (>1.2m) in the city as per universal design principles.
- Total number of malls in the city constructed as per universal design principles.
- Total number of public toilets (public convenience) in the city constructed as per universal design principles.

Exhibit 32: Data Entry Template- Right Of Ways

SL. No	Type of ROW	Name of Building/ Street	Address	GPS Coordinates	Remark

A total of random 30 ROWs with universal access design principles will be audited in each city and the sample will be drawn from the master list shared by the ULBs. A Population Proportionate Sampling approach will be adopted to determine the sample distribution across the various type of ROWs. The auditor will choose random feature for inspection and complete the audit checklist. The auditors will also take photographs of appropriate features (as indicated in the template) of the Public ROW for documentation.

The list of features for different types of Public ROWs are provided in the physical audit template.

Exhibit 33: Checklist- Right of Ways

Validation of buildings for universal access design by physical auditors					
Building Feature	**YES**	**NO**	**NOT APPLICABLE**	**REMARKS**	**Reference**
Are there any staircase in the building?					
Is the minimum width of the stairs 1200mm?					
Is the landing length not less than 1200mm?					
Is the landing surface non-slippery?					
Are there warning blocks installed at the beginning and end of all flights?					 Figure 5-1: Warning blocks
Is there a ramp?					
Does the ramp have a railing?					
Is the location of the ramp (appropriate signage) clearly identifiable?					 Figure 6-1: Directional signage for ramp

Is the ramp gradient no steeper than 1:12?					
Is there a landing of at least 1500 mm x 1500mm, at 9m intervals provided (for ramp)?					
Is there landing at the top and bottom of every ramp?					
Is the minimum width of the ramp 1500 mm?					
Are there continuous handrails, on both sides (of the staircase), at a height between 760 mm – 900 mm?					
Is the handrails installed in the centre of the stair width, which is more than 3m wide?					
Are handrails easy to grip?					
Are handrails securely attached?					
Is the space between the handrails and the wall no less than 50mm?					
Are the handrails painted in contrast colours to be easily indefinable?					

Does the entrance permit access to an elevator (if any)?					
Is there a path leading to the elevator?					
Is the clear door opening width 1m or more?					
Are the minimum internal dimensions of the elevator 1500 mm x1500 mm minimum or having 13 persons capacity?					
Is the control panel placed at a height between 800 mm – 1m, from the floor level?					
Is there an audio and video system installed in the lift indicating arrival at a floor?					
Are there Braille/raised numbers on the control panel?					
Is the elevator provided with a handrail on the three sides?					
Are the handrails mounted (in the lift) at a height between 800 mm and 1m?					

Is the elevator door easy to identify?				Please check for appropriate signage (Elevator sign)	Is the emergency intercom provided inside the elevator?					
Are there tactile or Braille instructions for the communication system?					
Is the emergency intercom usable without the voice communication?					
Is the door opening/closing interval long enough?				Duration (at least 30 seconds)	

Validation of toilets for universal access design by physical auditors

TOILETS	YES	NO	NOT APPLICABLE	REMARKS	Reference
Are there accessible toilets for Persons with specially-abled?					
Are the toilets easily identifiable?				Please check for appropriate signage (Specially-abled sign)	
Is there sufficient space (of 2m x 2.2m) inside to move a wheelchair?					
Are water closet (WC) and bidets mounted at a height between 450mm – 480mm?					
Is there space between the wall					

and WC?					
If Yes, is the closest adjacent wall, fitted with a grab bar is between 450 mm – 500mm?					
Is the washbasin mounted at a height between 750mm – 850mm?					
Are the grab bars installed near WC and showers at a height between 750 – 850 mm?					
Is the toilet equipped with an emergency alarm system?					
Can doors be locked from inside and releasable form outside under emergency situations?					
Is the floor material skid proof, well drained and waterproof?					
Do pivoted doors open outwards?					

Validation of signages for universal access design by physical auditors					
SIGNAGES	**YES**	**NO**	**NOT APPLICABLE**	**REMARKS**	**Reference**
Are accessible spaces identified by the international symbol of accessibility?					 Height of symbol Minimum = 700 mm (28 in) Width of symbol Minimum = 600 mm (24 in) Special = 900 mm (36 in) ** Stroke width Minimum = 75 mm (3 in) Special = 100 mm (4 in)
How far away is the signage placed from the accessible space?					

Are there directional signs indicating the location of accessible facilities?					
How far away are the directional signs placed from the accessible space?					
Are maps, information panels and wall-mounted signs placed at a height between 900mm and 1800mm?					
Are signs clear, simple and easy to read?					
Is the colour of signs clearly distinguishable?					
Is the surface of the sign processed so as to prevent glare?					
Is the sign supplement by a text in embossed letters or in Braille available next to information signs?					
Is the lettering size proportional to the reading distance?					

Validation of sidewalks/ footpaths for universal access design by physical auditors

Sidewalk/ Footpaths	YES	NO	NOT APPLICABLE	REMARKS	Reference
Does the sidewalk have non-slip floor surface?					
Is the height of the sidewalk less than 150mm?					
Is the sidewalk at least 1800 mm wide?					

Does the sidewalk have tactile guiding blocks for persons with visual impairments					
Does the sidewalk have tactile warning blocks installed next to all entry and exit points from the pathway					

Chapter 4: Citizen Perception Survey

In addition to collecting data from city authorities on a range of metrics, the assessment exercise also seeks to capture the pulse of citizen's perception on 'how liveable their cities are'. Close to 600 citizen surveys (400 among HHs in the cities and 200 among slum population) are expected to be carried out in each city to capture their views on a whole range of liveability metrics. A detailed questionnaire and analysis framework is being developed to evaluate the perception of cities and the same is described in greater detail below:

The objective of the citizen interviews is to understand liveability from citizens' point of view - the aspects that are most important for those living in the city, their current levels of satisfaction on these parameters, and their vision for the city. While as per the methodology document, indicator calculation and ranking is only based on 79 indicators, the citizen perception will provide useful insights specifically on satisfaction level of current services.

Towards this, a household survey of 400 respondents per city is planned as part of the liveability assessment.

Geographical coverage: In each city, 20 locations spread across the geography of the city representing various socio-economic profile of citizens residing will be randomly selected. At each location, 10 interviews will be carried out. These locations will be mapped across the wards in the city. In each selected location, 20 interviews will be conducted that represent different demographic profile of the citizens that represent gender and age groups.

Thematic Areas: The information areas for the survey will represent the 4 pillars, 15 domains, and citizens' views on indicators that have a direct interface and impact on liveability in the city. The indicative information areas are as below:

Exhibit 34: Information Area - Citizen Pulse

PILLAR OF COMPREHENSIVE DEVELOPMENT	CATEGORY	INDICATOR	TYPE	INFORMATION AREAS

INSTITUTIONAL	1. Governance	1.3 Percentage of citizens using online services	Core	Include questions related to awareness of online services
		1.4 Average delay in grievance redressal	Core	Ask if they are aware of grievance redressal
		1.8 Percentage of population covered under Ward Committees/ Area Sabhas	Core	Add question about awareness of ward committees, area sabhas, and if they have attended any meetings
SOCIAL	2. Identity	2.1 Restoration and reuse of historic buildings	Core	Awareness of historical sites, view on its maintenance, frequency of visit to historical areas
	3. Culture	2.2 Percentage of ecologically important areas covered through projects for restoration	Core	Awareness of ecologically important areas, need of protection and restoration
		2.5 Number of cultural/sports events hosted by city	Supporting	View on facilities available for sports and cultural activities, frequency and number of events held- too many, too less, just right
	4. Health	4.3 Average response time in case of health emergencies	Supporting	Perception on emergency health facilities in city, good, average, bad,
	5. Safety and Security	5.1 Number of streets, public places, junctions covered through surveillance systems	Core	Awareness of city surveillance system, how satisfy with city surveillance system
		5.3 Extent of crimes recorded against women, children and elderly per year	Core	How safe is the city for women, children and elderly at different period of a day
		5.4 Transport-related fatality per lakh population	Supporting	How safe citizen feel to drive in city?

PHYSICAL	8. Public Open Spaces	8.1 Per capita availability of green spaces	Core	Perception on city's natural environment, how clean and green is the city? Whether have access to parks, and gardens
		8.2 Per capita availability of public and recreational places	Core	perception on recreational facility available for different age group
	10. Power Supply	10.2 Percentage of electrical connections covered through smart meters	Supporting	Ask HHs if they have a smart metre
		10.3 Average number of electrical interruptions per customer per year	Core	Ask Hhs of black outs - frequency and duration
		10.4 Average length of electrical interruptions per customer per year	Supporting	Ask length of electrical interruptions (more than 5 minutes)
		10.5 Percentage of total energy derived from renewable sources	Core	Knowledge of renewable sources and whether they are ready to opt for renewable sources/ gaps to opt for renewable sources
	11. Transportation and Mobility	11.2 Availability of public transport	Supporting	How comfortable with choosing public transport? What factors prompt or hinder to choose public transport?
PHYSICAL		11.4 Percentage of road network with dedicated bicycle tracks	Core	Is the city safe for bicycle ride?
		11.7 Availability of Passenger Information System	Supporting	whether have access to passenger information system?
		11.11 Percentage of traffic intersections	Supporting	how safe and comfortable the pedestrians on city roads?

		with pedestrian crossing facilities		
	12. Assured Water Supply	12.2 Per capita supply of water	Core	Is the supplied water enough for family consumption?
		12.3 Quality of water supplied	Core	How satisfy with the quality of water?
		12.5 Percentage of water connections covered through meters	Supporting	whether have water meters
		12.6 Percentage of plots with rainwater harvesting facility	Supporting	Whether ready to opt rain water harvesting
	13. Waste Water Management	13.1 Coverage of toilets	Core	How satisfy with the availability of public toilets?
		13.2 Coverage of sewerage network and/or septage	Core	How satisfy with the sewerage system of city?
		13.4 Extent of reuse and recycling of waste water	Core	Whether ready to install water recycling mechanism at home?
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection	Core	Whether segregate waste? How frequently waste is collected? Whether ready to compost?
	15. Reduced Pollution	15.1 Concentration of SO_2 - air pollution	Core	Citizen's rating on air quality of city
		15.4 Level of noise pollution	Core	Citizen's rating on rate noise level
		15.5 Quality of water in public surface water bodies	Core	Citizen's rating on rate water bodies

Survey Implementation: The questionnaire will be elaborated based on the information areas, translated into 11 languages and scripted to administer the survey digitally (CAPI- Computer Assisted Personal Interviews).

The survey will be carried out from 29th March until 29th April by internal field teams of Ipsos deployed in each city. A team of 1 supervisor and 5 interviewers will complete the surveys in each city in about 20 working days. The team will be trained on questionnaire administration and sampling by the Operational team headed by Deepak Garkhel and supported by Swati Sen.

Data Analysis: While the data from the citizen perception survey will not feed into indicator calculation, it is proposed that an independent index based on citizens' perception be calculated for each city and ranking of all 116 cities based on this perception index be calculated. This exercise is undertaken primarily with the view to highlight gaps, if any in peoples' perception and data. A comparison based on citizens ranking and data based ranking on 79 indicators will generate useful insights for urban planners and city officials on how they can address this perception gap, normalise expectations, as well as prioritisation of inputs for indicators that have a direct bearing on citizens' perception regarding liveability of their cities.

It is envisaged that the citizen perception component of the liveability assessment piloted in this round will provide opportunity to pilot test the methodology for calculating perception based index and generate recommendations for subsequent round of liveability assessment.

Chapter 5: Engaging with State/ City Government

The consortium views engagement with state and city officials as a critical determinant for the success for the project. An engagement plan has been drafted and initiated by the consortium through the state and city coordinators to assist the city officials with the tasks of collating data for the liveability assessment. The engagement practice encompasses two main activities– City Reconnaissance and State Orientation Workshop, which is described in detail in this chapter

5.1 State Orientation Workshop

A total of 30 workshops have been scheduled during the weeks 9 March-24 March 2018. The objective of the State level workshop is to familiarize the state/UT government and city representatives about the overall concept of Liveability Index, assessment methodology, data requirements, data sources, data collection interface/application and validation methodology and associated processes and timelines for submission of complete data. The day-long workshop will focus on the following:

- Introduction to the concept of 'liveability' and what is means in the context of a city.
- **The advantages of measuring liveability through a common index** – the aim of this exercise is to motivate city and state officials to collaborate and provide the necessary data by presenting possible outcome and impact of a liveability assessment. The officials will be taken through the various underlying efficacy of this exercise which includes:
    - Provision of a baseline for future evidence-based planning
    - Contribution to the SDG data gathering exercise
    - Peer-Comparison
    - Domestic and international visibility

- A **high-level description of MoHUA's Liveability Assessment** exercise including the components of the quantitative index and the city perception survey.

- A **deep-dive into the Liveability Index** to the extent that it directly involves city and state officials. This will include –
    - Introduction to the 'pillars' and 'categories' used in the index construction.
    - Demonstrating to workshop participants how indicators map into questions which need to be answered by them for the index score for their respective cities to be calculated.
    - Explaining how data entered will be validated by state/ city coordinators through review of documentation submitted ('secondary audit') or physical observation ('physical audit').
    - A detailed engagement with questions – a list of questions has been shortlisted from the questionnaire, that are likely to be relatively challenging for city/ state officials to answer for different reasons (e.g. need for data to be aggregated/ disaggregated at the city level, or multiplicity of agencies collecting the data). These have been further classified by potential 'data owners'. Workshop participants will be similarly grouped by sector of operation. For example, representatives from the Development Authority, the Town and Country Planning Department and the relevant ULB departments will be grouped together to engage with challenging questions related to Planning. Representatives from the State Electricity Board,

Renewable Energy Agency and Environment Department will be grouped to take them through relevant questions for them. This will help ensure that any gaps in data are identified at the outset, and responsibility for providing the data are placed at the door of the most relevant authority. This exercise is expected to instigate the process of inter-departmental and inter-agency cooperation. This can also help clarify any definitional issues to the officials and allow for fine-tuning of the questionnaire, if required. Further, this offers a chance to answer queries on questions that may have been identified by officials before the workshop.

- **Overview of processes and protocols involved in the assessment exercise**. This will involve the following –
    - a live demonstration of the Data Entry Portal, that will familiarise the participants with the different features including the ability to fill the data online/ offline, ability to refer to guidance notes for every question, post online queries for further clarifications, see alerts for data entered incorrectly and the 'auto-save' feature.
    - A view of the Project Monitoring Dashboard that will allow the ministry, city officials and the citizen to track the progress on the assignment, deadlines, state workshop reports and other documentation.
    - Roles and responsibilities of the city and state officials including –
        - Nomination of nodal officers for provision of data and supportive secondary documentation, and inter-agency coordination.
        - Timely and accurate data provision.
        - Provision of authorisation letters for primary data collection and physical audits.
        - Cooperation with other agencies and MoHUA consultants (state and city coordinators).
    - Delineating the nature of support made available by the ministry –
        - Off-line, through the MoHUA methodology document and guidance notes.
        - Online, through the dedicated help-desk to answer queries.
        - Physical presence of city and state coordinators for facilitating cooperation with other departments, trouble-shooting etc.

The workshop is expected to result in:

- A jump-start to the data collection process through -
    - Developing greater familiarity of city and state officials with the overall objectives, needs and design of the liveability assessment exercise to get their critical buy-in.
    - Acquainting the state and city officials with the questionnaire, so that they can begin to appreciate the possible data sources.
    - Establishing working familiarity of city and state officials with the Data Entry Portal so that they can comfortably navigate their way through the same.
    - Articulating the support extended by MoHUA and its consultants to the city/ state bureaucracy to undertake the liveability assessment exercise. While City and state coordinators are already in touch with relevant officials, this will be an opportunity to meet members of the central technical team as well and understand the escalation matrix of communication.

- Providing a common platform for facilitating coordination and cooperation between different stakeholders for relevant questions and data sources to be discussed.

As a run up to the state level workshops, the following activities have been undertaken:

1. Identification and Mobilisation of State and City Level Stakeholders

The list of participants for the state workshops were identified based on the data owner mapping exercise conducted by the consortium and the suggested list of agencies enumerated in the 'Methodology Report'. The list of potential stakeholders is presented in the Figure 14 below.

Exhibit 35: List of Potential Stakeholders

Sl.no	Stakeholder	Designation(s)
1	State Government Officials (Senior)	1. Secretary, Municipal Administration Department 2. State Mission Director, Smart Cities Mission 3. District Collector
2	Urban Local Bodies	1. Municipal Commissioner/Secretary 2. Chief City Planner/ Town Planner (Town Planning wing/ Department of Planning) 3. Chief Engineer/ City engineer (Engineering wing/ department) 4. Revenue Officer (Revenue Department) 5. Health Officer (Health wing/ Department) 6. Assistant Executive Engineer (Solid Waste Management Department) 7. Education Officer (Education Department) 8. Dy. Chief Engineer (E/S&D) (Sewerage & Drainage Department) 9. IT Officer (Information Technology Department) 10. Officer in charge (Social Welfare & Urban Poverty Alleviation Department) 11. Data entry operator
3	Development Authority	1. Chief Urban Planner /Deputy Planner
4	Town and Country Planning Department	1. Joint Director (or) 2. Deputy Director
5	State Health Department	1. State Programme Manager (NUHM) and 2. District Medical and Health Officer
6	State Transport Authority	1. Joint Transport Commissioner (or) 2. Deputy Transport Commissioner
7	Traffic and Police Authority	1. Director General of Police (DGP) 2. Additional Director General of Police (ADGP)
8	State Energy Development Agency (Renewable Energy)	1. Director (or) 2. Deputy Director/ Principal Secretary
9	State Education Department/ Programme Authority	1. Joint Director (or) 2. Director of Education (Secondary and Higher Secondary) (or) 3. State Project Director (SSA/RMSA)
10	State Pollution Control Board	1. Chief Environmental Officer (or) 2. Chief Environmental Officer (Central Labs) (or) 3. Regional Officer

11	Discoms / Electricity Board	1. Chief Engineer (or) 2. Deputy Chief Engineer (or) 3. Executive Engineer

The state and city coordinators are mobilising the participants for the workshops with support from the State Nodal Officer.

2. Finalisation of the Workshop Schedule

A tentative workshop schedule has been developed and is in the process of getting finalised in consultation with the respective State Nodal Officers and the Chief Secretary of each state. A status update as on 14 March 2018 is presented in the Figure 15 below.

Exhibit 36: Workshop Schedule

Sl No	State/UT Name	Date of Workshop	Venue for Workshop	Status
1	Chhattisgarh	09-March-18	Hotel Babylon International VIP Road, Rajiv Gandhi Marg, Raipur, Chhattisgarh.	Completed
2	Kerala and Lakshadweep	19-March-18	Hotel Masquat, Playam, Antonment House Road, LMS Compound, PMG Trivandrum	Scheduled
3	Uttar Pradesh	23rd March-18	Non-Conventional Energy Development Agency, Lucknow	Scheduled
4	Tamil Nadu	12-March-18	Hotel Crown Plaza, Adeyar Park, TTK road, Chennai	Completed
5	Puducherry	14-March-18		Completed
6	Andaman and Nicobar	TBC		TBC
5	Madhya Pradesh	12-March-18	EPCO Campus, Ekant Park, Char Imli, Bhopal	Completed
6	Assam	TBC	TBC	
7	Jharkhand	16-March-18	Raj Residency, Kutchery Chowk, CIRCULAR ROAD, Ranchi	Scheduled
8	Tripura	21-March-18	Pragya Bhawan, Hall No. 4, Gurkhabasti, Agartala, Tripura	Scheduled
9	Haryana	17-March-18	Hotel Ramada, Gurgaon	Scheduled
10	Jammu & Kashmir	TBC	K C Residency, Residency Road, Jammu Tawi	

Sl No	State/UT Name	Date of Workshop	Venue for Workshop	Status
11	Andhra Pradesh	20 March -18	Fortune Murali Park, MG Road, Labbipet, Beside DV Manor, Vijayawada	Scheduled
12	Arunachal Pradesh	19-March-18	PYBSS Hotel. D-Sector, Near Civil Secretariat, Itanagar	Scheduled
13	Himachal Pradesh	14-March-18	K3 Banquet, Shimla Bypass, Kasumpti Colony, Panthaghati, Shimla	Completed
14	Karnataka	24-March-18	37th Crescent Hotel", Crescent Road, Near Race Course, High Grounds, Bengaluru	Scheduled
15	Manipur	TBC	Nirmala Hotel, Near Gandhi Avenue, Thangal Bazar, Imphal	TBC
16	Odisha	15-March-18	Hotel Kalinga Ashok Goutam Nagar, Bhubaneswar	Completed
17	Punjab	19 March—18	Municipal Corporation office, Jalandhar	Scheduled
18	Chandigarh	14-March-18	New Deluxe Building, Sector 17E, Chandigarh 160017.	Completed
18	Bihar	15-March-18	Hotel Chanakya, Bir Chand Patel Marg, R Block, Patna	Completed
19	NCT of Delhi	15-March-18	NDMC Convention Hall, Connaught Place, New Delhi	Completed
20	Uttarakhand	15-March-18	Hotel Aketa", 113-1/2, Rajpur Road, Dehradun	Completed
21	Telangana	16-March-18 for Hyderabad		Scheduled
22	Rajasthan	21-Mar-18	Conference Hall, Directorate of Local Bodies, Jaipur	Scheduled
23	Gujarat, Daman & Diu, Dadar & Nagar Haveli	16-Mar-18	Ahmedabad Management Association, Dr. Vikram Sarabhai Marg, Bastrapur, Ahmadabad	Scheduled
24	Meghalaya	19-March-18	Shillong Club, Karachi Road, Shillong	Scheduled
25	Mizoram	16-Mar-18	Hotel Regency, B/49, Zarkawt Main Road, Mac	Scheduled

Sl No	State/UT Name	Date of Workshop	Venue for Workshop	Status
			Donald Hill, Zarkawt, Aizawl	
26	Sikkim	20-March-18	The Regal Hotel, Tadong, Gangtok	Scheduled
27	West Bengal	TBC	The Stadel, Vivekananda Yuba Bharati Krirangan Gate No: 03 Salt Lake, Kolkata -700098	TBC
28	Maharashtra	17-Mar-18	YB Chavan Auditorium	Scheduled
29	Nagaland	TBC	Hotel Japhu Conference hall, B.O.C, P.R. Hill, Kohima	TBC
30	Goa	20-Mar-18	Imagine Panaji Smart City Development Limited, Adil Shah Palace, Old Secretariat, Panaji Goa – 403001	Scheduled

3. Finalisation of Workshop Agenda

The State Orientation Workshop has been conceived and designed to familiarise the States and cities on the rationale for the liveability assessment, indicator definition, potential data sources and associated processes for data submission. The objective is to promote action-oriented interactions among different data owners on the 79 indicators and encourage them to work together as a team for sourcing, troubleshooting and timely submission of all the requisite data points.

A draft workshop agenda was drafted by the consortium and finalised in consultation with the state and city coordinators. The finalised workshop agenda is presented in Figure 16

Exhibit 37: State Orientation Workshop Agenda

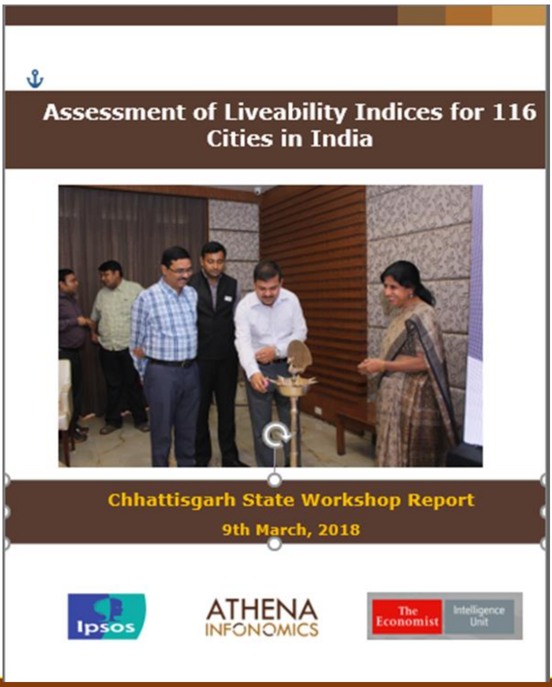
Inaugural Session		
Time	**Session**	**Speaker**
10:00 – 10:10	Welcome address	State representative
10:10 - 10:30	Inaugural Address by Chief Secretary/ Principal Secretary	
10:30 – 11:30	Liveability Index: Overview of Liveability Pillars, Indicators, Methodology for Collection and	MoHUA Consultants

	Computation, Organisation of the Questionnaire, Support provided by the MoHUA, Key timelines	
Tea break		
11:45 – 12:15	Overview of the Liveability Index Data Entry Portal, Progress Monitoring Dashboard,	MoHUA Consultants
12:15 – 13:00	Support required from ULB, other State Government Department/Parastatals and District Administration (Standard Operating Protocols for data collection strategy)	State Nodal Officer/MOHUA Consultants
Lunch Break		
14:00 – 15:30	Group exercise on select questions, sources and approach (30 minutes) Presentation by each group on data availability, likely challenges and solutions (60 minutes)	MOHUA Consultants
Tea Break		
15: 45 – 16:30	Physical audit and primary data collection	MOHUA Consultants
16:30 – 17:15	Next steps, coordinates exchange and close	MOHUA Consultants
17:15- 17:30	Vote of Thanks	MOHUA Consultants

4. Finalisation of the Structure of the Workshop Proceeding Report

A report summarising the proceedings of the workshop will be prepared for all the State/UT Orientation Workshops and capture discussion around the 79 indicators and supporting questions, overall status of data availability, any specific concern at state or individual city level. It will highlight suggestions or initiatives proposed by the city level stakeholders to collect data which may not be readily available. The structure of the workshop report

A tentative table of content for State Workshop Report is presented in Figure below



Assessment of Liveability Indices for 116 Cities in India

Chhattisgarh State Workshop Report
9th March, 2018

Ipsos
ATHENA INFONOMICS
The Economist Intelligence Unit

Section 1	Project Overview
Section 2	Inaugural Session: Welcome address and key note address
Section 3	Overview of Liveability Assessment and indicators: Key discussion points
Section 4	Discussion on roles and responsibilities of ULB and other data owners
Section 5	Overview of the online date entry portal: Queries raised by participants and suggestions on features, functionality
Section 6	Key discussion points on available data, data with potential challenges and suggestion by participants on data collection
Session 7	Discussion on indicators involving primary data collection and physical audits
Annex 1	List of participants
Annex 2	Workshop photographs

5.2 City Reconnaissance Mission

A total of 3 regional coordinators, 3 Senior Consultant, 24 state coordinators and 99 city coordinators[16] have been trained and deployed in the respective states starting 2nd March until 12th March. An intensive 3-day training workshop was held for all state coordinators in Chennai where a combination of game-based and participatory learning techniques was applied. All city coordinators will report to the state coordinator who are responsible for ensuring timely collection and submission of data. The detailed training structure along with the Training the Trainer's workshop proceeding is provided in Annexure 4.

Structured as an ongoing engagement process, the city reconnaissance visits began on March 2, 2018 (post the completion of the Training of the Trainers workshop held in Chennai during 26 February to 28th February 2018) and will conclude on April 16, 2018 (final date for the submission of data by the city officials). The city coordinators will be based in the city for the entire duration of the data collection phase and will extend necessary support to the city officials for coordination and collation of data.

The objective of the initial set of city reconnaissance meetings is to host data scoping meetings with the city officials to present the city-level data sheets for review, discuss timelines, identify key data gaps and understand issues/ clarifications that could be addressed during the state level workshops. The visit also intends to help the consortium to establish contacts with the government officials and examine modalities of cooperation during the assessment period.

City Reconnaissance meetings will be conducted with various stakeholders including utilities (DISCOMS, water supply, etc.) SPV for Smart Cities, different project heads, parastatals such as development authorities, district collector, concerned line departments such as health, education, police, tourism, among others. Effort will also be made to engage on a one-on-one basis with key officials within ULBs such as revenue, accounts, solid waste management etc. as well.

The principle of 'Stakeholder involved Engagement' is at the core of City Reconnaissance Meetings. This requires identifying key stakeholders, getting their attention, facilitating the engagement, generating interest, eliciting their commitment, ensuring timely action and resolving obstacles. City coordinator were encouraged to meet assigned nodal officer[17] from ULB who will be responsible for uploading the data on the portal on priority to initiate the assessment process. The city coordinator will work closely with nodal officer and other department officers which will allow them to develop a comprehensive picture of project schedule by correctly estimating time required, anticipate delays, evaluate risks and escalate concerns to the nodal officer.

---

[16] State coordinators also perform the responsibilities of a city coordinators in the following instances: 1) Manage the coordination of those cities where the State Coordinators are located and 2) States where only one city is under assessment, no city coordinators are appointed. They will be managed completely by State Coordinators

[17] Nodal officer could be smart city coordinator or someone else. However, the person identified as nodal officer for liveability Index should be a senior person who is vested with authority, commands respect, flair for implementing new initiatives, relevant exposure to ULB functioning and ability to resolve issues quickly (a problem solver).

In summary, the city coordinator will adopt the following steps:

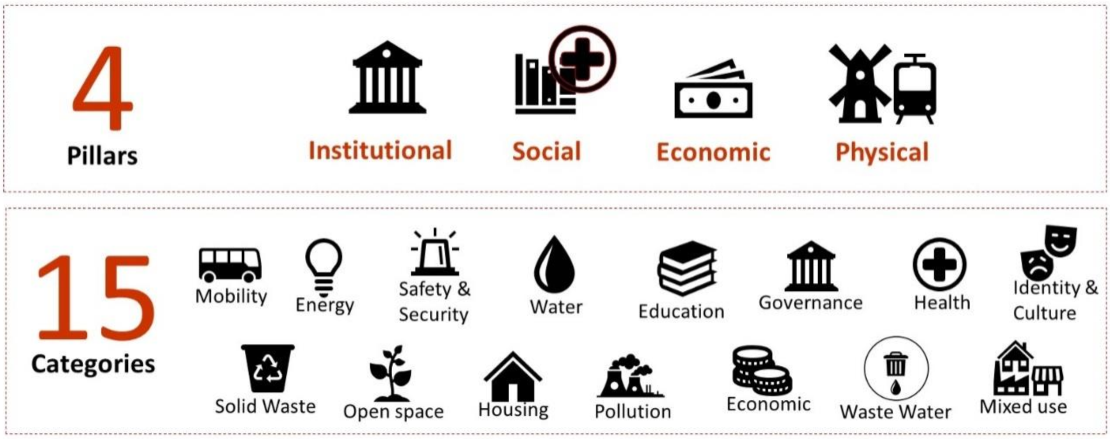
1. Partner and pair up with nodal officer
2. Map indicators and questions to
    a. Owners of the data
    b. departments involved,
    c. data sources,
    d. process required (manual to digital; compilation of daily, weekly or monthly data; validation of data obtained and documentation of steps for future implementation),
    e. contacts details of key department officials and staff
    f. mapping of gaps in availability of data
    g. engaging with ULB and other stakeholders to identify strategies for addressing the gap
3. Develop detail city specific plan to contact departments, data collection, validation, sequence and time frame
4. Review progress on a daily basis and fine tune implementation to complete the tasks in time

Weekly meetings will also be scheduled with the State Nodal Officer and other representatives to guide the city officials with sourcing of data from available publications, reports, policy documents and statistical documents; trouble shoot on questions/ clarifications and support the cities to complete data collection in a timely manner.

Chapter 6: Analysis and Dissemination

6.1 Index Development

The Methodology for Collection and Computation of Liveability Standards in Cities developed by MoHUA outlines four pillars on which the cities will be assessed. These include 'Institutional', 'Social', 'Economic' and 'Physical'. Within each broad pillar, there are 'categories' that capture different facets of the pillar. For instance, the 'social' pillar includes four categories capturing facets like identity and culture, education, health, and safety and security. There are 15 such categories spread across the four pillars. Within each category, there are multiple indicators that measure specific aspects of the category. There are 79 such indicators spread across the 15 categories.



4
Pillars
Institutional
Social
Economic
Physical
15
Categories
Mobility
Energy
Safety & Security
Water
Education
Governance
Health
Identity & Culture
Solid Waste
Open space
Housing
Pollution
Economic
Waste Water
Mixed use

Indicators are classified into 'core' and 'supporting' indicators. The scores that a city receives on these will be averaged respectively (i.e., an average score for the core indicators within a category, and an average score for all the supporting indicators within a category). The overall score for the category will be calculated by adding these two averages, such that the average for the core indicators gets a weight of 0.7 and that for the supporting indicators gets a score of 0.3.

Approach for Category Index Computation = (Average score for core indicators* 0.7) + (Average score for supporting standards* 0.3)

For example, the category for 'Identity and Culture' has three core and two supporting indicators. A city's overall performance in this category will be measured by summing up the average score it receives on the three core indicators with the average score it receives on the two supporting indicators, with the former receiving a weight of 0.7 in the sum, and the latter receiving a weight of 0.3.

The important question here, is to ascertain how the score within for a specific indicator will be awarded.

6.1.1 Ranking Methodology

Performance on a specific indicator will be encapsulated by a single summary score. Note that within each category, there are 'core' and 'supporting' indicators.

The first step in this is to calculate the value of the indicator for all cities, most commonly represented by a ratio. For example, Indicator 3.3 refers to the primary education student-teacher ratio. The numerator refers to the total number of students in primary grades and the denominator refers to the total number of teachers available for the same classes, for both private and public schools put together. As evident, lower this ratio, better is the performance of the city. Hence, City A with say a pupil teacher ratio of 50 does better than City B with a pupil teacher ratio of 70. Similarly, Indicator 12.2 measures the per capita supply of water (in lpcd). A higher ratio implies better performance of the city. So, City A with a per capita water supply of 80 lpcd may be doing worse than City B with a per capita water supply of 150 lpcd.

However, it is not feasible to conclusively say, without any further computation, which city performs better overall, based on the value of these indicators recorded by the two cities. One has a lower pupil teacher ratio, the other supplies more water in per capita terms to its citizens. These are not comparable indicators. This would be resolved if we could quantify the magnitude by which City A outperforms City B on pupil teacher ratio and compare that to the magnitude by which City B outperforms City A on per capita water supply. This can be done by comparing the performance of a city on a specific indicator, either to an external benchmark (representing an 'ideal' measure) or to the performance of all cities (representing 'average' performance). For instance, if the ideal or average pupil teacher ratio were 30, City B would be a poorer performer than if the ideal or average were 60. This comparison is the underlying principle of 'normalisation'. It translates indicator values into magnitudes of better or worse performance, allowing comparability across indicators.

Additionally, normalisation can ensure that a lower score is awarded to a worse performance and a higher score to a better performance. For example, currently a lower pupil-teacher ratio and a higher per capita supply of water indicate better performance. Normalisation allows us to correct for this, ensuring that there is a single direction of improvement, across indicators.

Refer to Annexure 7 for a list of indicators, corresponding external benchmark, and direction of improvement.

The MoHUA methodology document currently highlights three possible methods for this normalisation:

Dimensional Index Methodology

Indicator score for a city i, for indicator j, I*ij* =

$$\frac{Calculated\ value\ of\ indicator\ for\ given\ city - Minimum\ ('worst')\ value\ of\ indicator\ seen\ across\ cities}{Maximum\ (best) value\ of\ indicator\ seen\ across\ cities - Minimum\ ('worst')\ value\ of\ indicator\ seen\ across\ cities}$$

Here, the per capita supply of water of City A will be compared to the best and worst performing cities to calculate its score on this indicator. If City C has the best pupil-teacher ratio (say 30), and City B is the worst (70), the above computation for City A will be,

$\frac{50-70}{30-70} = \frac{-20}{-40} = 0.5$

In comparison, the best city (City C) gets a score of 1, and the worst city (City B) gets a score of zero. All others lie in the interval [0,1].

In case there is an external benchmark, the same can be incorporated into the computation as the 'best' (maximum) value. For example, the per capita water supply has been set a service level benchmark of 135 lpcd. Let's say the corresponding figure for City C (the worst performer) is 60 lpcd.

Hence, the indicator score for City A in this case would be –

$\frac{80-60}{135-60} = \frac{20}{75} = 0.26$

The indicator score for the 'best performer' (City B in this case) would still be 1. It is assumes that all cities performing better than the benchmark (regardless of the magnitude by which they out-perform the benchmark) can be treated at par.

Clearly this is an intuitive normalisation procedure, easy to explain to all stakeholders. However, as seen above, in the absence of external benchmarks, the maximum and minimum values would come from the data reported by cities. This entails the risk that outliers can affect scores of other cities, particularly when the outlier is because of inaccurate data. For instance, indicator 1.8 on percentage of population under Ward Committees/ Area Sabhas, has no benchmarks, and the maximum and minimum values are to come from the data submitted by cities themselves. In this case, a city reporting 100% coverage, while most others centre around (say) the 50-60% mark, will depress the score received by the latter. This is not a problem when the 100% figure is accurate. However, if it's a incorrect figure – for instance, the ward committees are in name only and there have been no meetings of the same in the assessment year – this would unnecessarily penalise the 'average' cities (albeit only in terms of score, not rank).

To address this particular concern, a detailed audit involving document review and physical is being implemented to check incorrect reporting. For example, cities are mandated to submit minutes of the ward committee meetings. The validation techniques helps to resolves this issue to a certain extent.

Deciles

As per this methodology, the value of indicators is calculated based on the data received from each city is arranged in descending order and divided into 10 equal deciles from the highest to the lowest decile. The cities in the best performing decile receive the highest score, the cities in the next decile receive the second highest score and so on. These scores can then be added up across indicators to reveal the city summary index score.

Deciles are easy to understand and can automatically handle (best performing) outliers by treating them at par with the remaining top 10% of the cities on a given indicator. However, they are likely to be unpopular among the better performing cities within a certain decile, who narrowly miss out on a better score. For instance, every city in the eighth decile gets a standard score. But those towards the top of the decile (say in the 89th percentile) may be dissatisfied with being given the same score as a city towards the beginning of the decile (say the 81st percentile).

Z scores

Z scores presents a way to measure the performance of a city relative to the performance of the other cities. The 'performance of other cities' can be summarised through two measures – the arithmetic mean or average (a measure of central tendency) and standard deviation (a measure of dispersion around the mean).

Indicator score for a city i, for indicator j, Iij =

$$\frac{Calculated\ value\ of\ indicator\ for\ given\ city - Average\ value\ of\ indicator\ seen\ across\ cities}{Standard\ deviation\ of\ indicator\ seen\ across\ cities}$$

This indicator score/ z score lies on the standard normal curve which has a mean of zero, and standard deviation of 1. This means that a negative z score indicates worse performance, relative to the mean, and a positive score indicates better performance. Naturally, this also means that the score can lie between $(-\infty, \infty)$.

The z scores do not make a reference to external benchmarks if all cities perform worse than the benchmark. If a city out-performs the benchmark however, its performance is taken to be the same as the benchmark, and the average value of the indicator (across cities) calculated accordingly.

The z score solves the outlier issue, discussed under the 'Dimensional Index Methodology', to a certain extent. This is because it is calculated with reference to the mean that refers to the **entire distribution** of values registered by all cities with reference to a specific indicator, instead of the single extreme value.

However, the main drawback of the z-score approach arises in the case where there is no external benchmark. As the Methodology document recommends, in that case, the cities within the same population brackets should be compared. Some of these groupings have very few cities – for instance, there are only five cities with a population greater than 5 million, and seven cities with a population less than 50,000. In this case, fitting a standard curve based on these few observations is not recommended.

The pros and cons of the three approaches are summarised in the table below.

Exhibit 38: Pros and Cons of the Three Index Methodology

Attribute	Dimensional index methodology	Decile approach	Z score
Intuitive meaning	Yes	Yes	No
Affected by extreme values	Yes	No	Yes, to the extent that the mean is affected by the extreme values
Statistically valid for small sample size	Yes	Yes	No
If city A performs less well than city B on a certain indicator, it always gets a worse rank than city B on that indicator	Yes, if city A's performance is short of the benchmark	No, if both city A and B fall within the same decile.	Yes, if city A's performance is short of the benchmark

Overall, the Dimensional Index methodology has the most advantages and hence will be applied in the computation of the liveability index. To resolve the issue of being affected by extreme values, we can correct for outliers, through regular statistical tests.

It is important to note that the use of benchmarks from within the dataset (where external benchmarks are not available), as recommended by the MoHUA methodology document, precludes the possibility of the composite score for a city being comparable across years.

6.2 Dissemination

6.2.1 Designing the Liveability Index Hub

The Liveability Index Hub is an economist.com website that will house the completed policy briefs, one MoHUA branded article and an interactive digital Liveability Index data map of India.

The Liveability Index data map will have interactive dots for each of the 117 cities of the Liveability Index. Each dot will reveal key liveability data for that city, including the index score, the city's ranking, and the city's rankings for the four underlying liveability pillars. The MoHUA branded article will be a 750-word piece with interviews of two senior officials or policy makers from the Ministry. Necessary support from the Ministry, in identifying the officials concerned, and facilitating the interaction with them, will be required.

Activities to be conducted will include:

- **A kick of meeting/ call**, between the relevant members of the MoHUA and editorial staff from The Economist - this will establish the parameters of the hub, including any necessary branding guidelines, as well as the key contact points from MoHUA to liaise with, on an ongoing basis, as the hub, digital map and article are developed.
- **Establishment of timeline with key responsibilities clearly delineated** - This will ensure all team members coordinate to ensure that the content is completed in a timely manner.
- **Drafting of interview questions for staff members of MoHUA –** these will be circulated to the Ministry for their input and approval, before the interviews are conducted.
- **Conducting interviews with identified MoHUA staff and drafting of the article** - final approval will be taken from the Ministry before the article goes live on the hub.
- **Sharing of initial design ideas for the hub,** as well as the interactive Liveability Index map with the Ministry before finalization of design.
- **Design of map** and obtaining MoHUA approval of the same before the completion of the data collection exercise - once the data is finalised, the data will then be added to the map.
- **Design of the hub and obtaining MoHUA approval of the same.** Once completed, the hub will need three days for testing, and MoHUA will have final approval of the completed hub and content before it goes live.

As indicated above, the Economist Group will liaise with MoHUA through regular update calls regarding the development of the hub and content pieces and will seek input and feedback from MoHUA on the design and interactivity of the index map and hub, as well as final approval for the article.

6.2.2 Media Plan

The outcome of better performance in liveability index depends on engagement, satisfaction, participation, collaborative perspective, feeling safe, belongingness, wellness and overall happiness. Audience could be segmented in multiple ways, using demographic variables, income, education, media access, attitudes, knowledge, or values. There are number of existing segmentation frameworks, such as SEC classifications, psychographic or VALS. They are precision tools to push contents in the minds, directly or indirectly, to secure a wallet share for the brand in question. Such approaches used both in commercial and social marketing, selling the brands, products, services and concepts. Such media campaigns require media specialists, focussed, episodic and expensive.

A media intervention that engages general public to act in public interest to contribute to public good requires a multi-dimensional perspective. Improvement in liveability concerns everyone in a city at any moment, touches individuals / groups wherever they are, experienced in tangible and intangible forms, woven into variety of decisions (spatial and temporal) and find articulation and expressions in many different formats. It is all pervasive, omnipresent and continuous.

This being the case, media plan, has to recognise multiple dimensions of each audience set being targeted. An individual could be at any moment experience varying shades of being an user (hospital / parks / roads), enforcer (authority), influencer (blogger), provider (services), victim (sickness), or beneficiary (covered cycle path).

The media plan shall adopt a few aspects of social marketing. Provision of **information**, **educating** audiences on concepts, experiences, duties and responsibilities, choosing appropriate **communication** options - media, channels and formats, **demonstrating** appropriate attitude, responses and behaviours and carefully planned **reinforcement** to nudge everyone along a continuum of no awareness to a sustained collaborative interaction resulting in desired outcomes. The information, Education, Communication, Demonstration and Reinforcement (IECDR) framework is useful to reach out to diverse set of audiences, engaging them in space and time clusters, build trust, encourage collaboration, and own the responsibility for improving liveability quotient.

Branding is essential to create visibility, trust, participation, contribution and sustainability. Public service related issues are peripheral to an individual, family, group, business, administration, elected representatives and even media. Therefore, a much focus is required to build a credible brand around the concept of improving living standards to inspire city dwellers to take tangible actions.

Strategy proposed here is to build a mother brand over a period of time, by placing them appropriately in a variety of media, format, mode, timing and delivery. The brand will be discovered in a course of time, interpreted, owned and nurtured subsequently. Collective engagement underlies this strategy and will be emphasised across the spectrum of media strategy implementation. How to hasten this process are discussed below.

The strategy will shift the focus from administrators, regulators, service providers and politicians to urban dwellers. If this strategy is successful perception of government owning, managing, punishing and rationing services will give way to putting urban dwellers in the centre of existence of cities. The despair, distrust, disobedience, detachment, confusion, crime, gender related insecurity and conflict will give way to engagement, friendly disposition, lesser confusion and chaos, collaboration with civic authorities, participation, safer and secure public spaces, citizen initiatives and revival of cultural and performing arts.

The media plan will focus on creatively communicating emotions, skills, behaviours and experiences that will drive the outputs and outcomes. The focus will be on:

- **Attract Attention of Key Stakeholders:** Meaningful Emotions, Behaviours, Experiences and Outcomes. Create visibility for mother brand and the extensions: Governance, Social, Economic and Infrastructural. Impelling stakeholders seek details of Liveability Index. Dedicated interactive websites, apps, gamification of interactions, reinforcement using media mix surrounding stakeholders at multiple touch points.

- **Engaging Key Stakeholders:** Engaging government agencies involved in compiling, city users who will be benefitted, media to shape public opinion around importance of liveability index, moral responsibility of all stakeholders, demonstrating appropriate behaviours and reinforcement

- **Bonding:** Nurture meaningful experiences for all stakeholders, emphasizing inter-connectedness and encouraging appropriate expressions through improvement in performance in liveability index

– ULBs, Administration, Users (Individuals, Businesses, Governments and Associations) and Media. Improving performance in liveability is an expression of quality of ongoing relationships amongst various stakeholders.

To keep this in public imagination it is important to create, nurture and expand branding. A mother brand that identifies and contextualize central, state, and city agencies providing centre stage to the users. Governance, social, economic, and infrastructure, the four pillars will be treated as extensions of mother brand. Liveability Index, specifically performance on indicators, will be used to rally around various stakeholders to achieve primary goal of liveable cities essential for optimum performance in productivity, inclusiveness, sustainability, well-being and happiness, specifically of children.

Key Messages	**To shape values, perceptions, attitudes, skills and behaviours of key stakeholders**				
	State Government	**Urban Local Bodies- Elected Representatives**	**Administration – Officials, desk workers and field staff**	**City inhabitants – Individuals, Businesses and Associations**	**Media**
To improve Liveability in Cities, which is a desired future, focus is required now on diverse needs of users to improve productivity, Inclusiveness, well-being, happiness and sustainability	Importance of coherent policy, plan, and resource allocation	Need for city specific pro-active planning, allocating resources, and reflecting aspiration of city inhabitants	User focused execution, quality assurance, innovation, flexibility, documentation, reporting and performance improvement	Inhabitants' role in collaborating with planners, executives and elected representatives, affirmative actions to improve performance, advocacy and ownership	Promote positive public opinion, responsive reporting facilitating collaboration amongst various stakeholders and advocate for appropriate policies
Liveability, inclusiveness, happiness and sustainability are linked to productivity	City specific focus for development, support to cities for overcoming obstacles and improving enablers	Focus on well-being of individuals, households and communities; continuity of businesses, institutions and association; and ability to participate and contribute.	Realistic about obstacles and opportunities; implement tough It is necessary, therefore, to understand the different needs of diverse groups of people who live in our cities, and	Recognition that Cities are integral to economy, prosperity and well-being. Powerful roles individuals, businesses and associations in making the city liveable, productive,	Inform, educate, and inspire for engagement, participation, collaboration and contribution with human interest stories, shaping attitudes and

			how their needs may change over time.[18] measures, if required, diligently; deal with factors affecting near term and long-term productivity	inclusive and sustainable.	behaviours and impacting newer skills.
Liveability Index, directly and indirectly measures variables contributing to productivity, happiness, well-being and sustainability	Monitor, incentivize and build capacity of ULBs, Executives, Media and User Groups	Sensitive to adequately capturing performance, interpretation of results and use it for monthly, quarterly and annual reviews	Ensure indictor specific information is compiled diligently, analyzed and appropriate corrective actions.	Use Liveability Index outcome to improve performance through engagement, participation and contribution	Emphasis on vigilance, accountability, transparency and inclusive governance
The variables are inter-connected, requires continuous efforts and smart utilization of technology	Balanced allocation of resources and appropriate directives to cities to improve underperforming areas and improving or sustaining adequately performing areas	Monitor, advise and support administration and other departments to close the gaps in performance	Sustain stakeholder involved execution of interventions with appropriate planning, resource allocation, monitoring	Utilize smart digital technologies to monitor, demand and remain vigilant for accountability, transparency and inclusive governance	Link liveability, sustainability, and productivity to smart utilization of, contributions to, participation in city spaces, amenities and city systems
Being smart is essential for improving productivity, inclusiveness, happiness, well- being, sustainability and liveability.	Continuously encourage adoptions of smart systems in all the cities balancing with overall development to reduce	Push for anytime access to public goods, services and spaces to optimize productivity, liveability and sustainability	Set up, run and ensure 24x7 access to public goods, services and spaces; encourage utilization of improved facilities to	Individuals, businesses, organizations and governments to utilize smart systems to improve their well-being with	Capture lessons learnt, popularize life styles that reflect smart living and bring it up on popular discourse with

Cities are engines / drivers of overall growth and improving well-being.	increasing stress on the cities		humanize and optimize economy, society and environment.	emphasis on improving productivity, sustainability and livability	appropriate columns, programmes, blogs, videos, etc.
Our children require smart cities that facilitate liveability, inclusiveness, sustainability and productivity	Present and future focused. Focus on attributes that makes cities liveable, inclusive, sustainable, productive suitable for a fuller life for all segments, including children, women, elders, persons with disability, pets and green cover	Contribute to larger national, state and district vision aligning cities' priorities to provide for services and spaces and goods essential for all groups, including children.	Ensue collaboration, cooperation, participation, and contribution for sustaining achievements and realizing the goal of making the cities liveable, inclusive, productive and sustainable with focus on vulnerable segments with specific reference to children	A life style of respect, trust, authenticity, sharing, participation, contribution, participation, and pride in being an inhabitant of a city. A world view reflected in values, norms, and behaviours facilitating creativity, innovation and enterprising removing edge of rush, rage and waste	Encourage, celebrate and contribute to sustaining a positive world view – values, norms and behaviours – that sustain respect, trust, authenticity, sharing, participation and pride amongst everyone specifically vulnerable segments

Detailed media strategy is described in Annexure 5

Chapter 7: Quality Control and Project Management Structure

7.1 Project Management Team

As outlined in the proposal, a four-tier project planning, governance and execution team for timely completion of the overall project and sub-tasks thereof is deployed. Project Director, National Project Coordinators, and Senior members from the Support/Analytical Team constitute the Project Command Centre Team. The PCC coordinates and manages all activities for the Assessment of Liveability Indices and provide a central point of contact for both MoHUA and the Technical Team, State Specific teams. The PCC will **ensure compliance of with the working procedures and quality assurance measures that have been designed for the success of this project**.

Two national level project coordinators along with five regional coordinators and 30 state/UT level coordinators are fully engaged in managing information exchange across the core team, field team and support/analytics team. A 15 to 18 member support team comprising senior economists, policy expert, statisticians, data scientists, visualisation experts, senior analysts, urban planner, IT expert and content editor are also providing research, analytical and technical support to the core and field teams. Figure below presents our organisation and staff of key and non-key experts on this assignment. The Core Team, Project Director, Project Coordinators, and regional and functional teams illustrated in our team structure will be responsible for the overall design and delivery of the central tasks as well as monitoring quality on each. They are supported by an experienced senior director of the consortium

The PCC team is supported by 6 additional members- regional coordinators (3) and Senior Consultants (3) who are supporting all activities for the project for the states in their region.

A brief overview of the team’s core responsibilities is as below:

Regional Coordinators: The Regional Coordinators will support the State Facilitators in scheduling and conduct of state level workshops, support facilitation of city level kick-off meetings, oversee the translation of the questionnaire and other materials into the relevant languages, provide feedback on the pilot and oversee all data collection activities. They will contribute to the interim and technical reports and be responsible for reviewing and approving the datasets for the states and cities in their region.

State Coordinators: They are POC for State Mission Director’s office and allied departments. They will be supported by city specific teams for carrying out the tasks outlined such as scheduling and conduct of state level workshops (supported by Regional Coordinator) and PCC team, city reconnaissance studies, coordinating and facilitating submission of secondary data, training the city teams for primary validation, and HH surveys. Their specific roles and responsibilities are as below:

- Attend the Training of Trainers (ToT)
- Plan, schedule and deliver state level workshop
- Prepare and submit workshop report in prescribed template
- Identify, recruit, and on board the city coordinators for all cities (one per city) in the state
- Training of city coordinators on all components of data collection (Primary, Secondary & physical validation)
- Lead and deliver the tasks for assessment of the city/cities assigned
- Monitoring of progress –Completion and quality for all cities within the state as per plan agreed
- Provide online and offline support to city officials/ stakeholders as necessary to input data with support from centralized help desk
- Prepare city recon report in prescribed template provided by Ipsos
- Ensure 100% data submission on portal by prescribed date (16th April)
- Provide daily update as requested by Central team or Ministry

City Coordinator: They are the first point of contact for city officials and are stationed at the city starting 12th March / earlier until 16th April and will ensure facilitation and timely submission of the data. Specifically, their role is as below:

- Get oriented by state coordinator before the state level workshop
- To be stationed in the city responsible for during the entire periods of the assignment
- Mapping of stakeholders specific to the city
- Coordinate with department appointed nodal point of contact to facilitate online data entry by the cities
- Collect the secondary documents as outlined in audit protocols
- Complete the physical audit in the city for all indicators identified
- Plan, coordinate and deliver the primary survey as per the guidelines provided during the training
- Prepare and submit the city folder where they will compile all the secondary evidences collected from the study
- Provide daily update on data submission and challenges faced
- Liaison with stakeholders
- Escalate any city level issues that may impact the submission of the data by the cities
- Submit the city reconnaissance meeting report

Focal point at the Ministry: Two staff members have been deployed at the Ministry to facilitate coordination at MoHUA and state level teams and address any coordination issues. These team is reporting daily progress to the MoHUA team and seeks suggestions and intervention as needed to facilitate work at the state and city level. This is also a mechanism to anticipate risk and initiate mitigation to avoid delays and coordination challenges.

7.2 Project Reporting

7.1.1 Timeline

The status of all the tasks completed till date for each of the component of the study and also the planned dates for the tasks are presented in the exhibit below

Tasks	Current status	Start date	End date
Indicator Review and Finalisation	Completed	Fri, 19 Jan 18	Tue, 13 Feb 18
Pre inception meetings	Completed	Fri, 19 Jan 18	Fri, 19 Jan 18
National workshop delivery	Completed	Tue, 13 Feb 18	Tue, 13 Feb 18
Submission of workshop proceedings	Submitted	Mon, 19 Feb 18	Tue, 20 Feb 18
Media Plan	Submitted	Wed, 31 Jan 18	Wed, 07 Feb 18
1 State Coordinators Training			
Finalise the Training Agenda	Completed	Mon, 19 Feb 18	Tue, 20 Feb 18
Develop the ToT Material	Completed	Mon, 19 Feb 18	Fri, 23 Feb 18
Secondary data verification format and documents to be collected	Completed	Mon, 19 Feb 18	Fri, 23 Feb 18
Physical Audit protocols	Completed	Mon, 19 Feb 18	Fri, 23 Feb 18
Primary Survey data collection tools	Completed	Mon, 19 Feb 18	Fri, 23 Feb 18
City Reconnaissance Schedule	Completed	Mon, 19 Feb 18	Fri, 23 Feb 18
Review of training materials by team	Completed	Wed, 21 Feb 18	Fri, 23 Feb 18
Finalising logistics	Completed	Mon, 12 Feb 18	Fri, 23 Feb 18
Delivery of ToT	Completed	Mon, 26 Feb 18	Wed, 28 Feb 18
Filing of Training Report	Completed	Thu, 01 Mar 18	Wed, 07 Mar 18
2 Pilot test of data entry interface			
DEI- Final Version goes live	Completed	Fri, 02 Mar 18	Fri, 02 Mar 18
Finalising 5 cities -one from each category for pilot test	ongoing	Fri, 09 Mar 18	Mon, 19 Mar 18
Brief the State/City Coordinator for pilot test	ongoing	Fri, 09 Mar 18	Mon, 19 Mar 18
Facilitate data entry by 5 cities	ongoing	Fri, 09 Mar 18	Mon, 19 Mar 18
3 Project Monitoring and Analytical Dashboard			
Development of the dashboard (beta version)	Completed	Fri, 02 Mar 18	Fri, 09 Mar 18
Sharing the dashboard with MoHUA	Completed	Mon, 12 Mar 18	Mon, 12 Mar 18
Feedback incorporation and launch of dashboard	Completed	Thu, 15 Mar 18	Thu, 15 Mar 18
4 Inception Report			
Develop the ToC for Inception Report	Completed	Mon, 19 Feb 18	Tue, 20 Feb 18
Submission of Inception Report	Scheduled	Fri, 16 Mar 18	Fri, 16 Mar 18
5 Preparation of primary data collection and physical audit			
Develop sampling strategy document for HH and Slum Survey	Completed	Mon, 26 Feb 18	Thu, 15 Mar 18
Drafting detailed methodology for primary survey and physical audits including sampling	Completed	Mon, 19 Feb 18	Thu, 15 Mar 18
Briefing of Zonal Coordinators on components of citizen survey and physical audit (Schools, Hotels, and Hospitals)	Completed	Mon, 05 Mar 18	Thu, 15 Mar 18
6 Citizen Pulse- Tool finalisation			
Finalising the tool	ongoing	Tue, 20 Feb 18	Mon, 19 Mar 18
Scripting of tool	Yet to begin	Mon, 19 Mar 18	Wed, 21 Mar 18
Translation of citizen pulse tools in 11 languages	Yet to begin	Wed, 21 Mar 18	Fri, 23 Mar 18
Finalise script in 11 languages	Yet to begin	Mon, 26 Mar 18	Mon, 26 Mar 18
State level trainings for citizen pulse	Scheduled	Tue, 27 Mar 18	Wed, 28 Mar 18

Tasks	Current status	Start date	End date
7 Primary Survey and Physical Audit -non HH			
Develop the research instruments for primary survey	Completed	Fri, 02 Mar 18	Thu, 15 Mar 18
Water Testing- CRM -confirm water testing protocols and reporting templated	Completed	Fri, 02 Mar 18	Thu, 15 Mar 18
Noise Pollution-CRM- confirm noise pollution testing protocols and reporting template	Completed	Fri, 02 Mar 18	Thu, 15 Mar 18
Integrated Command Centre-CRM- Audit and observation schedule and reporting template	Completed	Fri, 02 Mar 18	Thu, 15 Mar 18
Surveillance System Audit-CRM	Completed	Fri, 02 Mar 18	Thu, 15 Mar 18
Vendors formal space audit-CRM-confirm audit protocol and reporting template	Completed	Fri, 02 Mar 18	Thu, 15 Mar 18
PIS, Pedestrial crossing, universal accessbility- CRM- confirm audit protocol and reporting template	Completed	Fri, 02 Mar 18	Thu, 15 Mar 18
8 Primary Survey and Physical Audit -non HH			
Develop the research instruments for primary survey	Completed	Fri, 02 Mar 18	Thu, 15 Mar 18
Hotel Occupancy- Ops- confirm audit protocols & reporting templates	Completed	Fri, 02 Mar 18	Thu, 15 Mar 18
Digital Education-Ops-confirm audit protocols & reporting templates	Completed	Fri, 02 Mar 18	Thu, 15 Mar 18
EMRS-Ops-confirm audit protocols & reporting templates	Completed	Fri, 02 Mar 18	Thu, 15 Mar 18
Sign off on all final instruments	Completed	Fri, 02 Mar 18	Thu, 15 Mar 18
9 Data Collection- primary (CRMs, physical audit, and primary survey) **Primary Data collection- Operations**			
Screening and recruitment of field teams	Planned	Mon, 19 Mar 18	Tue, 27 Mar 18
Data collection	Planned	Thu, 29 Mar 18	Thu, 29 Mar 18
Online monitoring and upload of status	Planned	Wed, 21 Mar 18	Mon, 16 Apr 18
Field work completion	Planned	Mon, 30 Apr 18	Mon, 30 Apr 18
10 Primary Data collection- CRMs including physical audit indicators and Primary Survey **Set up Tasks**			
Training of City coordinators for physical audit and primary survey	Ongoing	Wed, 07 Mar 18	Mon, 19 Mar 18
Data collection	Planned	Mon, 02 Apr 18	Mon, 23 Apr 18
Field work completion	Planned	Mon, 23 Apr 18	Mon, 23 Apr 18
11 Secondary			
Online data entry interface (V1) linked and available on Smartnet	Completed	Fri, 02 Mar 18	Mon, 05 Mar 18
Log in ids created and informed to city officials	Completed	Fri, 02 Mar 18	Mon, 05 Mar 18
Data entry protocols including sources informed	Ongoing	Fri, 09 Mar 18	Sat, 24 Mar 18
Help desk set up and activated	Completed	Wed, 21 Feb 18	Fri, 02 Mar 18
Follow up to enable concurrent submission of data by cities	Ongoing	Thu, 22 Feb 18	Mon, 12 Mar 18
Review of data gaps and circulation of a report on the same to cities/State Nodal Officer (facilitated by the SC)	Ongoing	Fri, 09 Mar 18	Sat, 24 Mar 18
Data collation	Yet to begin	Thu, 15 Mar 18	Fri, 30 Mar 18
Data analysis, triangulation	Yet to begin	Mon, 02 Apr 18	Mon, 16 Apr 18
Sign off by MC on data submitted on the portal	Scheduled	Fri, 20 Apr 18	Fri, 20 Apr 18
City dossier with all secondary evidence compiled	Scheduled	Wed, 25 Apr 18	Wed, 25 Apr 18
12 State Workshop Set up and Delivery			
Procure a list of State Nodal Person (SNP) from MoHUA	Completed	Mon, 19 Feb 18	Tue, 20 Feb 18
Finalise concept note for state workshops	Completed	Mon, 19 Feb 18	Thu, 22 Feb 18
Sign off by MoHUA for state workshop agenda	Completed	Fri, 23 Feb 18	Fri, 23 Feb 18
Send letters to all State Stakeholders including concept note, potential list of participants and workshop logistics	Completed	Mon, 26 Feb 18	Mon, 05 Mar 18
Mobilisation of workshop participants	Ongoing	Thu, 01 Mar 18	Fri, 23 Mar 18
Preparation of an Orientation Deck for State Workshops - Indicators + People (City + SC/RC), Process (timeline, SoPs), Technology (DEI), + Nuanced caselets + Use case motivations + Quiz	Completed	Mon, 26 Feb 18	Fri, 09 Mar 18
Uploading of photo journals for the state workshop	Scheduled	Fri, 16 Mar 18	Fri, 30 Mar 18
State Workshop proceedings template developed	Planned	Mon, 12 Mar 18	Mon, 19 Mar 18
State workshop proceedings written	Planned	Tue, 20 Mar 18	Fri, 30 Mar 18
Review and Submission of state workshop reports	Planned	Tue, 20 Mar 18	Fri, 30 Mar 18

Tasks	Current status	Start date	End date
13 City Reconnaissance Meeting			
Entry level meetings with ULB officials and stakeholder officials	Ongoing	Mon, 05 Mar 18	Fri, 23 Mar 18
Collecting secondary evidence	Ongoing	Tue, 13 Mar 18	Mon, 16 Apr 18
Physical audit	Yet to begin	Mon, 02 Apr 18	Fri, 20 Apr 18
Data collection for primary survey- EMRS	Yet to begin	Mon, 02 Apr 18	Fri, 20 Apr 18
Data collection for water quality testing-HH	Yet to begin	Mon, 02 Apr 18	Fri, 20 Apr 18
Data collection for water public surface water bodies	Yet to begin	Mon, 02 Apr 18	Fri, 20 Apr 18
Data collection for noise pollution	Yet to begin	Mon, 02 Apr 18	Fri, 20 Apr 18
Data collection on Mode share	Yet to begin	Mon, 02 Apr 18	Fri, 20 Apr 18
Submission of bi weekly report on CRMs	Yet to begin	Mon, 12 Mar 18	Fri, 13 Apr 18
Submission of CRM completion report	Yet to begin	Fri, 13 Apr 18	Mon, 30 Apr 18
Task 14 A- Analysis and reporting			
Tabulation and Analysis	Yet to begin	Fri, 20 Apr 18	Wed, 25 Apr 18
Citizen based ranking of cities	Yet to begin	Thu, 26 Apr 18	Thu, 10 May 18
Task 14 B-Primary Survey			
QC of primary survey data collection (BC)	Yet to begin	Mon, 16 Apr 18	Mon, 30 Apr 18
Format for analysis agreed	Yet to begin	Tue, 03 Apr 18	Mon, 30 Apr 18
Reports submitted- Noise pollution	Yet to begin	Tue, 03 Apr 18	Fri, 20 Apr 18
Reports submitted - Water quality testing	Yet to begin	Tue, 03 Apr 18	Fri, 20 Apr 18
Mode share?	Yet to begin	Tue, 03 Apr 18	Fri, 20 Apr 18
Public water bodies?	Yet to begin	Tue, 03 Apr 18	Fri, 20 Apr 18
EMRS?	Yet to begin	Tue, 03 Apr 18	Fri, 20 Apr 18
Task 14 C- Physical Audit			
Protocol for reconciliation agreed and signed off	Yet to begin	Thu, 15 Mar 18	Mon, 16 Apr 18
Data comparison and reconciliation	Yet to begin	Mon, 16 Apr 18	Mon, 30 Apr 18
Task 14 D- Ranking of Cities			
Discussion on ranking methodology	Yet to begin	Mon, 05 Mar 18	Thu, 15 Mar 18
Sign off on ranking methodology by MoHUA	Scheduled	Mon, 26 Mar 18	Mon, 26 Mar 18
Ranking of cities	Yet to begin	Wed, 25 Apr 18	Mon, 14 May 18
Presenting the ranking to MoHUA	Yet to begin	Tue, 15 May 18	Tue, 15 May 18
Sign off on ranking by MoHUA	Scheduled	Tue, 15 May 18	Tue, 15 May 18
Task 15- City Assessment Report			
Finalise design and structure of city assessment report	Yet to begin	Tue, 01 May 18	Thu, 10 May 18
Draft city assessment reports (Version 1)	Yet to begin	Thu, 10 May 18	Wed, 30 May 18
Submission to MOHUA	Scheduled	Wed, 30 May 18	Wed, 30 May 18
Sharing of DARs with ULB/State Nodal Officers for validation	Planned	Wed, 30 May 18	Mon, 11 Jun 18
Task 16- Final City Assessment Report			
Incorporation of feedback from cities/state Nodal Officers	Planned	Fri, 01 Jun 18	Tue, 05 Jun 18
Final F-CARs	Planned	Fri, 01 Jun 18	Mon, 11 Jun 18
QC of F-CARs (external)	Planned	Mon, 11 Jun 18	Fri, 15 Jun 18
Submission to MOHUA	Scheduled	Fri, 15 Jun 18	Fri, 15 Jun 18
Task 17- Economis.Com Hub			
Preliminary discussion on objectives and outreach of the Hub	Yet to begin	Tue, 01 May 18	Fri, 04 May 18
Design and structure of the hub	Yet to begin	Tue, 08 May 18	Tue, 15 May 18
Sign-off by MoHUA	Yet to begin	Mon, 21 May 18	Mon, 21 May 18
Developing the hub	Yet to begin	Mon, 21 May 18	Wed, 30 May 18
Review and finalization	Yet to begin	Thu, 31 May 18	Mon, 04 Jun 18
Launch of the hub	Yet to begin	Tue, 05 Jun 18	Tue, 05 Jun 18
Task 18- City GDP Framework			
Preliminary discussion on feasiblity of city GDP	Yet to begin	Wed, 18 Apr 18	Wed, 25 Apr 18
Outline of City GDP framework	Yet to begin	Wed, 18 Apr 18	Wed, 25 Apr 18
Assessing data availability/gaps	Yet to begin	Thu, 26 Apr 18	Mon, 07 May 18
Revising Outline based on data availablity/gaps	Yet to begin	Thu, 26 Apr 18	Tue, 08 May 18
Submission of Outline to MOHUA for comments	Yet to begin	Tue, 08 May 18	Tue, 08 May 18
Selection of ONE city for piloting the City GDP Framework	Yet to begin	Tue, 08 May 18	Tue, 08 May 18
Application of City GDP framework on the identified city	Yet to begin	Wed, 09 May 18	Mon, 21 May 18
Presentation of findings and development of City GDP Assessment Framework	Yet to begin	Wed, 30 May 18	Wed, 30 May 18
Task 19- Data Interoperability Framework			
Preliminary discussion on data interoperability framework	Yet to begin	Fri, 04 May 18	Tue, 15 May 18
Submission of white paper with suggestions	Yet to begin	Wed, 30 May 18	Wed, 30 May 18
Other tasks completed			
Indicator Review and Finalisation	Completed	Fri, 19 Jan 18	Tue, 13 Feb 18
Pre inception meetings	Completed	Fri, 19 Jan 18	Fri, 19 Jan 18
National workshop delivery	Completed	Tue, 13 Feb 18	Tue, 13 Feb 18
Submission of workshop proceedings	Completed	Mon, 19 Feb 18	Tue, 20 Feb 18
Media Plan	Submitted	Wed, 31 Jan 18	Wed, 07 Feb 18

7.1.2 Project Monitoring Dashboard

A progress monitoring dashboard is a portal- specialised website that serves two main purpose:

- **Management Tool:** Allows for project monitoring by capturing near to real time updates on the overall timelines and the progress against each timeline
- **Communication Tool:** The dashboard is designed as a public interface which is open to all and provides an overview of the schedules, data collection instruments and information on participant list along with the state workshop reports

Promoting transparency and accountability, the tool will monitor the progress of 30 State/UT level workshops and City Reconnaissance Meetings and provide updates on the progress made by cities on secondary data submission. Associated documents such as workshop agenda, list of participants, discussion materials, workshop proceedings/minutes and photographs will also be made available through the dashboard.

Using this interactive dashboard is intuitive and fairly easy; users can filter datasets and data is presented as pie charts, maps and progress bar. A list of functions with the user interface elements is presented in the table below:

Exhibit 39: List of Functions and UI Elements of the Dashboard

National level	• Number of states: data started (pie chart) • Number of states: data not started (pie chart) • Number of states: completed (pie chart) • Number of cities: data started (pie chart) • Number of cities: data not started (pie chart) • Number of cities: completed (pie chart) • List of states: data has started (map) • List of states: data has not started (map) • List of states: data has completed (map) • List of cities: data has started (map) • List of cities: data has not started (map) • List of cities: data has completed (map) • Percentage completion: each data owner (progress bars) • Percentage completion: each thematic area (progress bars) • Percentage completion: each indicator (progress bars)
State Filter	• Number of cities in the state • Number of cities in this state: data has started (pie chart) • Number of cities in this state: data has not started (pie chart)

	• Number of cities in this state: data has completed (pie chart) • List of cities in this state: data has started (map) • List of cities in this state: data has not started (map) • List of cities in this state: data has completed (map) • Percentage completion: each data owner in this state (progress bars) • Percentage completion: each thematic area in this state (progress bars) • Percentage completion: each indicator (progress bars)
City filter	• Percentage completion: each data owner in this city (progress bars) • Percentage completion: each thematic area in this city (progress bars) • Percentage completion: each indicator (progress bars)
Thematic area filter	• Number of states: data started in this area (pie chart) • Number of states: data not started in this area (pie chart) • Number of states: completed in this area (pie chart) • Number of cities: data started in this area (pie chart) • Number of cities: data not started in this area (pie chart) • Number of cities: completed in this area (pie chart) • List of cities: percentage completion (progress bars)
Indicator filter	• Number of states: data started in this area (pie chart) • Number of states: data not started in this area (pie chart) • Number of states: completed in this area (pie chart) • Number of cities: data started in this area (pie chart) • Number of cities: data not started in this area (pie chart) • Number of cities: completed in this area (pie chart) • List of cities: percentage completion (progress bars)
Data owner filter	• Number of states: data started in this area (pie chart) • Number of states: data not started in this area (pie chart) • Number of states: completed in this area (pie chart) • Number of cities: data started in this area (pie chart) • Number of cities: data not started in this area (pie chart) • Number of cities: completed in this area (pie chart) • List of cities: percentage completion (progress bars)

7.2.2 Progress reporting to MoHUA

As an interim measure, the consortium relied on the data collection status report (excel format) to report on progress while developing the project monitoring tool with advanced functions and data visualisation capabilities. This tool allowed Ministry of Housing and Urban Affairs to track the extent to which the city officials are reporting the data and provides a status update. Reports were generated at the end of each day and presents updates on the commencement, progress and completion of assessment questionnaire which can tracked by states, cities as well as by data owners. Indicators that were tracked and reported as part of the data collection status report is provided below:

Summary Report	• **Total Number of cities logged in the portal** • **Total Number of cities that have started the assessment** • **Total Number of cities yet to commence the assessment** • **Total Number of cities that have completed the assessment** • **Total Number of States that have completed the assessment** • **Total Number of States yet to complete the assessment** • **National Progress Status Data Owner Wise**
City Wise Report	• Cities Logged in the Portal(Yes/No) • Total number of question answered (0/560) • Total Progress Status (in %) • Data collection progress report by data owners

Additionally, the monitoring tool also reported on the queries raised by the city officials either through the state coordinators or through the online portal as well as the responses provided.

The detailed reporting template is provided in Annexure 8.

Annexure 1: List of Changes made to the Indicator List

Indicator no.	Indicator name	Modifications
1.1	Percentage of citizen services available online	Relevant services and their aspects which would be beneficial for citizens to be accessed online were identified. These would determine the extent to which services are accessible online.
1.2	Percentage of services integrated through Command Centre	Refined the list of services which could be integrated to a command and control centre based on the proposals submitted by cities for setting up of ICCC. For instance, Smart Parking, provisioning of Citizen kiosks, smart strips, integration of ERP, etc. has been included. In case of absence of an integrated command and control centre (which is the case for majority of the cities), cities are requested to identify the services which have singular operations or an independent command and control centre.
1.7	Capital spending as percentage of total expenditure	This indicator was re-defined to include capital and revenue expenditure made by the ULB from its own income. This would remove any bias cities face because of amount received from central or state government dedicated to capital expenditure.
2.2	Percentage of ecologically important areas covered through projects for restoration	Ecologically sensitive areas were clearly defined so as to make it easier for cities to identify them. It was decided to include wildlife sanctuaries, national parks, habitats of migratory birds, endangered species (flora/fauna), forests, surface water bodies, watershed sites, coastlines, riverfronts, wetlands, uninhabited islands, origin of river sites, mangrove sites, etc. This was based on the guidelines by the Ministry of Environment, Forest and Climate Change
2.5	Number of cultural/sports events hosted by city	Number of cultural/ sports events considered has been broadened to include privately organised non-restrictive events.

3.5	Percentage of students completing primary education	Due to lack of availability of data, it was proposed that 'Apparent Cohort method' suggested by the Sarva Shiksha Abhiyan manual for planning and appraisal will be employed to calculate the survival rate.
3.6	Percentage of students completing secondary education	Due to lack of availability of data, it was proposed that 'Apparent Cohort method' suggested by the Sarva Shiksha Abhiyan manual for planning and appraisal will be employed to calculate the survival rate.
5.1	Number of streets, public places, junctions covered through surveillance systems	Instead of counting the number of streets or public places covered through CCTV cameras, the number of CCTV cameras installed per unit road length will be considered. The changed metric would help to capture the coverage density of the surveillance system.
7.2	Percentage of slum areas covered through basic services	This indicator has been re-defined as percentage of slums and percentage of slum household which are covered through basic services.
10.3	Average number of electrical interruptions per customer per year	This indicator was re-defined to include absolute number of electrical interruptions to eliminate the base effect
10.4	Average length of electrical interruptions per customer per year	This indicator was re-defined to include the absolute length of electrical interruptions to eliminate the base effect
11.	Geographical coverage of public transport	In case of non-availability of total route length network (especially for bus routes), number of stops will be used as a proxy.

Development Authority	Rainwater Harvesting	Does the state/city has norms (law/by-laws/guidelines) for rainwater harvesting in the city?		By-laws/norms/guidelines document	Secondary	Planning permission records	City Development authority/ULB	Please specify if the state Government has formulated norms for making rainwater harvesting mandatory. These norms could form part of building byelaws (as in the case of Arunachal Pradesh, Assam) , water management (as in the case of Bihar), municipal rules (e.g., West Bengal), Development Control

								Rules (e.g., Dadra Nagar Haveli) or any other law.
Development Authority	Rainwater Harvesting	Are the norms notified?		state Gazette	Secondary	Planning permission records	City Development authority/ULB	If a state or city has a by-law for setting up of rainwater harvesting systems in the properties and the same have been published in the state Gazette, then it is considered to be notified.
Development Authority	Rainwater Harvesting	Is rainwater harvesting mandatory for all properties in the city?		Planning permission records	Secondary	Planning permission records	City Development authority/ULB	Do the norms require all properties to install rain water harvesting irrespective of size or topology of the plot
Development Authority	Rainwater Harvesting	Please specify the number of properties to which technical support for installation of rainwater harvesting facilities was provided by the ULB.	Number	Rainwater Harvesting Cell Records	Secondary	Planning permission records	City Development authority/ULB	Technical support provided by the ULB may include provision of design specification for RWH systems to households/commercial establishments/institutions and/or having a

								dedicated technical cell for RWH.
Development Authority	Rainwater Harvesting	Please specify the number of properties to which financial support for installation of rainwater harvesting facilities was provided by the ULB.	Number	Rainwater Harvesting Cell Records	Secondary	Planning permission records	City Development authority/ULB	Financial assistance may include provision of a subsidy under a scheme or rebate on property tax to those who have installed RWH systems in their premises.
Development Authority	Rainwater Harvesting	Please specify the number of properties to which both technical and financial support for installation of rainwater harvesting facilities was provided by the ULB.	Number	Rainwater Harvesting Cell Records	Secondary	Planning permission records	City Development authority/ULB	Technical support provided by the ULB may include provision of design specification for RWH systems to households/commercial establishments/institutions and/or having a dedicated technical cell for RWH. Financial assistance may include provision of a subsidy under a scheme or rebate on property tax to those who have installed RWH

								systems in their premises. In this regard, please specify the total number of technical/financial support provided by the ULB.
Development Authority	Rainwater Harvesting	Please specify the number of citizens to whom general information for installation of rainwater harvesting facilities was provided by the ULB.	Number	Rainwater Harvesting Cell Records	Secondary	Planning permission records	City Development authority/ULB	General information involve providing citizens about the concept of rain water harvesting, available municipal by-law or guidelines, technical and/or financial support provided by the ULB or any other agency.
Development Authority	Building Infrastructure	Please specify the total number of new and redeveloped residential buildings in the city for the period from 1st January, 2017 to 31st December, 2017.	Number	Planning permission records	Secondary	Planning permission records	City Development authority/ULB	

Development Authority	Building Infrastructure	Please specify the total number of new and redeveloped commercial buildings in the city for the period from 1st January, 2017 to 31st December, 2017.	Number	Planning permission records	Secondary	Planning permission records	City Development authority/ULB	
Development Authority	Building Infrastructure	Please specify the total number of new and redeveloped government buildings in the city for the period from 1st January, 2017 to 31st December, 2017.	Number	Planning permission records	Secondary	Planning permission records	City Development authority/ULB	
Development Authority	Building Infrastructure	Please specify the total number of new and redeveloped institutional buildings in the city for the period from 1st January, 2017 to	Number	Planning permission records	Secondary	Planning permission records	City Development authority/ULB	

		31st December, 2017.						
Development Authority	Rainwater Harvesting	Please specify the number of new and redeveloped residential properties (of plot size equal to or greater than 300 sq. m) that have installed rainwater harvesting facilities for the period from 1st January, 2017 to 31st December, 2017.	Number	Planning permission records	Secondary	Planning permission records	City Development authority/ULB	This refers to the total number of commercial properties that installed rainwater harvesting in their premises in 2016-17 in the city. Data can be collected from the Rainwater Harvesting Cell or Department of the ULB.
Development Authority	Rainwater Harvesting	Please specify the number of new and redeveloped commercial properties (of plot size equal to or greater than 300 sq. m) that have installed rainwater harvesting facilities	Number	Planning permission records	Secondary	Planning permission records	City Development authority/ULB	This refers to the total number of redeveloped commercial properties that installed rainwater harvesting systems in their premises in 2016-17. Data can be collected from the Rainwater

		for the period from 1st January, 2017 to 31st December, 2017.						Harvesting Cell or Department of the ULB.
Development Authority	Rainwater Harvesting	Please specify the number of institutions (of plot size equal to or greater than 300 sq. m) that have installed rainwater harvesting facilities as for the period from 1st January, 2017 to 31st December, 2017.	Number	Planning permission records	Secondary			This refers to the total number of institutions (e.g., schools, colleges, etc.) that installed rainwater harvesting systems in 2016-17 in the city. Data can be collected from the Rainwater Harvesting Cell or Department of the ULB.
Development Authority	Rainwater Harvesting	Please specify the number of government buildings (new and redeveloped) in the city with installed rainwater harvesting facilities as for the period from 1st January,	Number	Planning permission records	Secondary	Planning permission records	City Development authority/ULB	This refers to the total number of government buildings (central/state/local) that installed rainwater harvesting systems in 2016-17 in the city. Data can be collected from the Rainwater Harvesting Cell

		2017 to 31st December, 2017.						or Department of the ULB.
Development Authority	Rainwater Harvesting	Please specify the number of properties that were inspected for availability of rainwater harvesting facilities for the period from 1st January, 2017 to 31st December, 2017.	Number	RWH Inspection Records	Secondary	Planning permission records	City Development authority/ULB	Wherever ULB authorities e.g., rainwater harvesting department or cell inspects properties for installation of rainwater harvesting systems and issues notices for non-compliance, the total number of such properties that were inspected should be indicated. Data can be collected from the Rainwater Harvesting Cell or Department of the ULB.

Discoms/Electricity Board								
Discoms/Electricity Board	Basic Information	Name of the nodal officer						
Discoms/Electricity Board	Basic Information	Phone number						Please provide the official contact number

Discoms/Electricity Board	Online Services	Please specify if citizens can apply for electricity connection online.	Yes/No	IT Department	Secondary	URL	DISCOM/Electricity board	Please indicate if citizens can apply for a electricity connection through ICT enabled platforms such as ULB web portal, mobile application, e-kiosks and/or common services centres.
Discoms/Electricity Board	Online Services	Please specify if citizens can pay electricity bill online.	Yes/No	IT Department	Secondary	URL	DISCOM/Electricity board	Please indicate if citizens can make payment for electricity bill through ICT enabled platforms such as ULB web portal, mobile application, e-

								kiosks and/or common services centres.
Discoms/Electricity Board	Online Services	Please provide the total number of unique hits (bi-monthly average) received on the online portal for electricity related services for the period from 1st January, 2017 to 31st December, 2017.	Hits	IT Department	Secondary	URL	DISCOM/Electricity board	To obtain this information, data on total number of unique user logins for each of the bimonthly periods for the FY 2016-17 for electricity related services should be collected. It includes logins through different platforms such as web portal, phone based apps, e-kiosks, etc. Several logins from the same User ID in a two month period should be counted only once irrespective of platform used to login. Once this data is obtained for each of the two month periods in the FY 2016-17, take the average (sum of number of users in each of the

								two month period/6) and indicate here.
Discoms/Electricity Board	Grievance Redressal	Please specify the committed redressal period for electricity related grievances.	Days	Grievance register	Secondary	URL/Physical log	DISCOM/Electricity board	Committed redressal period is the maximum time the DISCOM/Electricity Board has committed to resolve any grievance registered by citizens.
Discoms/Electricity Board	Grievance Redressal	Please provide the average of the actual redressal period (in days) for electricity related grievances registered online for the period from 1st January, 2017 to 31st December, 2017.	Days	Grievance register	Secondary	URL/Physical log	DISCOM/Electricity board	Total number of days taken to resolve registered complaints/grievances (from both online/physical records) divided by the number of complaints registered for each of the services. E.g., if 100 complaints were registered regarding water supply, then this ratio should be calculated as the sum of days taken to resolve each complaint divided by 100.

Discoms/Electricity Board	Grievance Redressal	Please provide the average of the actual redressal period (in days) for electricity related grievances registered through offline methods like phone call or physical registration, for the period from 1st January, 2017 to 31st December, 2017.	Days	Grievance register	Secondary	URL/Physical log	DISCOM/Electricity board	Total number of days taken to resolve registered complaints/grievances (from both online/physical records) divided by the number of complaints registered for each of the services. E.g., if 100 complaints were registered regarding water supply, then this ratio should be calculated as the sum of days taken to resolve each complaint divided by 100.
Discoms/Electricity Board	Electricity Connections	Please specify the total number of authorized electrical connections in the city for residential/ domestic use.	Number	Electricity connection records	Secondary	Electricity connection records	DISCOM/Electricity board	Only authorized or metered electrical connections should be considered. City boundary may be defined as per the list of PIN codes provided by the ULB.

Discoms/Electricity Board	Electricity Connections	Please specify the total number of electrical connections (including residential, commercial, industrial, institutional and government electrical connections) with smart meters in the city.	Number	Metered connection records	Secondary	Metered connection records	DISCOM/Electricity board	A smart meter enables, real time data collection of electricity consumption, eliminating the need for manual meter reading. City boundary may be defined as per the list of PIN codes provided by the ULB. The number of connections covered through smart meters would be recorded by the DISCOMs/the electricity board.
Discoms/Electricity Board	Electricity Connections	Please specify the total number of authorized electrical connections (including residential, commercial, industrial, institutional and government	Number	Metered connection records	Secondary	Metered connection records	DISCOM/Electricity board	Only authorized or metered electrical connections should be considered. City boundary may be defined as per the list of PIN codes provided by the ULB.

		electrical connections).						
Discoms/Electricity Board	Power Supply Interruptions	Please specify the total number of sustained (> 5 minutes), scheduled electrical interruptions in the city for the period from 1st January, 2017 to 31st December, 2017.	Number	Reports submitted to electricity regulatory authority and sub-station log books, IPDS Dashboard	Secondary	Reports submitted to electricity regulatory authority	DISCOM/Electricity board	DISCOMs report data on frequency of electrical interruptions at 11kV feeder level to the state Electricity Regulatory Commissions (SERCs). City boundaries may be defined as per the list of PIN Codes provided by the ULB.
Discoms/Electricity Board	Power Supply Interruptions	Please specify the number of sustained (> 5 minutes), unscheduled electrical interruptions in the city for the period from 1st January, 2017 to 31st December, 2017.	Number	Reports submitted to electricity regulatory authority and sub-station log books, IPDS Dashboard	Secondary	Reports submitted to electricity regulatory authority	DISCOM/Electricity board	DISCOMs report data on frequency of electrical interruptions at 11kV feeder level to the state Electricity Regulatory Commissions (SERCs). City boundaries may be defined as per the list of PIN Codes provided by the ULB.

Discoms/Electricity Board	Power Supply Interruptions	Please specify the total duration of sustained (> 5 minutes), unscheduled electrical interruptions in the city for the period from 1st January, 2017 to 31st December, 2017.	Minutes	Reports submitted to electricity regulatory authority and sub-station log books, IPDS Dashboard	Secondary	Reports submitted to electricity regulatory authority	DISCOM/Electricity board	Sum of the monthly data on duration of sustained, unscheduled electrical interruptions reported at 11kV feeder level by the DISCOMs/state Electricity boards to the state Electricity Regulatory Commissions (SERCs).
Discoms/Electricity Board	Energy Consumption	Please specify the total electricity supplied to the city (including domestic and non-domestic connections) by DISCOMs/ electricity board in the/ for the period from 1st January, 2017 to 31st December, 2017.	kWh	DISCOM/Electricity Board records	Secondary	DISCOM/Electricity board records	DISCOM/Electricity board	The total electricity consumption by residential, commercial and industrial users should be aggregated. Data on total electricity supplied to the city can be collected from the DISCOMs/Electricity Board.

Discoms/Electricity Board	Energy Consumption	Please specify the total capacity of generator sets installed by the city (including domestic and non-domestic users) for the period from 1st January, 2017 to 31st December, 2017.	kWh	DISCOM/Electricity Board records	Secondary	DISCOM/Electricity board records	DISCOM/Electricity board	The total installed capacity by residential, commercial and industrial users should be aggregated.

State Health Department								
State Health Department	Basic Information	Name of the nodal officer						
State Health Department	Basic Information	Phone number						Please provide the official contact number.
State Health Department	Basic Information	Email ID						Please provide the official email ID.
State Health Department	Citizen Services	Please provide the unique number of complaints (monthly average) received on the online portal for health related services in the city for the period from 1st January, 2017 to 31st December, 2017.	Hits		Secondary	URL	state health department/ULB	To obtain this information, collect the data on number of unique user logins for registration and tracking of complaints for each month. This would include logins across different media including- websites, phone based apps, kiosks, etc. Several logins from the same User ID in a month should be counted only once irrespective of

								media used to login. Once this data is obtained for each of the months in the year 2016-17, take the average (sum of number of users in each month/12).
State Health Department	Citizen Services	Please provide the committed redressal period (in days) for public health (vector control) related services for the year 2016-17.	Days	Grievance register	Secondary	URL/Physical log	state health department/ULB	Committed redressal period is the maximum time the ULB/concerned government agency has committed to resolve any grievance registered by citizens.
State Health Department	Citizen Services	Please specify the average redressal period (in days) for public health (vector control) related services for the period from 1st January, 2017 to 31st December, 2017.	Days	Grievance register	Secondary	URL/Physical log	state health department/ULB	Total number of days taken to resolve registered complaints/grievances (from both online/physical records) divided by the number of complaints registered for each of the services. E.g., if 100 complaints were registered regarding

								dengue outbreaks, then this ratio should be calculated as the sum of days taken to resolve each complaint divided by 100.
State Health Department	Health Infrastructure	Please specify the total number of in-patient hospital beds available in public hospitals in the city including CHCs (community health centres).	Number	NHM/Health Department records	Secondary	NHM/Health Department records	state health department/ULB	Such records may be obtained from state Health service records which report the same to the Central Bureau of Health Intelligence. This data is also reported to the National Health Mission.
State Health Department	Health Infrastructure	Please specify the total number of in-patient hospital beds available in private hospitals in the city.	Number	NHM/Health Department records	Secondary	NHM/Health Department records	state health department/ULB	National Health Mission or the ULB Health Department should have a record of this data.
State Health Department	Healthcare Professionals	Please specify the total number of qualified allopathic	Number	NHM/Health Department	Secondary	NHM/Health Department records	state health department/ULB	Doctors (allopathic): medical graduates who hold either an MBBS (Bachelors degree in

		doctors practicing in the city.		records/Medical council data				Medicine and Surgery) degree alone or an MBBS degree with a specialist degree or diploma. Education is imparted in Medical Colleges. The Medical Council of India is acknowledged as the regulatory body for institutions granting these degrees. Such records may be obtained from state Health service records which report the same to the Central Bureau of Health Intelligence. This data is also reported to the National Health Mission. This data will also be available with the Indian Medical Council.
State Health Department	Healthcare Professionals	Please specify the total number of qualified AYUSH doctors in the city.	Number	NHM/Health Department records	Secondary	NHM/Health Department records	state health department/ULB	AYUSH doctors include ayurvedic, homeopathic, and unani doctors and hold bachelors or post graduate degrees in one

								of the above systems of traditional medicine. The regulatory body is the Central Council for Indian Medicine or the Central Council for Homeopathy. Such records may be obtained from the Ministry of AYUSH. This data is also reported to the National Health Mission.
State Health Department	Healthcare Professionals	Please specify the total number of qualified trained nurses in the city.	Number	NHM/Health Department records/Indian nursing council.	Secondary	NHM/Health Department records	state health department/ULB	Nurses: Nursing qualifications include a three and a half year diploma in General Nursing and Midwifery (GNM) or a four year bachelors degree (B.Sc) which may be followed by a two to three year post graduate degree (M.Sc) registered with the Nursing Council of India. Data with the ULB Health Department (if available)

								may be presented. In its absence, such records could be obtained from the Indian Nursing Council. This data is also reported to the National Health Mission.
State Health Department	Healthcare Professionals	Please specify the total number of qualified dentists in the city.	Number	NHM/Health Department records/Indian Dental council.	Secondary	NHM/Health Department records	state health department/ULB	Dentists: The basic bachelors degree (BDS) which may be followed by post-graduate training in the form of a Masters degree (MDS). The regulatory body is the Dental Council of India. Data with the ULB Health Department (if available) may be presented. In its absence, records could be obtained from the Indian Dental Council. This data is also reported to the National Health Mission.

State Health Department	Healthcare Professionals	Please specify the total number of qualified Pharmacists in the city.	Number	NHM/Health Department records/Pharmacy council	Secondary	NHM/Health Department records	state health department/ULB	Pharmacists: with a bachelors or masters degree in pharmacy ancillary health professionals includes laboratory technicians, opticians, dieticians and others. Data with the ULB Health Department (if available) may be presented. In its absence, records could be obtained from the Pharmacy Council. This data is also reported to the National Health Mission.
State Health Department	Healthcare Professionals	Please specify the total number of qualified Auxiliary Nurse Midwives (ANMs) in the city.	Number	NHM/Health Department records/Indian nursing council.	Secondary	NHM/Health Department records	state health department/ULB	Auxiliary Nurses and Midwives: This group receives a two year diploma in auxiliary nursing and midwifery. Community Health Workers: This group consists of individuals who have undergone at least ten years of formal

								education. They receive 23 days of training to perform this function. The broad group of Community Health Workers includes cadres such as Health Assistants and Health Educators. Accredited Social Health Activists (ASHAs): this is a cadre of health volunteers set up under the NRHM. They are resident in the village that they work in, have a minimum of eight years of formal education and are usually women in the age range of 25-45 years. Data with the ULB Health Department (if available) may be presented. In its absence, records could be obtained from the Indian Nursing Council. This data is also reported to the National Health Mission.

State Health Department	Health Infrastructure	Do you have an EMRS operational in the city?	Yes/No					An Emergency Response System (ERS) is a system comprising of either calls, SMSs and online chat which could be used to make distress calls during an emergency. Response time is the time elapsed from receiving the initial call to arrival on-site of emergency personnel and equipment. Records maintained by government services such as 108/102 National Ambulance Service operated under the National Health Mission can also be used.
State Health Department	Citizen Services	Please specify the total number of medical emergencies responded to in the city for the period from 1st January,	Number	Health Department records	Secondary	Health Department records	state health department/ULB	Response time is the time taken to reach the site on receiving an emergency call. The average response time can be calculated as: (Sum of all recorded response time for all

		2017 to 31st December, 2017.						distress calls)/(Total number of distress calls)
State Health Department	Citizen Services	Please specify the total response time for health related distress calls received in the city for the period from 1st January, 2017 to 31st December, 2017.	Minutes	Health Department records	Secondary	Health Department records	state health department/ULB	Response time is the time taken to reach the site on receiving an emergency call. The average response time can be calculated as: (Sum of all recorded response time for all distress calls)/ (Total number of distress calls).
State Health Department	Disease Prevalence	Please specify the total number of reported cases of diarrhoeal diseases/dysentery in the city for the period from 1st January, 2017 to 31st December, 2017.	Number	Health Department records/Integrated Disease Surveillance Programme	Secondary	Health Department records	state health department/ULB	The data for number of cases registered for Diarrhoeal Diseases is collected by the ULB Health Department, and also reported to the Ministry of Health and Family Welfare.

State Health Department	Disease Prevalence	Please specify the total number of reported cases of enteric fever (typhoid) in the city for the period from 1st January, 2017 to 31st December, 2017.	Number	Health Department records/Integrated Disease Surveillance Programme	Secondary	Health Department records	state health department/ULB	The data for number of cases registered for Typhoid is collected by the ULB Health Department, and also reported to the Ministry of Health and Family Welfare.
State Health Department	Disease Prevalence	Please specify the total number of reported cases of viral hepatitis A and E in the city for the period from 1st January, 2017 to 31st December, 2017.	Number	Health Department records/Integrated Disease Surveillance Programme	Secondary	Health Department records	state health department/ULB	The data for number of cases registered for viral hepatitis is collected by the ULB Health Department, and also reported to the Ministry of Health and Family Welfare.

Number	SLIPS/Swachh sarvekshan/Census	Secondary	SLIPS/Swachh sarvekshan/Census data	ULB/Utility	This data can be obtained from the Swachh Bharat Mission baseline
Urban Local Body	Water Supply & Drainage	Please provide the daily average quantum of waste water treated by STPs in the city in FY 2016-17.	MLD	STP logbook/SLIPS	Secondary	STP logbook/SLIPS	ULB/Utility	List waste water collected/treated per day in the city. Total waste water generated in the city is assumed to be 80% of the total water consumed in MLD.

Urban Local Body	Water Supply & Drainage	Please specify the daily average quantum of waste water generated in the city in FY 2016-17.	MLD	STP logbook/SLIPS	Secondary	STP logbook/SLIPS	ULB/Utility	Waste water generated in a city is assumed to be 80% of the total water consumed in MLD. This data should be based on the water supplied to the distribution system after treatment, less physical losses of water due to transmission and distribution losses as available with the ULB/Water and Sewerage Utility. Where other sources are also used such as sourcing water from deep bore wells or tanker supply, the same should be included.
Urban Local Body	Water Supply & Drainage	Please specify the daily average quantum of waste water collected through the sewerage network	MLD	STP logbook/SLIPS	Secondary	STP logbook/SLIPS	ULB/Utility	Waste water collected should be estimated on the basis of measurements taken at the inlet of centralised sewage treatment plants and decentralised waste

		in the city in FY 2016-17.						water treatment systems (DEWATS).
Urban Local Body	Water Supply & Drainage	Please specify the daily average quantum of waste water used for irrigation purposes (agriculture, forestry and landscaping) in FY 2016-17.	MLD	STP logbook/SLIPS	Secondary	STP logbook/SLIPS	ULB/Utility	This refers to the total quantity of treated waste water from centralised or decentralised STPs released for irrigation purposes by the ULB/Water Utility. Irrigation purposes includes agriculture, forestry and landscaping activities.
Urban Local Body	Water Supply & Drainage	Please specify the daily average quantum of waste water used for irrigation purposes (fish-farming) in FY 2016-17.	MLD	STP logbook/SLIPS	Secondary	STP logbook/SLIPS	ULB/Utility	This refers to the total quantity of treated waste water from centralised or decentralised STPs released for fish-farming by the ULB/Water Utility. Please note that a record stating that the treated water was released towards fish-farming purpose should be presented.

Urban Local Body	Water Supply & Drainage	Please specify the daily average quantum of waste water used by industries in FY 2016-17.	MLD	STP logbook/SLIPS	Secondary	STP logbook/SLIPS	ULB/Utility	This refers to the total quantity of treated waste water from centralised or decentralised STPs released for industrial use by the ULB/Water Utility. Please note that a record stating that the treated water was released towards industrial use should be presented.
Urban Local Body	Water Supply & Drainage	Please specify the daily average quantum of waste water used for non-potable domestic use in FY 2016-17.	MLD	STP logbook/SLIPS	Secondary	STP logbook/SLIPS	ULB/Utility	This refers to the total quantity of treated waste water from centralised or decentralised STPs released for non-potable domestic use by the ULB/Water Utility. Please note that a record stating that the treated water was released towards industry should be presented.

Urban Local Body	Water Supply & Drainage	Please specify the daily average quantum of waste water discharged (without any specific reuse) in compliance with environmental standards in FY 2016-17.	MLD	STP logbook/SLIPS	Secondary	STP logbook/SLIPS	ULB/Utility	This refers to the total quantum of waste water discharged from centralised and decentralised STPs in specified channels in compliance with environmental standards.
Urban Local Body	Water Supply & Drainage	Please specify the daily average quantum of waste water received at the treatment plants per day in FY 2016-17.	MLD	STP logbook/SLIPS	Secondary	STP logbook/SLIPS	ULB/Utility	Please present the total quantity of waste water collected/treated per day at STPs in the city. Waste water recycled per day is to be estimated based on the flow measurement from outlet of recycled water (at the treatment plant). Both centralised and decentralised treatment plants should be considered. Data regarding the waste water received at treatment plants and supplied for reuse can be

								obtained from the records of the ULB/Water and Sewerage Utility, as applicable.
Urban Local Body	Water Supply & Drainage	Please specify the total length of covered storm water drains (pucca construction) in the city (as per the latest available data).	Kilometre	Asset register/SLIPs	Secondary	Asset register/SLIPs	ULB	Please list the total length (kms) of storms water drains in the city with pucca construction. Please consider only those drains that are constructed in roads having a carriageway of 3.5 metres or more. It includes primary, secondary and tertiary categories of storm water drains.
Urban Local Body	Solid Waste Management	Please specify the total number of households covered through door-to-door collection of solid waste (as per the latest available data).	Number	Sanitary inspector logbook/Vehicle logbook/trip sheets	Secondary	Sanitary inspector logbook/Vehicle logbook/trip sheets	ULB	Please list number of households including slum households in the city that are covered through door-to-door collection of solid waste. In addition to services provided by the ULB or designated service

								providers, households covered through Resident Welfare Associations or Traders' Associations should also be included.
Urban Local Body	Solid Waste Management	Please specify the total number of commercial establishments covered through door-to-door collection of solid waste (as per the latest available data).	Number	Sanitary inspector logbook/Vehicle logbook/trip sheets	Secondary	Sanitary inspector logbook/Vehicle logbook/trip sheets	ULB	Please list number of commercial establishments such as hotels, restaurants, shops etc. in the city that are covered through door-to-door collection of solid waste. In addition to services provided by the ULB or designated service providers, establishments covered through Resident Welfare Associations or Traders' Associations should also be included.

Urban Local Body	Solid Waste Management	Please specify the daily average quantity of municipal solid waste generated in the city for the period from 1st January, 2017 to 31st December, 2017.	Tonnes/day	Weighbridge receipts/sanitary inspector logbook	Secondary	Weighbridge receipts/sanitary inspector logbook	ULB	Waste generation estimates can be based on a sample survey of a statistically relevant proportion of households and establishments. Where such a survey has been carried out earlier, the per capita generation data from such studies can be used. Alternatively, waste generation can be calculated on the basis of empirical standards per capita available for different city sizes. Central Pollution Control Board (CPCB) indicates that the per capita generation of wastes in Class I cities is 0.376 kg/person/day, and in Class II cities it is 0.152 kg/person/day.

Urban Local Body	Solid Waste Management	Please specify the daily average quantity of municipal solid waste collected by the ULB/private operators in the city for the period from 1st January, 2017 to 31st December, 2017.	Tonnes/day	Weighbridge receipts/sanitary inspector logbook	Secondary	Weighbridge receipts/sanitary inspector logbook	ULB	Data on waste collected from households, commercial establishments and common collection points based on actual weighment as recorded by the ULB. This refers to the quantum of waste recorded at weighbridges located at transfer stations and landfill sites in the city. Weighbridge receipts and logbooks of public or private operators can be referred to present this information.
Urban Local Body	Solid Waste Management	Please specify the monthly average quantity of municipal solid waste generated in the city for the period from 1st January, 2017 to	Tonnes/month	Weighbridge receipts/sanitary inspector logbook	Secondary	Weighbridge receipts/sanitary inspector logbook	ULB	Waste generation estimates can be based on a sample survey of a statistically relevant proportion of households and establishments. Where such a survey has been carried out earlier,

		31st December, 2017.						the per capita generation data from such studies can be used. Alternatively, waste generation can be calculated on the basis of empirical standards per capita available for different city sizes. Central Pollution Control Board (CPCB) indicates that the per capita generation of wastes in Class I cities is 0.376 kg/person/day, and in Class II cities it is 0.152 kg/person/day.
Urban Local Body	Solid Waste Management	Please specify the monthly average quantity of waste recycled at composting yards managed by the ULB or private partner designated by the ULBfor the period from 1st January,	Tonnes/ month	Weighbridge receipts/sanitary inspector logbook	Secondary	Weighbridge receipts/sanitary inspector logbook	ULB	This refers to the total quantum of compost generated from composting facilities such as windrow, vermi-culture etc. under the ULB. Data on privately managed facilities if recorded by the ULB can also be presented.

		2017 to 31st December, 2017 (if applicable).						
Urban Local Body	Solid Waste Management	Please specify the monthly average quantity of waste recycled at Material Recovery Facility (MRF) managed by the ULB or private partner designated by the ULB for the period from 1st January, 2017 to 31st December, 2017 (if applicable).	Tonnes/ month		Secondary		ULB	The SWM Rules, 2016 defines "Materials Recovery Facility" (MRF) means a facility where non-compostable solid waste can be temporarily stored by the local body or any other entity mentioned in rule 2 or any person or agency authorised by any of them to facilitate segregation, sorting and recovery of recyclables from various components of waste by authorised informal sector of waste pickers, informal recyclers or any other work force engaged by the local body or entity mentioned in rule 2 for the purpose before the waste is

								delivered or taken up for its processing or disposal. For details refer to the SWM manual 2016-http://cpheeo.nic.in/WriteReadData/Cpheeo_SolidWasteManagement2016/Manual.pdf
Urban Local Body	Solid Waste Management	Please specify the monthly average quantity of waste recycled at energy plants managed by the ULB or private partner designated by the ULB for the period from 1st January, 2017 to 31st December, 2017 (if applicable).	Tonnes/ month		Secondary		ULB	Waste to energy plants include Bio-methanation, Refuse Derived Fuel (RDF), Pyrolysis, Gasification, Bioreactor Landfills and Incineration.
Urban Local Body	Solid Waste Management	Please specify the monthly average quantity of construction and demolition (C&D) waste recycled at	Tonnes/ month		Secondary		ULB	According to the rules, construction and demolition waste “means the waste comprising of building materials, debris and rubble resulting from

		C&D recycling plants managed by the ULB or private partner designated by the ULB for the period from 1st January, 2017 to 31st December, 2017 (if applicable).						construction, remodelling, repair and demolition of any civil structure. For details refer to the SWM manual 2016- http://cpheeo.nic.in/WriteReadData/Cpheeo_SolidWasteManagement2016/Manual.pdf
Urban Local Body	Others	Please specify the total number of people from the city registered with the district employment exchanges as on 31st March, 2016.	Number	District employment exchange records	Secondary	District employment exchange records	District employment exchange	The district level employment exchanges under the Department of Employment and Training, accepts applications from job seeking individuals. Cities are encouraged to approach the district employment exchanges for this data.
Urban Local Body	Others	Please specify the total number of people from the city registered with the district employment	Number	District employment exchange records	Secondary	District employment exchange records	District employment exchange	The district level employment exchanges under the Department of Employment and Training, accepts

		exchanges as on 31st March, 2017.						applications from job seeking individuals. Cities are encouraged to approach the district employment exchanges for this data.
Urban Local Body	Others	Please specify the total working age population in the city as on 31st March, 2016.	Number	Census	Secondary	Census data	ULB	This can be estimated based on Workforce Participation data available under the NSS 66th Round, MOSPI and NITI Aayog.
Urban Local Body	Others	Please specify the total working age population in the city as on 31st March, 2017.	Number	Census	Secondary	Census data	ULB	This can be estimated based on Workforce Participation data available under the NSS 66th Round, MOSPI and NITI Aayog.
Urban Local Body	Others	How many Town Vending Committees does the city have?	Number	ULB records	Secondary	ULB records	ULB	Protection of Livelihood and Regulation of Street Vending Act, 2014 stipulates the formation of Town Vending Committee.

Urban Local Body	Others	How many Town Vending Committees have completed street-vendor surveys?	Number	ULB records	Secondary	ULB records	ULB	Protection of Livelihood and Regulation of Street Vending Act, 2014 stipulates the formation of Town Vending Committees which undertake survey of street vendors to identify them and provide formal vending spaces.
Urban Local Body	Others	How many Town Vending Committees/ULBs have identified vending zones in their area/city ?	Number	ULB records	Secondary	ULB records	ULB	Protection of Livelihood and Regulation of Street Vending Act, 2014 stipulates the formation of Town Vending Committees which undertake survey of street vendors to identify them and provide formal vending spaces.
Urban Local Body	Others	How many street vendors have been enumerated under the street-vendor surveys (as per the	Number	Street vendor surveys	Secondary	Street vendor surveys	ULB	A street vendors survey for enumeration of Street vendors is mandated by the Protection of Livelihood and Regulation of Street

		latest available data)?						Vending Act, the data from the same should be specified.
Urban Local Body	Others	Is there any other source of data on the total number of street vendors in your city undertaken between 2012 and 2017?	Yes/No	ULB records	Secondary	ULB records	ULB	Deendayal Antyodaya Yojana-National Urban Livelihoods Mission (DAY-NULM) could be a potential alternative source. Number	Pedestrian facilities record	Physical	Random sample survey	Roads and Public Works Department of ULB/Traffic Department	state the total number of intersections with grade separators to ensure safe passage to pedestrians along roads with Right of Way >= 20 metres.
Urban Local Body	Roads	Please specify the number of road intersections/ junctions in the city along roads with Right of way >= 20 metres.	Number	Roads and Public Works Department of ULB/Traffic Department records	Secondary	Roads and Public Works Department of ULB/Traffic Department records	Roads and Public Works Department of ULB/Traffic Department	state the total number of intersections along roads with Right of Way >= 20 metres.

Urban Local Body	Basic Information	Please specify the total number of operational street lights in the city.	Number	Street light register	Secondary	Street light register	ULB	The number of operational street lights installed by the ULB
Urban Local Body	Heritage	Please state the total number of heritage sites in the city.	Number	List of all the heritage site notified by any of the following agencies: ASI/ULB/UNESCO/INTACH	Secondary	ASI/ULB/UNESCO/INTACH website	ULB	List of all historic buildings that are maintained/restored/hosted by ASI or State Departments (such as PWD, state Archaeological Department). The Indian National Trust for Art and Cultural Heritage (INTACH) also carries out conservation and preservation work and city authorities are encouraged to contact (INTACH) for any city level list of historic sites identified and/or maintained by them. (please refer to: Chapter 10 &16, in Sites notified by UNESCO might also be considered

								http://cpwd.gov.in/Publication/ConservationHertBuildings.pdf)
Urban Local Body	Heritage	Of the list of the heritage sites identified, please specify the total number of heritage sites where improvements were implemented/ completed (as per the latest available data).	Number	ASI/ULB/UNESCO/INTACH website	Secondary	ASI/ULB/UNESCO/INTACH records	ULB	Improvements can mean “Conservation”, "Preservation" or "Restoration". "Conservation" means all the processes of preserving and maintaining a place so as to retain its historical or architectural or aesthetic or cultural significance. “Preservation” means and includes maintaining the form and fabric of a place in its existing state and checking deterioration. “Restoration” means and includes returning the existing fabric of a place to a known earlier state by removing accretions or by reassembling existing components

								without introducing new materials. Please refer to http://tcpomud.gov.in/Divisions/MUTP/Model_Heritage_Regulations.pdf
Urban Local Body	Ecological Sites	Please specify the total number of Ecologically sensitive areas recognised by the city.	Number	Commissioned studies/Detailed project reports/EIA etc.	Secondary	Commissioned studies/Detailed project reports/EIA etc.	ULB	Ecologically sensitive areas includes wildlife sanctuaries, national parks, habitats of migratory birds, endangered species (flora/fauna), forests, surface water bodies, watershed sites, coastlines, riverfronts, wetlands, uninhabited islands, origin of river sites, mangrove sites, etc. Listing of ecologically sensitive zones (ESZ) are developed by Ministry of Environment and Forestry (MoEF). These zones are meant to act as a 'shock absorber' for protected areas (like

								wildlife sanctuaries, forests etc.). They also act as a transition zone in between areas of high protection and areas requiring lesser protection. (please refer to: http://www.moef.gov.in/sites/default/files/1%20Guidelines%20for%20Eco-Sensitive%20Zones%20around%20Protected%20Areas.pdf). Furthermore, listings can also be retrieved from commissioned studies for environmental projects, environmental impact assessments etc. (please refer to: Annexure I, http://assets.wwfindia.org/downloads/indias_notified_ecologicallysensitive_areas.pdf)

Urban Local Body	Ecological Sites	Please specify the total number of ecologically sensitive areas (identified above) for which conservation/improvement projects were completed (as per the latest available data).	Number	Commissioned studies/Detailed project reports/EIA etc.	Secondary	Commissioned studies/Detailed project reports/EIA etc	ULB	Area/site included in this list should have a documentation proof.
Urban Local Body	Hotels	Please specify the total number of 5-star hotels in the city.	Number	Hotel Associations	Secondary	Property tax register/Category-state wise approved hotels report, Ministry of Tourism	ULB	List of hotels and their respective capacity can be obtained from the Ministry of Tourism/state Tourism Department. Such listings will also be available with hotel associations in the cities. Please refer to http://tourism.gov.in/hotels-restaurants
Urban Local Body	Hotels	Please specify the number of 4-star hotels in the city.	Number	Hotel Associations	Secondary	Property tax register/Category-state wise approved hotels	ULB	List of hotels and their respective capacity can be obtained from the Ministry of Tourism/state

						report, Ministry of Tourism		Tourism Department. Such listings will also be available with hotel associations in the cities. Please refer to http://tourism.gov.in/hotels-restaurants
Urban Local Body	Hotels	Please specify the number of 3-star hotels in the city.	Number	Hotel Associations	Secondary	Property tax register/Category-state wise approved hotels report, Ministry of Tourism	ULB	List of hotels and their respective capacity can be obtained from the Ministry of Tourism/state Tourism Department. Such listings will also be available with hotel associations in the cities. Please refer to http://tourism.gov.in/hotels-restaurants
Urban Local Body	Hotels	Please specify the number of 2-star hotels in the city.	Number	Hotel Associations	Secondary	Property tax register/Category-state wise approved hotels report, Ministry of Tourism	ULB	List of hotels and their respective capacity can be obtained from the Ministry of Tourism/state Tourism Department. Such listings will also be available with hotel associations in the cities.

Neighbourhood spaces must be at least 1/6 acre (0.067 hectare) in area as per LEEDS standards for neighbourhoods.

								Further, spaces less than 1 acre (0.4 hectare) must have a proportion no narrower than 1 unit of width to 4 units of length. Public squares include chowks, public gathering places. Refer to example at https://en.wikipedia.org/wiki/Public_squares_in_Goa OR https://en.wikipedia.org/wiki/Manek_Chowk_(Ahmedabad)

Annexure 3: Summary of the National Orientation Workshop

Proceeding of National Orientation Workshop on
'Assessment of Liveability Indices for 116 Cities in India'

Date of Workshop: 13th February 2018

Time: 10:00 AM to 5:00 PM

Venue: Vigyan Bhawan, New Delhi

Workshop Background:

The Liveability Index is a landmark initiative by the Ministry of Housing and Urban Affairs (MoHUA) to evaluate how 'liveable' Indian cities are for its citizens. The exercise attempts to assess the performance of 116 cities identified under the Smart City Mission on 79 indicator areas cutting across 15 dimensions/categories including governance, identity and culture and economy and employment.

The national workshop captured and presented the relevance of this initiative to the cities: the ranking methodology, data that is expected to be collected, and the overall timelines and technical resources that will be made available for the task.

The workshop constituted four key sessions as below:

1. Inaugural and Context Setting.
2. Round 1: 'Liveability Indicators, Data Sources and Collection Strategies'.
3. Round 2: 'Liveability Indicators, Data Sources and Collection Strategies'.
4. Final session: 'State Workshop Schedules, Key Milestones and Coordination Protocols'

Summary of Sessions:

Session 1: The purpose of session-1 was to set the context for the vision behind the Liveability Index programme and how to tie into some of the ongoing and upcoming initiatives under the Smart City Mission.

Honourable Minister for Housing and Urban Affairs (MoHUA) Sh. Hardeep S. Puri inaugurated the workshop and addressed the participants. He emphasized the need of analysing problems of cities clinically and adhere to the methodologies of World Bank to ensure better liveability condition of Indian cities. He quoted "democracy and human freedom can never be allowed to be used as a pretext for cluttering and dirtying the environment." Honourable Minister also talked about the duties of municipal authorities and ministry to design overall ecosystem. He suggested rectification in our business and construction technology in order to safeguard liveability standards of cities.

Specifically, Honourable Minister stressed to look at 79 indicators of liveability standard in context of three major flagship programmes of Prime minister namely Swachha Bharat, Pradhan Mantri Awas Yojana (Affordable Housing) and Smart City programme.

Joint Secretary Mr. J.S. Meena welcomed all participants and requested their full participating in the following discussion. Dr. Sameer Sharma, Additional Secretary, Ministry of Housing & Urban Affairs briefed about the expectation from the workshop. He highlighted the issues of getting data in India cities and asked to discuss the indicators and sources to derive data regarding city's GDP and unemployment.

Session 2 and 3: These two sessions focused on introducing and explaining the 79 metrics, helping acquaint the city with the definition of the metrics and provide information on potential data sources. Ministry leadership along with consultants facilitated this discussion. An interactive audience polling device was used to engage participants and ensure that sessions on these critical aspects are interactive.

For select indicators, polling was done to seek feedback from audience on the city's level of comfort in terms of definitional clarity and on the availability of data to support the metric.

The findings of the poll are presented in the following table

Sl No.	Indicators	Whether understood		Opinion on Data availability		
		Yes	No	Readily available	Can be collected	Not Available
1	1.1 Percentage of citizen services available online	86%	14%	24%	76%	0%
2	1.2 Percentage of services integrated through Command Centre	73%	27%	100%	0%	0%
3	1.3 Percentage of citizens using online services	86%	14%	14%	79%	7%
4	1.7 Capital spending as percentage of total expenditure	80%	20%	56%	44%	0%

5	2.1 Restoration and reuse of historic buildings	79%	21%	24%	71%	4%
6	2.2 Percentage of ecologically important areas covered through projects for restoration	90%	10%	14%	82%	4%
7	2.3 Hotel occupancy	100%	0%	100%	0%	0%
8	2.5 Number of cultural/sports events hosted by city	96%	4%	24%	72%	4%
9	3.1 Percentage of school-aged population enrolled in schools	92%	8%	41%	59%	0%
10	3.4 Percentage of schools with access to digital education	[redacted]	[redacted]	6%	94%	0%
11	4.3 Average response time in case of health emergencies	88%	12%	5%	86%	9%
12	5.1 Number of streets, public places, junctions covered through surveillance systems	93%	7%	16%	77%	7%
13	7.1 Percentage of Slum/EWS households covered through formal/affordable housing	96%	4%	33%	65%	2%
14	8.2 Per capita availability of public and recreational places	94%	6%	46%	50%	4%
15	9.1 Share of mixed land use area in overall city land use	96%	4%	42%	52%	6%
16	9.2 Net Density	97%	3%	[redacted]	[redacted]	[redacted]

17	10.2 Percentage of electrical connections covered through smart meters	96%	4%	16%	82%	2%
18	10.5 Percentage of total energy derived from renewable sources	91%	9%	6%	86%	8%
19	10.8 Percentage of new and redeveloped buildings following green building norms	77%	23%	20%	58%	22%
21	11.1 Geographical coverage of public transport	98%	2%	33%	62%	4%
22	11.2 Availability of public transport					
23	11.3 Mode share of public transport	100%	0%	60%	40%	0%
24	11.11 Percentage of traffic intersections with pedestrian crossing facilities	98%	2%	50%	50%	0%
26	12.6 Percentage of plots with rainwater harvesting facility	94%	6%	33%	50%	17%

Other summary of discussion and suggestions from the participants is summarised below:

Governance

Average delay in grievance redressal

- It was suggested that committed redressal period can be based on city's citizen charter
- In calculation, shorter committed redressal periods can be considered to have higher weightage

Capital spending as percentage of total expenditure

- It was clarified that ULB's contribution to Central Government schemes from own sources is included in the metric.

Identity and culture

Restoration and reuse of historic buildings

- Cities to provide proof of project commissioned and amount spent for restoration

Percentage of ecologically important areas covered through projects for restoration

- Participants requested to clarify the authorities that identify or declare environment/ ecologically important sites in the country
- It was clarified that Strip forests along highways are already delineated and ecologically sensitive and hence are to be included.
- It was suggested that the Department of Environment and Forest should provide this data.
- Any area which is included in this list should have a documentation proof.

Number of cultural/sports events hosted by city

- The participants informed that State Govt supports: ISL matches/ private events for which ULBs provide support in terms of sanitation, water supply etc. These are mostly non-financial contribution. It was suggested that a separate metric can be considered to capture such contribution by the ULBs.
- Additionally, it was suggested to include privately hosted event and provide separate weightage.
- Audit mechanism can include media clippings/ social network posts.

Education

- It was requested that it will be useful to capture outcomes of skill initiatives by the Government along the lines of primary/secondary education. In this regard participants suggested that placement records of skill programmes may be useful indicator. This data is currently being captured by the MIS of the Skill Development Ministry.
- It was suggested to include the total number of candidates who are provided skill training in the previous year (Only Govt.) upon total workforce as a sub-metric.
- It was clarified that collation of city level data from U-DISE needs to be done by ULBs

Percentage of schools with access to digital education

- Submissions to be made by public/ private schools to ULB. More metrics like connectivity to internet, projector/ screens can be added.

Health

Average response time in case of health emergencies

- It was suggested to explore data available with the NRES and 108 services
- Participants expressed concern over data pertaining to physical infrastructure and response duration of health emergencies.

Safety and security

Number of streets, public places, junctions covered through surveillance systems

- It was agreed to include actual number of functional private CCTV cameras that can be accessed by the Police Department under this indicator

Economy and employment

- Increase in trade license can be used as an alternative for VAT.

- Percentage of individuals who received skill training and were placed. To capture this indicator, it was suggested to explore LMIS (Skill Exchange) Data and other employment generation programmes such as PMKY to measure job creation.

Increase in issuance of Construction permits

- Participants suggested that only the number of occupancy certificates and total area under such properties (and not sanction or commencement certificates) issued by the concerned authority should be considered for this indicator.

Unemployment rate

- One suggestion made by the participants was to consider capturing the data from ESIC cards which covers both formal and informal sectors. It was informed that as per a Supreme Court Judgement ESIC cards are linked to AADHAR that can help track city level status. However, portability of the ESIC cards could be an issue for accurate estimation.
- Therefore, total number of individuals registered under ESIC for FY 2015-16 and 2016-17 can be considered as a sub-metric.

Percentage of vendors registered and provided formal spaces

- Participants expressed concern about estimating the denominator due to fluctuation in the number of street vendors in the city.
- However, it was agreed to use the estimates vendor surveys undertaken by ULBs as per the 2013 guidelines

Housing and inclusiveness

Percentage of Slum/EWS households covered through formal/affordable housing

- It was suggested to include number of households that have been given property rights

Public open spaces

Per capita availability of public and recreational places

- It was informed that data on this indicator is available in the JNNURM Asset Records

Mixed land use and compactness

Share of mixed land use area in overall city land use

- It was clarified that only the area within city boundary is considered for computation of this indicator
- Participants suggested that village areas falling under city boundaries and non-development areas can be included

Net Density

- It was clarified that only the area within city boundary is considered for computation of this indicator
- Participants request for more clarification on estimation of residential area falling under green belts

Power supply

Percentage of electrical connections covered through smart meters

- Participants enquired if smarts meters are being used in the cities and the same was clarified that few cities have already piloted smart meters. DISCOMs can provide this data.

Average number of electrical interruptions per customer per year

- It was suggested to collect downtime data from log-books: available with the sub-stations

Average length of electrical interruptions per customer per year

- It was informed that most of the unscheduled interruptions happen downstream at transformer and line levels for which data is not available
- However, percentage of DT damages readily available which can be used.
- Additionally, data available with the call centres of (Electricity Boards/ DISCOMS) can be explored

Percentage of total energy derived from renewable sources

- Participants submitted that RPOs of DISCOMs do not state generation capacity hence it may not be a reliable indicator
- It was suggested that the number of establishments, institutions, and government buildings having rooftop solar facilities can be considered

Percentage of new and redeveloped buildings following green building norms

- It was suggested to consider property tax data for the past three years to capture the increase in built up area of new/ redeveloped area.

Transport and mobility

Geographical coverage of public transport

- Participants requested clarity on the denominator – total area of the city (sq. km)

Availability of public transport

- It was suggested to include an indicator on vehicular congestion

Mode share of public transport

- It was informed that data for this indicator can be obtained from CMP/CTIS
- In the absence of CMP, an alternative proxy measure can be explored

Percentage of traffic intersections with pedestrian crossing facilities

- Hill towns have access way of 3.75 metre. Therefore, NMT provisions (like footpaths etc.) may not be feasible

Extent to which universal accessibility is incorporated in public rights-of-way

- It was suggested to add public convenience (public and community toilet) to the list of existing categories

Water Supply

Assured water supply

- Data from Service Level Improvement Plans (SLIPs) can be used. Cities can share updated SLIPs that can be considered.

Percentage of plots with rainwater harvesting facility

- It was suggested to capture this data through random sample surveys.
- Participants enquired if even cities with high ground water tables are required to have rain water harvesting facilities
- Rain water harvesting in hill towns may not be feasible due to 1m-1.5m of top soil (RW harvesting may end up eroding the surface)

Reduced pollution

- It was suggested to assess quality of water and level of noise pollution through sample surveys by the consortium.

Session 4: In this session the key expectations from the states and cities were summarized and a detailed schedule for the state orientation workshops, citizen surveys, city reconnaissance visits and physical audits was shared. The consortia team with guidance and support from the Ministry facilitated this session.

Some of the key summary:

1. All city officials present start reviewing and familiarising themselves with the excel sheet provided in pen drive
2. Ensure completion of all data in excel available with ULB

Conclusion:

The workshop concluded by thanking all cities for being present and participating in the workshop actively.

Agenda -

National Orientation Workshop

on

Assessment of Liveability Indices for 116 Cities in India

Date: 13th February, 2018

Venue: Vigyan Bhawan, New Delhi

Inaugural and Context Setting		
Time	**Session**	
10:00-10:30	Inaugural Session	Inauguration by Sh. Hardeep S. Puri, Minister for Housing & Urban Affairs (MoHUA)
10:30- 10.45	Liveability Index – Vision and Action	Sh. Durga Shanker Mishra Secretary, Ministry of Housing & Urban Affairs
10:45- 11:00	Expectations from the Workshop	Dr. Sameer Sharma and Sh. Shiv Das Meena, MoHUA
11:00- 11: 20	Liveability Rankings: Global Best Practices and implications on City Planning and Management	Trisha Suresh, Senior Economist, Economist Intelligence Unit
11:20- 11: 40	How are Cities going to be ranked? – An overview of the approach and framework for ranking	Deepa Karthykeyan, Director, Athena Infonomics
Tea Break (11:40- 12:00)		
Round 1 on 'Liveability Indicators, data sources and collection strategies'		
12:00- 13:00	Round 1 on 'Liveability Indicators data sources and collection strategies'	Sh. Shiv Das Meena, MoHUA assisted by Consortium

	(Facilitated through audience response system)	
13:00- 13:30	Q&A session	Dr. Sameer Sharma, Sh. Shiv Das Meena and Sh. Sanjay Kumar, MoHUA assisted by Consortium
Lunch Break (13:30- 14:30)		
Round 2 on 'Liveability Indicators, data sources and collection strategies'		
14:30-15:30	Round 2 on 'Liveability Indicators data sources and collection strategies' (Facilitated through audience response system)	Sh. Sanjay Kumar, MoHUA assisted by Consortium
15:30- 16:00	Q&A session	Dr. Sameer Sharma, Sh. Shiv Das Meena and Sh. Sanjay Kumar, MOHUA assisted by Consortium
Tea Break (16:00- 16:20)		
Workshop Schedules, Key Milestones and Coordination Protocols		
16:20 – 17:00	Summing up: • State workshop schedules • Key milestones, tools and coordination protocols • Vote of Thanks	Dr. Sameer Sharma, Sh. Shiv Das Meena and Sh. Sanjay Kumar, MoHUA assisted by Consortium

Annexure -2

National Orientation Workshop

on

Assessment of Liveability Indices for 116 Cities in India

Date: 13th February, 2018

Venue: Vigyan Bhawan, New Delhi

Context

The Liveability Index is a landmark initiative by the Ministry of Housing and Urban Affairs (MoHUA) to evaluate how 'liveable' Indian cities are for its citizens. The exercise seeks to assess the performance of 116 cities identified under the Smart City Mission on 79 indicator areas cutting across 15 dimensions/categories including governance, identity and culture and economy and employment.

As part of the formal commencement of the Liveability Index, MoHUA seeks to formally orient all 116 cities on the initiative through a National Workshop on 13th February.

The national workshop will capture and present the relevance of this initiative to the cities: the ranking methodology, data that is expected to be collected, and the overall timelines and technical resources that will be made available for the task.

Workshop Structure

The workshop will commence at 10am and close at 5pm, and will have 4 key sessions:

5. Inaugural and Context Setting.
6. Round 1: 'Liveability Indicators, Data Sources and Collection Strategies'.
7. Round 2: 'Liveability Indicators, Data Sources and Collection Strategies'.
8. Final session: 'State Workshop Schedules, Key Milestones and Coordination Protocols'.

The key takeaways from each session is summarized below:

Session 1: Inaugural and Context Setting

The purpose of this session is to set the context for the vision behind the Liveability Index programme and how this is expected to tie into some of the ongoing and upcoming initiatives under the Smart City Mission. This segment will be led by the Senior Leadership at the Ministry. This will be followed by two key presentations.:

A. Ms. Trisha Suresh, Senior Consultant at the Economist Intelligence Unit will present EIU's experience in undertaking liveability rankings globally and specifically outline how this has been leveraged by cities for planning and management.

B. Ms. Deepa Karthykeyan, Director, Athena Infonomics will present the approach for the liveability assessment of the 116 Indian cities. She will explain the key categories of the indicators, the associated weightages and the formula for calculating the rankings (Ex: relative vs absolute benchmarks, city categories based on population, core vs supporting indicators etc.).

Key takeaways

- How is this programme linked to current and upcoming initiatives under the Smart City Mission?
- How can cities use/benefit from the programme: what are the global best practices?
- How are cities going to be ranked?

Session 2 and 3: Liveability Indicators, Data Sources and Collection Strategies

These two sessions will focus on delving into every one of the 79 metrics, helping acquaint the city with the definition of the metrics and provide information on potential data sources. Immediate feedback will be sought on each metric through an audience response system on the availability of data to support the metric and on the city's level of comfort in terms of definitional clarity. The presentation will also focus on the role that citizen perception and primary surveys is likely to play in informing the index calculation and the audit protocols associated with every data input provided by the city.

The discussion on round 1 and round 2 will be facilitated by Mr. Praveen Ravi and Mr. Ankit Chatri from Athena Infonomics with support and guidance from the Ministry leadership.

A copy of the presentation, along with a copy of the assessment questionnaire, will be made available to the cities at the workshop. The cities will be requested to furnish a summary report on the data availability/estimation challenges/audit protocols within 1 week of sharing the questionnaire.

Key takeaways

- Data inputs to be provided by cities.
- List of Non-ULB data owners – Other key departments/organizations (public/private) who must participate in the exercise for the city to perform well.
- List of data sources from where the city can procure information.
- Role of citizen surveys in the city's ranking.
- Audit protocols for the data provided by the city.
- City's feedback on data availability and clarity on the overall metrics.

Session 4: Workshop Schedules, Key Milestones and Co-ordination Protocols

This session will be facilitated by Ms. Tripti Sharma, Associate Director, IPSOS Public Affairs with guidance and support from the Ministry.

This session will seek to summarize the key expectations from the states and the cities and the associated timelines. A detailed schedule for the state capacity building workshops, citizen surveys, city reconnaissance visits and physical audits will be shared.

This session will also cover the type of technical support and co-ordination the consortium is going to provide to the cities in helping them collate and submit the data. A sample illustration of the data entry interface that is likely to be made available to the city for data submission will also be presented.

Key takeaways

- Timelines for state capacity building workshops, citizen surveys, city reconnaissance visits and physical audits.
- Protocols for data entry and submission and timelines for the same.
- Information on the state and national help-desks and the co-ordination/troubleshooting protocols.

Annexure 4: Training of the Trainer (TOT) Workshop for State coordinators on Assessment of Liveability Indices

Background of the Training

The Ministry of Housing and Urban Affairs (MoHUA) has developed a set of 'Liveability Standards in Cities' which acts as a guiding framework for cities to chart their pathway towards liveability and systematic improvement in the quality of life of citizens in Indian cities. The Liveability Index is a landmark initiative by the Ministry of Housing and Urban Affairs (MoHUA) to evaluate how 'liveable' Indian cities are for its citizens. The exercise seeks to assess the performance of 116 cities identified under the Smart City Mission on 79 indicator areas cutting across 15 dimensions/categories including governance, identity and culture and economy and employment.

MoHUA has commissioned a consortium led by Ipsos in partnership with Athena Infonomics and Economist Intelligent Unit (EIU) for carrying out this assessment. The objectives of the assignment are to:

- Compile reliable and high- quality data for all cities included in the study, as required by the MoHUA for the computation of Liveability Indexes and as prescribed in the 'Liveability Standards in Cities' document; and
- Develop a robust electronic database of datasets that can be used to assess the progress of cities on an annual basis

The consortium has proposed a three tier team structure constituting of regional coordinators, state coordinators and city coordinators to facilitate secondary data collection. The team of State and city coordinators will be primarily responsible for organising and leading the State Orientation Workshop, conduct city reconnaissance meetings and follow ups, ensuring timely collection and submission of data by extending necessary support to the city officials for coordination and collation of data, trouble shoot on questions/ clarifications and support on the data audit.

Given the above context, Ipsos-Athena consortia conducted a three-day training session for the state coordinators. The training covered roles and responsibilities, secondary data collection interface/application, data formats including reporting period, reporting units, data collection process, escalation protocols, and ethical considerations, and the overall timelines and technical resources that will be made available for the task.

Facilitators of the Training

The training of the state coordinators were organized by Ipsos and jointly led by Athena Informatics Pvt. Ltd. and Ipsos Research Pvt. Ltd. The profile of key facilitators who leveraged their expertise and shared their understanding about the indicators with the state coordinators is given below:

Sujaya Rathi: Sujaya Rathi is an urban specialist with more than 2 decades of experience in this sector (India and USA). Until recently, she was Principal Research Scientist at the Center for Study of Science, Technology and Policy (CSTEP), Bangalore, India.

Her experience includes development of decision support tools, policy studies for sustainable urban transport interventions, technology choices, development of land use and transport strategies, integrated approach to the sanitation investment planning process, gender inclusive planning processes and capacity building. She has also been involved in building toolkits for sustainable planning, as part of the Capacity Building for Sustainable Urban Transport Planning Program- India, DFID-World Bank, Ministry of Urban Development, and Government of India. Further, she is part of the Faecal Sludge Management Toolbox team (supported by Bill and Melinda Gates Foundation). She has also worked with the Planning Commission (for the 12th Plan)/NITI Aayog to develop a systems analysis of the forces shaping development scenarios for India and developed a smart and sustainable city development reference framework. She has worked with various urban local bodies, state governments, and the Ministry of Urban Development in India, and also worked with the US federal government, the State Department of Transportation (different states) and numerous cities, private developers in the US.

Currently, as part of the National Faecal Sludge and Septage Management (NFSSM) Alliance, she also represents technology and gender taskforces. She is also a member, American Institute of Certified Planners (AICP), and Life Member, Institute of Urban Transport, Ministry of Urban Development, Government of India. She has a Masters in Community and Regional Planning from Iowa State University, USA and Masters in Economics from Jadavpur University, India.

Sujaya Rathi is the Team Leader for the liveability assessment programme.

Brinda Shastry: Brinda holds a Masters' Degree in Architecture (Urban Design) from the University of Oregon, USA, and a Diploma in Architecture from the School of Architecture, CEPT, Ahmedabad. She has over 20 years of experience working as an architect, urban designer and city planner in the private and public sectors in India and abroad. In the private sector, she has worked as a consultant to provide technical inputs into Master plan projects. She has also been involved closely with spatial planning in cities including Bengaluru where worked on the redesign of Gandhi Bazaar street market. She has also worked to develop a land use plan, policies and zoning recommendations for the Hollywood district light rail station area and the Sandy Main Street area. For the city of Portland, she worked with a team to developing designs for new development in inner cities and principles for growth management that would serve as indicators of liveability.

Brinda is the Urban management specialist for the Liveability Assessment project

Ankit Chatri: Ankit is a Lead Consultant at Athena with more than six years of experience in urban infrastructure, policy research and data ecosystems. He also served as a Teaching Assistant at IIT Bombay. He has co-authored Public Private Partnerships in Urban Water Supply and Municipal Solid Waste Management: Potential and Strategies. Ankit has also contributed to papers and articles for international conferences and economic journals, including the International Academy of Business and Public Administration Disciplines (IABPAD) Conference (Oct. 2012) and the International Journal of Applied Economics and Econometrics (2014). He also holds a master's degree in Economics from the University of Hyderabad in addition to an M. Phil in Planning and Development from IIT Bombay.

Ankit is the National Project Coordinator for this liveability assessment project.

Devkanya Chakravarty: Devkanya is a Consultant at Athena. She previously worked with PricewaterhouseCoopers in the Government Reforms and Infrastructure Division (GRID). Her projects there involved facilitating financial stability for the Central Banks of developing economies in Asia. She has also worked with Multilateral agencies like the World Bank and Asian Development Bank. She holds a master's degree in Economics from the Delhi School of Economics and a bachelor's degree in Economics from Hindu College, University of Delhi.

Aditi Gupta: Aditi Gupta is a Research Associate at Athena. She holds a Master's Degree in Economics from National University of Singapore (NUS), and wrote her thesis on the implications of informal risk sharing within caste groups in rural India. Aditi also worked as a part time Research Assistant at Lee Kuan Yew School of Public Policy, NUS. In addition to this, she obtained her undergraduate degree in Economics from the University of Delhi.

Kasirajan Mahalingam: Kasirajan Mahalingam is a Research Associate at Athena. Previously, he worked as a Researcher and Geo-Information Systems Specialist in a SME, in Den Haag (Hague). He has also researched informal settlements, focusing upon spatial heterogeneity of these habitats. He also studied resilient infrastructure in flood prone areas. Kasirajan completed his bachelor's degree in Urban Planning from the School of Planning and Architecture (MHRD, Govt. of India), Vijayawada. He also completed his master's degree in Geo-information Science and Earth Observation from Faculty of ITC, University of Twente, The Netherlands.

Tripti Sharma: Tripti is an international development professional specialising in research and evaluation. She has led and managed projects in South East Asia region mainly India, Bangladesh, Pakistan. She has worked largely on range of SDG themes and programmes focusing on Public Health, Livelihood, Education, Gender, Humanitarian Assistance, and others. Technical Assistance and Stakeholder capacity building for monitoring, evaluation, and impact assessments has been her core area of work. She has extensive experience of working with central, state, and district administration on national flagships programmes across more than

15 states. She has a MA degree in Social Work from Tata Institute of Social Sciences (TISS), Mumbai and has two decades of experience in social research and development sector.

Tripti is the National Project Coordinator for this liveability assessment project.

Participants of the Training

A total of 28 state coordinators attended the training session. The training was held in Hotel Abu Sarovar Portico, Chennai from 26th to 28th February 2018.

The representatives from Ipsos and Athena organized and facilitated the training. The list of participants who attended the workshop is presented below:

Name	State	Name	State
J.B Chakraborthy	Andhra Pradesh	Chitra Khanna	Madhya Pradesh
Bandu Baburao Chaktawar	Arunachal Pradesh	Arindam Ghosh	Maharashtra
Syeda Jolly Kazi	Assam	Latashori	Manipur/Sikkim
Gopal N	Bengaluru	Shuranjoy Khaidem Singh	Meghalaya
Surya Prakash Rai	Bihar	Albert Lalzikpuia Ralte	Mizoram
Sanjay Singh	Delhi	Ranjit Kumar Sahoo	Odisha
Sucheta Bedi	Delhi	Suriti Sachdeva	Punjab/Chandigarh
Dipti Kashalkar	Goa/Maharashtra	Padma Parthasarathy	Tamil Nadu
Sunil Saxena	Goa/Maharashtra	P C Kasinath	Telengana
Shilpa Pramod Maniar	Gujarat	Manidip Bandopadhya	Tripura
Tsewang Dorji	Himachal Pradesh	Akilesh Awasthi	Uttar Pradesh
Pramod Bhatt	Haryana	SVP Pankaj	Uttar Pradesh
Anupa Sharma	Jammu & Kashmir	Alok Thapliyal	Uttarakhand
Subhra Mukhopadhyay	Jharkhand	Rajat Kumar Das	West Bengal[19]

---

[19] Additional participants were trained to account for any drop outs or those unable to grasp the project requirements. The State Coordinators for Jharkhand and West Bengal are not continuing due to health reasons. For Maharashtra and Uttar Pradesh, additional people participated and SCs have been finalized based on their comprehension and understanding.

Bhagvandas M.	Karnataka		
Satheesh Chandran R	Kerala		

Organizer/Facilitator

S.No	Name	Organisation	Name	Organisation
1	Aditi Gupta	Athena	Asif Kunwar	Ipsos
2	Ankit Chatri	Athena	Deepak Garkhel	Ipsos
3	Brinda Sastry	Athena	Gangotri Dash	Ipsos
4	Devkanya	Athena	Imlilemla Pongen	Ipsos
5	Sujaya Rathi	Athena	Parijat Chakraborty	Ipsos
6			Sachin Singhal	Ipsos
7			Sutapa Ray	Ipsos
8			Tripti Sharma	Ipsos

Objective and Agenda of the Workshop

The workshop offered a balanced combination of interactive lectures, group assignments and discussions which was designed to build a common understanding about the assessment and chart out a detailed course of action. The three-day training workshop was conducted as per the agenda presented below:

Assessment of Liveability Indices of 116 Cities

Training of Trainers Workshop Schedule

Venue: Chennai, Date: 26-28th February, 2018

26th Feb, 2018	27th Feb, 2018	28th Feb, 2018
10:00 – 10:15: Self Introduction and Expectation Setting Exercise Sujaya Rathi	09:30 – 09:45: Learnings from Day 1 Tripti Sharma	Learnings from Day 2: 09:30 – 09:45 Sujaya Rathi
10:00 – 10:30: Project overview, components, timelines and ground covered so far… Tripti Sharma	09:45 – 11:15: INDICATOR CATEGORIES 8-10 (Number of indicators covered = 13) **[48/79]**	Secondary data collection – audit protocols: 09:45 – 10:45 Tripti Sharma

11:20– 11:30: Breathing space ☺	11:15– 11:30: Breathing space ☺	11:15– 11:30: Breathing space ☺
11:30 – 12:45: INDICATOR CATEGORIES 1-2 (Number of indicators covered = 13) **[13/79]**	11:30 – 13:00: INDICATORS CATEGORY 11-12 (Number of indicators covered = 18) **[66/79]**	Protocols for Reporting and Coordinating: 11:30 – 12:45 Tripti Sharma
12:45 – 13:00: Quick INDICATOR BITES (Q&A)	13:00 – 13:15: Quick INDICATOR BITES (Q&A)	Quick BITES (Q&A): 12:45 – 13:00

26th Feb, 2018	27th Feb, 2018	28th Feb, 2018
13:00 – 14:00: Lunch Break 🍽	13:15 – 14:00: Lunch Break 🍽	13:00 – 14:00: Lunch Break 🍽
14:00 – 14:05: Energizer (Avalanche) Ankit Chatri	14:00 – 14:05: Energizer (The flood is coming) Ankit Chatri	Team Exercise (two): Situational Assessment 14:00 – 15:00
14:05 – 15:15: INDICATOR CATEGORIES 3-5 (Number of indicators covered = 15) **[28/79]** Tripti Sharma	14:05 – 15:00: INDICATOR CATEGORIES 13-15 (Number of indicators covered = 13) **[79/79]**	Data hunt: 15:00 -16:00 (Individual exercise)
15:15 – 15:30: Quick INDICATOR BITES (Q&A)	15:00 – 15:15: Quick INDICATOR BITES (Q&A)	☺ Breathing space: 16:00 -16:15
15:30 – 16:15: Audit Protocols and Primary Data Collection Strategy (Relevant Indicators)	15:15 – 16:15: INDICATOR POT LUCK (Chit based draw of indicators followed by presentation by lucky master trainers)	Open Forum: 16:15 – 17:00
16:15 -16:30: Breathing space ☺	16:15 - 16:30: Breathing space ☺	RECAP of Day 3 and close: 17:00 – 17:30 Tripti Sharma
16:30 – 17:15: INDICATOR CATEGORIES 6-7 (Number of indicators covered = 7) **[35/79]**	16:30 – 17:30: Audit Protocols and Primary Data Collection Strategy (Relevant Indicators)	
17:15 – 18:00: INDICATOR POT LUCK	17:30 – 18:15: Quiz (Covering indicators, audit protocols, R&R etc.)	

26th Feb, 2018	27th Feb, 2018	28th Feb, 2018
(Chit based draw of indicators followed by presentation by lucky master trainers)		
18: 00 – 18:15 RECAP of Day 1 and close Brinda Sastry	18:15 – 18:30: RECAP of Day 2 and close Tripti Sharma	

Proceedings of the Training

Introduction to the Training Workshop and Participants

The workshop was opened by Ms. Tripti Sharma who briefly discussed the project and the objective of the TOT workshop. The workshop agenda as well as the expected outcome was presented to the participants. The participants' expectation from the workshop was also discussed during the session.

This was followed by a round of peer introduction as an ice breaker where the group was organised into pairs and the participants were asked to introduce themselves to one another highlighting their backgrounds, their experience in Urban Sector and conducting surveys and other data collection exercise. Each participant then introduced his/her partner to the entire group.

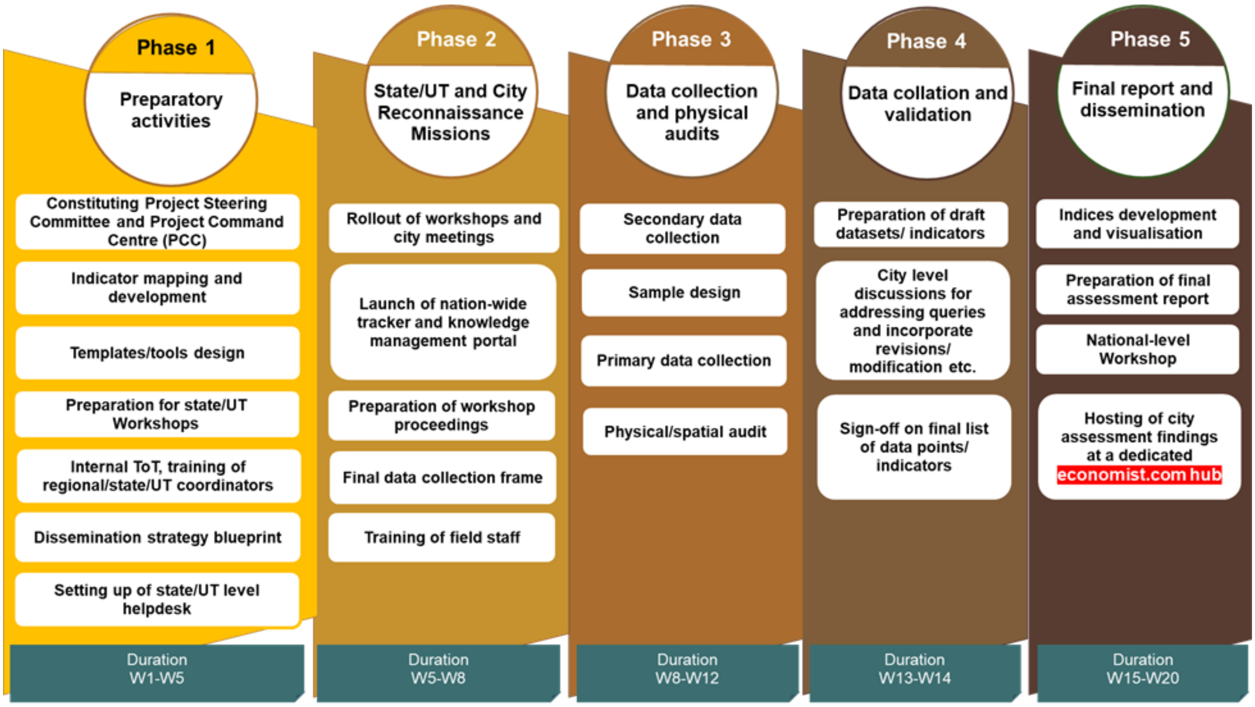
Context setting

The purpose of this session was to present the context and vision behind the Liveability Index programme and introduce them to the concept of liveability; discuss convergence of liveability assessment programme with other central government initiatives including the Smart City Mission, AMRUT, SBM among others; and elaborate on the linkages between SDG and Liveability assessment. This session also included discussions on the potential benefits and outcomes that city government can derive by participating in the liveability assessment. This would help each state and city coordinators to motivate nodal persons in the ULBs and other state agencies to enter the required data.

Technical sessions

Session 1: Overall Approach and Methodology

The session started with briefing on the background of project, coverage of cities, various components of the study as well as the overall design and approach. The five phases of the assessment were also explained to the state coordinators. The figure below illustrates the same.



Phase 1
Preparatory activities
Constituting Project Steering Committee and Project Command Centre (PCC)
Indicator mapping and development
Templates/tools design
Preparation for state/UT Workshops
Internal ToT, training of regional/state/UT coordinators
Dissemination strategy blueprint
Setting up of state/UT level helpdesk
Duration W1-W5
Phase 2
State/UT and City Reconnaissance Missions
Rollout of workshops and city meetings
Launch of nation-wide tracker and knowledge management portal
Preparation of workshop proceedings
Final data collection frame
Training of field staff
Duration W5-W8
Phase 3
Data collection and physical audits
Secondary data collection
Sample design
Primary data collection
Physical/spatial audit
Duration W8-W12
Phase 4
Data collation and validation
Preparation of draft datasets/ indicators
City level discussions for addressing queries and incorporate revisions/ modification etc.
Sign-off on final list of data points/ indicators
Duration W13-W14
Phase 5
Final report and dissemination
Indices development and visualisation
Preparation of final assessment report
National-level Workshop
Hosting of city assessment findings at a dedicated economist.com hub
Duration W15-W20

Session 2: Deep Dive into the Indicators and Liveability Assessment Framework

The next phase of discussion focused on Liveability Indicators, Data Sources and Collection Strategies. The sessions focused on understanding every one of the 79 metrics, the definition of the metrics and provide information on potential data sources, data proxies, data owners and collection strategy. The presentation also discussed the primary surveys that will be conducted for 5 out of the 79 indicators and the facilitating role that the state coordinators will have to extend for the completion of the primary data collection. The audit protocols associated with every data input provided by the city were also discussed and the physical audit protocol for 8 out of the 79 indicators were presented.

INDICATOR CATEGORY: GOVERNANCE
INDICATOR CATEGORY: IDENTITY & CULTURE
INDICATOR CATEGORY: EDUCATION
INDICATOR CATEGORY: HEALTH
INDICATOR CATEGORY: SECURITY & SAFETY
INDICATOR CATEGORY: ECONOMY & EMPLOYMENT
INDICATOR CATEGORY: HOUSING & INCLUSIVENESS
INDICATOR CATEGORY: PULIC OPEN SPACES
INDICATOR CATEGORY: MIXED LAND USE & COMPACTNESS
INDICATOR CATEGORY: POWER SUPPLY
INDICATOR CATEGORY: TRANSPORT & MOBILITY
INDICATOR CATEGORY: ASSURED WATER SUPPLY
INDICATOR CATEGORY: WASTE WATER MANAGEMENT
INDICATOR CATEGORY: SOLID WASTE MANAGEMENT
INDICATOR CATEGORY: REDUCED POLLUTION

Day 1 and Day 2 was focused on covering all 79 indicators under 15 categories. A participatory and interactive approach was adopted to deliver these sessions encouraging participants to discuss definitional issues (for e.g., is the data of scheduled interruption available at feeder level or sub-station level), potential data collection challenges and coordination requirements. After covering the entire set of indicators and the associated questions, activities were conducted to engage the participants through group discussions and game-based activities.

This involved the following activities –

1. Division of all state coordinators into groups to discuss each indicator and related questions in detail. During this exercise, they had to evaluate the various indicators and questions on parameters such as conceptual clarity, likely availability of data in their city/state, possible source of data etc. This helped them identify potential gaps and challenges of the data points under each indicator as well as in general data collection. It also provided an opportunity for peer learning, and participative problem solving to tackle the anticipated challenges.

2. A team quiz was conducted at the end of day two to gauge whether the state coordinators were up to the task of addressing queries from city officials when the liveability assessment went live. Questions asked were conceptual rather than memory based, providing an opportunity to further streamline understanding of indicators.
3. An exercise was also conducted to assess whether the state coordinators understood the 'Data owners'. To this end, several questions were posted on the screen, and coordinators were asked to map the appropriate entity who would be able to answer each question.
4. An 'indicator potluck' was organised on both days. In this, state coordinators were randomly assigned different indicators which they had to present to the rest of the group. This was meant to be a mock exercise, to help prepare them to address questions at the state workshops as well as on an ongoing basis during the course of the assessment. Others in the audience evaluated the presenter based on communication style, conceptual clarity and the like.

Roles of State Coordinator and City Coordinators

After providing a briefing on the project components and methodology, the facilitators explained the roles and responsibilities of State Coordinators – activities that would be undertaken by them during the data collection process as well as pre and post data collection. They were also briefed about the roles of city coordinators separately.

Administrative session

The session was led by Ipsos finance team. The session focused discussing finance and account related protocol of the consortium. The team informed the state coordinators about the regulations to be followed, travel policies to be adhered to, norms to be maintained while raising invoice, submitting expenses, claiming reimbursements or requesting advance. The financial formats have also been shared with the state coordinators.

Planning for State level workshop

This session started with a discussion on the tentative schedule of the state level workshops for the respective states.

This interactive session was designed to encourage the state coordinators to detail out all possible tasks and sub tasks required for planning and facilitating the State Workshops and come up with a tentative work-plan for the State Workshops. Potential challenges in rolling out the workshop schedule were also discussed. This session also covered the type of technical support and co-ordination the consortium will extend to conduct the workshop.

Standards of Conduct

A summary of Do's and Don'ts that was discussed during the workshop is presented below:

Do's

- SCs are familiar with all stakeholders in the city, who would be responsible for any of the data to be provided as part of the liveability assessment.
- SCs are aware of all concepts used in the questionnaire so that they can train the city coordinators to serve as first point of contact of the city stakeholders.
- SCs are aware of all protocols – for instance, need for agencies to nominate nodal persons, need for follow up and coordination in case of data gaps, need to inform the central team in advance in case a data point is not likely to be available etc.
- SCs are aware of how to operate the data entry portal to address the simpler non-technical queries city officials might have.
- All the CCs are trained well in all aspects related to the Liveability Assessment
- Presence of Technical team representative from IPSOS in State Workshop
- Always follow the procedures / protocols / guideline issued by the central team
- SCs and CCs make themselves available as per the time specified by the officials
- All phone calls / mails from the officials are responded to appropriately, and promptly
- Timely financial flow from IPSOS (wherever required)
- Cordial relationship with officials and in constant touch with all stakeholders
- Routine update to central team are provided on status and all challenges are flagged.
- Central team is contacted in case of any confusion

Don’t

- Have arguments with stakeholders
- Get emotionally attached to officials, to the extent that this would affect the veracity of the data
- Break protocols set by the Central team
- Entertain any data entry/fudging request from ULBs
- Taken individual and independent decisions on indicators/ questions which are out of our purview.
- Assuming / interpret data related question. Always consult the central team in case of any confusion.
- Question the integrity of data / officials
- Get into financial transactions with stakeholders
- Make any promises to stakeholders

Feedback session

At the end of the training program, participants shared general feedback of the training.

Major outcome of ToT

After completion of the 3 day- training, the major outcomes are as following

- Mapping of state specific stakeholders who will be the data owner

- Plan for delivery of state workshop ready with state coordinators
- Agreement on deliverables expected from the state coordinators during the course of the assessment
- Agreement with the state coordinators on overall coordination protocol and escalation mechanism for addressing any technical/ administrative query
- Developed detailed project plan including key tasks and sub tasks for the period of two months

List of State and City Coordinators

Sl. No.	Name of State	Name of City	Names	Designation	Contact Number
	South Region		P C Kasinath	Regional Coordinator	9440609395
	North East		Sushil Huidrom	Regional Coordinator	9862584011
	North East		Dr. Latashori	Regional Coordinator	8131912781
	North/East/West		Yadavendra Singh	Regional Coordinator	9910026990
	North/East/West		Navneet Singh Tewatia	Regional Coordinator	7011994721
	West		Sucheta Bedi	Regional Coordinator	9818001551
	Andaman Nicobar	Portblair	Sushma Pandey	City Coordinator	9531826330
	Andhra Pradesh	Amaravati	JBR Chakravarthy	State Coordinator	7013593412
	Andhra Pradesh	Vijayawada	SK Abdul Sattar	City Coordinator	9949825302
	Andhra Pradesh	Visakhapatnam	S. Sam Kumar	City Coordinator	9885765115
	Andhra Pradesh	Kakinada	K. Anand Kumar	City Coordinator	9494045775
	Andhra Pradesh	Tirupati	G. Murali	City Coordinator	9848871887
	Arunachal Pradesh	Itanagar	Bandhu Baburao Chakrawar	State Coordinator	9423325509/7304576011
	Arunachal Pradesh	Pasighat	Rina Nongle	City Coordinator	9436234839
	Assam	Guwahati	Syeda Jolly Kazi	State Coordinator	8638010398
	Bihar	Bihar	Surya Prakash Rai	State Coordinator	9801764664
	Bihar	Bhagalpur	Chandan Kumar	City Coordinator	9431432053
	Bihar	Biharsharif	Santwana Bharti	City Coordinator	9334129615
	Bihar	Muzaffarpur	Baiju Shankar Giri	City Coordinator	9572749727
	Bihar	Patna	Sonal Sinha	City Coordinator	8002355111/9835048436
	Chandigarh	Chandigarh	Gurjot Kaur	City Coordinator	8352039725
	Chhattisgarh	Chhattisgarh	Chitra Khanna	State Coordinator	9425600726

	Chhattisgarh	Raipur	Shesh Narayan Sahu	City Coordinator	98271-08235, 94242-25865
	Dadar & Nagar Haveli	Silvassa	Janakbhai Prajapati	City Coordinator	9925037947/8735039602
	Daman & Diu	Diu	Vinod Jethva	City Coordinator	7069161968
	Gujarat	Vadodara	Shilpa Maniar	State Coordinator	9898320401
	Gujarat	Rajkot	Yogeshgiri Meghnathi	City Coordinator	997481872, 8200679270
	Gujarat	Surat	Nidhi Tailor	City Coordinator	6351969832
	Gujarat	Ahmadabad	Minaxiben Shukla	City Coordinator	9426703321
	Gujarat	Dahod	Ishwerbhai Yogi	City Coordinator	9426362537/9081632496/7016584603
	Gujarat	Gandhinagar	Minaxiben Shukla	City Coordinator	9426703321

Annexure 5: Communication Plan

Communication Campaign Plan

Liveability Index Assessment in 116 Cities Across India

Background

An overarching goal of the various missions and schemes is to make indian cities more 'Liveable'. the Ministry of Urban Development (MoUD) has developed a set of 'Liveability standards in Cities' to generate a Liveability index and rate cities.

Scope

Initially in 116 cities. Eventually across all the cities. The cities include smart cities.

Key contributing factors for performance of Liveability Index

The outcome of better performance in liveability index depends on engagement, satisfaction, participation, collaborative perspective, feeling safe, belongingness, wellness and overall happiness. Audience could be segmented in multiple ways, using demographic variables, income, education, media access, attitudes, knowledge, or values. There are number of existing segmentation frameworks, such as SEC classifications, psychographic or VALS. They are precision tools to push contents in the minds, directly or indirectly, to secure a wallet share for the brand in question. Such approaches used both in commercial and social marketing, selling the brands, products, services and concepts. Such media campaigns require media specialists, focussed, episodic and expensive.

Public Goods, Services and Spaces

The Liveability Index is a blend of private and public goods. For example, healthcare, education, transportation, tax, etc., have the characteristics of private good. Public services such as waster, sanitation, waste management, tax collection, developing public spaces, policing, electricity, etc., is meant to be available to all. Public spaces such as roads (mobility), parks (recreation), heritage spaces (cultural), public utilities, etc., are accessible to anyone, with or without any regulated access. Density, technology, quality, spatial and perception safety and security may alter the way these spaces and services are utilised or consumed.

Much of the public services are under the domain of local bodies, government agencies or quasi-government entities. Therefore, these government bodies are key to provision of such services, perception of services offered by city dwellers, extent of utilisation and experiences that translate into good living standards. The multiple touch points – government agencies, point of service provision, and public spaces – assume significance in planning an effective media plan.

Context

Multi-Dimensional: A media intervention that engage general public to act in public interest to contribute to public good requires a multi-dimensional perspective. Improvement in liveability concerns everyone in a city at any moment, touches individuals / groups wherever they are, experienced in tangible and intangible forms, woven into variety of decisions (spatial and temporal) and find articulation and expressions in many different formats. It is all pervasive, omnipresent and continuous.

This being the case, media plan, has to recognise multiple dimensions of each audience set being targeted. An individual could be at any moment experience varying shades of being an user (hospital / parks / roads), enforcer (authority), influencer (blogger), provider (services), victim (sickness), or beneficiary (covered cycle path).

Being in public space, sharing services, interface with strangers and adequacy / inadequacy of public facilities brings about mixed emotions. Behaviours, moderated by norms, rules and perceived laws, though predictable, mostly are circumspect. Vulnerable groups will have added concerns of safety, security and trust.

User satisfaction, which has location specific enablers and constraints, arise out of positive experiences, higher satisfaction, ability to participate, free engagement options, authenticity, trust, safety and wellness.

Smaller screens are assuming importance, specifically among youth and smarphone users, which has increased phenomenally in cities. Smaller screens require more attention to content, while larger screens need to connect more emotionally with audiences.

Diversity: India is defined by diversity. Urbanisation, modernisation and media are contributing to the complexity. Cities in the forefront, in the narrative of development, attracting thousands of aspirants to large cities. The 116 chosen cities for liveability index improvement thrust includes, classified based on population, Megapolis, Metropolitan Cities, Large Towns, Medium Towns and Small Towns. The cities are spread across all the states and union territories.

The city neighbourhoods are characterised by a great range of incomes, livelihoods, lifestyles, social, cultural, religious, linguistic and educational backgrounds. Therefore, each city / town is characterised by unique combination of socio, cultural, linguistic, economic, political, administrative, institutional development and resource attributes.

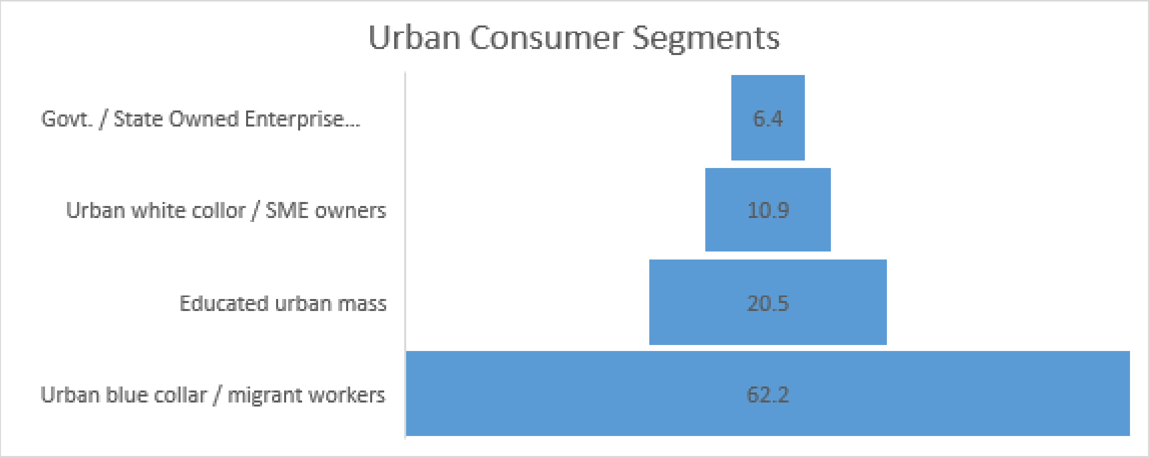
Large cities in general, specifically megapolis, metropolitan cities and large cities have large proportion of migrants, from different states, speaking different languages and considerable expat population. Wealthy neighbourhoods, slums, administrative blocks / offices, educational institutions, entertainment, heritage / cultural / tourist locations, traders, merchants, industries (large and small), transit locations, etc., co-exist with varying demand on city resources. Large movement of people is a reality with about 50% of the population living in a city moving within and into on a daily basis.

World View: Cities in India have unique combination of tradition and modernisation. It is a place of stark inequality. he city dwellers world view and expectations are largely shaped by experiences in using various city services provided by authorities, living environ created by extent and quality of services provided, type of industry / business the city has attracted, access to modern, convenient and clean facilities, mobility options, type of professional engagement, facilities at work and dwelling places, etc. The resultant chaos, resource constraints, ignorance, misgivings, and bureaucratic ways has led to certain level of apathy, indifference, tolerance and mistrust. Alienation is evident seen in individualistic focus. in the cities.

Level of preparedness: The cities likely to be at varying level of preparedness in terms of collation, compiling and reporting. Data sources may not be mature, nor the systems currently in use for data capturing, nor level of understanding in various departments nor importance associated with provision of data. The communication should be realistic in addressing diverse situations and facilitating matching of expectation for compiling liveability index, level of efforts required at various departments, motivating collaboration and sustaining the interest.

Audience segments

Majority of urban dwellers are likely to be labourers, petty service providers or migrant workers, about 60%. Urban educated mas is likely to be about 20%. Government employees could be in the range of 6% to 10%. The remaining will be SME owners or while collar work. Experience of these in utilising various spaces, services and amenities will differ. So, are the media consumption patterns – type of media, forms, format, and language. Social, economic, cultural and environment perceptions differ and therefore, interactions with others and usage patterns.



Source: India Consumer Closeup, 2016. Goldman Sachs. Equity Research

The Liveability Index rely on information captured through governmental portal and compiled by various departments. Citizen survey tries to capture experience of users at household level, with a specific slant on vulnerable segments in slum areas. In this sense, ULB and government departments, city inhabitants and vulnerable segments in slums are the key stakeholders. However, performance in Liveability Index, depends, not just on these segments: it requires active engagement of businesses, traders, property owners, visitors, etc. Media plan will have to be comprehensive as well as specific to key stakeholders.

Dewey concept of "multiple publics"—groups that share similar values and interests with respect to a given social or political issue (Dewey & Rogers, 2012)is useful.

Media Access and Consumption

Social marketing: The media plan shall adopt a few aspects of social marketing. Provision of **information**, **educating** audiences on concepts, experiences, duties and responsibilities, choosing appropriate **communication** options - media, channels and formats, **demonstrating** appropriate attitude, responses and behaviours and carefully planned **reinforcement** to nudge everyone along a continuum of no awareness to a sustained collaborative interaction resulting in desired outcomes. The information, Education, Communication, Demonstration and Reinforcement (IECDR) framework is useful to reach out to diverse set of audiences, engaging them in space and time clusters, build trust, encourage collaboration, and own the responsibility for improving liveability quotient.

Access to media: In general people in the cities have access to consume both traditional and modern media. These include information, entertainment and games. Cable, satellite and internet are becoming near universal in cities. With exponential increase in smartphones, reliable access to internet, small screens share is increasing indicating personalised preferences. However, traditional media, such as TV, print and Radio continue to be relevant, specifically TV, which will remain relevant in the coming years.

Print media: IRS 2017 claims that 39% Indians reads newspapers. Print media continues to be relevant specifically in urban areas. The recent IRS 2017 report has shown an overall increase in readership. Through there is a decline in Hindi Newspaper reading, regional newspapers have gained or maintained annual increase in readership. Notable among them are Oriya and Bengali Language print magazines. Another trend there is substantial viewing of online version of newspapers and magazines. Increase in literacy, online access and mobility are contributing to this trend.

The media planning shall use IRS data to plan effectively the media bursts to create and sustain buzz around Liveability Index.

Communicating to Base of the Pyramid: With cities typically having a majority in bottom of economic pyramid, sound strategies are required to reach to this segment. Television, radio (FM), videos (big and small screens) and print, mostly in local vernacular language, are effective way reaching out to this segment. TV, as mentioned, elsewhere, remains a dominant media channel.

Social Media: It is well established fact that social media is assuming centre stage creating interactive options engaging individuals, groups and across demographic categories. Social Media has enhanced engagement, created e-celebrities, interest groups, learning and adaptation of values and behaviors. Therefore, communicators are increasingly focusing on presence in social media, specifically small screens, to reach out customers, 24x7 in an interactive way.

Much of the users on social media have potential to influence as well. Influencers are creating content to keep their followers engaged. Smart phones have expanded access time for media content, thereby transcending space, providing anywhere access. Smartphones, broad band access on phones and wifi have increased video content and streaming options. Currently much of the social media engages urban dwellers. Specifically, millennial, youth and even children have taken to social media and exposed to social media contents.

Content Consumption:

Audio and video contents, popularity of games, are increasing. Audiences are exposed to diverse set of viewing, reading and listening experiences. On demand content is increasing and suits viewing on mobile phones or desktops or even TVs.

Social media, such as youtube, facebook and recently WA have contributed to personal consumption of content and sharing. All these, on the one hand increases the touch points, on the other hand content providers have to device ingenious ways of getting attention in small screens, TVs, outside homes and in the offices. Attention span, especially of viewers has shrunk and is as low as 17 to 20 seconds. And recently, 8 seconds of attention span is more appropriate.

Time clusters – media consumption: Consumption of media is spread across the day and into the night, including at work places. Below is a pattern of accessing media for content, devices used and timing. This will be factored in media and content planning.

Patterns of consumption of content: TV continues to be a dominant content, entertainment, news and information, to majority in India and in the cities. TV viewing is across the time 24-hour time span. Mostly watched during the prime time in the evening and weekends and during the day. Newspapers, particularly, vernacular newspapers continue to be relevant mostly read during the breakfast. People also read newspapers during lunch and evening. Smartphone has assumed an omnipotent media device, even sharing the bed space, usage peaks during commute and lunch. Smartphone is sharing space used in the morning, breakfast, evening, bedtime and at work. Tablets, though fewer in numbers compared to phones, used on breakfast table and on the sofa in the evening. Desktops, though their utilization is declining, it remains a dominant source during work and in the evening[20].

Spatial significance of media consumption: Relevance of media, content and uptake will vary depending on locations in a city. Type of locations, residential, work areas, administrative or governments, shopping / commercial locations, etc., are importance be it traditional, digital or social media. Cities have also seen malls, multiplexes, digital and innovative displays expanding reach of media and consumption of content, opening opportunities out of home.

Approach

Considering the diversity, a one size fits all approach, might be effective. Context, preparedness of city, resources, inequality, migrants, prevailing media and content consumptions should be factored, while implementing media. Ignorance, indifference, dissatisfaction, distrust, etc., will required sustained efforts to move audiences in various stages of information, knowledge, adoption, practice and sustenance, be it attitude, perception of behavior. Various models of behavior changes could be adopted with some modifications, for example, *Pre-contemplation* (not planning to change - awareness), *Contemplation* (intending to change - Knowledge), *Preparation* (intending to change soon and preparing for change – perception, attitudes and behaviour skills), *Action* (currently going through the change process), and *Maintenance* (sustaining change)[21].

It is also an established fact that mass media (ATL) is reliable for creating awareness, developing interest and increase content consumption. Interactive media and inter-personnel communications are more effective for knowledge acquisition and trying appropriate behaviours. BTL communication, in this case, at various touch points in public spaces, will be useful for sensitising the service providers and educating the users. Social Media will specifically focus youth, influencers and to some extent, migrants.

Therefore, media strategy shall focus on location, context and audience composition to role out branding and specific communications and use a mixed media strategy with elements of reinforcement.

Situation and Communication Needs Assessment:

Identify the obstacles that prevent Audiences from recognising, respecting and fulfilling their duties. In a public issue campaign such as these stakeholders often lack moral, legal or customary sanction to act. A quick situation and communication needs assessment can be used to layout obstacles that need to be tackled programmatically to aid better reception, retention and action based on key messages communicated.

---

[20] Future of Digital Content in India, 2016. Ernst Young. http://www.ey.com/Publication/vwLUAssets/ey-future-of-digital-january-2016/$FILE/ey-future-of-digital-january-2016.pdf

[21] Adopted from Transtheoretical Model. Prochaska, J. O., DiClemente, C. C., & Norcross, J. C. (1992). In search of how people change: Applications to addictive behaviors. American Psychologist, 47(9), 1102–1114

A national level consultation (2/3 days) could be used to identify the following aspects and validate media activation plan proposed.

- **Obligation:** The moral, customary or legal duty to act. Perception and recognition of what responsible person / authority do to improve living standards in their neighbourhood, in their place of work, market area or common spaces. What moral, customary or legal standards define that obligation? What standards are missing?
- **Motivation:** The will to act. Why is the responsible person / authority failing to fulfil the obligations? What or who can hold them accountable? Identify audience specific motivators, influencers and role models, who could demonstrate the will to act and positive consequences.
- **Authority:** The power to act. Does the responsible person / authority have the power to carry out their obligations? Is action by the responsible person / authority socially or legally acceptable? What are the boundaries, dos, don'ts, escalation mechanism and redressal?
- **Resources:** the people, infrastructure, and money to activate the media plan. Does the responsible stakeholders, individuals, groups and authorities, have the necessary human, organizational, financial and media resources to meet the obligation? What is missing or needed?
- **Appropriateness:** Establishing effectiveness. Validating appropriateness of identified audience segments, key messages, channels, formats, and sequence. What needs to be modified, missing or dropped to improved effectiveness in the long terms and resource efficiency.

Branding

Branding is essential to create visibility, trust, participation, contribution and sustainability. Public service related issues are peripheral to an individual, family, group, business, administration, elected representatives and even media. Therefore, a much focus is required to build a credible brand around the concept of improving living standards to inspire city dwellers to take tangible actions.

Strategy proposed here is to build a mother brand over a period of time, by placing them appropriately in a variety of media, format, mode, timing and delivery. The brand will be discovered in a course of time, interpreted, owned and nurtured subsequently. Collective engagement underlies this strategy and will be emphasised across the spectrum of media strategy implementation. How to hasten this process are discussed below.

The strategy will shift the focus from administrators, regulators, service providers and politicians to urban dwellers. If this strategy is successful perception of government owning, managing, punishing and rationing services will give way to putting urban dwellers in the centre of existence of cities. The despair, distrust, disobedience, detachment, confusion, crime, gender related insecurity and conflict will give way to engagement, friendly disposition, lesser confusion and chaos, collaboration with civic authorities, participation, safer and secure public spaces, citizen initiatives and revival of cultural and performing arts.

Mother brand promotion strategy, this being supported by complex supporting pillars (extensions of mother brand), which are though interconnected are distinct, may not benefit from halo effect. Rather, these extensions, will contribute to building the character of mother brand. It is in this sense, on ground performance of each these pillars assume importance. Continuous lag will be detrimental in the long run, both implementation and branding point of view.

The mother brand will align emotions, mobilisations, collaborations, aspirations, trustworthiness, enhance belief and faith in realising the concept of city dweller decribed above, extensions will focus on tangibles building blocks of experiences that validate and contributes to overall process.

The city inhabitants, be it individual, household, business, administration, visitors or others will utilise liveability index as a tool to measure impact of collective efforts. Improvement, small or big, will be celebrated to inspire sustained engagement.

It is an attempt to aid a transformation supported by appropriate physical, governance, economic and social realities experienced by city inhabitants irrespective of their social, economic or political status.

Media Activation Plan

Objective: Educating, engaging, and involving city dwellers to demand, collaborate, and act appropriately to improve liveability index for the city they live.

Goals: Measurable outcomes on liveability index on a quarterly basis, with a sustained engagement process leading to:

- ownership across various stakeholders including inhabitants, city administrators, local media, businesses, traders, professional / business bodies, educational institutions, property owners, tenants, healthcare providers, builders, informal traders / vendors, and visitors.
- increase visibility for liveability indicators, what contributes to improvement, responsible agencies, duties of inhabprocesses, outcomes and improvement
- sustain the campaign context and relevance by informing progress, dispelling myths and misperceptions and avoid generalisation

Challenges: Liveability Index being a top down push approach a process is required to buy in ownership through a systematic engagement process. Ensuring collaboration, cooperation and contribution across stakeholders to converge on issues affecting the city is key to success. Indicators, developed by specialists, needs to be broken down into actionable attributes aligning appropriate emotional, rational and implementable activities. It is these small steps taken by every individual will add up to measurable changes in the indicators identified. Decoding these unknowns, blending these into day to day routines, sustaining the motivations, creating a favourable public opinion and discipline to adhere to rules will have to be taken up by media.

Changing existing attitude, behaviours, propensity to flute rules, corruption, lack of transparency and governance that has lost human focus required coordinated activities among media push, specific projects to bring about changes and mobilisation of resources. Specifically, disrespect, corruption, and outdated rules have created a fathom resulting in distrust, avoidance, fear and confusion. As administration, government machinery, various agencies and elected representatives will be in charge of implementation, they should be sensitive to these challenges and bring about a fundamental change in their approach to city dwellers.

Human focus or in marketing terminology customer focus, is essential to ensure acceptance, willingness to use / buy and build brand value. Currently brand attributes of government machinery, particularly their extension interfacing with city dwellers and the touch points, are far from desirable. The brand strategy shall take this into account and therefore, media strategy will address providers, users and mediators.

Diversity in terms of income, language, education, ethnicity, orientation, purpose and administrative mechanism will pose certain challenges. Specifically, historical allocation of the resources, services available, density, leisure spaces, transportation, etc., likely to vary between administered areas, extended areas and larger functional areas. The latter two will be under multiple local body administration and spills over neighbouring districts. The governance, social, economic and physical issues and inhabitants' exposure, experience and difficulties in extended and functional areas likely to be different from city administered areas. As much of those from extended and functional areas spend time in central city for work, education, health, entertainment and for other services, it is pertinent to create an inclusive process.

Strategy: Diversity, both among the cities and within a city requires empathy for others, respect for collective efforts, willingness to participate and set aside mind space and time for engagement. **Coordinate Above The Line (ATL) and Below The Line (BTL): Above The Line (ATL) shall focus on building the mother brand that emotionally connects stakeholders, city inhabitants and travellers in cities to create visibility, build trust, promote collaboration and ensure ownership. The Below The Line (BTL), focusing on specifics, impelling actions and collaborative activities, shall be taken up by respective departments, businesses, institutions, association and interest groups.**

These two will be supported by social media campaigns, media advocacy, and celebrations around important events / activities. Aim of the strategy is to capture imagination of various stakeholders in a city, facilitate their understanding activities, outputs and outcomes that improve liveability indicators, internalise these in their day to day agenda, inspire them to act, and sustain the interest.

Much of it being in the domain of unknown, be it perceptions, behaviours, outcomes or impact, audiences will have to be educated, behaviours demonstrated (docu-drama formats), nudged to practice collectively, incentivises / rewarded, and supported with on the ground activation of facilities. Sustaining these will depend genuine investment in facilities that rewrites the world view of city dwellers, altering the context, and experiences, reinforcing the newly formed perceptions, expectations and behaviours. This will in course of time will bring about norms that are collectively enforced with appropriate interventions from governing authorities to regulate deviances, thereby strengthening mother brand.

Audience Segments: All users of city spaces, services and public goods in a city will be targeted with appropriate communication. The users may be broadly classified as follows. Further segmentation may be required improve effectiveness. Media agencies implementing this media campaign should be actively collaborate with implementing agency and technical support agencies to improve effectiveness. An iterative process is required to fine tune media mix, forms, formats, delivery and sequencing. Independent monitoring should be used to assess effectiveness, specific to target audiences.

Audiences are:

1. Government
    a. Elected Representatives
    b. Executives – Officers, Desk Staff and Field Staff
    c. Staff of Judiciary, Quasi Judiciary and Regulatory bodies
2. Users city spaces, services and public goods
    a. Individuals
    b. Businesses
    c. Institutions
    d. Governments

3. Media
    a. Print
    b. Open and paid TV
    c. Telecom and Internet service providers
    d. Social Media
    e. Local celebrities and influencers (including e-celebrities)

Key Messages: Jan Gehel has articulated essence of liveability in cities. Gehel transformed cities focusing on 'better urban quality' through 'greater focus on the needs of the people who use cities'. Everyone's active collaboration, participation and contribution is required. Government and City administration sensitive to this reality can contribute significantly by creating systems, process and engagement options for all the users. In this sense, the performance in Liveability Index is an outcome and a key monitoring output to continuously align efforts, resources and commitment. Therefore, it is important not only to understand the different needs of diverse groups of people who live in the cities and how their needs may change over time, continuously plan, execute and monitor for improvement to reach optimum levels of productivity, inclusiveness and sustainability[22]

Thus, the media plan will focus on creatively communicating emotions, skills, behaviours and experiences that will drive the outputs and outcomes. The focus will be on:

- **Attract Attention of Key Stakeholders:** Meaningful Emotions, Behaviours, Experiences and Outcomes. Create visibility for mother brand and the extensions: Governance, Social, Economic and Infrastructural. Impelling stakeholders seek details of Liveability Index. Dedicated interactive websites, apps, gamification of interactions, reinforcement using media mix surrounding stakeholders at multiple touch points.
- **Engaging Key Stakeholders:** Engaging government agencies involved in compiling, city users who will be benefitted, media to shape public opinion around importance of liveability index, moral responsibility of all stakeholders, demonstrating appropriate behaviours and reinforcement
- **Bonding:** Nurture meaningful experiences for all stakeholders, emphasizing inter-connectedness and encouraging appropriate expressions through improvement in performance in livability index – ULBs, Administration, Users (Individuals, Businesses, Governments and Associations) and Media. Improving performance in liveability is an expression of quality of ongoing relationships amongst various stakeholders.

To keep this in public imagination it is important to create, nurture and expand branding. A mother brand that identifies and contextualize central, state, and city agencies providing centre stage to the users. Governance, social, economic, and infrastructure, the four pillars will be treated as extensions of mother brand. Livability Index, specifically performance on indicators, will be used to rally around various stakeholders to achieve primary goal of livable cities essential for optimum performance in productivity, inclusiveness, sustainability, well being and happiness, specifically of children.

The mother brand shall promote a concept of a happy, satisfied, responsible and pro-active city dweller mindful of contributing towards improving living standards continuously. It is positive predisposition, moving away from despair, fear, silence and apathy to sensitised and sensible city dwellers valuing individual contribution in the form of performing once duties, owning the responsibility, participation, collaboration and affirmative demands.

---

[22] https://infrastructure.gov.au/infrastructure/pab/soac/files/2012_08_INFRA1360_MCU_SOAC_CHAPTER_5_WEB_FA.pdf

Each extensions (The pillars) catering to specific set of audiences shall utilise key messages using mixed media to communicate the concept, relevant for each set of audiences. These communications will focus on tangible information / tips for inculcating appropriate values, promoting actions and changing attitudes and behaviours.

Annexure 1 has a framework for key messages. The media agency / team shall, based on communication needs assessment, shall identify appropriate key messages for the communication campaign. Same shall be approved for appropriateness by Core Coordination group.

Content Creation: Creating appropriate content at national level adopted at city level is a requirement.

- Use a content calendar – important international / national / state specific events, festivals, activities and aligning with calendar of Livability Assessment
- Setup and manage a creative and responsive content creating process with talented and creative content writers, visualizers, translators and editors
- Omni-content across the platform, big screen (TVs and Movie Theatres) to small screen – PCs, Laptops, Tablets, Phones (Smart and Feature) and Smart Watches.
- Unicast content to groups like kids, youth, professionals, migrants, tourists, tenants, shop keepers / owners, traders, vendors, etc. for individual content
- Push content to educate BoP, youth, women and children on liveability index to encourage location based collaboration using democratized spaces.
- Provide contents for community based activities such as sports, wellness, music, dance, biking, automobiles, motherhood, running, etc.
- Tie up with Google (Local Guide, updating amenities, rating civic places such as parks, bus station, garbage, roads, sewage, weekly cleaning drive, uploading of videos, etc.).
- Engage e-celebrities. Most of them have regional fan following. A city specific list to be prepared. Provide content to include in their programmes[23].
- Explore Facebook, Hashtags and Tagging with physical spaces that get prominent attention

---

[23] Popular E-celebrities in Hindi Belt. A state specific list is required to be prepared and used to push content. The E-celebrities popular among hindi speaking audiences are Vir Das (Comedian), Gaurev Gera Official (reality webisodes), Lilly Singh, Tanmay Bhat (Comedian - All India Bakchod (AIB) AIB has over 2 million subscribers now and continues to make viral and funny videos regularly), Sahil Khattar, Sanjay Thumma (Vah Chef), Manjula's Kitchen (Manjula Jain – Vegetarian Recipies), Kabita Singh (Kabita's Kitchen), Nisha Madhulika, Gaurav Chaudhry ((Technical Guruiji – Rajasthan)), Sandeep Maheswari (Creative Entreprenuer – Free life changing Seminars and SEssions), Rohan Chopra (Gujarat), Abhish Mathew (Comedian), Aditya Mittal (Comedian), Nisha Madhulika (Recipies), Sanam Puri (Music along with Samar, Venkat Subramaniyam and Keshav Dhanraj), Shruti Anand (Styling), Kanan Gill (Comedian), Ranjit Kumar (GeekyRanjit - Gadgets), Vikram Yadav (Medicine), Bhuvan Ram (Satirical – New Delhi), Wilbur Sargunaraj (Simple Superstar), Nisha Madhulika (Food Blog), RAghav Pande (Xell Fitness), Sonal Sagaraya (makeup and beauty tips), Suresh Menon (Comedian – Arnab Frankly speaking), Abish Mathew (stand up comedy, musical comedy, sketch comedy, a monthly news roundup and so on.), Sahil Bedi (Likable Pranks), Paras Tomar (ToI Journalist), Malishka Unleashed), Chai with Laxmi (People and Ideas that is positively shaping india's future), Shraddha Sharma (Musician – Dehradun), Scherezade Shroff (Fashion Vlogger), Sahil Khattar (Being Indian), Pooja Luthra (Herbal and Naturopathy Expert), Varun Paruthi (Brining Humanity in the lives of underprivileged), Carry Minati, etc.

- Celebration of public spaces blending tradition, history, and meeting people together – onsite and online
- Street Corner Places, Malls, Parks. Not just for political parties. Encourage mixture of cultural, tradition, modern, digital, using natural lighting and sound options
- Celebrate location based achievements
- Enroll journalists, media celebrities and influencers and advocate for including the bytes about improving livability index specific to the cities: Journalists to include print, media, journalism students, media, photographers, and other interested persons
- **Use, both** ongoing (drumbeat) or are responsive (in reaction to current events). Both have their place and they can and should work together. Content strategy often is the starting point before getting into the nuts and bolts activities which support it, like While
- **Set up** newsrooms and war rooms – national, state and city specific – to oversee content creation, disbursement, and monitoring.
- Adopt continuous and sustained push of content (drum beat) and responsive content, spiked around events, both planned and emerging.

Media Advocacy: Media advocacy is key to create an all-round buzz in print, TV, Radio and Social Media. Enlisting local media, regional and national media is essential to create visibility for mother brand, set the agenda, create the context and straddle emotional, informational, behavioural and collaborative push required to sustain the interest, recognition, and action leading to improvement in liveability index scores. Media Advocacy is essential to focus public attention and keep liveability index on public agenda.

Media Advocacy will adopt the process:

1. Sensitise media to push improving living conditions of city on public agenda
2. "Frame" the governance, social, economic and physical issues (and the attributes) and fix primary responsibility for addressing these issues
3. Develop and disseminate content for media – print, TV / Radio, online publications, social networking and mobile media
4. Advance by keeping the spot light on policy, administrative, business, neighbourhood, institutional, group and individual initiatives to improve living conditions
5. Report, celebrate, critique and discourse such initiatives to engage all stakeholders
6. Get buy in for a collaborative effort to activate a media mix strategy sequenced for reinforcement, contribution and participation
7. Remain relevant scanning feedback, stakeholder engagement and iterating through campaign cyclic process
8. Keep track of waxing and waning of media attention to liveability index and generate interest with feeding newsworthy inputs
9. Participate in neighbourhood activities – political, cultural, religious,

Implementation Plan: Elaborated below is activities identified in media plan. The specific activities shall be sequenced month wise, specific to audiences, type of media used, tracking methods and iteration responsibilities, completing the loop.

The following approaches will be adopted across various agencies to engage all stakeholders at street level. The process is perpetuating, played out at neighbourhood level, and areas (wards).

I	***Strengthen the engagement - Media Agency***																							
1	Use advocacy with media, governments and user associations and groups to promote ownership leading to a continuous buzz in media for improving liveability contributing to productivity, inclusiveness, happiness, well being and sustainability								🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨
2	Use media campaign to promote values, attitudes, skills and behaviours that contributes to improvement in liveability in cities								🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	
3	Sustained campaign to encourage collaboration, cooperation, participation, contribution and sharing among user segments								🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	
4	Moral pressure on various stakeholders obtained through appropriate public opinion leading to transparency, accountability and engagement								🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	🟨	
5	Elicit support of private sector, youth, and children							🟨		🟨		🟨		🟨		🟨		🟨		🟨		🟨		
6	Facilitate participation of poor, migrants and other marginalised segments							🟨		🟨		🟨		🟨		🟨		🟨		🟨		🟨		
7	Address challenges and emerging unknowns								🟨		🟨		🟨		🟨		🟨		🟨		🟨		🟨	
8	Expect challenges, obstacles, inadequacies and capacity issues								🟨		🟨		🟨		🟨		🟨		🟨		🟨		🟨	
9	Diverse set of audiences, priorities, changing needs, indifferent attitudes, lack of skills, and doubtful behavioural attributes could through up challenges								🟨		🟨		🟨		🟨		🟨		🟨		🟨		🟨	
10	Continuously monitor for emerging unknows, which may profoundly affect effectiveness of media campaign							🟨		🟨		🟨		🟨		🟨		🟨		🟨		🟨		
11	Use feedback, anticipation and ingenuity to conduct a public goods' communication campaign								🟨		🟨		🟨		🟨		🟨		🟨		🟨		🟨	
J	***Institutionalise the process***																							
1	Use documentation, feedback and changes effected to institutionalise the process at city, state and national level																🟦		🟦		🟦		🟦	
2	Identify systems, procedures, protocols, standard operating procedures to use media effectively garnering collaboration, participation, contribution and ownership for continuous improvement in performance										🟦		🟦		🟦		🟦							
3	Emphasize projecting importance of Investment in infrastructure that support improvement in liveability standards				🟦	🟦	🟦	🟦	🟦	🟦	🟦	🟦	🟦											
4	Media campaign to focus attention on funds required to create, maintain and sustain amenities and spaces							🟦		🟦		🟦		🟦		🟦		🟦		🟦		🟦		🟦

Annexure 1: Key messages framework

Given below are suggested key messages that can be creatively communicated, reinforced and monitored to popularize importance of Liveability Indicators. The media campaign shall emphasize, why it is important to improve the scores, how these indicators contribute to improving productivity, sustainability, and inclusiveness, thereby influencing livability and roles and responsibilities of each stakeholders and importance of collaboration, participation and contribution. Key messages shall shape emotions, rationale decisions, attitudes and behaviours, engagement and ownership.

Key Messages	**To shape values, perceptions, attitudes, skills and behavours of key stakeholders**				
	State Government	**Urban Local Bodies- Elected Representatives**	**Administration – Officials, desk workers and field staff**	**City inhabitants – Individuals, Businesses and Associations**	**Media**
To improve Livability in Cities, which is a desired future, focus is required now on diverse needs of users to improve productivity, Inclusiveness, well-being, happiness and sustainability	Importance of coherent policy, plan, and resource allocation	Need for city specific pro-active planning, allocating resources, and reflecting aspiration of city inhabitants	User focused execution, quality assurance, innovation, flexibility, documentation, reporting and performance improvement	Inhabitants' role in collaborating with planners, executives and elected representatives, affirmative actions to improve performance, advocacy and ownership	Promote positive public opinion, responsive reporting facilitating collaboration amongst various stakeholders and advocate for appropriate policies
Livability, inclusiveness, happiness and sustainability are linked to productivity	City specific focus for development, support to cities for overcoming obstacles and improving enablers	Focus on well-being of individuals, households and communities; continuity of businesses, institutions and association; and ability to participate and contribute.	Realistic about obstacles and opportunities; implement tough It is necessary, therefore, to understand the different needs of diverse groups of people who live in our cities, and how their needs may change	Recognition that Cities are integral to economy, prosperity and well-being. Powerful roles individuals, businesses and associations in making the city liveable, productive, inclusive and sustainable.	Inform, educate, and inspire for engagement, participation, collaboration and contribution with human interest stories, shaping attitudes and behaviours and impacting newer skills.

			over time.[24] measures, if required, diligently; deal with factors affecting near term and long-term productivity		
Livability Index, directly and indirectly measures variables contributing to productivity, happiness, well-being and sustainability	Monitor, incentivize and build capacity of ULBs, Executives, Media and User Groups	Sensitive to adequately capturing performance, interpretation of results and use it for monthly, quarterly and annual reviews	Ensure indictor specific information is compiled diligently, analyzed and appropriate corrective actions.	Use Livability Index outcome to improve performance through engagement, participation and contribution	Emphasis on vigilance, accountability, transparency and inclusive governance
The variables are inter-connected, requires continuous efforts and smart utilization of technology	Balanced allocation of resources and appropriate directives to cities to improve underperforming areas and improving or sustaining adequately performing areas	Monitor, advise and support administration and other departments to close the gaps in performance	Sustain stakeholder involved execution of interventions with appropriate planning, resource allocation, monitoring	Utilize smart digital technologies to monitor, demand and remain vigilant for accountability, transparency and inclusive governance	Link liveability, sustainability, and productivity to smart utilization of, contributions to, participation in city spaces, amenities and city systems
Being smart is essential for improving productivity, inclusiveness, happiness, well- being, sustainability and livability. Cities are engines / drivers of overall growth	Continuously encourage adoptions of smart systems in all the cities balancing with overall development to reduce increasing stress on the cities	Push for anytime access to public goods, services and spaces to optimize productivity, livability and sustainability	Set up, run and ensure 24x7 access to public goods, services and spaces; encourage utilization of improved facilities to humanize and optimize economy,	Individuals, businesses, organizations and governments to utilize smart systems to improve their well-being with emphasis on improving productivity,	Capture lessons learnt, popularize life styles that reflect smart living and bring it up on popular discourse with appropriate columns, programmes,

and improving well-being.			society and environment.	sustainability and livability	blogs, videos, etc.
Our children require smart cities that facilitate livability, inclusiveness, sustainability and productivity	Present and future focused. Focus on attributes that makes cities livable, inclusive, sustainable, productive suitable for a fuller life for all segments, including children, women, elders, persons with disability, pets and green cover	Contribute to larger national, state and district vision aligning cities' priorities to provide for services and spaces and goods essential for all groups, including children.	Ensue collaboration, cooperation, participation, and contribution for sustaining achievements and realizing the goal of making the cities livable, inclusive, productive and sustainable with focus on vulnerable segments with specific reference to children	A life style of respect, trust, authenticity, sharing, participation, contribution, participation, and pride in being an inhabitant of a city. A world view reflected in values, norms, and behaviours facilitating creativity, innovation and enterprising removing edge of rush, rage and waste	Encourage, celebrate and contribute to sustaining a positive world view – values, norms and behaviours – that sustain respect, trust, authenticity, sharing, participation and pride amongst everyone specifically vulnerable segments

Annexure 2: The Four Pillars of Comprehensive Development – City Liveability Index Indicators

Given below are the four pillars the key messages will focus

The Four Pillars of Comprehensive Development, Number of Indicators and Weights assigned for each Pillar

Four Pillars of Comprehensive Development	**Category**	**Number of Indicators**			**Weights assigned to four pillars**
		Core	**Supporting**	**Total**	
Institutional: Governance Index	1. Governance	7	1	8	25%
Social	2. Identity and Culture	3	2	5	25%
	3. Education	4	2	6	
	4. Health	3	2	5	
	5. Safety and security	3	1	4	
Economic Index	6. Economy and employment	4	1	5	5%
Physical	7. Housing and inclusiveness	2	-	2	25%
	8. Public Open space	2	-	2	
	9. Mixed Land Use and Compactness	2	-	2	
	10. Power supply	4	5	9	
	11. transportation and Mobility	6	6	12	
	12. Assured Water supply	4	2	6	
	13. Waste Water Management	5	-	5	
	14. solid Waste Management	3	-	3	
	15. Reduced Pollution	5	-	5	
Total		57	22	79	100%

Annexure 6: Document archiving and transferring protocol

Procedures for storing both physical and system data

We have provided details of our procedures for storing and destroying data below. We will outline our requirements to all stakeholders as part of the project set-up, and as discussed in the main body, will comply with all applicable national, federal and state data protection/privacy laws in carrying out the study.

Storage on Ipsos servers and systems:

- Sample files containing personal data will be stored in the appropriate job directory, pass-phrase encryption protected
- Ipsos does not permit the storage or transfer of personal data or other sensitive data on any laptop or removable drive or device unless this is absolutely necessary for the provision of the services to the client concerned. Where use of laptops or other removable devices is necessary, this will be agreed with the client, the device will be protected by being fully encrypted. Ipsos will also maintain an audit trail of which laptops/drives/devices the personal data are held on. Please see "data encryption software used" section below for a summary of encryption methods used.

Security during processing:

- Processing of sensitive data is limited to that necessary for the provision of the service. It is limited to only the volume of records, and only those data items required for the specific process.
- Where possible, only anonymised datasets will be processed. For example, datasets of research results for analysis and product of final results will not contact respondent names etc.

Data back-up procedures

Automated Data Loss Prevention (DLP) controls are used with high risk teams, with further rollout of DLP under constant review.

Procedures for the destruction of physical and system data

Once a study is fully completed, formally accepted by the client, and formally closed internally, client supplied data files will be either returned to tor destroyed as required by the client.

Electronic data files are destroyed by either physical destruction of the storage media or secure deletion using appropriate electronic shredding software that meet Government standards. Any hard copy will be destroyed by cross-cut shredding and secure re-cycling of the resulting paper waste.

How data are protected & data encryption software used

Technological controls in place include:

- Access controls based on user accounts with access rights automatically controlled by "Active Directory" group security policy objects
- All users have their own unique accounts and authenticate using their own user ID and password, for all State Coordinators, City Coordinators dedicated ids hosted by a domain that's secure is created and only these ids will be used for exchange of any documents.
- Password policy is automatically enforced. The default policy is: Minimum length 8 characters; Mandatory minimum complexity (Upper and lower case plus numeric and/or special character); No reuse of the last 4 passwords; Account locked after 5 unsuccessful attempts to login.
- All users are required to change their password to something known only to them on first logging in, or following any password being re-set by authorised IT Staff. Users forced to change passwords every 90 days.
- Staff with higher privilege accounts (system administrators) required to adhere to higher password policy. Their individual privilege account is only used when required, using their normal account for all other tasks that do not require the higher rights.
- Our secure file servers are housed in server rooms/data centres with appropriate physical access controls and monitoring procedures.
- The network is protected by appropriate use of firewalls.
- Public facing servers are also appropriately protected and are based on a secure (minimum) two tier or, our general standard, three-tier architecture. Firewalls between internet and DMZ, and between DMZ and internal systems.
- Network and systems is actively monitored using Intrusion Detection Systems (IDS), with audit logs reviewed via a log correlation system, with both IDS and audit log monitoring systems having automated alerts in addition to regular manual reviews.
- Regular vulnerability scans of our systems, servers and desktops/laptops are carried out.

- We have in place a layered approach to malware protection. Third party filtering services at the gateway provide a first layer of content and malware filtering, with McAfee Enterprise Anti-Malware management system in place. McAfee clients are installed on all servers, desktops and laptops.

Ipsos uses a variety of data encryption software that meets the above minimum standard in support of varying client requirements.

Standard controls for the secure transfer of the personal data to us can include:

- Transfer of fully encrypted files as email attachments.
- Transfer of fully encrypted emails, encrypted using appropriate "public/private" key architecture agreed between client and Ipsos MORI
- Transfer of pass-phrase protected files by SECURE FTP. Ipsos MORI will not accept or send personal data via standard FTP.
- Transfer of fully encrypted files on CD/DVD sent by an appropriate delivery service offering a fully tracked service. For Royal Mail, special delivery (registered post) is the minimum level of service we will use.
- Hand collection of fully encrypted files on CD/DVD from the client's office by named, authorised member of the research team who will carry nationally recognised photo ID for authentication to client's staff. Media is hand carried on the person directly back to our nearest main office. The pass-phrase/decryption keys needed to decrypt the data will NOT be known by, or available to member of the research team.

Details of person/s responsible for data security

Responsibilities for specific areas of security are described below.

Organisational security:

- Operational management of information security and our integrated Business Excellence management system is the responsibility of our Head of Compliance and Data Security, Ian Barker, who leads our team of quality, data protection, information governance and information security specialists within our Compliance & Security department.
- Information security is further supported by our Business Excellence system, including information security requirements is continually measured and assessed via spot checks, comprehensive internal audits and annual external audits carried out by our certification body external auditors, SGS.

- Where we use third party sub-contractors, these are subject to appropriate quality, compliance and information security assessments by our Compliance & Information Security Department.

Human resources security

- Ipsos MORI carry out pre-employment checks of all new staff in accordance with the HMG Baseline Personnel Security Standard V1, however new staff engaged to work on projects for public and financial sector projects assessed to the latest version of that standard, with additional checks (e.g. financial sanctions checks) as required for the project.

- All staff sign contracts that include appropriate confidentiality clauses. Contracts also require all staff to comply with all relevant company policies and procedures, including those covering data protection and information security.

- Information security and acceptable use and/or deliberate misuse, disclosure, loss or destruction as misconduct with appropriate links to disciplinary procedures. Policies and procedures also include clear warnings that such actions may also lead to legal action against those involved.

Policies for dealing with unauthorised staff access or misuse of confidential/personal data

- Ipsos has in place an information security incident procedure that covers: Definitions. Reporting of potential, suspected and/or actual incidents. Incident Management, including risk assessment requirement. Root cause analysis. Recommendations for improvement/corrective action. Incident documentation.

- The procedure includes a formal requirement to notify any client affected by the incident. Notification would be made to the main contact within the client organisation for the study concerned, or in accordance with the client’s instructions. We would provide full details, copies of our incident documentation and fully cooperate with the client in the management, mitigation and resolution of the incident.

Policies for staff awareness and training of DPA

- Appropriate quality, compliance and information security briefings and material are provided to all staff

- General induction training, as well as role specific training provided includes training in quality, compliance and information security.

- Further role specific training, including appropriate external is also provided.

Physical security of premises

Physical security controls vary from site to site and are appropriate for the site concerned. Controls include:

- Reception and/or security staff in attendance in reception areas during working hours. Photo ID electronic access controls. Use of physical key and/or pin code locks. On-site security guards for out of hours cover. Alarm systems, CCTV.
- Sensitive areas are further protected by access rights assigned via electronic access controls. Additional physical key or pin code locks, or other appropriate controls to limit access to authorised staff only.

Annexure 7: Indicator Benchmarks

S No.	Pillar	Category	Indicator list	Type	Required	Benchmark
1	Institutional	Governance	**1.1 Percentage of citizen services available online**	Core	High	100%
2	Institutional	Governance	**1.2 Percentage of services integrated through Command Centre**	Supporting	High	100%
3	Institutional	Governance	**1.3 Percentage of citizens using online services**	Core	High	100%
4	Institutional	Governance	**1.4 Average delay in grievance redressal**	Core	Low	<7 days for all, other than specified for which it would < 1 month (Guidelines on National Mission Mode Project on e-Governance in Municipalities, MoUD
5	Institutional	Governance	**1.5 Tax collected as percentage of tax billed**	Core	High	90% (AMRUT, MoUD)
6	Institutional	Governance	**1.6 Extent of cost recovery (O&M) in water supply services**	Core	High	100%
7	Institutional	Governance	**1.7 Capital spending as percentage of total expenditure**	Core	High	City with the highest performance (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
8	Institutional	Governance	**1.8 Percentage of population covered under Ward Committees/ Area Sabhas**	Core	High	City with the highest performance (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark

9	Social	Identity and Culture	**2.1 Restoration and reuse of historic buildings**	Core	High	100% of listed buildings/sites should be restored/preserved and/or brought under adaptive reuse •
10	Social	Identity and Culture	**2.2 Percentage of ecologically important areas covered through projects for restoration**	Core	High	100%
11	Social	Identity and Culture	**2.3 Hotel Occupancy**	Core	High	City with the highest performance (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
12	Social	Identity and Culture	**2.4 Percentage of budget allocated towards cultural/sports activities**	Supporting	High	City with the highest budgetary allocation (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
13	Social	Identity and Culture	**2.5 Number of cultural/sports events hosted by city**	Supporting	High	City with the highest number of events (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
14	Social	Education	**3.1 Percentage of school-aged population enrolled in schools**	Core	High	100% (Right of Children to Free and Compulsory Education Act, 2009)
15	Social	Education	**3.2 Percentage of female school-aged population enrolled in schools**	Core	High	100% (Right of Children to Free and Compulsory Education Act, 2009)

16	Social	Education	**3.3 Primary education student-teacher ratio**	Core	High	1 teacher for every 30 students (Right of Children to Free and Compulsory Education Act, 2009)
17	Social	Education	**3.4 Percentage of schools with access to digital education**	Supporting	High	100%
18	Social	Education	**3.5 Percentage of students completing primary education**	Core	High	100%
19	Social	Education	**3.6 Percentage of students completing secondary education**	Supporting	High	100%
20	Social	Health	**4.1 Number of in-patient hospital beds per 10,000 population**	Core	High	25 beds per 10,000 population (Service Availability and Readiness Assessment, SARA, Reference Manual 2015, World Health Organization)
21	Social	Health	**4.2 Healthcare professionals per 10,000 population**	Supporting	High	23 per 10,000 population (Service Availability and Readiness Assessment, SARA, Reference Manual 2015, World Health Organization)
22	Social	Health	**4.3 Average response time in case of health emergencies**	Supporting	Low	8 minutes (Report of the Working Group on Emergency Care in India, Ministry of Road Transport and Highways)

23	Social	Health	**4.4 Period prevalence of water borne diseases**	Core	Low	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification as given in the Liveability Standards document) will be treated as a benchmark
24	Social	Health	**4.5 Period prevalence of vector borne diseases**	Core	Low	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification as given in the Liveability Standards document) will be treated as a benchmark
25	Social	Safety and Security	**5.1 Number of streets, public places, junctions covered through surveillance systems**	Core	High	100%
26	Social	Safety and Security	**5.2 Number of recorded crimes per lakh population**	Core	Low	City with the lowest crime rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
27	Social	Safety and Security	**5.3 Extent of crimes recorded against women, children and elderly per year**	Core	Low	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark

28	Social	Safety and Security	**5.4 Transport-related fatality per lakh population**	Supporting	Low	<=2 persons per lakh (Service Level Benchmarks for Urban Transport, Ministry of Urban Development)
29	Economic	Economy and Employment	**6.1 Increase in VAT/GST collection**	Core	High	City with the highest increase in collection (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
30	Economic	Economy and Employment	**6.2 Increase in collection of Professional Tax**	Core	High	City with the highest increase in collection (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
31	Economic	Economy and Employment	**6.3 Increase in issuance of Construction Permits**	Core	High	City with the highest increase in permits (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
32	Economic	Economy and Employment	**6.4 Unemployment Rate**	Core	Low	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
33	Economic	Economy and Employment	**6.5 Percentage of vendors registered and provided formal spaces**	Supporting	High	100%

34	Physical	Housing and Inclusiveness	**7.1 Percentage of Slum/EWS households covered through formal/ affordable housing**	Core	High	100%
35	Physical	Housing and Inclusiveness	**7.2 Percentage of slum areas covered through basic services**	Core	High	100%
36	Physical	Public Open Spaces	**8.1 Per capita availability of green spaces**	Core	High	10-12 sq.m. per capita (Urban and Regional Development Plans Formulation and Implementation Guidelines, 2014)
37	Physical	Public Open Spaces	**8.2 Per capita availability of public and recreational places**	Core	High	City with the highest per capita availability (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
38	Physical	Mixed Land Use and Compactness	**9.1 Share of mixed land use area in overall city land use**	Core	High	City with the highest percentage of mixed use (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
39	Physical	Mixed Land Use and Compactness	**9.2 Net Density**	Core	High	City with the highest net density (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark

40	Physical	Power Supply	**10.1 Percentage of city population with authorized electrical service**	Core	High	City with the highest per capita availability (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
41	Physical	Power Supply	**10.2 Percentage of electrical connections covered through smart meters**	Supporting	High	100%
42	Physical	Power Supply	**10.3 Average number of electrical interruptions per customer per year**	Core	Low	City with the lowest number of outages (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
43	Physical	Power Supply	**10.4 Average length of electrical interruptions per customer per year**	Supporting	Low	City with the lowest average length of outages (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
44	Physical	Power Supply	**10.5 Percentage of total energy derived from renewable sources**	Core	High	10% (Smart Cities Mission, MoUD)
45	Physical	Power Supply	**10.6 Energy consumption per unit - water supply and sewerage**	Supporting	Low	City with the lowest per unit consumption (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark

46	Physical	Power Supply	**10.7 Energy consumption per unit – street lighting**	Supporting	Low	City with the lowest per unit consumption (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
47	Physical	Power Supply	**10.8 Percentage of new and redeveloped buildings following green building norms**	Supporting	High	80% (Smart Cities Mission, MoUD)
48	Physical	Power Supply	**10.9 Total energy consumption per capita**	Core	Low	City with the lowest per capita consumption (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark
49	Physical	Transportation and Mobility	**11.1 Geographical coverage of public transport**	Core	High	>=1 (Service Level Benchmarks for Urban Transport, MoUD)
50	Physical	Transportation and Mobility	**11.2 Availability of public transport**	Supporting	High	>=0.6 (Service Level Benchmarks for Urban Transport, MoUD)
51	Physical	Transportation and Mobility	**11.3 Mode share of public transport**	Core		Page 46
52	Physical	Transportation and Mobility	**11.4 Percentage of road network with dedicated bicycle tracks**	Core	High	>=50 (Service Level Benchmarks for Urban Transport, MoUD)
53	Physical	Transportation and Mobility	**11.5 Percentage of interchanges with bicycle parking facilities**	Supporting	High	>=75 (Service Level Benchmarks for Urban Transport, MoUD)
54	Physical	Transportation and Mobility	**11.6 Mode share of non-motorised transport**	Core		Page 48

55	Physical	Transportation and Mobility	**11.7 Availability of Passenger Information System**	Supporting	High	>=75 (Service Level Benchmarks for Urban Transport, MoUD)
56	Physical	Transportation and Mobility	**11.8 Extent of signal synchronisation**	Supporting	High	>=75 (Service Level Benchmarks for Urban Transport, MoUD)
57	Physical	Transportation and Mobility	**11.9 Availability of paid parking spaces**	Core	High	>=75 (Service Level Benchmarks for Urban Transport, MoUD)
58	Physical	Transportation and Mobility	**11.10 Percentage coverage of footpaths – wider than 1.2m**	Core	High	>=75 (Service Level Benchmarks for Urban Transport, MoUD)
59	Physical	Transportation and Mobility	**11.11 Percentage of traffic intersections with pedestrian crossing facilities**	Supporting	High	100%
60	Physical	Transportation and Mobility	**11.12 Extent to which universal accessibility is incorporated in public rights-of- way**	Supporting	High	100%
61	Physical	Assured Water Supply	**12.1 Household level coverage of direct water supply connections**	Core	High	100% (Service Level Benchmarks, MoUD)

Minutes of the Monitoring Committee "Liveability Index" held on 21st March 2018 under the Chairmanship of Sh. Sajeesh Kumar, Director (Smart Cities), MoHUA

A meeting of Monitoring Committee was held on 21st March 2018 under the Chairmanship of Sh. Sajeesh Kumar, Director (Smart Cities), MoHUA. The list of participants is annexed.

The Committee reviewed the progress of the Liveability Index assignment and Inception Report submitted by the Consulting firm.

Progress:

- A National level orientation workshop was conducted on 13th February, 2018 by the Ministry in which, the firm shared the methodology and work plan with the States.
- Data entry portal and progress monitoring dashboard has been developed and is functional. As on 20th March 2017, out of the total of 116 cities selected for Liveability Index, 112 cities have logged in the data entry portal, 35 cities (16 states) have started the assessment.
- A total of 30 State Level Workshops have been initially scheduled by the Consultant (9th March -24th March 2018). The workshops are completed in 26 states and the firm has committed to submit all MoMs by 10th April, 2018.The remaining states workshops are planned by 1st week of April as requested by the State governments.
- The city reconnaissance visits have started from 2nd March 2018 and will conclude on 16th April 2018. 99 city coordinators along with the State coordinators are responsible for data collection and support to city officials for coordination & collation of data.

The Committee also reviewed the Inception Report against the deliverables and scope of work as given in the ToR.

Keeping in view the overall progress of the assignment, the Committee recommends approval of the Inception Report.

The meeting was ended with vote of thanks to all.

Subject: Assessment of Liveability Indices for 116 cities (Contract Reference No. 1554254)

Dear Mr. Vijay Kumar,

This is with regards to submission of our inception report. We wish to inform you that the state workshops have been completed in 31 states covering 109 cities out of 116 cities (enclosed with letter). We further state that remainder of the 5 state workshops covering 9 cities have been re-scheduled due to unavoidable circumstances in the State and will be completed soon.

We have deployed all 116 city coordinators and they have been working closely with their respective ULBs / nodal officer for support and feedback. Out of the 116 cities, 113 cities have started the process of liveability assessment through national portal. The progress report is being shared with ministry on daily basis and the committee in the ministry has approved the inception report.

With this, we are submitting city wise inception report. As per contract, the inception report should consist following which has been provided in consolidated/city wise inception report:

a. Detailed Plan of Action including likely sources of data, proposed field surveys, sample size and distribution, nodal officers etc.
b. Proposed timelines for city field visits as discussed and finalized with MoHUA and State/City governments
c. Specific survey and raw data collection formats for the 79 standards as finalized in discussion with MoHUA.

We therefore request you to please initiate the payment against our first invoice. Thanking you.

Yours sincerely,

IPSOS RESEARCH PVT. LTD.

7. कार्यपालक अभियंता, शहरी विकास अभिकरण, भागलपुर।
8. प्रभारी प्रदुषण नियंत्रण बोर्ड, भागलपुर।

विषय:– आवासन और शहरी कार्य मंत्रालय, भारत सरकार MoHUA द्वारा जीवितता आंकलन (Liveability Assessment) हेतु प्रश्नोत्तर के संबंध में।

प्रसंग:– MoHUA का पत्रांक K14011/14/2018-AMRUT-II दिनांक 06.03.2018 एवं पत्रांक 03/Smart City-02-02/2018 597/न०वि०एवंआ०वि०, दिनांक 13.03.18

महाशय,

उपर्युक्त विषय एवं प्रसंगाधीन संलग्न पत्र के संबंध में कहना है कि आवासन और शहरी कार्य मंत्रालय, भारत सरकार द्वारा देश के 116 शहरों में जीवितता आंकलन (Liveability Assessment) किया जा रहा है। उक्त योजना के तहत भागलपुर शहरी क्षेत्र के लिये सभी संबंधित विभागों से आवश्यक प्रश्न सूचना के तौर पर ससाक्ष्य भेजा जाना है।

अतः आपसे आग्रह है कि आवासन और शहरी कार्य मंत्रालय, भारत सरकार MoHUA द्वारा चलाये जा रहे कार्यक्रम को यथाशीध्र सलंग्न प्रश्नोत्तर में साक्ष्य के साथ उपलब्ध करावें। ताकि भागलपुर शहरी क्षेत्र से संबधित प्रश्नोत्तर को बेहतर रैंक के लिए ऑनलाईन किया जा सकें। निदेशानुसार इस संबंध में सहयोग प्रदान करने हेतु IPSOS रिसर्च प्रा०लि० के पदाधिकारी आपसे सम्पर्क कर समन्वय स्थापित करेंगे।

विश्वासभाजन
19.3.18
नगर आयुक्त

स्मार्ट सिटी प्रोजेक्ट | नगर निगम को 560 प्रश्नों की रिपोर्ट वेबसाइट पर करनी होगी अपलोड

सर्वे के बाद रैंकिंग के आधार पर स्मार्ट सिटी के लिए बनेंगी विकास की योजनाएं

सिटी रिपोर्टर | बिहारशरीफ

केन्द्र सरकार द्वारा स्मार्ट सिटी की सूची में शामिल किए जाने के बाद काफी तेजी से काम शुरू कर दिया गया है। स्मार्ट सिटी परियोजना को धरातल पर उतारने के लिए आवश्यक ढांचा तैयार किया जा रहा है। नगर विकास एवं आवास विभाग द्वारा नगर आयुक्त को यह सर्वे कराने के लिए कहा है कि शहर की मौजूदा स्थिति क्या है और यह रहने योग्य कितना है। नगर आयुक्त सौरभ जोरवाल ने बताया कि स्मार्ट सिटी से संबंधित पटना में कार्यशाला हुई थी। उन्होंने बताया कि विभाग द्वारा लाइवेबिलिटी इंडेक्स नाम से साइट बनाया गया है जिस पर शहरी जीवन से जुड़े सभी पहलुओं का सर्वे का अपलोड करना है। नगर आयुक्त ने बताया कि 16 अप्रैल तक सर्वे चलेगा। रैंकिंग के अनुसार ही विकास की योजनाएं बनेंगी और विकास किया जायेगा। उन्होंने बताया कि निगम जल्द से जल्द लाइवेबिलिटी इंडेक्स साइट पर सारी जानकारियों को अपलोड कर देगा। ताकि तेजी से काम शुरू हो सके। निगम ने इसके लिए पहले से ही सारी तैयारी कर ली है।

रैंकिंग में आना होगा अव्वल

सर्वे बिहारशरीफ नगर निगम के लिए एक बड़ी चुनौती है। काफी प्रयास के बाद बिहारशरीफ को स्मार्ट सिटी का दर्जा मिला है। सबसे पहले ज्यादा विकास हो इसके लिए विभाग को दिये जाने वाले सर्वे रैंकिंग में अव्वल आना होगा। नगर आयुक्त ने बताया कि इस सर्वे के तहत लोगों के जीवन से जुड़ी सभी पहलुओं की रिपोर्ट बनाई जाएगी। स्मार्ट सिटी के लिए निर्धारित 19 कोर इंडिकेटर एवं 22 सब इंडिकेटर की परख की जायेगी। उन्होंने बताया कि नगर निकाय स्तर पर जानकारी के लिए फिजिकल ऑडिट तथा प्राइमरी व सिटीजन परसेप्शन सर्वे भी होगा।

4 बिंदुओं पर आधारित तैयार होगा 560 प्रश्नों का जवाब

इंस्टीट्यूशनल, सोशल, इकोनॉमिक एवं फिजिकली इन चार बिंदुओं पर निगम को रिपोर्ट तैयार करनी है। इसके तहत शिक्षा, स्वास्थ्य, ट्रैफिक व्यवस्था, विधि वयवस्था आदि बिंदुओं पर 560 प्रश्न तैयार किया गया है। निगम इन सभी प्रश्नों का सर्वे आधारित जवाब तैयार कर अपलोड करेगा। जिसके आधार पर रैंकिंग होगी।

12 विभागों को लिखा गया पत्र

नगर आयुक्त श्री जोरवाल ने बताया कि इसके लिए विभाग से भी उनके द्वारा किए जा रहे कार्यों के बारे में जानकारी ली जाएगी। जिले के 12 विभागों को पत्र लिखकर उनके विभाग से संबंधित जवाब मांगा गया है। इसके अलावा अन्य बिंदुओं पर भी सर्वे किया जाएगा। सभी विभागों से जानकारी लेने की जिम्मेवारी कार्यपालक सहायक अमरेश राज को सौंपी गई है। उन्होंने बताया कि दिशा निर्देश देने के लिए इफर्सोस कंपनी के सिटी कोआर्डिनेटर रविशंकर कुमार को नियुक्त किया गया है। सभी पहलुओं पर सूची तैयार करने के लिए निगम के दो अधिकारी अमरेश व विकास कुमार सिटी कोआर्डिनेटर से निर्देश लेंगे। जो भी कमी होगा उसे पूरा किया जाएगा।

छह माह में काम करने लगेगा प्रोजेक्ट दो माह के अंदर हायर होगी कम्पनी

भौतिक संरचनाओं पर पहले होगा काम

नगर आयुक्त ने बताया कि स्मार्ट सिटी के लिए राशि आने के बाद सबसे पहले भौतिक संरचनाओं पर काम किया जाएगा। उन्होंने कहा कि जिस काम में ज्यादा कठिनाई होती है वैसे कामों को प्राथमिकता के तौर किया जाएगा। ज्यादा समस्या जल जमाव एवं पेयजल की है। जल जमाव देखते हुए सीवरेज व अंडरग्राउंड नाला पर पहले काम किया जाएगा।

दो माह के अंदर निकाल दिया जाएगा टेंडर, जल्द होगा काम | स्मार्ट सिटी पर काम करने के लिए डेढ़ से दो माह में पीएमडीसी कंपनी को हायर कर लिया जाएगा एवं पीएमसी कंपनी हायर करने के लिए 2 माह में टेंडर निकाल दिया जाएगा। इसके लिए सभी कागजात तैयार कर लिए गए हैं। उन्होंने कहा कि बड़े शहरों के तर्ज पर काम किया जाएगा। इसके लिए सभी कार्यों के लिए कम से कम टेंडर के तहत काम करने का प्रयास किया जाएगा ताकि विकास कार्यों में बाधा न हो।

विषय :– **Assessment of Liveability Indices को Online Entry से संबंधित कार्यों का विभागीय डाटा उपलब्ध कराने के संबंध में।**

महाशय,

उपर्युक्त विषय के संबंध में कहना है कि माननीय मंत्री आवास एवं शहरी कार्य मंत्रालय, भारत सरकार द्वारा दिनांक 23 जून 2017 को विज्ञान भवन, नई दिल्ली में सम्पन्न राष्ट्रीय कार्यशाला में भारतीय शहरों के लिये रहने से संबंधित बेहद जरूरी मानदण्ड मानक शुरू किया गया था, जो देश के 116 शहरों में प्रयोग के तौर पर आरंभ किया गया है। उक्त शहरों में बिहार राज्य के 04 शहर यथा पटना, भागलपुर, मुजफ्फरपुर और बिहारशरीफ की जीवित्ता आंकलन (Liveability Assessment) के लिये चुना गया है। यह एक राष्ट्रीय स्तर का अभ्यास है, जिसमें राज्य के 04 शहरों की बेहतर रैंकिंग के लिये उपयोगी होगा।

अतः कार्य के लिये Ipsos Research Pvt. Ltd. के द्वारा मुजफ्फरपुर शहर का Assessment of Liveability Indices को Online Entry करने हेतु सर्वेक्षण का कार्य 16 मार्च से 16 अप्रैल 2018 तक किया जाना है। इस कार्य को करने हेतु सभी विभागों से जुड़े 560 प्रश्नों का उत्तर साक्ष्य सहित Online Upload किया जाना है, जिसके लिये आपके विभाग से संबंधित वांछित आंकड़े विहित प्रपत्र में संकलित किया जाना अति–आवश्यक है।

अतः अनुरोध है कि इस कार्य में आप अपने विभाग से अपेक्षित सहयोग करते हुए डॉ0 शांत्वना भारती, City Coordinator Ipsos, मुजफ्फरपुर को संबंधित आंकड़े उपलब्ध कराने का कष्ट करेंगे।

Letter No……………/PMC

From,
Municipal Commissioner,
Patna Municipal Corporation
Patna.

To,
Principal Secretary,
Health Department, Govt. of Bihar,
Patna.

Patna, Date:- / / 2018

Subject:- Information/Data related to liveability index rating of Patna.

Sir,

I would like to inform you that, Ministry of Urban Development (MoUD) had developed a set of "Liveability Standards in Cities" to generate a liveability index and rate the selected cities (116Nos).

This been a mandate that Patna has to participate in this rating exercise. Henceforth, we are looking at to collate several data points/information as per indicators developed by MoUD. Your department has an important role to play in this exercise by extending relevant data/information support which is related to your Department.

Therefore, you are requested to provide all the information/data as per the format annexed with this letter.

Thanking You

Your's Sincerely,
Sd/-
Municipal Commissioner,
Patna Municipal Corporation
Patna.

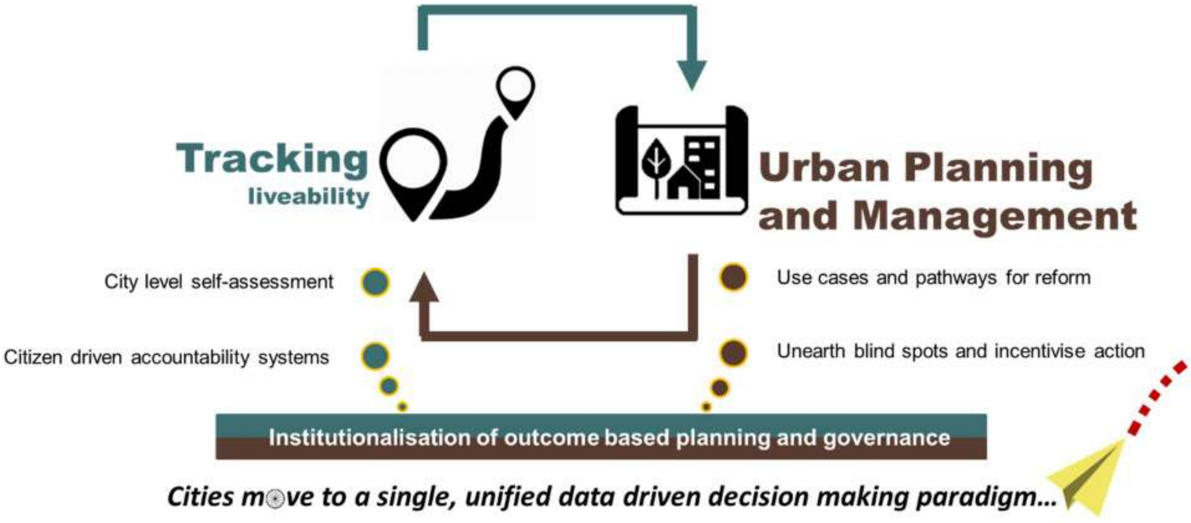
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).
